h. Salaries of engineers, resident engineers, principal assistant engineers, architects, superintendents, timekeepers, foremen, technical, administrative employees and other field employees of the A-E-M in connection with the work. In case the full time of any field employee of the A-E-M is not applied to the work, his salary shall be included in this item only in proportion to the actual time applied thereto. No person shall be assigned to service by the A-E-M as superintendent of construction, chief engineer, chief purchasing agent, chief accountant, or similar position in the A-E-M's field organization, or as principal assistant to any such person, until there has been submitted to and approved by the Contracting Officer a statement of the qualifications, experience, and salary of the person proposed for such assignment. The payment of any excess salary over such scheduled amounts shown in the approved salary schedule, Appendix "C," attached hereto and made a part hereof, shall not be reimbursable, unless and until the Chief of the Supply Service has so approved in writing.

i. Buildings, trade fixtures and equipment required for necessary field offices, commissaries, hospitals, and other facilities, and the cost of maintaining and operating such field offices, commissaries, hospitals and other facilities; provided that the A-E-M may enter into a contract with any third party or parties for the operation of the commissaries, hospitals, or other facilities provided for herein, in which event such contract shall be reduced to writing and the terms thereof subject to the prior written approval of the Contracting Officer.

j. Temporary rights in land required in connection with the work.

k. Premiums on such bonds and insurance policies as the Contracting Officer may approve or require as reasonably necessary for the protection of the Government or the A-E-M. In every instance where this contract requires or permits the United States to pay the premium on a bond or insurance policy either directly or ultimately as a reimbursable item, the bond or insurance policy shall contain an indorsement or other recital excluding by appropriate language any claim on the part of the insurer or obligor to be subrogated, on payment of a loss or otherwise, to any claim against the United States.

l. Losses and expenses, not compensated by insurance or otherwise (including settlements made with the written consent of the Contracting Officer), actually sustained by the A-E-M in connection with the work and found and certified by the Contracting Officer to be just and reasonable unless reimbursement therefor is expressly prohibited.

m. The cost of reconstructing and replacing any of the work destroyed or damaged, and not covered by insurance, but expenditures under this item must have the written authorization of the Contracting Officer in advance.

n. Payments from his own funds made by the A-E-M under the Social Security Act, and any disbursements required by law which the A-E-M may be required on account of this contract to pay on or for any plant, equipment, process, organization, materials, supplies, or personnel; and, if approved in writing by the Contracting Officer in advance, permit and license fees and royalties on patents used including those owned by the A-E-M.

o. (1) If the A-E-M, or any representative thereof, shall be required to travel, the Government will reimburse the A-E-M for the transportation, including Pullman where necessary and will allow for such travel Six Dollars ($6.00) per day in lieu of all other expenses. Transportation by automobile on such required travel shall be reimbursed at the rate of Five Cents ($.05) per mile as representing the actual cost of such transportation.

(2) All travel shall be either authorized or approved in writing by the Contracting Officer. Should the A–E–M, or any representative thereof, remain in a travel status in excess of six (6) days at any one time, not including the time consumed in travel, the cost of such excess travel status shall be at the expense of the A-E-M, unless otherwise ordered in writing by the Contracting Officer.

p. When specifically approved in advance by the Contracting Officer, a reasonable allowance for work covered by Article IV performed in the A-E-M's general offices exclusively for and directly chargeable to the work.

q. Disbursements incident to payment of payrolls, including but not limited to, the cost of disbursing cash, necessary guards, cashiers, and paymasters. If payments to employees are made by check, facilities for cashing checks must be provided without expense to employees, and the A-E-M shall be reimbursed therefor.

r. Expenditures made by the A-E-M under the provisions of Subsection *d* of Section 1 of Article III and Article X.

s. Such other items not expressly excluded by other provisions of this contract as should, in the opinion of the Contracting Officer, be included in the cost of the work. When such an item is allowed by the Contracting Officer, it shall be specifically certified as being allowed under this Subsection.

If this contract was preceded by a Letter Contract, the following provision shall be deemed to be included herein:

t. All expenditures for which reimbursement has not been made pursuant to Letter Contract dated ----------------, a copy of which is attached hereto. Such Letter Contract is hereby merged and superseded by this contract.[1]

2. *Rental for construction plant owned by A-E-M.* *a.* Rental shall be paid to the A-E-M for construction plant in sound and workable condition, owned and furnished by him for the proper and economical prosecution of the work, as shown in the attached "Appendix B" hereby made a part hereof, at rental rates prescribed by the Under Secretary of War in "Uniform Rental Rates for Contractor-Owned Construction Plant", August 27, 1941.

b. In the event the A-E-M, with the approval of the Contracting Officer furnishes additional equipment that is not included in "Appendix B", rental for such equipment will be paid in accordance with said "Uniform Rental Rates for Contractor-Owned Construction Plant."

c. Except as otherwise specified herein, rental shall begin on the date of delivery of the construction plant to a common carrier for shipment to the site of the work, as evidenced by bill of lading or other satisfactory evidence covering such shipment. In the event the construction plant is conveyed by the A-E-M, the rental shall start at the time transportation to the site begins; however, the rental paid shall not exceed that for the equivalent time of shipment by common carrier.

d. If such construction plant is not in sound and workable condition to the satisfaction of the Contracting Officer, when delivered at the site of the work, the rental period therefor shall not begin until the construction plant shall have been placed in sound and workable condition at the expense of the A-E-M, and rental therefor shall not be paid for any prior period.

e. If such construction plant cannot be placed in sound and workable condition within reasonable time to the satisfaction of the Contracting Officer, no transportation charges for the shipment thereof, to or from the site of the work, shall be paid.

f. The approved value of the construction plant as shown in "Appendix B" shall be deemed binding unless the Contracting Officer shall, within twenty days after such plant has been set up and working, modify or change such valuation. In the event a change is made in the valuation of the construction plant, a corresponding change shall be made in the rental rate in accordance with said "Uniform Rental Rates for Constructor-Owned Construction Plant". Thereafter the valuation and the related rental rate shall be binding unless the rental is modified as specified below.

g. Furnish within 15 days of the date of the receipt of written notice from the Contracting Officer, construction plant listed in Appendix "B" provided that the date upon which the A–E–M is required to furnish such plant shall not precede the date on which such construction plant is listed as available in said Appendix "B." In the event the A–E–M fails to furnish construction plant as required by such notice, the additional cost of acquiring replacement construction plant from any source other than the A–E–M shall be paid by the A–E–M and shall not be a reimbursable expenditure.

h. Rental for time consumed for repairs, in excess of time normally required for such repairs as determined by the Contracting Officer, shall be deducted from the rental in the amount of one-thirtieth of the monthly rental rate for each day determined to be in excess. When in the opinion of the Contracting Officer the amount of repairs or maintenance is excessive, a deduction shall be made from the rental.

i. The payment of rental shall cease on a date to be established in a written notice by the Contracting Officer to the A–E–M that the construction plant is no longer required. The date of release thus established shall include an allowance for the time necessary for final repairs, dismantling and loading for shipment.

GENERAL

3. *Reservations by Government.* *a.* The Government reserves the right to furnish any

---

materials, construction equipment, machinery, tools, or services, including communication services necessary for the completion of the work. The A–E–M shall cause all equipment, machinery, and tools to which title is vested in the Government to be suitably marked with an identifying mark or symbol indicating that such items are the property of the United States. The A–E–M shall maintain at all times, in a manner satisfactory to the Contracting Officer records showing the disposition and/or use of all equipment, machinery, tools, and materials purchased for the work and for which he has been reimbursed by the Government or which have been furnished by the Government. Upon the completion of this contract or upon demand, the A-E-M shall return such equipment, machinery, tools, and unused materials to the place designated by the Contracting Officer.

b. The Government reserves the right to pay directly to common carriers any or all freight charges on construction plant, materials and supplies.

c. The Government reserves the right to pay directly to the person concerned all sums due from the A–E–M for labor, materials, or other charges.

d. The Government will pay directly for all telegraphic communications (including teletype and facsimile when authorized by the Contracting Officer to be installed), cablegrams, radiograms, and similar messages that may be sent by the A-E-M pertaining directly to the contract for work to be done or materials to be furnised thereunder, and the A-E-M is hereby designated as an agent of the Government for the purpose of causing to be transmitted any such messages.

4. *Salaries of corporate officers, etc.* No salary, wages, or like compensation of the A-E-M, partners or corporate officers of the A-E-M's organization and no salary, wages or like compensation of the resident managers referred to in Section 1 of Article III shall be included in the cost of the work. No part of the expense incurred in conducting the A–E–M's main office or regularly established branch offices, and no overhead expenses of any kind, except as specifically authorized in Section 1 of this Article, shall be included in the cost of the work; nor shall any interest or capital employed or on borrowed money be included in the cost of the work.

5. *Discounts.* The A-E-M shall, to the extent of his ability, take all cash and trade discounts, rebates, allowances, credits, salvage, commissions, and bonifications, and when unable to take advantage of such benefits he shall promptly notify the Contracting Officer of the reason therefor. In determining the actual net cost of articles and materials of every kind required for the purpose of this contract, there shall be deducted from the gross cost thereof all cash and trade discounts, rebates, allowances, credits, commissions, and bonifications which have accrued to the benefit of the A-E-M or would have so accrued but for the fault or neglect of the A-E-M. Such benefits lost through no fault or neglect on the part of the A-E-M, or lost through fault of the Government, shall not be deducted from gross costs.

6. *Revenue.* All revenue received by the A-E-M from the operations of the hospital, commissaries, or other facilities, or from rebates, discounts, refunds, etc., shall be accounted for by the A-E-M and, except for any reasonable compensation accruing to a third party or parties for the operation of commissaries, hospitals, or other facilities, applied in reduction of the cost of the work.

ART. XII. *Payments.*

1. *Reimbursement for cost.* The Government will currently reimburse the A-E-M for expenditures made in accordance with Article XI upon certification to and verification by the Contracting Officer of the original of signed payrolls for labor, the receipted invoices for materials, or such other documents as the Contracting Officer may require. Generally, reimbursement will be made weekly but may be made at more frequent intervals if the conditions so warrant.

2. *Rental for A-E-M's equipment.* Rental as provided in Section 2, Article XI for such construction plant or parts thereof as the A-E-M may own or furnish shall be paid monthly upon presentation of proper vouchers.

3. *Payment of the fixed-fee.* Ninety percent (90%) of the fixed-fee set out in Article VI shall be paid by the Government as it accrues, in monthly installments based upon the precentage of the completion of the work as determined from estimates submitted to and approved by the Contracting Officer. Final payment upon completion of the work and its final acceptance shall be made in accordance with Section 5 of this Article. If the contract is terminated by the Government, payment shall be made in accordance with Article XVI.

4. *Payments by A-E-M.* If bills for purchase of material, machinery or equipment, or pay-rolls covering employment of laborers or mechanics incurred by the A-E-M or by any subcontractor hereunder are not paid promptly by the A-E-M or subcontractor as the case may be, the Contracting Officer may, in his discretion, withhold from payments otherwise due the A-E-M an amount equivalent to the amount of any such bill or payroll. Should the A-E-M neglect or refuse to pay such bills or payrolls or to direct any subcontractor to pay such bills or payrolls within five (5) days after notice from the Contracting Officer so to do, the Government shall have the right to pay such bills or payrolls directly, and in such event a deduction equal to five percent (5%) of the amount so paid directly shall be made from the A-E-M's fee.

5. *Final payment.* Upon completion of the work and its final acceptance in writing by the Contracting Officer, the Government shall pay to the A-E-M the unpaid balance of the cost of the work determined under Article XI, and of the fee, less any sum that may be necessary to settle any unsettled claims in connection with this contract, or any claim the Government may have against the A-E-M. The Contracting Officer shall accept the completed work with reasonable promptness. Prior to final payment and as a condition thereof, the A-E-M shall furnish the Government with a release of all claims against the Government arising under and by virtue of this contract other than such claims, if any, as are specifically excepted by the A-E-M from the operation of the release in stated amounts to be set forth therein.

ART. XIII. *Records and accounts, inspection and audit.*

1. *Records and books of account.* The A-E-M agrees to keep records and books of account, showing the actual cost to him of all items of labor, materials, equipment, supplies, services, and other expenditures of whatever nature for which reimbursement is authorized under the provisions of this contract. The system of accounting to be employed by the A-E-M shall be such as is satisfactory to the Contracting Officer.

2. *Access to records by Contracting Officer and A-E-M.* The Contracting Officer shall at all times be afforded proper facilities for inspection of the work and shall at all times have access to the premises, work and materials, to all books, records, correspondence, instructions, plans, drawings, receipts, vouchers, and memoranda of every description of the A-E-M pertaining to said work except such documents as are submitted in support of reimbursement vouchers; and the A-E-M shall preserve such papers, without additional compensation therefor, for a period of three (3) years after completion or termination of this contract. Likewise, any duly authorized representation of the A-E-M shall be accorded the privilege of examining the books, records, and papers of the Contracting Officer relating to the actual cost of the work for the purpose of checking up and verifying such cost.

3. *Auditing functions.* In order to avoid so far as possible duplication in accounting and auditing functions performed by the A-E-M and the Government, it is agreed that the following accounting and auditing functions shall be performed by the Government exclusively:

a. Time checking (not time keeping) in the field or in the A-E-M's Plant.

b. Audit of original pay rolls of the A-E-M (or such portions thereof as are applicable), where such pay rolls are prepared by the A-E-M.[1]

c. Checking of equipment rentals and the preparation and delivery of properly approved rental rolls to the A-E-M for payment.[2]

d. Such other accounting and auditing functions as may be effectively performed by Government employees and to which the Contracting Officer and the A-E-M may mutually agree in writing.

4. *Discharge of functions.* It is further agreed that if any of the accounting and auditing functions performed exclusively by the Government do not adequately discharge such accounting and auditing functions to the satisfaction of the A-E-M, the A-E-M with the approval in writing of the Contracting Officer, may perform such additional checking and auditing as may be so approved. The A-E-M shall be reimbursed for the cost of such additional accounting and auditing functions as are so approved.

ART. XIV. *Drawings and other data to become property of Government.*

1. All drawings, designs and specifications are to become the property of the Government on completion thereof as outlined in this contract, and the Government shall have full right to use said drawings, designs and specifications as instruments for the purpose of constructing, under contract or otherwise, any buildings or other structures for the sole use of the Government when and where the Government may designate without any claim on the part of the A-E-M for additional compensation.

2. All notes, designs, drawings and other data concerning project shall be delivered to the Government whenever requested by the Contracting Officer and, furthermore, access to such data shall be restricted to trusted and duly authorized representatives of the Government and of the A-E-M.

ART. XV. *Special requirements.*

1. The A-E-M hereby agrees that he will:

a. Procure and maintain bonds and insurance in such forms and in such amounts and for such periods of time as the Contracting Officer may require or approve. Insurance shall cover all work required by this contract, regardless of whether it is performed by the A-E-M's own forces, subcontractors, or direct contracts with the Government, as is contemplated in Article II of this contract.

b. Procure all necessary permits and licenses; obey and abide by all applicable laws, regulations, ordinances, and other rules of the United States of America, of the State, Territory, or political subdivision thereof wherein the work is done, or of any other duly constituted public authority.

c. Reduce to writing, unless this provision is waived in writing by the Contracting Officer, every contract in excess of two thousand dollars ($2,000) made by him for the purpose of the work hereunder for services, materials, supplies, machinery, equipment, or for the use thereof; insert therein a provision

that such contract is assignable to the Government; make all such contracts in his own name, and not bind nor purport to bind the Government or the Contracting Officer thereunder. No purchase in excess of two thousand dollars ($2,000) shall be made or placed without the prior approval of the Contracting Officer.

d. Enter into no subcontract for any portion of the construction work except in the form prescribed by the Chief of the Supply Service, with the written approval of the Contracting Officer. Subcontracts are defined as contracts entered into by the A-E-M with others which involve the performance, wholly or in part at the site of the work, of some part of the work described in this contract.

e. The Contracting Officer may require the A-E-M to dismiss from work such employee or employees as the Contracting Officer deems incompetent, careless or insubordinate, or whose continued employment is deemed inimical by the Contracting Officer to the public interest. The A-E-M shall make every reasonable effort in the selection of his employees and in the prosecution of the work under this contract to safeguard plot drawings and schematic drawings furnished him and drawings and specifications, and to prevent the theft or unauthorized use of the same.

f. Immediately upon termination of third-party rental agreements, make all repairs to equipment rented thereunder which are required to be made by the terms of such rental agreements and shall remove such equipment from the site of the work. In cases where such repairs and removal cannot promptly be made, the A-E-M shall notify the Contracting Officer of the reasons for such delay.

ART. XVI. *Termination of contract by the Government.* (Insert [¶350] (§ 81.350))

ART. XVII. *The Contracting Officer's decisions.*

1. The services rendered and the work done by the A-E-M shall be subject to the supervision and approval of the contracting officer to whom the A-E-M shall report and be responsible.

ART. XVIII. *Disputes.* (Insert [¶ 326] (§ 81.326))

ART. XIX. *Convict labor.* (Insert [¶ 345] (§ 81.345))

ARTI XX. *Labor.*

1. Insert [¶ 343] (§ 81343).

2. Insert [¶ 346] (§ 81.346).

3. *Excess wage rates on overtime compensation.* All wage rates, including compensation for overtime under Section 2 of this article, for laborers and mechanics engaged in work under this contract shall be approved in writing by the Chief of the Supply Service or a representative expressly designated by him for that purpose, and any amount paid by the A-E-M to any laborer or mechanic in excess of the wage rate approved for such laborer or mechanic by the Chief of the Supply Service or a representative expressly designated by him for that purpose shall be at the expense of the A-E-M and shall not be reimbursed by the Government. When, in connection with the audit and check by the Contracting Officer or his authorized representative, of the A-E-M's pay rolls prior to reimbursement as contemplated in Section 1 of Article XI hereof, it is found that one or more laborers and/or mechanics have been paid wages at rates in excess of the wage rates approved as herein provided, the reimbursement made to the A-E-M on account of such pay rolls shall not include any such excess payments.

4. Insert [¶ 325] (§ 81.325).

5. Insert [¶ 344] (§ 81.344).

ART. XXI. *Accident prevention.*

1. In order to protect the life and health of his employees in the performance of this contract, the A-E-M will comply with all pertinent provisions of the "Safety Requirements in Excavation—Building—Construction" approved by Chief of Engineers December 16, 1941 (a copy of which is on file in the Office of the Contracting Officer), and as may be amended, and will take or cause to be taken such additional measures as the Contracting Officer may determine to be reasonably necessary for this purpose. The A-E-M will maintain an accurate record of, and will report to the Contracting Officer in the manner and on the forms prescribed by the Contracting Officer, all cases of death, occupational disease, and traumatic injury arising out of or in the course of employment on work under this contract.

2. The Contracting Officer will notify the A-E-M of any noncompliance with the foregoing provisions and the action to be taken. The A-E-M shall, after receipt of such notice, immediately correct the conditions to which attention has been directed. Such notice when served on the A-E-M or his representatives at the site of the work shall be deemed sufficient for the purpose aforesaid.

3. If the A-E-M fails or refuses to comply promptly, the Contracting Officer may issue an order stopping all or any part of the work. When satisfactory corrective action is taken, a start order will be issued.

ART. XXII. *Notice to Government of labor disputes.* (Insert [¶ 354] (§ 81.354))

ART. XXIII. *Officials not to benefit.* (Insert [¶ 322] (§ 81.322))

ART. XXIV. *Covenant against contingent fees.* (Insert [¶ 323] (§ 81.323))

ART. XXV. *A-E-M's organization and methods.*

1. Upon the execution of this contract, the A-E-M shall submit to the Contracting Officer a chart showing in general the executive and administrative organization, duties and personnel to be employed in connection with the work under contract; the data so furnished shall be supplemented as additional information becomes available.

ART. XXVI. *Progress reports and changes in personnel.*

1. The A-E-M shall promptly, after the execution of this contract, prepare and submit to the Contracting Officer, for approval, a schedule showing the order in which the A-E-M proposes to carry on the work, with dates on which he will start the several salient features of the work and the contemplated dates for completing the same. The schedule shall be in the form of a progress chart at suitable scale so as to indicate with symbols the percentage completed at any time. The A-E-M shall correct the progress schedule at the end of each week and shall immediately deliver to the Contracting Officer three copies each of the same.

2. The A-E-M shall furnish sufficient technical, supervisory and administrative personnel to insure the prosecution of the work in accordance with the approved progress schedule. If in the opinion of the Contracting Officer, the A-E-M falls behind the progress schedule, the A-E-M shall take such steps as may be necessary to improve his progress, and the Contracting Officer may direct him to increase working days per week, or hours of labor per day. When in the opinion of the Contracting Officer, the A-E-M's personnel and/or overhead is excessive for the proper performance of this contract, reductions thereof shall be made as required by the Contracting Officer. Failure to promptly comply with such directions shall be deemed sufficient cause to terminate this contract for the fault of the A-E-M.

ART. XXVII. *Loading and unloading railway cars.*

1. The A-E-M shall load promptly all railroad cars furnished for loading upon his order and shall unload from railroad cars promptly upon arrival all shipments consigned to him and shall provide storage facilities and other facilities necessary for these purposes; and the A-E-M shall not order railway cars for loading unless they can be loaded promptly and shall not cause or permit shipments to be consigned to him unless they can be unloaded from railroad cars promptly upon arrival.

ART. XXVIII. *Assignment of claims.* (Insert [¶ 355] (§ 81.355))

5. No assignee shall divulge any information concerning the contract, or contained therein, except to those persons authorized by the Contracting Officer.

If this contract is classified as Secret, Confidential, or Restricted, the foregoing provisions of this Article shall not be applicable, and the following provision shall be deemed to be substituted therefor:

1. Neither this contract, nor any interest therein, or claim thereunder, shall be assigned or transferred by the A-E-M to any party or parties.

ART. XXIX. *Renegotiation.* (See [¶ 342] and PR 12 (§ 81.342 and §§ 81.1201–81.1213))

ART. XXX. *Approval required.*

1. This contract shall be subject to the approval of the ________________ and shall not be binding unless so approved.

ART. XXXI. *Definitions.*

1. The term "Chief of the Supply Service" refers to the head of a service of the War Department, e. g., the Chief of Engineers.

2. The terms "Secretary of War" and "Chief of the Supply Service" shall include their duly authorized representatives as the case may be other than the Contracting Officer.

3. The term "his duly authorized representative" shall mean any person or board authorized by the Secretary of War or the Chief of the Supply Service, as the case may be, to act for him, other than the Contracting Officer.

4. For the original signing of the contract and modification thereof, the term "Contracting Officer" as used herein shall be deemed to include the Contracting Officer in the Office of the Chief of Engineers appointed for that purpose by the Chief of Engineers. For all other purposes, the term "Contracting Officer" shall mean the District Engineer of the United States Engineer District in which the contract work is being performed, his successor or duly authorized representative.

5. The term "construction plant" shall include any part thereof.

ART. XXXII. *Alterations.*

APPENDIX "B" TO CONTRACT NO. ----

(All equipment available ____________ except where otherwise specified)

Quantity	Item: Complete description, capacity, and identifying numbers	Total purchase cost of fair value	Rental rate $______ month, week, or day

APPENDIX "C"

There are set forth below the present key employees proposed to be furnished under this contract indicating their names, description of work to be performed, an expression as to whether the salaries are based on a weekly, monthly, or annual basis, and the maximum salary agreed upon to be paid for services in the position indicated for personnel now employed.

Name	Position	Salary based on weekly (W), monthly (M), or annual basis	Maximum salary agreed to be paid under contract

1. For the purpose of this Appendix "C" it is understood that

a. "Non-manual employees" are those employees who are not "laborers and mechanics" within the meaning of the Davis-Bacon Act. Specifically, the term "non-manual employees" has been interpreted to include all occupations not involving manual labor directly in connection with construction work. The following is a list (not all-inclusive) of typical "Non-manual" occupations:

Accountants.
Architects.
Auditors.
Axemen.
Bookkeepers.
Chainmen.
Chiefs of party.
Clerks.
Draftsmen.
Engineers.
Executives of any kind.
Levelmen.
Material Checkers.
Material Clerks.
Messengers.
Office Machine Operators.
Project Managers.
Purchasing Agents.
Rodmen.
Stenographers.
Storekeepers.
Superintendents.
Telephone Operators.
Timecheckers.
Timekeepers.
Toolcheckers.
Transitmen.
Typist.

b. For the purpose of this Appendix "C", non-manual employees will be classified in the following groups:

(1) Group "A". Employees whose base salaries are less than $50.00 per week, except those included in Groups "D" and "E".

(2) Group "B". Employees whose base salaries are between $50.00 and $90.00 per week, inclusive, except those included in Groups "D" and "E".

(3) Group "C". Employees whose base salaries are in excess of $90.00 per week, except those included in Groups "D" and "E".

(4) Group "D". Trade Foremen, employed by construction contractors.

(5) Group "E". Custodial employees, including Camp Assistants, Chauffeurs, Cooks, Custodians, Fire Fighters, Guards, Janitors, Watchmen, etc.

c. The base salaries of all employees of Groups "A", "B" and "C" will be established on the basis of a minimum work week of 48 hours.

d. Group "A" employees will be paid at the rate of straight time for all work which they are required to perform in excess of 48 hours per week.

e. Group "B" employees will be expected to work any reasonable number of hours, six (6) days per week, without payment of additional compensation. They will be paid at the rate of straight time (the weekly salary divided by 48) for all work which they are required to perform on the seventh day.

f. Group "C" employees will be considered key employees, and will be expected to work any necessary number of hours (including work on Sundays) without payment of additional compensation.

g. Group "D" employees will normally be employed on an hourly basis, and will be governed by the overtime policies applicable to the laborers and mechanics under their supervision.

h. The number of hours which shall constitute a work week for Group "E" employees shall be determined by the Contractor, with the approval of the Contracting Officer, and salaries for such employees fixed accordingly. Normally, Group "E" employees will not be required to work in excess of the work week thus established. In the event such excess work is necessary at any time because of unforeseen contingencies, the employee will not be paid any additional compensation, but will be granted compensatory time off with pay.

APPENDIX I

PROCUREMENT ASSIGNMENT BOARD, HEADQUARTERS, SERVICES OF SUPPLY, ASSIGNMENT OF PROCUREMENT RESPONSIBILITY AND PURCHASE RESPONSIBILITY

1. The items listed alphabetically herein have been reviewed by the Procurement Assignment Board, Purchases Division, Headquarters Services of Supply and, with the approval of the Director of Procurement, procurement responsibility and purchase responsibility therefor have been assigned to the appropriate service.

2. Procurement responsibility and purchase responsibility are defined in § 81.602 (a) and (b).

3. The initial list of items includes only

(a) those items which, pursuant to the provisions of A. R. 850–25, have been presented as new items for standardization and

(b) those items which have been referred to the Procurement Assignment Board for assignment under § 81.604 of the Procurement Regulations, and

(c) those general classes of items which are particular field or specific services.

4. Procuring and purchasing officers are cautioned that this list is incomplete, that it will be continually expanded, and that questionable items not found in this appendix should be referred to the next higher authority for determination or forwarding to the chief of the service for his decision, or his reference to the Procurement Assignment Board, Headquarters, Services of Supply.

5. The assignment of procurement responsibility indicated by the list set forth below is subject to the qualification that items of installed equipment are always the procurement responsibility of the Corps of Engineers when

(a) such items are incident to initial construction, repairs, and utilities and

(b) the cost of such items is included in the total cost of the projects to which such items are incident.

6. The following symbols designate the services to which procurement and purchase responsibility have been assigned:

A—Army Air Forces.
C—Chemical Warfare Service.
E—Corps of Engineers.
M—Medical Department.
O—Ordnance Department.
Q—Quartermaster Corps.
S—Signal Corps.
T—Transportation Corps.

TITLE 14—CIVIL AVIATION

Chapter II—Administrator of Civil Aeronautics, Department of Commerce

Part 600[1]—Designation of Civil Airways

[Amendment 12]

REDESIGNATION OF RED CIVIL AIRWAY NO. 18, ETC.

November 4, 1942.

Acting pursuant to the authority vested in me by section 302 of the Civil Aeronautics Act of 1938, as amended, I hereby amend Part 600 of the regulations of the Administrator of Civil Aeronautics as follows:

Redesignation of Red civil airway No. 18, Red civil airway No. 14, and Blue civil airway No. 3; deletion of Blue civil airway No. 11.

1. By striking in § 600.10217 *Red civil airway No. 18* (Indianapolis, Ind., to Washington, D. C.) the following:

"Huntington, W. Va., radio range station; Charleston, W. Va., radio range station; the intersection of the center lines of the on course signals of the southeast leg of the Charleston, W. Va., radio range and the southwest leg of the Elkins, W. Va., radio range; Elkins, W. Va., radio range station;"

and substituting in lieu thereof the following:

"Huntington, W. Va., radio range station; the Elkins, W. Va., radio range station;"

2. By striking in § 600.10302 *Blue civil airway No. 3* (Memphis, Tenn., to Tampa, Fla.) the title "Memphis, Tenn., to Tampa, Fla." and substituting in lieu thereof the following: "Birmingham, Ala., to Tampa, Fla."

3. By striking § 600.10310 *Blue civil airway No. 11* (Muscle Shoals, Ala., to Nashville, Tenn.).

4. By striking in § 600.10213 *Red civil airway No. 14* (Lone Rock, Wis., to Louisville, Ky.) the following: "The Lafayette, Ind., radio range station; and".

This amendment will become effective 0001 E. W. T. November 15, 1942.

C. I. Stanton,
Administrator.

REDESIGNATION OF RADIO FIXES, ETC.

November 4, 1942.

Acting pursuant to the authority vested in me by section 308 of the Civil Aeronautics Act of 1938, as amended, and Special Regulation Serial No. 197 of the Civil Aeronautics Board, I hereby amend Part 601 of the regulations of the Administrator of Civil Aeronautics as follows:

Redesignation of radio fixes: Red civil airway No. 14; Blue civil airway No. 3; deletion of radio fixes; Blue civil airway No. 11; redesignation of airway traffic control areas: Blue civil airway No. 3; Blue civil airway No. 11.

1. By striking in § 601.40218 *Red civil airway No. 18* (Indianapolis, Ind., to Washington, D. C.) the following: "Charleston, W. Va., radio range station;"

2. By striking in § 601.40214 *Red civil airway No. 14* (Lone Rock, Wis., to Louisville, Ky.) the following: "Lafayette, Ind., radio range station" and substituting in lieu thereof the following: "The intersection of the center lines of the on course signals of the southeast leg of the Chicago, Ill., radio range and the southeast leg of the Joliet, Ill., radio range."

3. By striking § 601.40311 *Blue civil airway No. 11* (Muscle Shoals, Ala., to Nashville, Tenn.).

4. By striking in § 601.40303 *Blue civil airway No. 3* (Memphis, Tenn., to Tampa, Fla.) the following in the title: "Memphis, Tenn., to Tampa, Fla." and substituting in lieu thereof the following: "Birmingham, Ala., to Tampa, Fla.;" and deleting the following: "Muscle Shoals, Ala., radio range station; the intersection of the center lines of the on course signals of the southeast leg of the Muscle Shoals, Ala., radio range station and the north leg of the Birmingham, Ala., radio range;"

5. By striking in § 601.10303 *Blue civil airway No. 3 airway traffic control area* (Memphis, Tenn., to Tampa, Fla.) the following in the title: "Memphis, Tenn., to Tampa, Fla." and substituting in lieu thereof the following: "Birmingham, Ala., to Tampa, Fla."

6. By striking § 601.10311 *Blue civil airway No. 11 airway traffic control area.*

This amendment will become effective 0001 E. W. T., November 15, 1942.

C. I. Stanton,
Administrator.

TITLE 17—COMMODITIES AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

Part 274—Forms, Investment Company Act of 1940

AMENDMENT OF FORM

Amendment to Form N-8B-1.

The Securities and Exchange Commission, acting pursuant to the authority conferred upon it by the Investment Company Act of 1940, particularly sections 8 (b) and 38 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors hereby amends the following items of Form N-8B-1:

(1) Item 13 (a) Column 6 by deleting the words "Amount owned of record and beneficially (if known to registrant)" and substituting in lieu thereof the following: "Amount of record owned beneficially (if known to registrant)."

(2) Item 13 (a) Column 7 by deleting the words "% of class owned of record and beneficially" and substituting in lieu thereof the following: "% of record owned beneficially."

(3) Item 14 Column 6 by deleting the words "Amount owned of record and beneficially (if known to registrant)." and substituting in lieu thereof the following: "Amount of record owned beneficially (if known to registrant)."

(4) Item 14 Column 7 by deleting the words "% of class owned of record and beneficially" and substituting in lieu thereof the following: "% of record owned beneficially."

(5) Item 15 Column 5 by deleting the words "Amount owned of record and not beneficially (if known to registrant)" and substituting in lieu thereof the following: "Amount of record owned beneficially (if known to registrant)."

(6) Item 15 Column 6 by deleting the words "% of class owned of record and

not beneficially" and substituting in lieu thereof the following: "% of record owned beneficially."

(7) Item 22 (c) by deleting the words "the persons whose direct remuneration is included under Item 22 (a) or 22 (b)" and substituting in lieu thereof the following: "the officers of the registrant" so that Item 22 (c) reads as follows: "Indirectly to each of the officers of the registrant."

(8) Item 23 (b) by deleting the words "of the persons whose direct remuneration is included under Item 23 (a)" and substituting in lieu thereof "the directors and members of the advisory board of the registrant" so that Item 23 (b) reads as follows: "indirectly to each of the directors and members of the advisory board of the registrant."

(9) Item 55 (b) by inserting before the word "day" in the fourth line thereof the word "specified".

(10) Item 56 (a) Column 7 by deleting the words "Amount owned of record and beneficially (if known to registrant)" and substituting in lieu thereof the words "Amount of record owned beneficially (if known to registrant)."

(11) Item 56 (a) Column 8 by deleting the words "% of class owned of record and beneficially" and substituting in lieu thereof the words "% of record owned beneficially."

(12) Item 63 (b) by deleting the words "a day on or after June 2, 1941" in the fourth and fifth lines thereof and substituting in lieu thereof "on the day referred to in answer to Item 55 (b)."

(13) Sub-item 16 (a) of Item 63 (b) by deleting "in dollars (15—[9(a)+14])" and substituting in lieu thereof "In dollars ([9(a)+14]—15)."

(14) Item 65 by inserting immediately before Item (a) of said item the following: "The information required by this item need not be furnished for any subsidiary for which financial statements are not required to be filed."

Effective July 1, 1941.

PART 274—FORMS, INVESTMENT COMPANY ACT OF 1940

AMENDMENT TO FORM INSTRUCTIONS

Amendment No. 1 to instructions for Form N-8B-1.

The Securities and Exchange Commission, acting pursuant to the authority conferred upon it by the Investment Company Act of 1940, particularly sections 8 (b) and 38 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors, hereby amends the instructions to Form N-8B-1 by adding a new paragraph 4 to such instructions to read as follows:

4. *Sponsor of an unincorporated fund not having a board of directors.* If the registrant is an unincorporated company not having a board of directors, the information called for by Items 22, 23, 24, 25, and 26 shall be supplied for the personnel of the sponsor of such unincorporated company. Appropriate note should be made in the answers to these items that the information relates to the compensation paid by the sponsor company to its personnel.

Effective June 9, 1941.

TITLE 29—LABOR

Chapter IV—Children's Bureau

PART 422—OCCUPATIONS PARTICULARLY HAZARDOUS FOR THE EMPLOYMENT OF MINORS BETWEEN 16 AND 18 YEARS OF AGE OR DETRIMENTAL TO THEIR HEALTH OR WELL-BEING

OPERATION OF POWER-DRIVEN WOODWORKING MACHINERY

Amendment of Hazardous-Occupations Order No. 5.

By virtue of and pursuant to the authority conferred by section 3(l) of the Fair Labor Standards Act of 1938; an amendment to Hazardous-Occupations Order No. 5 having been proposed for final adoption by the Chief of the Children's Bureau; opportunity having been given to all interested parties to file objections thereto within 20 days from the date of publication of said proposed order in the FEDERAL REGISTER; no such objections having been filed; and sufficient reason appearing therefor,

Now, therefore, it is ordered that § 422.5 of Part 422 of Chapter IV, Title 29, Code of Federal Regulations, is hereby amended so as to read as follows:

§ 422.5 *Occupations involved in the operation of power-driven woodworking machines*—(a) *Finding and declaration of fact.* The following occupations involved in the operation of power-driven woodworking machines are particularly hazardous for minors between 16 and 18 years of age:

(1) The occupation of operating power-driven woodworking machines, including supervising or controlling the operation of such machines, feeding material into such machines, and helping the operator to feed material into such machines but not including the placing of material on a moving chain or in a hopper or slide for automatic feeding.

(2) The occupations of setting up, adjusting, repairing, oiling, or cleaning power-driven woodworking machines.

(3) The occupations of off-bearing from circular saws and from guillotine-action veneer clippers.

(b) *Definitions.* As used in this order:

(1) The term "power-driven woodworking machines" shall mean all fixed or portable machines or tools driven by power and intended for cutting, shaping, forming, surfacing, nailing, stapling, wire stitching, fastening, or otherwise assembling, pressing, or printing wood or veneer.

(2) The term "off-bearing" shall mean the removal of material or refuse directly from a saw table or from the point of operation. Operations not considered as off-bearing within the intent of this order include (i) the removal of material or refuse from a circular saw or guillotine-action veneer clipper where the material or refuse has been conveyed away from the saw table or point of operation by a gravity chute or by some mechanical means such as a moving belt or expulsion roller, and (ii) the following operations when they do not involve the removal of material or refuse directly from a saw table or from the point of operation: the carrying, moving, or transporting of materials from one machine to another or from one part of a plant to another; the piling, stacking, or arranging of materials for feeding into a machine by another person; and the sorting, tying, bundling, or loading of materials.

(c) This order shall not apply to the employment of apprentice pattern makers, cabinet makers, airplane-model makers, ship joiners, and mold-loftsmen in the occupations declared particularly hazardous in § 422.5 (a) hereof, if such employment is incidental to their apprentice training, is intermittent and for short periods of time and under the direction and supervision of an instructor as a necessary part of such apprentice training, and is carried on in accordance with a written apprenticeship agreement that has been approved by the Federal Committee on Apprenticeship of the Apprentice-Training Service, War Manpower Commission, or by a State apprenticeship council or other authority recognized by the Federal Committee on Apprenticeship.

(d) This order shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established herein.

(e) This amendment shall became effective upon publication in the FEDERAL REGISTER.

[SEAL] KATHARINE F. LENROOT,
Chief of the Children's Bureau.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

PART 322—MINIMUM PRICE SCHEDULE, DISTRICT NO. 2

[Docket No. A-1690]

DISTRICT BOARD 2

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 2 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 2.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 2; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 322.7 *Alphabetical list of code members* is amended by adding thereto Supplement R-I, § 322.9 (c) *Special prices; Railroad fuel* is amended by adding thereto Supplement R-II, and § 322.23 *General prices* is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: November 3, 1942.

Section 971.1 *General Preference Order M–30*, as amended August 8, 1942, is hereby amended in the following respects:

1. Paragraph (c) (1) is hereby amended to read as follows:

(1) No person shall, during any calendar quarter commencing January 1, 1942, accept delivery of ethyl alcohol for any purpose not specified in paragraphs (c) (2), (c) (3), (c) (4) and (k) hereof in excess of 100% of the quantity of ethyl alcohol which he used (distributed in the case of a distributor) for such purpose during the corresponding calendar quarter in the twelve months period ended June 30, 1941.

2. By striking out from paragraph (c) (2) the words "rubbing alcohol".

3. By adding a new paragraph (k) reading as follows:

(k) *Prohibited deliveries.* On and after November 11, 1942, no person shall deliver ethyl alcohol or any compound or preparation containing ethyl alcohol for use as rubbing alcohol or for the manufacture of any rubbing alcohol compound or preparation; provided that this restriction shall not prevent deliveries to:

PART 984—LEAD

[Amendment 2 to Conservation Order M–38–c[1]]

Section 984.4 *Conservation Order M–38–c* as heretofore amended, is hereby further amended as follows:

1. Paragraph (b) of said section is hereby amended so as to read:

(b) *Limitation on all other uses of lead.* From and after October 1, 1942, no person shall use during any calendar quarter in the manufacture of any product which is not prohibited by paragraph (a) of this order more lead or lead base alloy than 90% of the quantity of lead or lead base alloy that he used in the manufacture of such product during the base period. If any person did not use lead or lead base alloy during the base period in the manufacture of any product not prohibited by paragraph (a), he may use in the manufacture of such product such quantity of lead or lead base alloy as the Director General for Operations may authorize pursuant to an appeal under paragraph (f) (2) of this order.

2. List "A" of said section is hereby amended as follows:

By striking out the item "Blocks for cutting leather."

By changing the heading "*Building Supplies* (except as required in latest Defense Housing Critical List)" to read "*Building Supplies* (except as permitted in latest War Housing Critical List)."

By changing the item "flashings, more than 2½ lbs. hard lead" to read "flashings over 2½ lbs. per sq. ft. hard lead or 4 lbs. per sq. ft. soft lead."

By changing the item "sheets under tile flooring" to read "sheets under flooring except those not over 2½ lbs. per sq. ft. hard lead or 4 lbs. per sq. ft. soft lead for water proofing."

By changing the item "shower pans over 4 lbs. per sq. ft." to read "shower pans, over 2½ lbs. per sq. ft. hard lead or 4 lbs. per sq. ft. soft lead."

By adding to the item "caskets and casket hardware" the words "except name plates manufactured from secondary antimonial lead weighing not more than 14 ounces."

3. List "B" of § 984.4 is hereby amended by adding thereto the following items:

- Building supplies as follows:
  - Bends
  - Calking lead
  - Closet floor flanges (hard lead only)
  - Flashings up to and including 2½ lbs. per sq. ft. hard lead or 4 lbs. per sq. ft. soft lead
  - Pipe
  - Sheets 2½ lbs. per sq. ft. and under hard lead or 4 lbs. per sq. ft. and under soft lead for water proofing
  - Shower pans 2½ lbs. per sq. ft. and under hard lead or 4 lbs. per sq. ft. and under soft lead
  - Traps
- Foil for:
  - Babbitt for the preparation of industrial metallic packing.
  - Packaging cheese, yeast, dehydrated hydroscopic foods and medicinal and parmaceutical products.
  - Wrapping lead sheathed cable.
- Gaskets
- Identification and instruction plates of secondary antimonial lead for industrial machinery and equipment.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 11th day of November 1942.

PART 1112—OFFICE MACHINERY

[General Limitation Order L–54–c, as Amended November 11, 1942]

Section 1112.4 *General Limitation Order L–54–c,* is hereby amended to read as follows:

§ 1112.4 *General Limitation Order L–54–c*—(a) *Definitions.* For the purposes of this order:

(1) "Office machinery" means machinery, including attachments thereto, of the types listed on Lists A, B, C, or D attached to this order as amended from time to time.

(2) "New" office machinery means office machinery which has not been delivered to any person acquiring it for use. The term shall not describe any machine which has been delivered for trial, loan, rental or demonstration at any time prior to March 14, 1942. "Used" office machinery means office machinery other than new office machinery.

(3) "Restricted office machinery" means:

(i) Any new office machinery listed on Lists A, B, and C.

(ii) Any new machines and collateral equipment intended for use for dictating purposes.

(iii) Any used office machinery listed on Lists A, B, and C which on November 11, 1942 is in, or which thereafter comes into, the possession of its manufacturer for any purpose other than mere repair or reconditioning, and the manufacture of which was completed after December 31, 1940, and

(iv) Any used punched card tabulating machinery which on November 11, 1942 is in, or which thereafter comes into, the possession of its manufacturer for any purpose other than mere repair or reconditioning, regardless of its age.

(4) "Manufacturer" means any person manufacturing new office machinery or sets of parts, to the extent that he is engaged in such manufacture, and shall include majority-owned sales, distribution, and manufacturing subsidiaries.

(5) "Dealer" means any wholesaler, retailer or other distributor of restricted office machinery other than a sales or distribution subsidiary of a manufacturer, and shall include any person, firm or corporation normally receiving restricted office machinery on consignment.

(6) "Delivery" includes any physical transfer of restricted office machinery, and includes transfers for trial, loan, rental, demonstration or other use; but the terms shall not include the transfer to the consignee, designated on the shipping documents, of any new restricted office machinery actually in transit on June 1, 1942, or of any other restricted office machinery actually in transit on November 11, 1942.

(7) "Army or Navy of the United States" and "Maritime Commission" include the War Department, the Navy Department, and the Maritime Commission, respectively, but shall not include any privately operated plant, shipyard, training school, or other enterprise controlled or financed by the Army or Navy of the United States, the Maritime Commission, or any other agency of the United States Government, nor any plant or shipyard privately operated on a cost-plus-fixed-fee basis under the control or direction of the Army or Navy of the United States, the Maritime Commission, or any other agency of the United States Government.

(8) "Lend-Lease purchaser" means any person requesting authorization to receive delivery of restricted office machinery for export to any country, the government of which is entitled to the benefits of the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States."

(9) "Sets of parts" means parts for office machinery produced at plants in the United States for shipment to foreign countries for assembly into new office machinery of the types listed on Lists A, B, and C.

(b) *Restrictions on production*—(1) *List A and List B quotas.* No manufacturer of any kind of new office machinery listed on List A or List B or of sets of parts for such kinds of machinery shall manufacture any such machinery or sets of parts in excess of the sum of the quotas established by paragraphs (b) (1) (i) and (b) (1) (ii) of this order.

(i) *1942 quotas.* Between June 1, 1942, and December 31, 1942, inclusive, a manufacturer of new office machinery of any kind listed on List A or List B, or of sets of parts for such kind of machinery, may manufacture a total dollar value of new office machinery of such kind (including sets of parts, but excluding special machines to be delivered under paragraph (c) (3) of this order and machines to be delivered free of restrictions pursuant to an election under paragraph (e) (1) (iv) of the original order L–54–c) equal to seven (7) times the percentage specified in Column I of List A or List B of the average monthly dollar value during the calendar year 1941 of the new office machinery of such kind billed to customers by such manufacturer plus the new office machinery of such kind exported in the form of sets of parts.

(ii) *1943 quotas.* Between January 1, 1943 and December 31, 1943, inclusive, a manufacturer of new office machinery of any kind listed on List A or List B, or of sets of parts for such kind of machinery, may manufacture a total dollar value of new office machinery of such kind (including sets of parts, but excluding special machines to be delivered under paragraph (c) (3) of this order and machines to be delivered free of restrictions pursuant to an election under paragraph (e) (1) (iv) of the original order L–54–c) equal to the percentage specified in Column II of List A or List B of the total dollar value of the new office machinery of such kind billed to customers by such manufacturer during the calendar year 1941 plus the new office machinery of such kind exported in the form of sets of parts during the calendar year 1941.

(iii) *Basis of leased machinery.* Any manufacturer whose customary practice has been to lease substantially all of any particular kind of new office machinery shall base his production quota of such kind of new office machinery upon the aggregate of the average monthly number of new units assembled and sets of parts exported during the calendar year 1941. The number of sets of parts exported in 1941 shall be considered as equal to the number of units into which such sets of parts were ultimately assembled.

(iv) *Valuation of production.* The dollar value of assembled new office machinery billed during the calendar year 1941 by the manufacturer to either domestic or foreign customers, and the dollar value of assembled new office machinery manufactured after June 1, 1942, shall be based upon the retail list price of such machinery to domestic customers. The dollar value of sets of parts shall be based upon the retail list price of the same kind of machinery, when assembled, to domestic customers. The number of sets of parts exported shall be considered as equal to the number of units into which such sets of parts were ultimately assembled.

(2) *Further restrictions on List A production.* (i) No manufacturer shall commence fabrication, or cause fabrication to be commenced, of any material for parts, or contract to purchase parts, for the assembly of any new office machinery listed on List A other than the machinery which he is allowed to produce under the terms of this order.

(ii) After December 31, 1942, no manufacturer shall fabricate, cause to be fabricated, or contract to purchase, parts for the assembly of new office machinery listed on List A.

(iii) After December 31, 1943, no manufacturer shall assemble any of the kinds of new office machinery listed on List A.

(3) *Further restrictions on List B production.* (i) No manufacturer shall commence fabrication, or cause fabrication to be commenced, of any material for parts, or contract to purchase parts, for the assembly of any new office machinery listed on List B other than the machinery which he is allowed to produce under the terms of this order.

(ii) After December 31, 1942, no manufacturer shall fabricate, cause to be fabricated, or contract to purchase, more than 25% of the parts required for the assembly of the new office machinery listed on List B (except calculating and computing machines) which he is permitted to manufacture during the entire period from June 1, 1942, to December 31, 1943.

(iii) After March 31, 1943, no manufacturer shall fabricate, cause to be fabricated or contract to purchase, parts for the assembly of new calculating or computing machines.

(4) *Restrictions on List C production.* (i) No manufacturer shall manufacture any new office machinery listed on List C or sets of parts therefor, except machines to fill orders approved under paragraphs (c) (2) through (c) (5) inclusive of this order, to fill orders of the Army or Navy of the United States or of the Maritime Commission which were actually on hand on November 11, 1942, and to maintain the minimum practicable working inventory under the circumstances.

(ii) No manufacturer shall commence fabrication, or cause fabrication to be commenced, of any material for parts, or contract to purchase parts, for the assembly of any new office machinery listed on List C other than the machinery which he is allowed to produce under the terms of this order.

(5) *Restrictions on List D production.* No manufacturer shall fabricate, cause to be fabricated, or contract to purchase, parts for the assembly of any new office machinery listed on List D. No manufacturer shall assemble any new office machinery listed on List D.

(6) *Repair and service parts.* The restrictions upon the manufacture of new office machinery contained in this paragraph (b) shall not apply to the manufacture of parts to be used to service or repair any kind of office machinery listed on Lists A, B, C, and D.

(7) *Discontinued new office machinery.* No manufacturer shall fabricate parts for any new office machinery or assemble any new office machinery of any kind which he elected to deliver free of all restrictions pursuant to paragraph (e) (1) (iv) of the original order L–54–c.

(c) *Restrictions on delivery*—(1) *General restrictions.* Regardless of the terms of any contract of sale or purchase, or other commitment, or of any preference rating, or any blanket preference rating order, no manufacturer or dealer shall deliver any restricted office machinery except as provided in paragraphs (c) (2) to (c) (7) inclusive of this order other than machines which may be delivered free of restrictions pursuant to an election under paragraph (e) (1) (iv) of the original order L–54–c.

(2) *Back orders.* A manufacturer or dealer may deliver restricted office machinery to fill orders of the Army or Navy of the United States which were actually on hand on June 1, 1942.

(3) *Special orders.* Manufacturers or dealers may apply for authorization to deliver special restricted office machinery which, on June 1, 1942, was assembled, or in the process of fabrication and assembly, but which could not otherwise be delivered under the terms of this order. Such application may be made by filing with the War Production Board, in triplicate, plainly marked "Ref: L–54–c", a letter containing a list of all such orders, together with such information as will support the representation of the manufacturer or dealer that the machinery is special. As used in this paragraph, a "special" machine is a machine built to special specification for a customer, with features which render it unusable except by a small class of persons similarly situated.

(4) *Future orders of the Army, Navy and Maritime Commission.* From time to time, the Director General for Operations will notify manufacturers and dealers, on Form PD–423, of quantities of restricted office machinery which may be delivered without further authorization for the use of the Army or Navy of the United States, or the Maritime Commission, in preference to any other deliveries except when specifically instructed otherwise by the Director General for Operations. Manufacturers and dealers may not deliver restricted office machinery on preference rating certificates PD–3 and PD–3a, except to fill back orders of the Army or Navy of the United States pursuant to paragraph (c) (2) of this order.

(5) *Future orders of other persons.* (i) Except as provided in paragraphs (c) (2), (c) (3), (c) (4), and (c) (7) of this order, no manufacturer or dealer shall deliver any restricted office machinery to fill any order unless the order is accompanied by a preference rating certificate PD–1A issued after May 31, 1942 and prior to December 1, 1942, or by an authorization to deliver the machinery on a Form PD–688 signed by the Director General for Operations, surrendered to the manufacturer or dealer. Such preference rating certificate PD–1A, or Form PD–688, may be used to secure restricted office machinery only by the person to whom it was directly issued and only when such office machinery is expressly specified on the certificate.

---

[1] 7 F.R. 219, 2629.

(ii) Persons entitled to restricted office machinery by virtue of a preference rating certificate PD–1A who do not surrender such certificate, but retain the same, as permitted by Priorities Regulation No. 3, as amended from time to time, shall, in addition to furnishing the endorsement required by such Priorities Regulation No. 3, certify to the manufacturer or dealer from whom the machinery is to be acquired that the certificate was originally issued to such person and that the machinery was expressly specified on the certificate.

(iii) Except when specifically instructed otherwise by the Director General for Operations, the sequence of deliveries of machines authorized on PD–688 certificates shall be determined by the delivery dates specified in the respective certificates. In any case where delivery dates are the same, or it is impossible to make all deliveries on schedule, the sequence of deliveries shall be determined by the respective dates on which the PD–688 certificates were received by the supplier named in such certificates.

(6) *Intracompany Deliveries.* Without further authorization, a manufacturer may for the purpose of redelivery, but not for use, deliver restricted office machinery from one branch, division or section of his enterprise, including majority-owned sales, distribution and manufacturing subsidiaries, to another branch, division or section of the same enterprise, including majority-owned sales, distribution and manufacturing subsidiaries, except that he may not deliver to a subsidiary, branch, or other outlet located outside of the United States, its territories, and possessions.

(7) *Delivery to dealers and returns to manufacturers.* Without further authorization, dealers may return restricted office machinery to any manufacturer willing to accept the same and manufacturers may accept all such restricted office machinery from dealers. Without further authorization, manufacturers or dealers may deliver restricted office machinery to dealers in the following instances only:

(i) To fill an order, authorized by the terms of the original order L–54–c or this order L–54–c as amended, already received by such dealer, or to replace restricted office machinery delivered by such a dealer from his inventory to fill an order authorized by the terms of the original order L–54–c or this order L–54–c as amended. In either case, such dealer shall furnish to the manufacturer or to the other dealer a photostat or certified copy of the PD–1A, PD–688, or other authorized basis for delivery of restricted office machinery. Reproduction of any PD–1A, PD–688, or any other document for such purpose is hereby permitted.

(ii) To store or display such restricted office machinery on the dealer's premises in the United States, its territories and possessions, provided that the restricted office machinery so stored or displayed is in the absolute control and ownership of the manufacturer or delivering dealer and may be removed, transferred or shipped by such manufacturer or delivering dealer at any time in his discretion.

(8) *Deliveries under General Conservation Order L–148.* The issuance of an authorization on Form PD–423 or on Form PD–688 to deliver a time stamp machine, a time recording machine, or collateral equipment shall constitute a preference rating of A–7 or higher within the meaning of § 1095.4, General Conservation Order L–148, for the particular items authorized to be delivered.

(d) *Special procedures and information.* (1) Private contractors engaged in construction work for the Army, Navy, Maritime Commission or Defense Plant Corporation and private operators of any plant, shipyard, training school or other enterprise controlled or financed, on a cost-plus-fixed-fee basis or otherwise, by the Army or Navy of the United States, the Maritime Commission or any other agency of the United States Government shall, when requesting restricted office machinery on Form PD–688, furnish a certification by the Government inspector assigned to the project (1) that no Government equipment is available for use in lieu of the equipment requested, (2) that the contractor or operator has no equipment available from any other source for use in lieu of the equipment requested, and (3) that the equipment requested is to be used exclusively by the contractor's or operator's private personnel for the duration of the project on work which the contractor is required to perform under the terms of his contract.

(2) Lend-Lease purchasers shall accompany their applications on Form PD–688 with a formal recommendation by the Lend-Lease Administration that such request be granted.

(3) Any person, other than the Army or Navy of the United States, the Maritime Commission, or any Lend-Lease purchaser, desiring to acquire restricted office machinery for export from the United States, except to Canada, must first apply to the Office of Export Control, Board of Economic Warfare, Washington, D. C., for an Export License, accompanying such application with an application on Form PD–688 for permission to receive delivery. If the Office of Export Control decides that an Export License should be issued to the applicant, a statement of such decision, together with the application on Form PD–688 and a formal recommendation that the application be granted, is to be forwarded to the War Production Board.

(e) *Sets of parts.* No person shall deliver any sets of parts for export from the United States unless the Director General for Operations has authorized such delivery on Form PD–423. Any person desiring to deliver sets of parts for export shall apply by letter to the War Production Board, enclosing with his application a Form PD–423 duly prepared for authorization. He shall state in his application the number of units of machinery which may be assembled from such sets of parts, the model numbers of such machines, and the equivalent retail price of similar completed machines when sold in the United States. The authorization to produce sets of parts given by paragraph (b) of this order and the authorization to deliver sets of parts for export given by the Director General for Operations on Form PD–423 shall not be construed to authorize the exportation of such sets of parts unless an export license can be secured. No manufacturer so producing and delivering sets of parts for export shall directly or indirectly import any new office machinery of the kinds listed on List A, List B, or List C into the United States.

(f) *Restrictions on types, styles, models, specifications, and use of materials*—(1) *Elimination of models.* The Director General for Operations may, from time to time, order the cessation of production or delivery of any model, style, or type of office machinery, including attachments or repair parts thereof.

(2) *Issuance of schedules.* The Director General for Operations may, from time to time, issue schedules establishing simplified practices with respect to the types, sizes, forms, materials, or specifications of office machinery. After the effective date of any such schedule, no office machinery shall be fabricated or assembled, except such as conforms to the issued schedule and except as specifically permitted by such schedule.

(3) *Elimination of motor driven machines.* (i) On and after November 1, 1942, no manufacturer of new duplicating machines of the spirit, gelatin, or stencil types shall incorporate electric motors in more than 20 percent of the aggregate number of duplicating machines of those kinds that he is permitted to produce under his quotas. The incorporation of electric motors in other types of duplicating machines by their manufacturers shall be discontinued except for those styles of machines where motors are essential to their operation.

(ii) No manufacturer of adding machines shall incorporate any electric motor in a new adding machine except a machine for the assembly of which all the necessary parts, including motors not useful for any other purpose, were available or in process on September 8, 1942.

(g) *Applicability of Priorities Regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board as amended from time to time.

(h) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(i) *Records.* All manufacturers and dealers affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production and sales of restricted office machinery, and shall, upon request, make such records available for audit and inspection by duly authorized representatives of the War Production Board.

(j) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and

answers to questionnaires as the War Production Board shall from time to time request.

(k) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the Director General for Operations in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using materials under priority control and may be deprived of priorities assistance by the Director General for Operations.

(l) *Communications to War Production Board.* All reports required to be filed hereunder, all communications concerning this order, and all applications shall, unless otherwise directed, be addressed to: War Production Board, Services Branch, Washington, D. C.; Ref: L–54–c.

PART 1131—ROUGH DIAMONDS

[Amendment 2 of General Preference Order M–109 [1]]

Section 1131.1 *General Preference Order M–109* is hereby amended as follows:

1. By changing paragraph (c) to read as follows:

(c) *Reports of stocks and inventories.* Every person who, on the 31st day of March, 1942, or on the last day of any calendar quarter thereafter, has title to, or possession or control of, ten (10) or more carats of rough diamonds, including rough diamonds incorporated in any unused tool or other device, shall, on or before the close of business on the 15th day of the succeeding month, report to the War Production Board in duplicate on Form PD–376 the quantity and description of rough diamonds owned by him or in his possession or control, the business in which he is engaged, the name of any other person having any interest in such rough diamonds, and such other information as may be required; *Provided, however,* That any person, other than a manufacturer of grinding wheels, who has title to, or possession or control of, any unused grinding wheel in which rough diamonds are incorporated, shall report on Form PD–376, in lieu of the quantity and description of rough diamonds incorporated in such grinding wheel, the name of the manufacturer of the wheel, a description of the model or type of wheel, and the manufacturer's number for such wheel, if any.

2. By relettering paragraphs (g), (h), (i), and (j) as paragraphs (h), (i), (j) and (k) respectively, and inserting a new paragraph (g) to read as follows:

(g) *Restrictions upon sales or transfers of rough diamonds.* From and after November 11, 1942, no person shall sell or transfer rough diamonds not incorporated in a tool or other device, and no person shall purchase or accept a transfer of rough diamonds not incorporated in a tool or other device, unless:

(1) The sales or transfers aggregate fifty (50) carats or less of crushing bortz or five (5) carats or less of other rough diamonds to a single customer in a single calendar month: *Provided, however,* That all such sales or transfers shall be reported on Form PD–378 in accordance with paragraph (f); or

(2) The sales or transfers are to fill orders bearing a preference rating of A–1–j or higher: *Provided, however,* That all such sales or transfers shall be reported on Form PD–377 in accordance with paragraph (d), giving in each case, in addition to all other information required by such form, the preference rating of the order pursuant to which the sales or transfers were made; or

(3) The sales or transfers are specifically authorized by the Director General for Operations in accordance with the following procedure:

When the sale or transfer has been negotiated, the seller or transferor shall immediately package and seal the diamonds and shall hold them subject to authorization or disapproval of the transaction by the Director General for Operations; and seller and purchaser shall immediately apply to the Director General for Operations for authorization to make the sale or transfer, upon Form PD–377, plainly marked "Application" for this purpose, giving all the information required by such form. This application shall be executed by both the seller and the purchaser and shall be filed with the War Production Board, Chanin Building, New York, New York, Ref: M–109, in quadruplicate. If the seller has not received express authorization or disapproval of the transaction from the Director General for Operations within a period of 10 days from the date of filing the application with the War Production Board, the application shall be considered as having been disapproved. Sales or transfers made pursuant to express authorization in accordance with the provisions of this paragraph (g) (3) shall be considered as having been duly reported for the purposes of paragraph (d).

The restrictions of this paragraph (g) shall apply to sales or transfers for export as well as to domestic transactions.

PART 3038—DRIED FRUIT

[Amendment 1 to Conservation Order M–205]

Section 3038.1 *Conservation Order M–205* is hereby amended in the following respects:

1. Subparagraphs (a) (3) and (a) (4) are amended to read as follows:

(3) "Processing" shall mean grading, sizing, stemming, seeding, or treating dried fruit by the use of hot water, steam, chemicals or compressed or hot air; or cutting fresh apples acquired for the production of dried apples.

(4) "Government agency" shall mean the Army of the United States, the Agricultural Marketing Administration, and any other officer, board, agency, commission, or government-owned or government-controlled corporation of the United States specifically designated by the Director General for Operations.

2. Subparagraph (b) (1) is amended to read as follows:

(1) Each packer shall, without regard to previously existing contracts, set aside to be delivered for the requirements of government agencies, any dried fruit, and any fresh fruit acquired for the production of dried fruit, which were in his possession, under his control or under contract on August 10, 1942, or were acquired by him within one year thereafter. All such fruit so set aside may be delivered to the Army of the United States or the Agricultural Marketing Administration without specific allocation; to any other government agency if specifically allocated to such agency, and to any private purchaser if released. Such fruit shall not be processed and packed without instructions which may be given by the Director General for Operations, by the Army of the United States, or by the Agricultural Marketing Administration, if such fruit is to be purchased by either of such agencies; or, if such fruit is specifically allocated to any other agency, instructions may be given by the agency to which it is allocated. The Director General for Operations may issue specifications at any time as to processing, packing, labeling, boxing and strapping.

3. Subparagraph (b) (3) is deleted, and subparagraphs (b) (4) and (b) (5) are renumbered as (b) (3) and (b) (4) respectively.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2(a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 11th day of November 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–139]

E. B. AND A. C. WHITING COMPANY

E. B. and A. C. Whiting Company, Burlington, Vermont, manufactures fibers for brushes from imported istle. Subsequent to March 14, 1942, the Company contracted or arranged to import 39 carloads of raw istle into the United States from Mexico without written authorization from the Director of Industry Operations. Between May 9 and July 20, 1942, 35 of these carloads of istle were actually imported into the United States. This constituted a violation of General Imports Order M–63 as amended March 14, 1942, and such contracts as were made subsequent to May 9, 1942, also constituted a violation of Conservation Order M–138.

These violations of War Production Board orders have hampered and impeded the war effort of the United States. In view of the foregoing, *It is hereby ordered,* That:

§ 1010.139 *Suspension Order S–139.* (a) E. B. and A. C. Whiting Company, Burlington, Vermont, shall not purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import or make any contract or other arrangement for the importing of any raw istle.

(b) No application filed by E. B. and A. C. Whiting Company for authorization to purchase for import, import, offer to purchase for import, receive or offer to receive on consignment for import or make any contract or other arrangement for the importing of any raw istle shall be granted.

(c) Nothing contained in this order shall be deemed to relieve E. B. and A. C. Whiting Company from any restriction, prohibition, or provisions contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on November 13, 1942, and shall expire on April 15, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 11th day of November 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–140]

EMPIRE STATE MAT CO., INC.

Empire State Mat Company, Inc., a New York corporation, of Brooklyn, New York, is a manufacturer of rubber mats. Amendment No. 6 to Supplementary Order M–15–b prohibited the consumption of scrap rubber in the manufacture of rubber mats, among other items, except to fill war orders, as defined therein. Despite the fact that the Company knew that restrictions had been placed upon the use of scrap rubber, it violated Supplementary Order M–15–b by consuming sufficient scrap rubber to manufacture approximately 6,996 rubber mats for civilian use during the period of April 1 through June 8, 1942. During the period of June 9 through July 13, 1942, despite the fact that the Company was familiar with the specific restrictions of Amendment No. 6 to Supplementary Order M–15–b, it consumed sufficient scrap rubber to manufacture approximately 3,456 rubber mats for civilian use in wilful violation of the order. The Company also committed wilful violations of Supplementary Order M–15–b by purchasing approximately 7,236 used tires for the manufacture of rubber mats for civilian use, during the period of April 1 through July 13, 1942.

On or about January 19, 1942, the Company placed an order for certain rubber tubing with its supplier and applied a preference rating of A–10 thereto, certifying that the tubing was destined for material manufactured for institutional and governmental use. This was a false certification made in violation of Priorities Regulation No. 1, since at the time the Company placed this rated order it had received no orders from institutions or governmental agencies nor did it thereafter receive any such orders requiring the use of rubber tubing.

These violations of Supplementary Order M–15–b and of Priorities Regulation No. 1 have impeded and hampered the war effort of the United States by diverting scrap rubber to uses unauthorized by the War Production Board. In view of the foregoing, *It is hereby ordered,* That:

§ 1010.140 *Suspension Order S–140.* (a) Empire State Mat Company, Inc., its successors and assigns, shall accept no deliveries from any source of rubber, scrap rubber, or reclaimed rubber, as defined in Supplementary Order M–15–b, except as specifically authorized by the Director General for Operations.

(b) Empire State Mat Company, Inc., its successors and assigns, shall not consume, fabricate, process, or in any way use any rubber, scrap rubber, or reclaimed rubber, as defined in Supplementary Order M–15–b, except as specifically authorized by the Director General for Operations.

(c) Empire State Mat Company, Inc., its successors and assigns, shall make no deliveries of rubber, scrap rubber, or reclaimed rubber, as defined in Supplementary Order M–15–b, except as specifically authorized by the Director General for Operations.

(d) Nothing contained herein shall be deemed to relieve Empire State Mat Company, Inc., its successors and assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on November 12, 1942, and shall remain in effect until six months after the termination of the present war.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671,

PART 1010—SUSPENSION ORDERS

[Suspension Order S–143]

REJA, INC.

Reja, Inc., New York, New York, is a manufacturer of costume jewelry. Although the Company was aware of the fact that Conservation Order M–43–a, as issued December 31, 1941, restricted the use of tin in the manufacture of costume jewelry during the first quarter of 1942 to 50 per cent of the quantity of tin used for this purpose during the corresponding period of 1940, the Company, in the first quarter of 1942, used quantities of tin in the manufacture of costume jewelry in excess of 150 per cent of the amount of tin used by it for such purpose during the corresponding period of 1940. This constituted a violation of M–43–a and of Amendment No. 1 thereto.

These violations of Conservation Order M–43–a have impeded and hampered the war effort of the United States by diverting tin to uses not authorized by the War Production Board. In view of the foregoing facts, *It is hereby ordered, That:*

§ 1010.143 *Suspension Order No. S–143.* (a) Deliveries of material to Reja, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to Reja, Inc., its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained herein shall be deemed to relieve Reja, Inc., from any restriction, prohibition or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect November 12, 1942, and shall expire May 12, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1012—DOMESTIC VACUUM CLEANERS

[Interpretation 1 to Supplementary General Limitation Order L–18–c]

The following interpretation is hereby issued by the Director General for Operations with respect to § 1012.4, *Supplementary General Limitation Order L–18–c,*[1] dated October 24, 1942:

Supplementary Limitation Order L–18–c restricts all "transfers" of new domestic vacuum cleaners. A transfer is stated in paragraph (a) (6) not to include "any delivery to or by a carrier . . . "

A question has arisen as to the meaning of the phrase "to or by a carrier". This phrase is merely intended to make it clear that in carrying out the transfers permitted in paragraph (b) of that order a carrier may be freely employed. Such transfers are considered "transfers" from the shipper to the consignee and do not involve "transfers" to or by a carrier. Whether a transfer is prohibited or permitted under the order depends solely upon the relationship between the seller or other shipper and the buyer or other receiver. It makes no difference whether a carrier is or is not employed. Obviously, therefore, a transfer of a new domestic vacuum cleaner to a carrier for the carrier's own use is not exempt from the restrictions of the order, nor is a transfer to an unauthorized transferee permitted merely because a carrier is employed. A carrier, however, in accepting any new domestic vacuum cleaners for shipment is under no obligation to make sure that the vacuum cleaners are being shipped to an authorized transferee.

PART 1056—NATURAL GAS

[Limitation Order L–31, as Amended November 12, 1942]

Limitation Order L–31[2] (§ 1056.1) is hereby amended to read as follows:

§ 1056.1 *General Limitation Order L–31*—(a) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) "Natural gas" means natural gas and mixtures of natural and manufactured gas.

(3) "Utility" means any person supplying natural gas, directly or indirectly, for general use by the public or supplying manufactured gas to a natural gas distribution system serving the general public.

(4) "Non-utility supplier" means any person who owns or operates natural or manufactured gas production or transmission facilities and who is not included in the definition of utility in paragraph (a) (3): *Provided,* That no person engaged in the production, refining or processing of petroleum or natural gas shall be considered or treated as a "non-utility supplier," except as such person's activities relate to the disposition of natural gas after such production, refining or processing.

(5) "Consumer" means any ultimate user of gas produced, transmitted, or distributed by any utility or by any non-utility supplier which is interconnected with any utility.

(6) "Standby facilities" means equipment in serviceable operating condition designed to use oil, electricity, coal or other fuel to replace natural gas, and for the operation of which a supply of such fuel is obtainable.

(7) "Space-heating equipment" means equipment used for the purpose of raising atmospheric temperature in any building or portion thereof.

(8) "Central space-heating equipment" means all space-heating equipment intended by reason of its size, type, or location to heat more than one room.

(b) *Integration of gas system operation.* (1) Each utility shall as far as practicable so operate its gas manufacturing transmission, storage, and distribution facilities as to achieve maximum deliverability of natural gas in the area or areas in which a shortage exists or is imminent and to conserve existing gas reserves, and no utility shall abandon any such facilities except upon specific authorization from the Director General for Operations. Where necessary for such purposes, the Director General for Operations may, from time to time, issue specific directions as to the operation of gas manufacturing, transmission, storage and distribution facilities.

(2) Each utility shall maintain in operating condition all gas manufacturing facilities owned or operated by such utility which are in operating condition on the effective date of this amendment. Each utility shall repair and maintain in operating condition such other gas manufacturing facilities owned or operated by such utility as the Director General for Operations may, from time to time, direct. Where the repair and maintenance of gas manufacturing facilities requires the use of materials in excess of those available under any order issued by the War Production Board, application for authority to use or acquire such materials shall be made to the Director

General for Operations in accordance with established procedures.

(3) The Director General for Operations may, from time to time, issue specific directions respecting the delivery of natural gas from one utility to another and the interconnection of utility facilities, and no utility shall deliver or accept, or fail to deliver or accept, deliveries of gas in violation of any such directions. Subject to such directions and to the provisions of paragraph (b) (4) each utility shall so interchange natural gas with other interconnected utilities as to achieve, directly or indirectly, the maximum deliverability in any area or areas in which a shortage exists or is imminent.

(4) No utility shall deliver natural gas to any utility system not theretofore regularly supplied by such utility (except emergency deliveries to relieve a shortage resulting from the failure or breakdown of gas production, transmission, or distribution facilities), without specific approval of the Director General for Operations. Any utility making such emergency deliveries shall report promptly to the War Production Board, Power Branch, Ref: L–31, the nature of the emergency and the amount and duration of such deliveries.

(5) Each utility shall, as soon as practicable, make an investigation of the type, amount, and availability of any natural or manufactured gas production facilities owned or operated by any non-utility supplier located in or near its operating area, whether or not interconnected with such utility, and shall report to the War Production Board by January 1, 1943, such integration measures (including measures for interconnections and the interchange of gas of any type) as may be possible to meet or to anticipate shortages of natural gas. The Director General for Operations will, where necessary to accomplish the purposes of this order, issue specific directions to utilities and non-utility suppliers as to the integration of gas production facilities. Where such integration requires the use of materials in excess of those available under any priority order issued by the Director General for Operations, application for authority to use or to acquire such materials shall be made to the Director General for Operations in accordance with established procedures.

(6) Each non-utility supplier in any area served by any utility with which such non-utility supplier is interconnected, shall, upon notice from the Director General for Operations, so order its operations as to make available for delivery to such utility all natural or manufactured gas which it is capable of producing or supplying and which is not essential for its own operations, unless the Director General for Operations shall, upon application, determine that such gas, because of differences in heat value or chemical composition, cannot practicably be mixed with the gas supplied by such utility. Such non-utility supplier shall also make available for delivery to such utility further quantities of gas in accordance with directions of the Director General for Operations.

(c) *Operation during gas shortages.* (1) In the event of a gas shortage in any area, each utility supplying such area shall operate its standby gas manufacturing facilities and shall reduce deliveries to consumers in accordance with the following schedule and with such further directions as the Director General for Operations may, from time to time, issue: *Provided,* That to the extent, if any, required by the emergency nature of the shortage, such utility may in the first instance reduce deliveries without regard to such schedule, but shall as soon as possible thereafter readjust its operations and deliveries to conform in all respects to such schedule during the continuance of the gas shortage.

(i) First, the utility shall, within the limits of its contractual rights, reduce deliveries to all consumers purchasing natural gas under contracts permitting the supplier to interrupt deliveries: *Provided,* That deliveries of gas necessary for the maintenance of the war production and essential civilian services listed in Exhibit A, as the same may be amended from time to time, shall be reduced only to the extent that the fuel requirements for such production and services can be supplied from the consumer's standby facilities.

(ii) Second, the utility shall, to the extent necessary, so operate its standby manufacturing facilities as to achieve maximum output of gas in the shortage area. Any utility may request the Director General for Operations to direct the operation of any consumer's standby facilities under paragraph (c) (1) (iii) prior to the operation of such utility's standby manufacturing facilities. Such request will be granted only if the Director General for Operations determines that the operation of consumer standby facilities prior to operation of utility standby manufacturing facilities would relieve the gas shortage more expeditiously or with less use of critical fuels, or would otherwise aid in relieving the gas shortage.

(iii) Third, the utility shall, without regard to its contractual rights or those of any consumer, reduce deliveries to all consumers who have standby facilities to the extent to which the operation of such facilities will directly or indirectly alleviate the shortage of natural gas in the area.

(iv) Fourth, the utility shall, to the extent necessary, reduce deliveries, insofar as practicable on a uniform proportionate basis, to all commercial and industrial consumers except to the extent that such deliveries are necessary for the maintenance of the war production and essential civilian services listed in Exhibit A or to prevent permanent damage to the production facilities of such consumers.

(v) If, after effectuating the reduction in deliveries of gas required by or pursuant to the foregoing provisions of this paragraph, it becomes necessary to curtail deliveries of gas for the maintenance of the war production and essential civilian services listed in Exhibit A, as the same may be amended from time to time, the utility shall insofar as practicable reduce such deliveries on a uniform proportionate basis.

(2) The Director General for Operations may issue such directions with respect to reductions in deliveries to residential consumers as may be necessary to alleviate gas shortages.

(3) Whenever pursuant to paragraphs (c) (1) or (c) (2) above or any direction issued thereunder, any utility is obliged to reduce deliveries to any consumer, such utility shall so inform such consumer, who shall, upon such notification, reduce his acceptance of deliveries of natural gas in accordance with such notification.

(4) Whenever any utility reduces deliveries of gas to any consumer pursuant to paragraph (c) (1) of this order, such utility shall immediately notify the Power Branch of the War Production Board, Ref: L–31, by telegram of the extent of such reductions.

(5) Following each such shortage period, each affected utility shall submit a detailed report of the quantities of gas conserved by the operation of standby facilities and the duration of curtailment and the extent to which each commercial and industrial consumer was curtailed. Such report shall be filed on Form PD–283.

(d) *Restrictions on deliveries of natural gas applicable prior to November 30, 1942.* (1) No utility shall deliver natural gas to any non-residential consumer in Areas I, II, III, IV, or V listed in Exhibit B for the operation of any new gas-fired equipment unless such deliveries were commenced in Area I prior to February 27, 1942, in Area II prior to March 20, 1942, in Area III prior to May 15, 1942, in Area IV prior to August 10, 1942, or in Area V prior to September 15, 1942, or unless:

(i) Such non-residential consumer shall have installed, prior to the date of such deliveries, standby facilities of sufficient capacity to replace such deliveries of such gas during period of shutoff, or

(ii) Such non-residential consumer cannot reasonably use any fuel other than natural gas because of technical utilization factors or process requirements, or

(iii) Such deliveries shall have been specifically approved in advance by the Director General for Operations.

(2) No utility shall deliver, and no consumer shall accept delivery of, natural gas in Areas I, II, III, IV or V listed in Exhibit B for either of the following purposes:

(i) For the operation of central space heating equipment (or heating equipment supplying the major portion of the heating requirements of the premises) unless such equipment was installed in Area I prior to March 1, 1942, in Area II prior to March 20, 1942, in Area III prior to May 15, 1942, in Area IV prior to August 10, 1942, or in Area V prior to September 15, 1942, or unless, in the case of new construction, the equipment was specified in the construction contract and the foundation under the main part of the structure in which the equipment is to be installed was completed in Area I prior to March 1, 1942, in Area II prior to March 20, 1942, in Area III prior to May 15, 1942, in Area IV prior to August 10, 1942, or in Area V prior to September 15, 1942; or

(ii) For the operation of central space heating equipment (or heating equipment supplying the major portion of the heating requirements of the premises), which has been converted from other fuel to natural gas unless such conversion has been completed in Area I prior to February 26, 1942, in Area II prior to March 20, 1942, in Area III prior to May 15, 1942, in Area IV prior to August 10, 1942, or in Area V prior to September 15, 1942.

(e) *Restrictions on deliveries of gas applicable on and after November 30, 1942.* (1) On or after November 30, 1942, no utility shall deliver to any non-residential consumer, and no such consumer shall accept delivery of natural gas for the operation of any gas-fired equipment (including space-heating equipment) unless:

(i) Such equipment was installed (or if converted from some other fuel to natural gas, such conversion was completed) prior to November 30, 1942 at the same premises: *Provided,* That deliveries of natural gas for the operation thereof were not prohibited prior to that date by the provisions of paragraph (d) of this order, or

(ii) Such equipment replaces similar type gas-fired equipment of equal or greater capacity previously installed or operated by the same consumer at the same premises for the same purposes, or

(iii) Such deliveries have been specifically approved by the Director General for Operations.

(2) On or after November 30, 1942, no utility shall deliver to any residential consumer and no such consumer shall accept delivery of natural gas for the operation of any space-heating equipment unless:

(i) Such equipment was installed (or if converted from some other fuel to natural gas, such conversion was completed) at the same premises prior to November 30, 1942: *Provided,* That deliveries of natural gas for the operation of such equipment were not prohibited prior to that date by the provisions of paragraph (d) of this order, or

(ii) In the case of new construction in any area listed in Exhibit B, such equipment was specified in the construction contract and was installed prior to March 1, 1943, and the foundation under the main part of the structure in which the equipment is to be installed was completed in Area I prior to March 1, 1942, in Area II prior to March 20, 1942, in Area III prior to May 15, 1942, in Area IV prior to August 10, 1942, in Area V prior to September 15, 1942, or in Area VI prior to November 30, 1942, or

(iii) Such equipment replaces gas-fired equipment of equal or greater capacity previously installed or operated at the same premises whether by the same or by another consumer: *Provided,* That nothing contained in this subparagraph shall authorize the delivery of gas for the operation of central space-heating equipment which replaces non-central space-heating equipment or central space-heating equipment of a different type, or

(iv) Such deliveries have been specifically approved by the Director General for Operations.

Provided, That deliveries of natural gas may be made to residential consumers in those areas not listed in Exhibit B for the operation of any space-heating equipment.

(3) On or after November 30, 1942, no person shall install or cause to be installed gas-fired equipment designed to receive deliveries of natural gas from any utility if such deliveries are prohibited by this paragraph (e).

(4) Applications by all consumers for exemption from the space-heating restrictions of this order shall be made on Form PD 673. Applications by non-residential consumers for exemption from the restrictions on deliveries for non-space heating purposes shall be made on Form PD–672.

(f) *Applications to Director General for Operations.* (1) Any person who considers that any reduction in or prohibition of deliveries of natural gas made or proposed to be made pursuant to paragraphs (c), (d), or (e), or any direction issued thereunder, interferes or will interfere materially with war production or the operation of an essential civilian service, may apply for relief to the Director General for Operations, who may grant such specific exemptions or take such other action as may be consistent with the purposes of this order. Such application shall state the nature of the war materials being manufactured or the nature of the service, the extent to which such production or service has been or may be curtailed because of the reduction in or prohibition of deliveries of gas, and the amount of increase in deliveries of gas required for restoration of full production or service.

(2) Any utility which considers that the supply of natural gas available on any utility system or portion thereof is sufficient to take care of all existing and estimated future requirements of war industry and unrestricted civilian use, may apply for exemption of the system or any portion thereof from the provisions of paragraphs (d) or (e), or both, of this order or of any direction issued pursuant thereto, to the Director General for Operations, who may grant such exemptions or take such other action as may be consistent with the purposes of this order.

(g) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship on him may appeal for relief to the Director General for Operations, who may grant such specific exemptions or take such other action as may be consistent with the purposes of this order.

(h) *Reports and information.* (1) Each utility shall keep and preserve for not less than two years accurate and complete records concerning deliveries of natural gas to consumers. Such records shall be subject to inspection by duly authorized representatives of the War Production Board.

(2) All persons affected by this order shall execute and file with the War Production Board such reports and questionnaries as said Board shall, from time to time, request.

(i) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Power Branch, Washington, D. C., Ref: L–31.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making, or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 1069—UMBRELLA FRAMES

[General Limitation Order L-36]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1069.1 *General Limitation Order L-36*—(a) *Definitions.* For the purposes of this order:

(1) "Frame" means the framework of an umbrella made out of iron, steel, or plastic, including ribs, stretchers, notch, runner, springs, cap, ferrule, tips or connecting hardware.

(2) "Group I frame" means any frame designed for a man's umbrella.

(3) "Group II frame" means any frame designed for a woman's umbrella which has metallic tips and ferrule.

(4) "Group III frame" means any frame designed for a woman's umbrella which has plastic or other nonmetallic tips and/or ferrule.

(5) "Manufacturer" means any person engaged in the business of processing, fabricating, working on or assembling new umbrella frames ready for covering from umbrella frame parts, whether or not he actually covers umbrella frames.

(6) "Repair part" means any part of an umbrella frame which is not produced for or used in the assembly of a new umbrella frame.

(b) *General restrictions.* (1) During the period beginning November 12, 1942, and ending December 31, 1942, and during the three months period beginning January 1, 1943, and during each three months period thereafter, no manufacturer's total production of frames shall exceed 7½% of the number of group I, group II and group III frames produced by him during 1941.

(2) On and after November 12, 1942, no manufacturer shall produce any group I frame:

(i) The weight of which, exclusive of the weight of the shafts and handles, is more than five pounds per dozen frames;

(ii) Which contains more than 8 ribs;

(iii) Which contains any rib exceeding 25 inches in length.

(3) On and after November 12, 1942, no manufacturer shall produce any group II frame:

(i) The weight of which, exclusive of the weight of the shafts and handles, is more than 4.35 pounds per dozen frames;

(ii) Which contains more than 10 ribs;

(iii) Which contains any rib exceeding 20 inches in length.

(4) On and after November 12, 1942, no manufacturer shall produce any group III frame:

(i) The weight of which, exclusive of the weight of the shafts and handles, is more than 4 pounds per dozen frames;

(ii) Which contains more than 10 ribs;

(iii) Which contains any rib exceeding 20 inches in length.

(5) During the period beginning November 12, 1942, and ending December 31, 1942, and during the three months period beginning January 1, 1943, and during each three months period thereafter, no manufacturer shall produce repair parts containing more iron or steel than 5%, by weight, of the amount of iron or steel contained in the frames which such manufacturer is permitted to produce pursuant to paragraphs (b) (1), (b) (2), (b) (3), and (b) (4) of this order.

(6) On and after November 12, 1942, no manufacturer of parts specifically intended for incorporation into frames shall process, fabricate, work on, assemble, sell, lease, trade, lend, deliver, ship or transfer such parts if he knows or has reason to believe that such parts will not be used either as repair parts or in the production of frames pursuant to paragraphs (b) (1), (b) (2), (b) (3), and (b) (4) of this order.

(c) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, and sales.

(d) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(e) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Appeal.* Any appeal from the provisions of this order must be made on Form PD-500 and must be filed with the field office of the War Production Board of the district in which is located the plant to which the appeal relates.

(h) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(i) *Applicability of other orders.* In so far as any other order heretofore issued by the Director of Priorities, the Director of Industry Operations, or the Director General for Operations, or to be issued hereafter by the Director General for Operations, limits the use of iron and steel in the production of umbrella frames to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(j) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise ordered, be addressed to the War Production Board, Washington, D. C., Ref: L-36.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 12th day of November 1942.

PART 1108—MAINTENANCE AND OPERATION OF PLANTS PROCESSING DAIRY PRODUCTS OR EGGS

[Preference Rating Order P-118, as Amended November 12, 1942]

Part 1108 (formerly entitled "Repair, Maintenance and Operation of Plants Producing or Processing Dairy Products") is amended to read "Part 1108, Maintenance and Operation of Plants Processing Dairy Products or Eggs", and Preference Rating Order P-118[1] (§ 1108.1) is amended to read as follows:

§ 1108.1 *Preference Rating Order P-118*—(a) *Definitions.* For the purposes of this order:

(1) "Processor" means any person located in the United States, its territories and possessions, engaged in processing dairy products or eggs, or any person located in the Dominion of Canada, to whom and in whose name, a copy of this order is specifically issued.

(2) "Processing dairy products" means only the primary processing operations in connection with any of the following businesses:

(i) Pasteurizing milk,

(ii) Receiving milk from other persons for cooling preparatory to reshipment for further processing,

(iii) Producing dairy products, for sale, by processing milk or cream in a plant not located on the farm where the milk was produced or by processing ice cream mix produced in the same plant or in another plant under the same ownership as the processing plant.

(3) "Processing eggs" means only the primary processing operations in connection with any of the following businesses, performed in plants approved by the Agricultural Marketing Administration for purposes of directly or indirectly supplying eggs or egg products to or for that agency or for the armed services:

(i) Candling and grading shell eggs,

(ii) Breaking, packaging, and freezing liquid eggs,

(iii) Dehydrating eggs.

(4) "Primary processing" means the operations commencing with the bringing of milk, cream, eggs, or ice cream mix (in the case provided for in paragraph (a) (2) (iii)) to a processor's plant and ending with the placing of the processed milk, dairy products, eggs or egg products in any packaging in that plant. Any special packaging required by contracts with the armed services or the Agricultural Marketing Administration shall also be considered primary processing.

(5) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind used for maintenance, repair, operation or replacement in plants processing dairy products or eggs, but shall not include any office or transportation supplies, machinery or equipment.

(6) "Maintenance" means minimum upkeep necessary to enable the processor's existing plant, machinery and equipment to be used at its maximum rate of operation permissible under any applicable orders, but shall not include the acquisition of additional machines or equipment.

(7) "Repair" means restoration of a processor's plant, machinery or equipment to sound working condition within a reasonable time after physical depreciation, wear and tear, damage, destruction of parts or the like have impaired its fitness for service but not to an extent involving major reconstruction or the acquisition of capital assets or of motors of 1-horsepower or more.

(8) "Material required for operation" means operating supplies to be consumed in the course of a processor's operations but not to be physically incorporated in the finished products nor used as packaging (except packaging staples, strapping, or stitching wire), fuel, or office supplies.

(9) "Replacement" means substitution of machinery or equipment for worn or damaged existing machinery or equipment which cannot be repaired without major reconstruction; *Provided,* That such substitution is made within a reasonable time after such condition develops; *And provided further,* That the replacement is not of greater productive capacity than the replaced machinery or equipment except to the minimum possible extent when a replacement of equivalent capacity is obsolete, unobtainable, or not obtainable within a reasonable time in relation to the processor's operating needs.

(10) "Supplier" means any person with whom a contract or purchase order has been placed for delivery of material to a processor or to another supplier.

(b) *Assignment of preference ratings.* Preference ratings are hereby assigned, subject to the restrictions and conditions of paragraphs (c) and (d) hereof:

(1) AA-2X to deliveries, to a processor, of material directly required for emergency maintenance or repair to avert spoilage of milk, dairy products, or eggs (shell, liquid, dehydrated) because of an actual breakdown or suspension of a processor's operations.

(2) AA-5 to deliveries, to a processor, of material required for repair, maintenance or operation.

(3) AA-3 to deliveries, to a processor, of material required for replacement.

(c) *Restrictions on application of ratings by processor.* (1) The processor shall not apply any preference rating assigned by (b) (1) above to deliveries of material to replace other material withdrawn from his inventory or stores for maintenance, repair, or operation.

(2) The processor shall not apply any preference rating assigned by (b) (2) above if, in view of the current rate of consumption of his inventory or stores for repair and maintenance or operation, the delivery of the material to be rated would increase his inventory or stores above the minimum permitted or provided in paragraph (e) below.

(3) The processor shall not apply any preference rating hereunder unless the material to be delivered cannot be secured when required without such rating.

(4) The processor may apply the rating only to those quantities and kinds of materials necessary to enable him to maintain his processing schedules up to the end of the calendar year 1943.

(d) *Application of preference rating.* (1) A processor or any supplier, in order to apply or extend the preference ratings assigned hereunder shall comply with Priorities Regulation No. 3, as it may be amended from time to time.

(2) If preference rating AA-2X is applied for emergency maintenance or repair, the processor must, immediately upon placing his order for such material, telegraph to the War Production Board the following with respect to such order:

(i) The name and address of the supplier,

(ii) Brief statement of what necessitated application of rating for emergency maintenance and repair,

(iii) A specific description of the material included in the order, and

(iv) The invoice cost of each item of such material.

(3) If the material is required for replacement, the processor shall not apply

---

preference rating AA-3, unless he shall have communicated with the War Production Board, describing the material needed and the nature of the proposed replacement, and shall have received from the Director General for Operations a specific authorization to apply such rating, notwithstanding the fact that, prior to November 12, 1942, he may have been authorized to apply a lower rating under this order. Such application for authorization may be made by a written statement on Form PD-414 or, in any emergency, by telegram giving substantially the information called for by said Form PD-414.

(e) *Inventory provisions.* A processor shall not accept deliveries (whether rated hereunder or not) of material for repair and maintenance or operation which will increase the inventory or stores available to the processor for such purposes to an amount greater than the minimum necessary for repair and maintenance and to sustain the current level of operations of the processor, and the ratio of such inventory and stores to current operations shall in no event exceed the ratio of average inventory to average operation for the years 1938, 1939, and 1940.

(f) *Records.* In addition to the records required to be kept under Priorities Regulation 1, a processor placing any purchase order or contract rated hereunder shall retain, for a period of two years, for inspection by representatives of the War Production Board, endorsed copies of all such purchase orders or contracts, whether accepted or rejected, segregated from all other purchase orders or contracts or filed in such a manner that they can be readily segregated for such inspection.

(g) *Reports.* Each processor who applies a preference rating hereunder shall file such reports as may be required from time to time by the War Production Board; and until further notice, any processor who applies a preference rating hereunder for "emergency maintenance or repair" under paragraph (b) (1) or for "repair, maintenance or operation" under paragraph (b) (2), shall file with the War Production Board within 10 days after the end of each quarter Form PD-413. The first such report shall be filed for the full quarter ending December 31, 1942.

(h) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Food Branch, Washington, D. C.—Ref.: P-118.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or accepting further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(j) *Revocation or amendment.* This order may be revoked or amended at any time as to any processor or any supplier. In the event of revocation, deliveries already rated pursuant to this order shall be completed in accordance with said rating, unless the rating has been specifically revoked with respect thereto. No additional applications of the rating to any other deliveries shall thereafter be made by the processor or supplier affected by such revocation.

(k) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 3039—MANUFACTURED GAS

[Amendment 1 to Limitation Order L-174]

1. Paragraph (c) of Limitation Order L-174[1] is hereby amended to read as follows:

(c) *Limitations on deliveries of manufactured gas.* (1) In the event of a gas shortage in any area, each utility supplying such area shall reduce deliveries to consumers in accordance with the following schedule and with such further directions as the Director General for Operations may, from time to time, issue: *Provided*, That to the extent, if any, required by the emergency nature of the shortage, such utility may in the first instance reduce deliveries without regard to such schedules, but shall as soon as possible thereafter readjust its operations and deliveries to confirm in all respects to such schedule during the continuance of the gas shortage.

(i) First, the utility shall, within the limits of its contractual rights, reduce deliveries to all consumers purchasing manufactured gas under contracts permitting the supplier to interrupt deliveries: *Provided*, That deliveries of gas necessary for the maintenance of the war production and essential civilian services listed in Exhibit A, as the same may be amended from time to time, shall be reduced only to the extent that the fuel requirements for such production and services can be supplied from the consumer's standby facilities.

(ii) Second, the utility shall without regard to its contractual rights or those of any consumer, reduce deliveries to all consumers who have standby facilities to the extent to which the operation of such facilities can directly or indirectly alleviate the shortage of manufactured gas in the area.

(iii) Third, the utility shall to the extent necessary, reduce deliveries to all commercial and industrial consumers except to the extent that such deliveries are necessary for the maintenance of the war production and essential civilian service listed in Exhibit A or to prevent permanent damage to the production facilities of such consumers. Such reductions shall be made insofar as practicable on a uniform proportionate basis.

(iv) Fourth, if after effectuating the reduction in deliveries of gas required by or pursuant to the foregoing provisions of this paragraph, it becomes necessary to curtail deliveries of gas for the maintenance of the war production and essential civilian service listed in Exhibit A, the utility shall insofar as practicable reduce such deliveries on a uniform proportionate basis.

(2) The Director General for Operations may issue such directions with respect to reductions in deliveries to residential consumers as may be necessary to alleviate gas shortages.

(3) The Director General for Operations may require any utility to file a specific curtailment schedule listing consumers proposed to be curtailed and the order of their curtailment during gas shortages and may issue such directions with respect thereto as may be necessary to assure compliance with the provisions of this paragraph (c).

(4) Whenever, pursuant to paragraph (c) (1) or (c) (2) above or any directions issued thereunder, any utility is obliged to reduce deliveries to any consumer, such utility shall so inform each consumer to be curtailed, and each such consumer shall, upon such notification, reduce his acceptance of deliveries of manufactured gas in accordance with such notification.

(5) Whenever any utility finds it necessary to reduce deliveries, pursuant to this paragraph (c), such utility shall immediately notify the Power Branch of the War Production Board, Ref.: L-174, of such curtailment by telegram. Following each such curtailment, the utility shall submit to the Power Branch a detailed report of the duration of curtailment and the extent to which deliveries to such consumers were curtailed. Such report shall be filed on Form PD-628.

2. Paragraph (d) of Limitation Order L-174 is hereby amended to read as follows:

(d) *Restrictions upon deliveries to consumers other than domestic consumers.* No utility shall deliver manufactured gas to any consumer, other than a domestic consumer, for the operation of any gas-fired equipment (including space-heating equipment) which was not installed (or if converted from some other fuel, such conversion was not completed) at the same premises prior to September 1, 1942, unless:

(1) Such equipment is non-space heating equipment and has an aggregate input capacity of less than 150 cubic feet per hour.

(2) Such equipment replaces similar type gas-fired equipment of equal or greater capacity previously installed or operated by the same consumer at the same premises for the same purposes, or

(3) Such deliveries are specifically approved in advance by the Director General for Operations. Any consumer or utility which considers that such deliveries are necessary for war production or the operation of an essential civilian service may apply for such approval to the Director General for Operations.

No person shall install gas-fired equipment designed to receive deliveries of manufactured gas from any utility if such deliveries are prohibited by this paragraph.

3. Paragraph (e) is hereby amended to read as follows:

(e) *Restrictions upon deliveries to domestic consumers for space heating.* Except where otherwise directed by the Director General for Operations, no utility shall deliver to any domestic consumer and no such consumer shall accept deliveries of manufactured gas for the operation of any space-heating equipment unless such equipment:

(1) Was installed (or if converted from some other fuel to manufactured gas, such conversion was completed) at the same premises prior to September 1, 1942, or

(2) Replaces similar type space-heating equipment of equal or greater capacity previously installed or operated at the same premises whether by the same or by another consumer, or

(3) Was installed prior to November 15, 1942, in a new building, and such equipment was specified in the construction contract, and the foundation under the main part of the structure in which the equipment is to be installed was completed prior to September 1, 1942.

No person shall install space-heating equipment designed to receive deliveries of manufactured gas from any utility if such deliveries are prohibited by this paragraph.

4. Paragraph (f) of Limitation Order L-174 is hereby amended by adding the following subparagraph (3):

(3) Applications by all consumers for exemption from the space-heating restrictions of this order shall be made on Form PD-673. Applications by non-residential consumers for exemption from the restrictions on deliveries for non-space heating purposes shall be made on Form PD-672.

5. Exhibit A is hereby amended to read as follows:

PART 3102—NATIONAL EMERGENCY SPECIFICATIONS FOR STEEL PRODUCTS

[Schedule 3 to Limitation Order L-211]

BARBED WIRE, WIRE FENCE, POULTRY NETTING AND POULTRY FLOORING

§ 3102.4 *Schedule 3 to Limitation Order L-211*[1]—(a) *Restrictions on barbed wire.* (1) No person shall produce, fabricate or deliver barbed wire except two point barbed wire of 14 gauge strands and 16 gauge barbs, the spacing of the barbs to be not less than 4 inches.

(2) No person shall supply barbed wire except on 80 rod spools.

(b) *Restrictions on wire fence, poultry netting and poultry flooring.* No person shall produce, fabricate or deliver woven or welded wire fence, poultry netting or poultry flooring, except in the styles, specifications and in the size of rolls set forth in List 1 attached hereto.

(c) *Restrictions on use of copper.* No person shall add any copper to steel to be used in the production of wire for fabrication of barbed wire, woven or welded wire fence, poultry netting or poultry flooring.

(d) *Restrictions on galvanizing.* No person shall apply any zinc coating to barbed wire, or woven or welded wire fence, except in accordance with Federal Specification QQ-W-461, Table IV, Weight A, issued June 16, 1941.

(e) *Acceptance of delivery.* No person shall accept delivery of material produced, fabricated or delivered in violation of the provisions of paragraphs (a), (b), (c) or (d).

(f) *General exceptions.* The provisions of paragraphs (a), (b), (c), (d) and (e) shall not apply to material:

(1) The production, fabrication, delivery or acceptance of which is specifically permitted by the Director General for Operations, or

(2) Which has been produced or fabricated before the issuance date of this schedule, or which before such date has been processed in such manner and to such extent that processing to conform to such provisions would be impracticable, or

(3) To be purchased by or for the account of any of the following, to the extent that such material is called for by the specifications applicable to the contract, subcontract, or purchase order:

(i) The Army or Navy of the United States, The United States Maritime Commission, and the War Shipping Administration;

(ii) The government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom, including its Dominions, Crown Colonies and Protectorates, and Yugoslovia;

(iii) The government of any country listed above, or any other country, including those in the Western Hemisphere, where the contract or purchase order is placed by any agency of the United States Government, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(g) *Exception to restrictions on size of rolls.* The restrictions as to size of rolls contained in paragraphs (a) and (b) shall not be applicable to deliveries on preference ratings assigned by the Board of Economic Warfare, deliveries on Lend-Lease orders, or to deliveries by any person to the ultimate consumer.

(h) *Records.* Each producer or fabricator owning or possessing material excepted by the provisions of paragraphs (f)(1) and (2) shall retain records of such material available for inspection by duly authorized representatives of the War Production Board.

Chapter XI—Office of Price Administration

PART 1302—ALUMINUM

[RPS 2,[1] Amendment 4]

ALUMINUM SCRAP AND SECONDARY ALUMINUM INGOT

A statement of the considerations involved in the issuance of this Amendment is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1302.14 and paragraph (b) of § 1302.15 are amended as set forth below:

§ 1302.14 *Appendix A: Maximum prices for aluminum scrap*—(a) *Schedule of prices.* * * *

Grade of aluminum scrap	Column I	Column II	Column III
	Maximum price (cents per pound) for shipment at one time of less than 1,000 pounds	Maximum price (cents per pound) for shipment at one time of 1,000 to 20,000 pounds	Maximum price (cents per pound) for shipment at one time of 20,000 pounds or more
(1) Plant scrap, segregated:			
2S solids	10	11	11½
All other solids	9½	10½	11
Borings and turnings	7½	8½	9
(2) Plant scrap, mixed:			
All solids	8½	9½	10
Borings and turnings	6½	7½	8
(3) Obsolete scrap:			
Pure cable	10	11	11½
Old sheet and utensils	8½	9½	10
Old castings and forgings	9	9½	10
Pistons free of struts	9	9½	10
Pistons with struts	7	7½	8

(4) *Drosses, skimmings, grindings, sweepings, sawings and spatters:*	
Containing 15 per cent or more by weight of metallic aluminum, as determined by fire assay	8 cents per pound of metallic aluminum contained, as determined by fire assay, irrespective of quantity.
Containing less than 15 per cent by weight of metallic aluminum, as determined by fire assay	1.2 cents per pound of material irrespective of aluminum content and irrespective of quantity.

* * * * *

NOTE 3: *Quantity differentials.* The requisite quantities for which premiums are provided in Columns II and III, above, may consist of various grades of aluminum scrap, but other metals may not be included for the purpose of making up such quantities. In computing the weight necessary to obtain a quantity differential the actual weight of the material at the point of shipment, as determined by the public carrier, or as certified to and accepted by the public carrier, or as certified by a public weigher, is to be used. If the weight of the material at the point of shipment is not determined by any of the methods herein specified the actual weight of the material at the buyer's receiving point shall be used.

* * * * *

NOTE 5: *Premiums for special preparation.* Upon the sale of segregated solid aluminum plant scrap of any of the wrought aluminum or s-type alloys, except 2s and 3s, to any person designated as a "producer" by the Director of Priorities, War Production Board, the following premiums may be charged, demanded, paid or offered:

	Cent per pound
If such scrap is baled or packaged, suitable for briquetting	½
If such scrap is briquetted, or in large pieces too heavy to briquette	1

Except as provided herein, the maximum prices established for aluminum scrap by this Revised Price Schedule No. 2, as amended, shall not be increased by any charge or payment for special preparation.

* * * * *

(b) *Delivery charges.* (1) If aluminum scrap is delivered to the buyer's receiving point by a public (common or contract) carrier, the maximum delivery charge which may be added to the established maximum price f. o. b. point of shipment shall be the actual transportation charge made by such carrier: *Provided,* That if the quantity differentials set forth in Column III are paid, and if the quantity shipped, as determined in accordance with Note 3 in § 1302.14 (a), is less than the minimum quantity, as set forth in the tariffs of the railroad, upon which the lowest carload rate from the point of shipment to the buyer's receiving point is based, the maximum delivery charge which may be added to such maximum price shall be an amount calculated at the lowest carload rate on the basis of the actual weight of material so determined.

* * * * *

§ 1302.15 *Appendix B: Maximum prices for secondary aluminum ingot.* * * *

(b) * * * *Quantity differentials.* Except as hereinafter provided, the maximum prices established above are applicable if secondary aluminum ingot is sold or delivered in quantities of 30,000 pounds or more. The following premiums may be charged, in addition to the maximum prices set forth above, for the quantities specified:

Quantity	*Premium (cents per pound)*
10,000 to 30,000 pounds	¼
1,000 to 10,000 pounds	½
Less than 1,000 pounds	1

In determining whether the quantity differentials herein provided are applicable, the quantity sold or the quantity delivered to one buyer at one time, whichever is larger shall be used in all cases, and regardless of the fact that such sale or shipment may be composed of different alloys: *Provided,* That if the quantity sold exceeds the amount which the buyer is authorized by the War Production Board to receive in any allocation period, the amount which the buyer is so authorized to receive may be used instead of the quantity sold.

* * * * *

§ 1302.13a *Effective dates of amendments.* * * *

(e) Amendment No. 4 to Revised Price Schedule No. 2 as amended (§§ 1302.14 and 1302.15(b)) shall become effective November 16, 1942.

(Pub. Law 421, 77th Cong. and Pub. Law 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[Rationing Order 2A,[1] Amendment 19]

NEW PASSENGER AUTOMOBILE RATIONING REGULATIONS

A rationale for the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In § 1360.310 new paragraphs (l), (m) and (n) are added; a new § 1360.364 is added; § 1360.363 (a) and § 1360.372 (h) are amended as set forth below:

Definitions

§ 1360.310 *Definitions.* * * * (l) "Taxicab" means any passenger automobile operated by a taxi driver in the call and demand transportation of passengers for compensation to and from points chosen or designated by the passenger, and not operated on a fixed schedule, between fixed termini, or over scheduled routes.

(m) "Taxi driver" means an individual to whom a license permit, or other grant of authority has been issued by a government agency authorizing him to engage in the transportation of passengers by taxicab and includes an individual who, in good faith, was so engaged on September 1, 1942 in a community where no such license, permit or other grant of authority was required.

(n) "Taxicab rental company" means any person regularly engaged in the business of leasing taxicabs to taxi drivers.

Transfers without Certificates

§ 1360.363 *Procedure for transfers under §§ 1360.361 and 1360.362*—(a) *Documents required.* Any person receiving a transfer made pursuant to §§ 1360.361 or 1360.362 shall fill out and execute in quadruplicate Form R-203 (Revised) issued by the Office of Price Administration giving the information required by the Form and obtaining the necessary supporting statement required on the form. The transferor, upon delivery of the automobile, shall retain for himself one copy of Form R-203 (Revised).

* * * * *

§ 1360.364 *Persons eligible to lease for use as a taxicab.* A taxi driver may lease a new passenger automobile from a taxicab rental company if such automobile

(a) is licensed by the taxicab rental company for use as a taxicab; and

(b) will be operated by the lessee exclusively as a taxicab either

(1) in the locality designated by the lessor in his application Form R-213 for a certificate pursuant to which such automobile was acquired by him; or

(2) in any other case in the locality customarily serviced by taxicabs licensed by the lessor; or

(3) in any other area in which the Office of Defense Transportation has authorized the operation of such taxicab.

(c) This section provides only for the lease of a new passenger automobile for use as a taxicab and does not otherwise authorize a transfer of such new passenger automobile.

Persons Eligible to Acquire New Passenger Automobiles by Transfer With Certificates

§ 1360.372 *Eligibility classification.* * * *

(h) Persons, including taxicab rental companies, who require new passenger automobiles to replace taxicabs owned by them and operated pursuant to Certificates of War Necessity issued by the Office of Defense Transportation but no longer adequate for such use, or to provide such additional taxicabs as may be authorized by special or general permits issued by the Office of Defense Transportation.

(1) An applicant described in this paragraph may obtain a certificate if he submits with his application

(i) the Certificate of War Necessity for the taxicab to be replaced, or if the application is for an additional taxicab, a special or general permit issued by the Office of Defense Transportation authorizing such addition; and

(ii) a signed statement that he has complied with all the applicable Orders of the Office of Defense Transportation and that the new passenger automobile will be used exclusively in the manner specified by the Office of Defense Transportation in its regulation of taxicabs and taxi service.

(2) A certificate may not be granted under this paragraph for a new passenger automobile which will be operated as a rent-a-car or will be otherwise leased or rented for private use rather than for use as a taxicab.

Effective Dates

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Ration Order 11,[1] Amendment 3]

FUEL OIL RATIONING REGULATIONS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Every reference in Ration Order No. 11 to Class 4, 5 or 6 coupon sheets is hereby amended to read "Class 3 coupon sheets"; in § 1394.5603 the phrase "November 1, 1942" is amended to read "November 23, 1942"; a new § 1394.5270 is added; a new paragraph (j) is added to § 1394.5801; a new paragraph (c) is added to § 1394.5902; and paragraph (b) of § 1394.5604, paragraph (b) of § 1394.5653 and subparagraph (5) of paragraph (b) of § 1394.5655 are amended as set forth below:

Heat and Hot Water Rations

§ 1394.5270 *Rations for space heaters in premises other than private dwellings: special cases.* Notwithstanding the provisions of paragraph (c) of § 1394.5261:

(a) The allowable ration for heating residential premises other than a private dwelling by means of a space heater may, at the option of the applicant be determined in accordance with subparagraph (3) of paragraph (a) and paragraph (b) of § 1394.5256, where the certifications required by § 1394.5253 cannot, for good cause, be obtained.

(b) The allowable ration for furnishing domestic hot water to such premises, by means of a space heater may, at the option of the applicant, be determined in accordance with provisions of § 1394.5259, where the certifications required by § 1394.5253 cannot, for good cause, be obtained.

(c) Application for a ration pursuant to this section shall be made on Form OPA R-1100. The applicant shall supply the information required by that form, except that he need not supply the certifications required by paragraph (b) of § 1394.5255 or paragraph (b) of § 1394.5260.

Restrictions on Use of Rations and Fuel Oil

§ 1394.5604 *Redemption of coupon notes.* * * *

(b) Within thirty (30) days after the effective date of this Ration Order No. 11, every person who executed a coupon note pursuant to Limitation Order L-56, as amended (or who was required to execute such a note by the provisions of that order), shall surrender to the person to whom the note was given (or was required to be given) coupons or other evidences, or Delivery Receipts, acquired by such person in accordance with the provisions of Ration Order No. 11, equal in gallonage value to the number of gallons for which such notes were executed (or required): *Provided,* That a primary supplier need not so surrender evidences in connection with transfers of fuel oil from another primary supplier. At the time of such surrender, the person to whom the coupons, evidences or delivery receipts are surrendered shall make the entries required by § 1394.5653 or § 1394.5655, as the case may be.

Restrictions on Transfers to and by Consumers

§ 1394.5653. *Transfers to consumers in exchange for coupons.* * * *

(b) The transferor must require presentation of the coupon sheet at the time of the transfer and must, at such time, detach therefrom coupons equal in gallonage value to the amount of fuel oil transferred, except that if delivery is made in the absence of the transferee or his agent, or by common or contract carrier or pipeline, the transferee shall, within seventy-two (72) hours after such transfer, forward the coupon sheet to the transferor and the transferor shall detach therefrom coupons equal in gallonage value to the amount of fuel oil transferred. After detaching such coupons, the transferor shall return the coupon sheet to the transferee.

§ 1394.5655 *Transfers to consumers in exchange for acknowledgments of delivery and delivery receipts.*

(b) * * * (5) At the time of transfer, both the transferee and the transferor shall sign the Delivery Receipt, after entering thereon the date of the transfer and the amount of residual oil transferred. The transferor shall then enter such date and amount on the Delivery Receipt stub; he shall thereupon deduct the amount of the transfer from the balance shown on such stub and shall enter the new balance both on that stub and on the stub attached to the Delivery Receipt (if any) bearing the next higher serial number. Both the transferor and the transferee shall then certify as to the accuracy of the entries made by signing the stub. The receipt shall then be detached by the transferor and the stub retained by the transferee. Where delivery of residual oil is made in the absence of the transferee or his agent, or by common or contract carrier or pipeline, the transferee shall, within seventy-two (72) hours after such transfer, execute a Delivery Receipt in the manner required above and forward it to the transferor with its stub attached, for the certification and entries hereinabove required; the transferor shall make such entries, detach the receipt and return the stub to the transferee.

Prohibitions

§ 1394.5801 *Prohibitions.* * * *

(j) No person shall, in any application, record, report, certificate or other document made pursuant to or required by the terms of Ration Order No. 11, make any untrue statement of any fact, or omit to state any fact required to be stated therein or necessary to make the statements therein not misleading.

§ 1394.5902 *Effective date of corrections and amendments.* * * *

(c) Amendment No. 3 (§ 1394.5270, 1394.5603, 1394.5604 (b), 1394.5653 (b), 1394.5655 (b) (5), 1394.5801 (j)) to Ration Order No. 11 shall become effective on November 14, 1942.

(Pub. Law 671, 76th Cong., 3d sess., as amended by Pub. Law 89, 77th Cong., 1st sess., and by Pub. Law 507, 77th Cong., 2d sess.; Pub. Law 421, 77th Cong., 2d sess.; W.P.B. Directive No. 1, 7 F.R. 562, Supp. Directive No. 1-0, 7 F.R. 8418; Executive Order No. 9125, 7 F.R. 2719)

PART 1499—COMMODITIES AND SERVICES

[Order 89 Under § 1499.18 (b) of GMPR]

STAYNER CORPORATION

Order 89 Under § 1499.18 (b) of the General Maximum Price Regulation—Docket No. GF3-2162.

For the reasons set forth in an opinion issued simultaneously herewith *It is ordered:*

§ 1499.889 *Adjustment of maximum prices for sales of Stayner Citrates and Carbonates manufactured by Stayner Corporation.* (a) The maximum prices for the sale of Stayner Citrates and Carbonates by Stayner Corporation, 805 Allston Way, Berkeley, California, shall be the prices set forth below:

Sales in 4 ounce containers—$2.50 per dozen units.

Sales in 8 ounce containers—$3.60 per dozen units.

Sales in 16 ounce containers—$6.00 per dozen units.

(b) All discounts, trade practices, and practices relating to the payment of shipping charges in effect in March 1942, on the sale by Stayner Corporation of Stayner Citrates and Carbonates shall apply to the maximum prices set forth in paragraph (a).

(c) The Stayner Corporation, with the first sale of Stayner Citrates and Carbonates to each purchaser after the issuance of this order, shall send a written notification to such purchaser in the following form:

> The Office of Price Administration has permitted us to raise our maximum price for sales to you of Stayner Citrates and Carbonates from $________ to $________ (insert the appropriate figures according to the type of sale being made). This amount represents only that part of cost increases which we were unable to absorb and it was granted with the understanding that wholesale and retail prices would not be raised. The OPA has not permitted you or any other seller to raise maximum prices for sales of Stayner Citrates and Carbonates.

(d) This Order No. 89 may be revoked or amended by the Price Administrator at any time.

(e) This Order No. 89 (§ 1499.889) is hereby incorporated as a section of Supplementary Regulation No. 14 which contains modifications of maximum prices established by § 1499.2.

(f) This Order No. 89 (§ 1499.889) shall become effective November 11, 1942.

Correction

PART 1428—SPONGES AND CHAMOIS

[MPR 267]

SPONGES

In the judgment of the Price Administrator the prices of sponges have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of sponges prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The maximum prices established herein are not below the average price of sponges in the year 1941.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and in accordance with Revised Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 267 is hereby issued.

AUTHORITY: §§ 1428.1 to 1428.14, inclusive, issued under Pub. Laws 421 and 729, 77th Cong., E.O. 9250, 7 F.R. 7871.

§ 1428.1 *Prohibition against dealing in sponges at prices above the maximum.* On and after December 1, 1942, regardless of any contract, agreement, or other obligation, no packer, or agent or other person acting on behalf, or under the control, of such packer shall sell or deliver any sponges, and no person in the course of trade or business shall buy or receive from a packer any sponges at prices higher than those set forth in Appendix A hereof, incorporated herein as § 1428.13; and no distributor, or agent or other person acting on behalf, or under the control, of such distributor shall sell or deliver any sponges, and no person in the course of trade or business shall buy or receive from a distributor any sponges at prices higher than those set forth in Appendix B hereof, incorporated herein as § 1428.14; and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of sponges to a purchaser, if prior to December 1, 1942, such sponges have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1428.2 *Conditional agreements.* No packer or distributor of sponges shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1428.13 or § 1428.14, in the event that this Maximum Price Regulation No. 267 is amended or is determined by a court to be invalid or upon any other contingency: *Provided,* That if a petition for amendment has been duly filed, and such petition requires extensive consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment.

§ 1428.3 *Export sales.* The maximum price at which a person may export sponges shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[2] issued by the Office of Price Administration.

§ 1428.4 *Less than maximum prices.* Lower prices than those set forth in § 1428.13 or § 1428.14 may be charged, demanded, paid, or offered.

§ 1428.5 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 267 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to sponges, alone or in conjunction with any other commodity or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying agreement or other trade understanding or by changing the selection, sorting, or grading or the style of trimming or of packaging sponges.

§ 1428.6 *Records and reports.* (a) Every person subject to this regulation who sold during 1941 any sponges other than Rock Island wool sponges, yellow sponges, or Florida grass sponges, or any sponge trimmings, sewn sponges, sponge bags, or other articles designed to serve the same purpose as sponges of which the principal ingredient in value consists of sponges or parts of sponges, shall file with the Office of Price Administration, Washington, D. C., on or before December 1, 1942, a sworn statement listing and describing any such commodities sold and setting forth the average price charged for each such commodity delivered during 1941 to purchasers of the same class.

(b) Every person subject to this regulation making a purchase or sale of sponges in the course of trade or business, or otherwise dealing therein, after November 30, 1942, shall keep for inspection by the Office of Price Administration for so long a time as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records of each such purchase or sale, showing the date thereof, the name and address of the buyer and of the seller, the price contracted for or received, the quantity and a description of the type, grade, and size or count of sponges.

(c) Such persons shall submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraphs (a) and (b) of this section as the Office of Price Administration may from time to time require.

§ 1428.7 *Licensing; applicability of the registration and licensing provisions of the General Maximum Price Regulation.* The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation[3] are applicable to every distributor of sponges and to every packer who sells sponges to any jobber of sponges or to any retailer of sponges.

§ 1428.8 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 267 are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 267 or any price schedule, regulation, or order issued by the Office of Price Administration or any act or practices which constitute such a violation are urged to communicate with the nearest district, state, field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1428.9 *Petitions for amendment or exception.* (a) Persons seeking modification of any provision of this Maximum Price Regulation No. 267 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

(b) Any distributor of sponges may, within a period of three months after the effective date of this regulation, file a petition for exception from the provisions of paragraphs (b) or (c) of § 1428.14, in the event that those paragraphs fail to reflect his differential pricing practices for different classes of purchasers. Such petition shall be filed in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration, and shall state that the petitioner's treatment of different classes of purchasers does not conform in substance with the differential pricing practices incorporated in paragraphs (b) or (c) of § 1428.14 and shall set forth the petitioner's system of price differentials in sufficient detail and with sufficient precision to permit segregation of customers into the classes recognized by petitioner and the application to each purchaser of the appropriate differential pricing arrangement so that the maximum price which may be charged such purchaser can be computed from the base price specified in paragraph (a) of § 1428.14. If, from the petition or from further evidence furnished in support thereof upon request, it appears that a difference in fact exists between petitioner's differential pricing practices and those incorporated in paragraphs (b) or (c) of § 1428.14, the Office of Price Administration shall enter an order excepting the petitioner from the operation of those paragraphs and permitting the petitioner to charge to different classes of purchases differential prices which shall be related to the base prices specified in paragraph (a) of § 1428.14 in substantial conformity with the petitioner's own prior practices respecting differential pricing.

§ 1428.10 *Applicability of General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 267 supersede the provisions of the General Maximum Price Regulation, except as provided in § 1428.14 hereof, with respect to sales and deliveries for which maximum prices are established by this regulation.

§ 1428.11 *Definitions.* (a) When used in this Maximum Price Regulation No. 267 the term:

(1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, legal successor, or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Sponge" means the skeleton of any marine animal of the genera *Spongia, Euspongia,* or *Hippospongia,* cleaned and processed in such manner as to be commercially saleable. Unless the context otherwise requires, the term "sponge" when used in this regulation, shall be deemed to include sponge trimmings, sewn sponges, sponge bags, or other articles designed to serve the same purpose as sponges, of which the principal ingredient in value consists of sponges or parts of sponges.

(3) "Packer" means a person who buys sponges on any established sponge exchange and recleans, grades, sorts, trims, and packs them. Every person shall be deemed a packer as to any sponges so acquired and so treated by him, although he handles other sponges as a distributor.

(4) "Distributor" means a person other than a jobber or a retailer, who buys sponges from a packer or from a seller located outside the limits of the continental United States for resale in usual trade channels. No person shall be deemed a distributor as to any sponges bought by him on an established sponge exchange.

(5) "Jobber" means any person who in 1941 was treated by the seller as a jobber, as evidenced by price quotations and business correspondence, and any other person conducting a business of substantially identical character.

(6) "Size group" refers to the practice of classifying and valuing sponges according to the number of sponges per pound. As to each type or grade of sponges, any item of the following series, which is commonly employed in quoting and selling sponges of that grade or class shall be considered a distinct size group: ½, 2s, ⅔, 3s, ¾, 4s, 4/6, 6/8, 8s, 8/10, 10/12, 12s, 12/16, 16/20 and 20/30. Each such symbol refers to the sponge count per pound, *e. g.* 6/8 signifies six to eight sponges to the pound.

(7) "Bale" means a lot, ranging from twenty-five to fifty-five pounds in weight, of sponges corresponding in the bulk to any of the descriptions specified in the right hand column of the table of prices set out in §§ 1428.13 and 1428.14, and being in a single size group, if of a description for which different prices are quoted for different size groups in the table of prices, packed in the manner usual in the trade.

§ 1428.12 *Effective date.* This Maximum Price Regulation No. 267 (§§ 1428.1 to 1428.14, inclusive) shall become effective December 1, 1942.

§ 1428.13 *Appendix A: Maximum packer's prices for sponges.* (a) The prices set forth below are maximum prices per pound for sponges, f. o. b. packing plant. The maximum prices are gross prices for sales to distributors and the seller shall deduct therefrom his customary allowances or discounts related to the quantity of sponges sold or the time of payment.

(b) The maximum prices for sales of sponges by packers to jobbers shall be 120 per centum of the prices specified for each type, size, and grade of sponges in paragraph (a), and the maximum prices for sales of sponges by packers to retailers shall be 130 per centum of the prices specified for each type, size, and grade of sponges in paragraph (a). The seller shall deduct therefrom his customary allowances or discounts related to the quantity of sponges sold or the time of payment.

(c) The maximum prices for sales by packers of types of sponges other than Rock Island wool, yellow, and Florida grass or of sponge trimmings shall be 125 per centum of the average price charged by the seller in 1941 to purchasers of the same class for sponges or trimmings of the same kind, grade, or condition.

§ 1428.14 *Appendix B: Maximum distributor's prices for sponges.* (a) The prices set forth below are maximum prices per pound for sponges, f. o. b. cars at the locality of the distributor's warehouse, when sold in bales. The maximum prices are gross prices and the seller shall deduct therefrom his customary allowances or discounts related to the quantity of sponges sold or the time of payment.

Florida Grass, #3								3.40
Florida Grass, #4								1.80

(b) Except where a petition for exception under paragraph (b) of § 1428.9 has been allowed, the maximum prices for sales of sponges by weight in lots of less than a bale shall be the price per pound obtained by adding to the prices specified for each type, size, and grade of sponges, in paragraph (a) of this section, (1) for sales in lots of ten pounds or more of a single type, size, and grade of sponges, fifteen cents per pound, or (2) for sales in lots of less than ten pounds of a single type, size, and grade of sponges, twenty per centum of the price specified in paragraph (a).

(c) Except where a petition for exception under paragraph (b) of § 1428.9 has been allowed, the maximum price for sales of sponges in any case where the contract or order specified the quantity by number rather than by weight shall be:

(1) In case the aggregate weight of the sponges is 10 pounds or less, the price obtained by dividing the price per pound for sponges of that description and size group, computed pursuant to the provisions of paragraph (b), by the "appropriate divisor";

(2) In case the aggregate weight is between 10 pounds and 25 pounds, 107 per centum of the price obtained by dividing the price per pound for sponges of that description and size group, computed pursuant to the provisions of paragraph (b), by the "appropriate divisor";

(3) In case the aggregate weight is 25 pounds or over, 107 per centum of the price obtained by dividing the price per pound for sponges of that description and size group, specified by the provisions of paragraph (a) by the "appropriate divisor."

The "appropriate divisor" shall be:

1½ for sponges in the size group 1/2s, 2½ for sponges in the size group 2/3s, 3½ for sponges in the size group 3/4s, 5 for sponges in the size group 4/6s, 7 for sponges in the size group 6/8s, 9 for sponges in the size group 8/10s, 11 for sponges in the size group 10/12s, 14 for sponges in the size group 12/16s, 18 for sponges in the size group 16/20s, 25 for sponges in the size group 20/30s, and for sponges in the size groups 2s, 3s, 4s, 8s and 12s, 2, 3, 4, 8, and 12 respectively.

(d) The maximum prices for sales by distributors of types of sponges other than Rock Island wool, Florida yellow, and Florida grass or of sponge trimmings, sewn sponges, sponge bags, or other articles designed to serve the same purpose as sponges of which the principal ingredient in value consists of sponges or parts of sponges, shall be 125 per centum of the average price charged in 1941 to purchasers of the same class for sponges, trimmings, or articles made in whole or in part of sponges, of the same kind, grade, or condition.

Issued this 11th day of November 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 90, Amendment 1, Under § 1499.3 (b) of GMPR]

KRAFT CHEESE COMPANY

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

Amended: § 1499.954[1] (a), (b), and (d).

Added: § 1499.954 (g), (h), and (i).

§ 1499.954 *Authorization of maximum prices for sales of Phenix Mushroom Soup, 2 ounce package of dehydrated soup mix, by Kraft Cheese Company of Chicago, Illinois, by authorized distributors and by retailers.* (a) On and after November 12, 1942, the maximum price for sale by Kraft Cheese Company, having its principal place of business in Chicago, Illinois, and by its authorized distributors, of Phenix Mushroom Soup, 2 ounce packages of dehydrated soup mix, shall be the list price of $1.19 per dozen packages to retailers delivered at purchasers' customary receiving points subject to the customary quantity discounts applying to Dainty Noodle Soup.

(b) A seller at retail shall determine his maximum selling price of Phenix Mushroom Soup by adding to his net cost of this product a markup of 33⅓% of his net cost, except that the maximum selling price at retail so determined shall not exceed 13 cents per 2 ounce package. If the price so determined is a fractional cent price and the fraction of a cent is less than one-half of a cent, the price shall be lowered to the next lower cent. If the fraction is one-half cent or larger, the retailer is permitted to increase his maximum price to the next larger cent.

Net cost as used in this paragraph shall be the retailer's invoice cost of Phenix Mushroom Soup based on the purchase of a customary quantity of this type of item delivered at his customary receiving point less all discounts, allowances and free deals, except cash discount for prompt payment. Net cost shall not include unloading charges or charges for local cartage.

* * * * *

(d) Kraft Cheese Company shall distribute or cause to be distributed at the time of or before the initial sale to each retailer purchasing Phenix Mushroom Soup from said company or from authorized distributor or shall print on, include in or securely attach to each shipping case for a period of three months after the initial offering of this product written notice as follows:

> The Office of Price Administration has authorized us and our authorized distributors to sell Phenix Mushroom Soup to retailers at maximum delivered selling prices of $1.19 per dozen 2 ounce packages, subject to customary quantity discounts applying to Dainty Noodle Soup.
>
> As a retailer, you are to determine your maximum selling price of Phenix Mushroom Soup by adding to your net cost of Phenix Mushroom Soup a 33⅓% markup on your net cost. Your maximum selling price so determined cannot exceed 13 cents per 2 ounce package.
>
> Your "net cost" of Phenix Mushroom Soup is described by the Office of Price Administration Order as your invoice cost based on a purchase of a customary quantity of this type of item delivered at your customary receiving point less all discounts, allowances and free deals, except cash discount for prompt payment. Net cost shall not include unloading charges or charges for local cartage.
>
> You are required to keep this notice for examination.

* * * * *

(g) On and after November 12, 1942, the maximum price for sale by Kraft Cheese Company of Phenix Mushroom Soup, shall be the net price to distributors of 95 cents per dozen 2 ounce packages delivered at purchasers' customary receiving points.

PART 1499—COMMODITIES AND SERVICES

[Order 134 Under § 1499.3 (b) of GMPR]

SOUTHERN STATES FOODS, INC.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.997 *Authorization of maximum prices for sales of Saucetti, a spaghetti dinner product packed to include dry spaghetti and a dry tomato sauce mix without cheese, by Southern States Foods, Incorporated, by wholesalers, and by retailers.* (a) On and after November 12, 1942, the maximum prices for sales by Southern States Foods, Incorporated, of Dallas, Texas, of Saucetti shall be:

$1.50 per dozen 7⅓ ounce packages.

These prices shall include prepaid freight to purchasers' stations.

(b) Sellers at wholesale shall determine their maximum delivered selling prices of Saucetti by adding to their net cost of each size a maximum profit margin of 20% of this net cost. The maximum delivered prices so determined shall not exceed $1.80 per dozen 7⅓ ounce packages. Where a maximum price per selling unit determined by the provisions of this paragraph is a fractional cent price and the fraction of a cent is less than one-half cent, the price per selling unit shall be lowered to the next lower cent. If the fraction is one-half cent or larger, the wholesaler is permitted to increase his maximum price per selling unit to the next higher cent.

"Net cost" for a wholesaler as mentioned in this paragraph shall be his invoice price for Saucetti delivered at his customary receiving point, less all discounts allowed him except discount for prompt payment. No charge or cost for unloading or local trucking shall be included in net cost.

(c) Sellers at retail shall determine their maximum selling price of Saucetti by adding to their net cost of each size a maximum profit margin of 33⅓% of this net cost. The maximum prices so determined shall not exceed 20 cents per 7⅓ ounce package. Where a maximum price per package determined by the provisions of this paragraph is a fractional cent price and the fraction of a cent is less than one-half cent, the price per package shall be lowered to the next lower cent. If the fraction is one-half cent or larger, the retailer is permitted to increase his maximum price per package to the next higher cent.

---

[1] 7 F.R. 8286.

"Net cost" for a retailer as mentioned in this paragraph shall be his invoice price for Saucetti delivered to his customary receiving point less all discounts allowed him except the discount for prompt payment. No charge or cost for unloading or local trucking shall be included. Net cost for a retailer shall be based on a purchase of a customary quantity of this type of item from his customary supplier and on the customary mode of transportation.

(d) Wholesalers and retailers shall apply to their maximum selling prices for Saucetti the same discounts, allowances and price differentials which they customarily apply to comparable items of spaghetti dinner, unless a change in these customary discounts, allowances and price differentials results in lower selling prices.

(e) Southern States Foods, Incorporated, shall distribute or cause to be distributed at the time of or before each initial sale to all purchasers from this company of Saucetti written notice as follows:

> The Office of Price Administration has authorized us by order to sell Saucetti for the following maximum prices delivered at purchasers' stations:
>
> $1.80 per dozen 7⅓ ounce packages.
>
> The same Office of Price Administration Order authorizes wholesalers to determine their maximum delivered prices of Saucetti by adding to their net cost of each item a margin of profit of 20% of this net cost. Where a maximum price per selling unit so determined is a fractional cent price and the fraction of a cent is less than one-half cent, the price per selling unit shall be lowered to the next lower cent. If the fraction is one-half cent or larger, the wholesaler is permitted to increase his maximum price per selling unit to the next higher cent. Maximum prices determined by this procedure shall not exceed $1.80 per dozen 7⅓ ounce package.
>
> Wholesaler's net cost shall be his invoice price paid for Saucetti delivered to his customary receiving point less all discounts allowed except discount for prompt payment. No charge or cost for unloading or local trucking shall be included in net cost.
>
> This order also requires us to print on, include in or securely attach to each shipping case of Saucetti for a period of three months after the original offering written notification to sellers at retail notifying them of the method for their determining their maximum selling prices of Saucetti. You, as a wholesaler, are not required to give similar notification to retailers with full shipping case sales. However, you are required on any broken case sales to provide the retailer with a copy of this retailer notification, if such broken case sale is an initial sale.
>
> You are required to keep this notice for examination.

(f) Southern States Foods, Incorporated, shall print on, include in or securely attach to each shipping case of Saucetti for a period of three months after the initial offering of this product written notice as follows:

> The Office of Price Administration has authorized for us and for wholesalers maximum selling prices of Saucetti, per dozen 7⅓ ounce packages.
>
> As a retailer, you are to determine your maximum selling prices of Saucetti by adding to your net cost of each item a margin of profit of 33⅓% of this net cost. Where a maximum price per package so determined is a fractional cent price and the fraction of a cent is less than one-half cent, the price per package shall be lowered to the next lower cent. If the fraction is one-half cent or larger, you are permitted to increase your price per package to the next higher cent.
>
> Your maximum prices so determined shall not exceed 20 cents per 7⅓ ounce package.
>
> Your net cost shall be your invoice price paid for Saucetti delivered to your customary receiving point less all discounts allowed except the discount for prompt payment. No charge or cost for unloading or local trucking shall be included. Your net cost shall be based on a purchase of a customary quantity of this type of item from your customary supplier and on the usual mode of transportation.
>
> You are required to keep this notice for examination.

(g) This Order No. 134 may be revoked or amended by the Price Administrator at any time.

(h) This Order No. 134 (§ 1499.997) shall become effective as of November 12, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

PART 1499—COMMODITIES AND SERVICES

[Order 135 Under § 1499.3 (b) of GMPR]

GEORGE A. BREON & CO.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.998 *Approval of maximum prices for sales of doxychol tablets by George A. Breon & Company.* (a) On and after November 12, 1942, George A. Breon & Company, a corporation having its principal place of business in Kansas City, Missouri, may sell and deliver doxychol tablets and any person may buy doxychol tablets from George A. Breon & Company, at prices no higher than those hereinafter set forth:

Size of package	*Maximum price per package*
Bottle of 100 tablets	$3.00
Bottle of 500 tablets	13.25
Bottle of 1,000 tablets	23.00

(b) George A. Breon & Company shall apply to the maximum prices set forth in paragraph (a) for its sales of doxychol tablets all quantity differentials, discounts for purchasers of different classes, trade practices, credit terms, practices relating to the payment of transportation costs, and any other customary discounts or allowances which were in effect in March, 1942, on its sales of dehydrocholic acid tablets.

(c) When used in this Order No. 135, the term:

(1) "Doxychol tablets" means a compressed tablet for medicinal use which contains three grains of dehydrocholic acid and one grain of desoxycholic acid.

(2) "Dehydrocholic acid tablets" means a compressed tablet for medical use which contains three and three-quarters grains of dehydrocholic acid.

(d) This Order No. 135 may be revoked or amended by the Price Administrator at any time.

(e) This Order No. 135 (§ 1499.998) shall become effective on November 12, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

PART 1499—COMMODITIES AND SERVICES

[Order 136 Under § 1499.3 (b) of GMPR]

SPERRY FLOUR COMPANY

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.999 *Authorization of a maximum price for sales of the 46 ounce rigid package of "Sperry Wheat Hearts", a farina type hot cereal with 20% added purified wheat germ, by Sperry Flour Company, Western Division of General Mills, Incorporated.* (a) On and after November 12, 1942, the maximum price for sale by Sperry Flour Company, Western Division of General Mills, Incorporated, having its principal place of business in San Francisco, California, of the 46 ounce rigid package of "Sperry Wheat Hearts", a farina type hot cereal with 20% added purified wheat germ, shall be $3.55 per case of twelve packages, delivered to purchasers' stations.

(b) A seller at wholesale shall determine his maximum selling price for the 46 ounce rigid package of "Sperry Wheat Hearts" by adding to his net cost of this item a mark-up of 8% of that net cost. The maximum price so determined shall not exceed $3.83 per case of 12 46 ounce packages. Where the maximum selling price per case so determined results in a fractional cent price and the fraction of a cent is less than one-half of a cent, the price shall be lowered to the next lower cent. If the fraction is one-half cent or larger, the seller is permitted to increase his maximum price to the next higher cent.

"Net cost" as used in this paragraph shall be a wholesaler's invoice cost of "Sperry Wheat Hearts" in the 46 ounce rigid package delivered at his customary receiving point, less all discounts, allowances and free deals except cash discount for prompt payment. Net cost shall not include the cost for unloading or local trucking.

(c) A seller at retail shall determine his maximum selling price of "Sperry Wheat Hearts" in the 46 ounce rigid package by adding to his net cost of this product a mark-up of 22% of his net cost. The maximum selling price so determined shall not exceed 39 cents per package. Where the maximum selling price per case so determined results in a fractional cent price and the fraction of a cent is less than one-half of a cent, the price shall be lowered to the next lower cent. If the fraction is one-half cent or larger, the seller is permitted to increase his maximum price to the next higher cent.

"Net cost" as used in this paragraph shall be the retailer's invoice cost of "Sperry Wheat Hearts" in the 46 ounce rigid package delivered at his customary receiving point in a customary quantity of this type of item from a customary supplier and on the usual mode of transportation. He shall deduct from invoice cost all discounts, allowances and free deals except the discount for prompt payment. Net cost shall not include the cost for unloading or local trucking.

(d) No seller shall change his customary allowances, discounts or other price differentials applying to the prices of other packages of "Sperry Wheat Hearts" when making sales of the new 46 ounce size of "Sperry Wheat Hearts" unless such change shall result in a lower price.

(e) Sperry Flour Company before, or at the time of their first delivery to any wholesaler of "Sperry Wheat Hearts" in the 46 ounce package shall supply to such wholesaler a written statement as follows:

> The Office of Price Administration has authorized a maximum delivered selling price of $3.55 per case of 12 46 ounce rigid packages of "Sperry Wheat Hearts". You are authorized to establish your ceiling price per case of this item by multiplying your net cost by 1.08% (7.41% of the selling price).
>
> We have included with each shipping case of "Sperry Wheat Hearts" in the 46 ounce rigid package a notice to retailers indicating the method for determining their maximum selling prices. If your initial sale of this item to any retailer is a spilt case sale, you are required to provide such retailer with a copy of the retailer notice.
>
> Your net cost as a wholesaler shall be your invoice cost of "Sperry Wheat Hearts" in the 46 ounce rigid package delivered at your customary receiving point, less all discounts, allowances and free deals except cash discount for prompt payment. Net cost shall not include the cost for unloading or local trucking.
>
> The Office of Price Administration requires that you keep this notice for examination.

(f) The Sperry Flour Company shall, before or at the time of the first delivery to a retailer, supply to such retailer, or shall for a period of three months after the effective date of this order, include in or securely attach to each shipping case a written statement as follows:

> The Office of Price Administration has authorized a maximum selling price for "Sperry Wheat Hearts" in the 46 ounce rigid package, packed 12 to a case. You are authorized to establish your ceiling price per package of this 46 ounce rigid package of "Sperry Wheat Hearts" by multiplying your net cost by 1.22% (18.03% of the selling price).
>
> Your net cost as a retailer shall be your invoice cost of "Sperry Wheat Hearts" in the 46 ounce rigid package delivered at your customary receiving point in a customary quantity of this type of item from a customary supplier and on the usual mode of transportation. You shall deduct from invoice cost all discounts, allowances and free deals except the discount for prompt payment. Net cost shall not include the cost for unloading or local trucking.
>
> The Office of Price Administration requires that you keep this notice for examination.

(g) This Order No. 136 may be revoked or amended by the Price Administrator at any time.

(h) This Order No. 136 (§ 1499.999) shall become effective as of November 12, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

PART 1499—COMMODITIES AND SERVICES

[Order 137 Under § 1499.3 (b) of GMPR]

STANLEY CHEMICAL COMPANY

The Stanley Chemical Company of East Berlin, Connecticut, has made application under § 1499.3 (b) of the General Maximum Price Regulation for specific authorization to determine maximum prices for "Haydenite Base Coat No. 66K-2156A and No. 66K-2214A" and "Haydenite Finish Coat No. 66K-2157A and No. 66K-2215A," respectively. Due consideration has been given to the application, and an opinion has been issued simultaneously herewith and filed with the Division of the Federal Register. For the reasons set forth in the opinion and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, *It is ordered:*

§ 1499.1000 *Approval of maximum prices for Haydenite Base Coats and Haydenite Finish Coats manufactured by Stanley Chemical Company.* (a) On and after November 12, 1942, Stanley Chemical Company may sell and deliver and offer for sale or delivery and any person may buy the following products at prices not in excess of those hereinafter set forth:

	Per gallon
Haydenite Base Coat No. 66K-2156A delivered, containers included	$2.75
Haydenite Base Coat No. 66K-2214A delivered, containers included	2.53
Haydenite Finish Coat No. 66K-2157A delivered, containers included	2.50
Haydenite Finish Coat No. 66K-2215A delivered, containers included	2.80

(b) Prices set forth above shall be subject to terms by the seller thereof which are no less favorable than those which were in effect during March 1942 with respect to sales of Stanley Chemical Company Base Coat 66K-2100A and Stanley Chemical Company Finish Coat 66K-2089A respectively.

(c) This Order No. 137 may be revoked or amended by the Price Administrator at any time.

(d) This Order No. 137 (§ 1499.1000) shall become effective November 12, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 11th day of November 1942.

PART 1305—ADMINISTRATION

[Supp. Order 9,[1] Am. 1]

COMMODITIES OR SERVICES UNDER GOVERNMENT CONTRACT OR SUB-CONTRACT APPLICATIONS FOR ADJUSTMENT OF MAXIMUM PRICES

A statement of the consideration involved in the issuance of this amendment has been prepared and filed with the Division of the Federal Register.*

Section 1305.12 is amended to read as follows:

§ 1305.12 *Applications for adjustment of maximum prices for commodities or services under Government contract or sub-contract.* * * *

(b) "Price regulation," as used in this supplementary order, means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation heretofore or hereafter issued by the Office of Price Administration, or any amendment or supplement thereto or order heretofore or hereafter issued thereunder, but does not include any of the following price regulations: Nos. 2, 3, 4, 8, 12, 20, 30, 47, 55, 70, 87, 90, 115, 123, 171.

(c) *Effective dates.* * * *

(2) This Amendment No. 1 to Supplementary Order No. 9 (§ 1305.12 (b)) shall become effective November 14, 1942.

(Pub. Laws 421 and 729, 77th Cong; E.O. 9250, 7 F.R. 7871)

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPERS AND PAPER PRODUCTS

[MPR 187,[2] Amendment 1]

CERTAIN PAPERBOARD PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The first sentence of the preamble, paragraphs (a) and (c) (3) of § 1347.401, paragraph (b) of § 1347.406, paragraphs (a) (8) (i), (ii), (iii) and (a) (16) of § 1347.412 are amended; a new paragraph (d) is added to § 1347.401, a proviso is added to paragraph (b) of § 1347.401, and a new § 1347.415 is added.

In the judgment of the Price Administrator the prices of folding cartons, corrugated fibre sheets, corrugated fibre boxes, solid fibre sheets, solid fibre boxes, set-up boxes, pads, partitions and other paperboard products partially or completely manufactured on the same converting equipment, rectangular set-up and flat Pure-Pak milk bottles, and wedge shaped pails formed on a Brightwood or similar type machine, but excluding liquid-tight containers, milk bottle caps, book matches and other commodities covered by Maximum Price Regulation No. 129[2] have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942.

[2] 7 F.R. 5780.

* * * * *

§ 1347.401 *Prohibition against dealing in paperboard products above maximum prices.* * * *

(a) *Classifications.* This Maximum Price Regulation No. 187 shall apply to the following described products whether partially or completely manufactured: Folding cartons, corrugated fibre sheets, corrugated fibre boxes, solid fibre sheets, solid fibre boxes, set-up boxes, pads, partitions and other paperboard products manufactured on the same converting equipment, rectangular set-up and flat Pure-Pak milk bottles, and wedge shaped pails formed on a Brightwood or similar type machine, but excluding liquid-tight containers, milk bottle caps, book matches and other commodities covered by Maximum Price Regulation No. 129.

(b) * * * *Provided,* That on or after November 17, 1942, a manufacturer may sell or deliver products listed in paragraph (a) of this section which were sold during the period October 1 to October 31, 1941, at prices based upon a price list which was published or circulated to the trade or to the manufacturer's salesmen, at maximum prices not in excess of those established in paragraph (d) of this section.

(c) * * *

(3) *Margin.* An item for a margin over the raw material cost and applicable conversion charges (*i. e.,* sub-paragraph (1) plus sub-paragraph (2)) computed on the same percentage basis, or on the same rate per unit of material, or on a combination thereof and by the same method as the seller employed in pricing the most nearly comparable commodity or service sold, supplied or offered for sale during October 1941, to a "purchaser of the same class" as defined in § 1347.412, paragraph (a) (16) of this regulation. If during October 1941, the seller employed the practice of including his charges for margin in his hourly and piece rates for hand and machine operations, he shall continue such practice in pricing any commodity or service under this section, and in such a case the seller shall make no duplicate calculation for margin under this sub-paragraph (3). This margin shall not exceed the margin used by the manufacturer during the period from October 1, 1941 to October 31, 1941, inclusive, in determining the selling price f. o. b. shipping point for:

(i) The same commodity or service contracted to be sold at a definite price to a purchaser of the same class during such period; or, if the manufacturer did not contract to sell the same commodity or service to a purchaser of the same class during such period.

(ii) The comparable commodity or service contracted to be sold at a definite price to a purchaser of the same class during such period; or, if the manufacturer did not contract to sell any comparable commodity or service at a definite price to a purchaser of the same class during such period.

(iii) The margin shall be computed by using the margin employed by the manufacturer in determining the selling price for the same or comparable commodity or service contracted to be sold at a definite price to a purchaser of a different class during such period, adjusted to reflect the manufacturer's customary differential between the two classes of purchasers.

(iv) No seller shall change his customary allowances, discounts or other price differentials unless such change results in a lower price.

(d) Notwithstanding the previous paragraph (c) of this section, the manufacturer may establish his maximum price in accordance with the procedure stated herein for any product which is listed in paragraph (a) of this section and which was sold during the period October 1 to October 31, 1941 at prices based upon a price list which was published or circulated to the trade or to the manufacturer's salesmen. Such maximum price shall be the price at which such products were offered for sale in such published or circulated price lists as were in effect for sales made during the period October 1 to October 31, 1941. *Provided,* (i) That if such price list is used by the manufacturer to establish his maximum price it must be used in its entirety and for all products listed on such price list; (ii) that no price based upon such price list shall be charged unless and until duplicate copies of such price lists have been filed with the Office of Price Administration, Washington, D. C. and with the regional office nearest to the manufacturer's place of business; and (iii) that the prices established by such price list shall be subject to nonretroactive disapproval or adjustment by letter of the Office of Price Administration.

* * * * *

§ 1347.406 *Base period records.* * * *

(b) Within 21 days after July 29, 1942, the manufacturer shall file under oath with the Office of Price Administration, Washington, D. C., the pricing formulae including hourly hand and/or machine and/or piece rates, or rates per thousand units and/or per thousand square feet of base material, and set up charges used in estimating conversion charges, and a complete range of margins, as employed by the manufacturer during the period from October 1, 1941 to October 31, 1941, inclusive, in determining selling prices on commodities or services contracted to be sold or supplied at a definite price during such period.

* * * * *

§ 1347.412 *Definitions and explanations.* (a) * * *

(8) *"Hourly, piece and setting-up rates".* (i) "Hourly rates" means the righest rate per hour for labor, machine, machine overhead, and other manufacturing expenses as established for estimating purposes during the period from October 1 to October 31, 1941.

(ii) "Piece rates" means the highest rate per numerical unit for labor, machine, machine overhead and other manufacturing expenses as established for estimating purposes during the period from October 1 to October 31, 1941.

(iii) "Setting up rates" means the highest rate of the preparation of a machine for a particular conversion operation including such procedures as adjustment of feeding and receiving devices, installation of proper printing plates, cutting knives or creasing bars, and cleaning the machine after the completion of the conversion operation as established for estimating purposes during the period from October 1 to October 31, 1941.

* * * * *

(16) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for commodities or services for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or under different conditions of sale. Customary differentials in discounts on price list goods or in margins on goods priced according to the formula established herein shall be among the criteria which establish differences among classes of purchasers.

§ 1347.415 *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1347.401 (a), (c) (3) (i), (ii), (iii), (iv), (d), 1347.406 (b), 1347.412 (a) (8) (i), (ii), (iii) and (a) (16) and 1347.415) to Maximum Price Regulation 187 shall become effective November 17, 1942.

§ 1410.71 *Maximum prices for raw and processed wool waste materials.* * * *

(a) *Raw wool waste materials.* * * *

(2) (i) The maximum price for any type, kind, classification or grade of raw wool waste material not enumerated in Tables I to VI, inclusive, of Appendix A, incorporated herein as § 1410.80, shall be a price in line with the maximum price set forth in Tables I to VI, inclusive, for the nearest related type, kind, classification, and grade (including color and percentage of wool content) of raw wool waste material. The term "in line with," as used in this subparagraph (2), means having a justifiable relation to the maximum price with commensurate decreases or increases to give effect to actual differences in the type, kind, classification, grade, condition and quality of the materials.

(ii) In the event that a person has in stock or on contract 500 pounds or more of a raw wool waste material, the maximum price for which is determined pursuant to this subparagraph (2), such person shall, within 5 days after making his first sale of any part thereof, submit a request for the approval of the maximum price therefor to the Office of Price Administration, Washington, D. C. Such request for approval shall be accompanied by a sample and a description of such raw wool waste material and of the nearest related type, kind, classification and grade (including color and percentage of wool content) of raw wool waste material, the maximum price for which is set forth in the applicable table in § 1410.80. *Provided,* That if the maximum price approved by the Office of Price Administration is lower than the price at which the raw wool waste material was sold, the seller shall within 10 days after the approval of such maximum price refund to the purchaser the amount by which such selling price exceeded the approved maximum price.

(b) *Processed wool waste materials.* (1) Except as provided in subparagraph (2) the maximum price for processed wool waste materials shall be the aggregate of:

(i) The prices actually paid by the seller for the constituent raw materials, not including dyes, chemicals, oil or similar substances: *Provided,* That the prices for the constituent raw wool waste materials do not exceed the applicable maximum prices for such materials set forth in the Tables of § 1410.80, and

(ii) The applicable processing margin as defined in and subject to the provisions of § 1410.78 (a) (5); *Provided,* That no amount may be added to the prices actually paid by the seller for raw wool waste materials enumerated in Tables IV, V and VI, inclusive, of § 1410.80, for blending such materials.

(2) The maximum price for processed wool waste materials subjected only to any one or a combination of more than one of the special processing services set forth in Appendix B, incorporated herein as § 1410.81 shall be the aggregate of:

(i) The maximum prices for the constituent raw materials set forth in the applicable Tables of § 1410.80; and

(ii) The applicable maximum charges set forth in § 1410.81:

(3) Every person making a sale of processed wool waste materials in the course of trade or business or otherwise dealing therein, after April 27, 1942, shall deliver to the purchaser an invoice or similar document which shall show, in addition to the other items specifically required in this Maximum Price Regulation No. 123: (i) the quantity of the processed wool waste materials shipped or delivered and the price contracted for, received or paid therefor; (ii) the aggregate quantity of and the aggregate price paid by the seller for, the raw wool waste materials in the processed product so sold; (iii) an itemization of each of the processing services actually performed by the seller, or for his account and (iv) the applicable processing margin or the maximum charges set forth in § 1410.81 for the processing services performed.

(c) *Export sales.* The maximum prices for export sales of raw or processed wool waste materials sold by an exporter shall be determined in accordance with the Revised Maximum Export Regulation[2] issued by the Office of Price Administration.

§ 1410.71a *Maximum prices for processed wool waste materials which cannot be priced under § 1410.71.* The seller's maximum price for any processed wool waste material which cannot be priced under § 1410.71 of this Maximum Price Regulation No. 123, shall be a price in line with the level of maximum prices established by this Maximum Price Regulation No. 123, determined by the seller after specific authorization from the Office of Price Administration. A person who seeks an authorization to determine a maximum price under the provisions of this § 1410.81 shall file with the Office of Price Administration in Washington, D. C., an application setting forth (a) a description in detail of the processed wool waste material for which a maximum price is sought, together with a sample thereof and (b) a statement of the reasons why the maximum price for such processed raw wool waste material cannot be determined under the provisions of § 1410.71. Such authorization will be given in the form of an order prescribing the method by which the applicant shall determine the maximum price for such processed wool waste material.

§ 1410.78 *Definitions.* (a) When used in this Maximum Price Regulation No. 123, the term:

(2) "Raw wool waste materials" includes the types, kinds, classifications and grades of wool waste materials, enumerated in Tables I through VI, inclusive, of Appendix A hereof (§ 1410.80), regardless of the system of manufacture on which the waste materials were produced, as well as all related types, kinds, classifications and grades of raw wool waste materials, except those covered by other regulations and price schedules issued by the Office of Price Administration. The term is applicable to both domestic and imported raw wool waste materials.

(3) "Processing" includes any one or a combination of more than one of the following processes: blending, dusting, lumping, carding, shredding, garnetting, carbonizing, cutting, scouring, washing, stripping, dyeing, picking, sterilizing, burr picking and neutralizing. The term shall also include sorting when done in combination with any one or more of the aforementioned processes, other than sterilizing, burr picking or neutralizing.

(4) "Processed wool waste materials" means raw wool waste materials, whether or not in combination with wool or other fibers, which have been subjected to any one or a combination of more than one of the processes enumerated in subparagraph (3), and shall include raw wool waste materials subjected to any one or a combination of more than one of the special processing services for which maximum charges are established in § 1410.81. Without limiting the generality of the above definitions, processed wool waste materials include both "reused wool" and "reprocessed wool" as those terms are defined in the Wool Products Labeling Act of 1939. The term shall not include imported processed wool waste materials.

PART 1340—FUEL

[MPR 137,[1] Amendment 12]

PETROLEUM PRODUCTS SOLD AT RETAIL

A statement of the considerations involved in the issuance of this Amendment is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 1340.82 is amended to read as set forth below:

§ 1340.82 *Federal and state taxes.* Any tax upon or incident to the sale, delivery, processing, or use of petroleum products, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such petroleum products and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during March, 1942.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during March, 1942, the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller, may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining his maximum price under this Maximum Price Regulation No. 137.

(2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of the tax paid by any prior vendor and separately stated and collected, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 137.

(b) *As to a tax or increase in a tax which becomes effective after March 31, 1942.* If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased: *Provided, however,* That in the case of the increase in the federal excise on lubricating oils provided by the Revenue Act of 1942, effective November 1, 1942, a seller of motor lubricating oil subject to this Maximum Price Regulation No. 137 who separately states the amount of such increase and who actually pays the amount of such increase or an amount equal thereto paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, may collect in addition to the maximum price, an additional sum as follows:

On each sale of five quarts or less, one cent; on each sale of more than five quarts, the total amount of the increase, adjusted to the nearest cent.

PART 1347—PAPER, PAPER PRODUCTS AND RAW MATERIALS FOR PAPER AND PAPER PRODUCTS

[MPR 266]

CERTAIN TISSUE PAPER PRODUCTS

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for certain tissue paper products by a separate Maximum Price Regulation. The Price Administrator has ascertained and given due consideration to the prices of certain tissue paper products prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Revised Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 266 is hereby issued.

AUTHORITY: §§ 1347.501 to 1347.516, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.

§ 1347.501 *Prohibition against dealing in toilet tissue and paper towels at prices above the maximum prices.* On and after November 26, 1942, regardless of any contract, agreement or other obligation, no person shall sell or deliver any toilet tissue or paper towels, and no person in the course of trade or business shall buy or receive any toilet tissue or paper towels at prices higher than those set forth in Appendices A and B hereof, incorporated herein as § 1347.515 and § 1347.516; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of toilet tissue or paper towels to a purchaser, if, prior to November 26, 1942, such toilet tissue and paper towels have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

The basic pricing provisions of this Regulation, for different types of sellers, are as follows:

Toilet paper

For manufacturers	§ 1347.515 (a) and (b).
For distributors	§ 1347.515 (c).
For retailers	§ 1347.515 (d).

Paper towels

For manufacturers	§ 1347.516 (a) and (b).
For distributors	§ 1347.516 (c).
For retailers	§ 1347.516 (d).

§ 1347.502 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1347.503 *Export sales.* The maximum prices at which a person may export tissue products covered by this Maximum Price Regulation No. 266 shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation[2] issued by the Office of Price Administration.

§ 1347.504 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 266 may be charged, demanded, paid or offered.

§ 1347.505 *Federal and State taxes.* Any tax upon, or incident to, the sale or delivery of tissue products covered by this Maximum Price Regulation No. 266, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto.

(a) As to a tax in effect prior to October 15, 1941, (1) if the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during October 1–15 1941 the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 266. (2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately, from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount or tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 266.

(b) As to a tax or increase in a tax which becomes effective after October 15, 1941, if the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum prices, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1347.506 *Applicability of the General Maximum Price Regulation.*[3] The provisions of this Maximum Price Regulation No. 266 supersede the provisions of the General Maximum Price Regulation in respect to sales and deliveries of tissue products for which maximum prices are established by this Maximum Price Regulation No. 266.

§ 1347.507 *Evasion.* The price limitations established by this Maximum Price Regulation No. 266 shall not, directly or indirectly, be circumvented or evaded by modifying, discontinuing, or altering any customary trade practice of the seller, or by increasing terms for the extension of credit, or by splitting orders, or by deteriorating the quality of any commodity, or by changing the selection or style of processing or the wrapping, or packaging of tissue products covered by this Maximum Price Regulation No. 266, or by any other means.

§ 1347.508 *Records and reports.* (a) Every person, except retailers, making sales or purchases of toilet tissue and paper towels in the course of trade or business after November 25, 1942, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records of each such purchase or sale showing the date thereof, the name and address of the purchaser or seller, the price received, and the amount of toilet tissue and paper towels in each case bought or sold.

(b) Within twenty-one (21) days after the effective date of this regulation, each manufacturer shall file under oath with the Office of Price Administration, Washington, D. C., the maximum price established by the Regulation for each product or grade which he manufactures, setting forth for each such product or grade the manner in which such maximum price has been determined. In the case of a product or grade wherein the manufacturer determines his maximum price under the provisions of § 1347.515 (a) (1) (iii), §1347.515 (b) (6), § 1347.516 (a) (1) (iii), and/or § 1347.516 (b) (6), establishing the maximum price at 95% of the highest carload price which he charged for such product or grade during the period of October 1 to 15, 1941, he shall state the maximum price charged for such product or grade between October 1 and 15, 1941, indicating the calculation and the resulting maximum price.

In the case of a product or grade wherein the manufacturer determines his maximum price by the formula set forth in § 1347.515 (a) (1) or § 1347.516 (a) (1), he shall state for each such product or grade the furnish, sheet size, sheet count, method of handling freight, and other relevant factors, indicating the calculation and the resulting maximum price.

(c) Where a manufacturer applies under § 1347.515 (b) (3) or § 1347.516 (b) (2) for approval of a price on shipments of other than carload lots to one consignee, he shall define the practice employed, together with a statement of the date upon which the practice was instituted and the reason therefor; including the costs involved in such practice during the year 1941 and the current year. Such application must be made within 21 days of the effective date of this regulation.

§ 1347.509 *Licensing.* (a) The provisions of Supplementary Order No. 19, licensing distributors of pulp, paper and paper products, are applicable to every distributor selling any commodity for which maximum prices are established by this regulation. The term "distributor" shall include paper merchants, wholesale druggists and wholesale grocers, as those terms are defined in this Regulation.

(b) The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person subject to this Maximum Price Regulation No. 266 selling at retail any commodity covered by this Maximum Price Regulation No. 266. When used in this section, the term "selling at retail" has the definition given to it by § 1347.511 (a) (5) of this Maximum Price Regulation No. 266. Said registration and licensing provisions became effective as to persons selling at retail on May 18, 1942.

§ 1347.510 *Relief for signatories of voluntary agreements.* A manufacturer of any of the commodities covered by this regulation, who at the request of the Price Administrator, has heretofore signed a voluntary agreement, agreeing not to exceed those prices in effect during the period October 1 to October 15, 1941, with respect to such commodities, and who, because of this action, is restrained from using the formula provided in this regulation, for determining his maximum price, because such maximum price would exceed his March, 1942, price, as stipulated in §§ 1347.515 (a) (1) for toilet tissue, and 1347.516 (a) (1) for paper towels, may file a petition to use the price established by the formula or the price of his most nearly competitive seller if that is lower: *Provided*, (1) That it can be established that such manufacturer was a signatory of such voluntary agreement at the request of the Price Administrator, and (2) that the manufacturer establish that the maximum price, as calculated by such formula, is not in excess of the March, 1942 price charged for deliveries of the same or similar commodity by his most nearly competitive seller of the same class. If, within 21 days after the date of the petition, such petition has not been denied by the Office of Price Administration, the manufacturer may sell at such price, subject to non-retroactive adjustment by this Office.

§ 1347.511 *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

§ 1347.512 *Definitions.* (a) When used in this Maximum Price Regulation No. 266, the term:

(1) "Person" includes an individual, corporation, partnership, association, any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof or any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(2) "Manufacturer" includes any person who converts tissue for use as toilet tissue or paper towels.

(3) "Distributor" includes any person, other than a manufacturer or a retailer, the major portion of whose sales are to retailers, industrial and institutional users, or other distributors.

(4) "Wholesale grocer" includes distributors, the major portion of whose sales are to retail grocery stores.

(5) "Retailer" includes all persons, the major portion of whose sales are resale items sold to the ultimate consumer.

(6) "Paper merchant" includes any person other than a retailer, wholesale druggist, or wholesale grocer (as herein defined) who buys any commodity listed in this regulation in any quantity from a manufacturer or other seller and who resells such commodity.

(7) "Wholesale druggist" includes distributors, the major portion of whose sales are to retail drug stores.

(8) "Industrial, institutional and commercial user" includes all users who purchase toilet tissue and paper towels for general use by their employees, inmates, and guests, and do not resell any of these items.

(9) "Most closely competitive seller of the same class." "Seller of the same class" means a seller (1) performing the same function (for example, manufacturing, distributing, retailing, processing, storing, installing, or repairing), (2) of similar type (for example, department store, mail order house, chain store, specialty shop, cut-rate store), (3) dealing in the same type of commodities or services, and (4) selling to the same class of purchaser. A seller's "most closely competitive seller of the same class" shall be a seller of the same class who (a) is selling the same or a similar commodity, and (b) is closely competitive in the sale of such commodities, and (c) is located nearest to the seller.

(10) "Similar". One commodity shall be deemed "similar" to another commodity, if the first has the same use as the second, affords the purchaser fairly equivalent serviceability, and belongs to a type which would ordinarily be sold in the same price line. In determining the similarity of such commodities, differences merely in style or design which do not substantially affect use, or serviceability, or the price line in which such commodities would ordinarily have been sold, shall not be taken into account.

(11) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for commodities or services for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or grades or under different conditions of sale.

(12) "Toilet tissue" includes all tissue papers having a basis weight of 8 to 16 pounds, inclusive, (24 x 36—500), a square inch area per sheet of 16 to 40 inches, inclusive, made from either chemical pulp or mechanical pulp or a combination of the two and designed for toilet use.

(13) "Paper towels" includes all absorbent, creped or embossed papers having a basis weight between 22 and 40 pounds (24 x 36—500), a square inch area per sheet of 80 to 220 inches, made from chemical pulp or mechanical pulp or a combination of the two and designed principally for drying purposes.

(14) "Facial type toilet tissue" includes two ply toilet tissue manufactured on a type of paper machine where paper is creped, and adhering to the dryer with a moisture range not exceeding 10%.

(15) "Wet-strength paper towel" refers to one that has a wet-tensile strength of at least 1.5 pounds per inch width when tested according to TAPPI Method No. T404 M 41 with the tensile load applied ten seconds after the specimen, clamped in the testing machine, has been streaked transversely along a path at least one-quarter inch wide with an excess of water at room temperature, providing the toweling is capable of be-

coming at least 80% saturated[*] when submerged 10 seconds in water at room temperature and provided the ratio of the wet-tensile to the dry-tensile strength is at least 20 percent.

(16) "Basis weight" refers to the weight of a 500 sheet ream of paper 24 x 36 inches per sheet.

(17) "Chemical pulp" refers to the chemical fibre content which must be either virgin chemical fibre or 100% chemical fibre wastepaper properly deinked.

(18) "Zone 1" includes Maine, New Hampshire, Vermont, Massachusetts, Connecticut, New York, New Jersey, Rhode Island, Pennsylvania, Delaware, Maryland, District of Columbia, Virginia, West Virginia, Ohio, Kentucky, Indiana, Michigan, Wisconsin, Illinois, Missouri, Iowa, Minnesota, North Dakota—East of Grand Forks and Fargo, South Dakota—East of and including Watertown and Sioux Falls, Nebraska—East of and including Grand Island and Kansas—East of and including Topeka.

(19) "Zone 2" includes North Carolina, South Carolina, Tennessee, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas, Oklahoma, Texas — except Laredo and El Paso, Kansas—West of Topeka, and Nebraska—West of Grand Island, South Dakota—West of Watertown and Sioux Falls, North Dakota—West of Grand Forks and Fargo.

(20) "Zone 3" includes Arizona, Utah, Nevada—excluding Reno, Idaho—South of Panhandle and East of Boise, Montana, Wyoming, New Mexico, Laredo and El Paso in Texas, Colorado.

(21) "Zone 4" includes Washington, Oregon, California, Reno, Nevada and Idaho (including Boise), except that part of Idaho in Zone 3.

(22) "Case" refers to the shipping container in which toilet tissue or 3750 paper towels are packed.

(23) "Mark-up" refers to that percentage of cost, exclusive of cash discount which is taken to arrive at the selling price.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1347.513 *Applicability.* The provisions of this Maximum Price Regulation No. 266 shall be applicable within the continental limits of the United States.

§ 1347.514 *Effective date.* This Maximum Price Regulation No. 266 (§§ 1347.501 to 1347.516, inclusive) shall become effective November 26, 1942.

§ 1347.515 *Appendix A: Maximum prices for toilet tissue 4½" wide*[1]—(a) *Manufacturers maximum prices for sales on a uniform nationally delivered basis.* Where a manufacturer sells on a uniform nationally delivered basis his maximum prices shall be computed as follows:

(1) *Toilet tissue.*

Basis weight 24 x 36—500 classes[2]	Chemical pulp content[3]		
	100% bleached price factor X	75%-99% price factor Y	Less than 75% price factor Z
1. Less than 11.00	$1.09	$1.05	$1.00
2. 11.0 to 11.99	1.15	1.10	1.05
3. 12.0 to 12.99	1.20	1.15	1.10
4. 13.0 and over	1.26	1.20	1.15

[1] Widths greater than 4½" take a proportionately increased price; widths less than 4½" take a proportionately reduced price.

[2] The classes are established on the weight of a ream of 500 sheets of paper 24" x 36". A manufacturer is permitted a 5% tolerance per case, but in no event can the basis weight vary plus or minus from the stated basis weight by more than 5% on any case.

[3] The groups are established on a basis of chemical pulp content. Products in Group X shall have 100% bleached chemical pulp; products in Group Y shall have 75%-99% chemical pulp; products in Group Z shall have less than 75% chemical pulp.

The maximum basis weight to be used in computing the manufacturer's maximum price shall be either (i) the basis weight ascribed by the manufacturer for the same item from January 1, 1942 to the issuance of this Regulation, or (ii) the actual basis weight of the same item from January 1, 1942 to the issuance of this regulation, whichever is lower. In no case shall the price as calculated above exceed the price which was charged for deliveries during March, 1942. (iii) In the event that the maximum price as calculated above is less than 95% of the highest carload price which was charged, on a uniform nationally delivered basis, by the manufacturer during the period of October 1 to October 15, 1941, the maximum price shall be 95% of such October 1 to 15, 1941 carload price.

The case price shall be computed by multiplying the applicable price factor (derived from column X, Y or Z) by the number of linear inches of paper in the case divided by 100,000, as illustrated below:

$$\frac{\text{Number of Linear Inches in the Case (Length of Sheet x Sheets per Case)}}{100{,}000}$$

(2) *Facial type toilet tissue.* The maximum price for facial type toilet tissue shall be computed in accordance with the provisions of paragraph (a) (1) of this section, except that $0.23 may be added to the price factor in Class 1, Group X. In no event may the price of any facial type toilet tissue exceed the price which was charged by the manufacturer for deliveries during March 1942.

(3) *Special products.* (i) Special small diameter rolls of toilet tissue packaged for use on Pullman cars are excluded from this Maximum Price Regulation No. 266, and are covered by the General Maximum Price Regulation.

(ii) Toilet tissue put up to conform with the new specification for the armed forces in special waterproof envelopes each containing 100 sheets is excluded from this Maximum Price Regulation No. 266, and is covered by the General Maximum Price Regulation.

(b) *Manufacturers' maximum prices for sales not on a uniform nationally delivered basis*—(1) *Zone basis.* Where a manufacturer does not sell on a nationally delivered basis, his maximum prices, which in no event shall exceed the prices charged by the manufacturer for deliveries during March, 1942, shall be computed in accordance with the procedure of paragraph (a) (1) (i) (ii) of this section, with the adjustments as shown in the following table:

Location of manufacturing plant	Point of delivery	Addition to or subtraction from applicable price factor
1. Zone 1	Zone 1	Deduct $0.03
2. Zone 1	Zone 2	Add $0.01
3. Zone 1 Zone 4.	Zone 3	Add $0.03
4. Zone 1	Zone 4	Add $0.03
5. Zone 2 Zone 3. Zone 4.	Anywhere in continental United States (subject to (3) above)	No addition or deduction.

In the event that the maximum prices as calculated in accordance with the provisions of paragraph (b) of this section are less than 95 percent of the highest carload price which was charged by the manufacturer on sales into any particular zone during the period of October 1 to October 15, 1941, the maximum price shall be 95 percent of such October 1 to October 15, 1941, price for sales into the same zone.

(2) *F. o. b. mill basis.* Where shipments to the Army, Navy, or Lend-Lease Administration are made on an F. O. B. mill basis the manufacturer's maximum price, which in no event may exceed the prices charged by the manufacturer for deliveries during March, 1942, shall be computed in accordance with the provisions of paragraph (a) (1) of this section, except that $0.12 must be deducted from the applicable price factor. Freight charges to the point of delivery may be added to the resulting f. o. b. mill price.

(3) *Manufacturers' maximum prices for shipments of other than carload lots to one consignee.* On shipments of other than carload lots to one consignee, the manufacturer may add the established differentials which he had in effect during the period October 1 to October 15, 1941. These differentials may be added to the maximum price established by this Regulation for carload quantities. These differentials may be charged, unless they are disapproved by the Office of Price Administration within 21 days after filing, or an extension thereof specified by the Office of Price Administration. These differentials shall be subject to non-restrictive adjustment by the Price Administrator at any future date. Such differentials shall be reported in accordance with § 1347.508 (c) of this regulation.

[*] $\frac{B-A}{C-A}=80\%$ where A is weight of two single ply specimens each 5 inches square weighed in air dry condition (45 to 50 percent relative humidity). B is weight after being submerged in distilled water at 70 degrees Fahrenheit for 10 seconds and then drained freely for 10 seconds. C is weight after being submerged in distilled water at 70 degrees Fahrenheit for 24 hours and then drained freely for 10 seconds.

(c) *Distributors' maximum prices.* The distributors' maximum price, which in no event may exceed the highest price charged for deliveries during March, 1942, is to be computed by multiplying the manufacturer's maximum price by the lesser of the following amounts: "Highest price charged" shall include an offering price if no sales were made during March 1942.

(1) The highest mark-up[4] which the distributor applied to sales of toilet tissue of a given grade to a purchaser of the same class during March, 1942, or,

(2) On sales by:

	Paper merchants %	Wholesale druggists %	Wholesale grocers %
1. 1 to less than 3 cases	145	120½	117½
2. 3 to less than 10 cases	127½	------	------
3. 10 to less than 25 cases	125	------	------
4. 25 to less than 100 cases	122½	------	------
5. 100 cases to less than C/L	117½	------	------
6. Carload	105	------	------

(3) Paper merchants, wholesale druggists, and wholesale grocers who purchase toilet tissue from other merchants or distributors may not charge a price in excess of the maximum price which would be applicable if the purchase had been made directly at the manufacturer's ceiling price computed in accordance with paragraphs (a), (b) and (c) of this section: *Provided,* That on less-than-case sales by recognized service distributors, a mark-up may be charged not in excess of 165%, and that on less-than-case sales by wholesale druggists and grocers, the mark-up may exceed the mark-ups specified in paragraphs (c) (1) and (c) (2) of this section by an amount not in excess of the differential between one case and less-than-case lots which was charged on deliveries made during March, 1942.

(4) For sales in carload lots involving shipment from the manufacturer to a person purchasing from a merchant or distributor where local delivery by the merchant or distributor from a warehouse or rail siding is required, there may be added to the maximum price established herein the actual delivery expense (except that no rail freight shall be included), which in no event shall exceed the applicable local common carrier rate. Such expense shall be separately noted in the invoice or other evidence of sale.

(5) Where a merchant or distributor supplies cabinets or other fixtures for the dispensing of toilet tissue in connection with the sale of such product, he may make a charge for the sale of such cabinet or fixture at a price not exceeding 150 percent mark-up of the cost to him of such cabinet or fixture.

(6) On sales of less-than-carload lots to points outside his recognized free delivery zones or areas, the merchant or distributor may add to his maximum price the lesser of the following differentials:

(i) The amount which he charged on such sales made during the period of October 1 to October 15, 1941, or, if he made no such sale, the amount which he would have charged on such sales to purchasers of the same class; or

(ii) The actual freight.

(d) *Retailer's maximum prices.* The retailer shall calculate his maximum price for toilet tissue as follows (for unit and multiple sales separately):

(1) *The maximum price rule.* The retailer shall first find his "net cost" of the brand he is pricing. He must then multiply that "net cost" by his "March, 1942 percentage mark-up." The meanings of "net cost" and "March, 1942 percentage mark-up" are explained in (2) and (3) which follow.

(2) *The meaning of "net cost."* "Net cost" as used in the maximum price rule above means the amount the retailer paid for the brand delivered at his customary receiving point, less all discounts and all allowances allowed him, except the discount for prompt payment. "Net cost" should be based on the first sale of such brand of toilet tissue delivered to the retailer in which there has been inserted a copy of this paragraph (d). "Net cost" refers to a customary quantity from a customary supplier and by the customary mode of transportation.
Provided, That if the cost to the retailer of such toilet tissue is adjusted by any amendment issued by this Regulation by the Office of Price Administration, then that cost shall be based on the first case of such toilet tissue delivered to the retailer at prices subject to the amendment.

(3) *The meaning of "March, 1942 percentage mark-up."* The percentage which the retailer shall use as his "March, 1942 percentage mark-up" depends upon whether or not in March, 1942 he sold such brand of toilet tissue:

(i) If the retailer did sell such brand of toilet tissue in March 1942, he shall:

(*a*) Take the highest price at which he made sales of such toilet tissue during March, 1942, and,

(*b*) Divide this price by his "net cost" of such brand which appeared on his last invoice in March, 1942.

The resulting figure is the retailer's "March, 1942 percentage mark-up." This is the figure by which the retailer should multiply his new cost to arrive at his ceiling price.

(ii) If the retailer did not sell such brand of toilet tissue during March, 1942, he shall use his "March, 1942 percentage mark-up," calculated as in (d) (3) above, on the largest volume brand of toilet tissue which he sold during March, 1942.

(4) *Fractions of cents.* If the calculation of a maximum price for a customary unit of sale under this Regulation results in a fraction of less than one-half cent, the maximum price shall be reduced to the nearest lower cent; if the calculation results in a fraction one-half cent or more, it should be increased to the nearest higher cent. Calculations shall be made separately for multiple sales and for unit sales of such products.

(5) *Examples:* A retailer purchases from his supplier a case of X brand of toilet tissue at a net cost of $4.87 in December, 1942. His last March, 1942 purchase of X brand was made at a net cost of $5.00 per case. His highest March, 1942 price was 7 cents per roll. He shall find his ceiling price for X brand toilet tissue as follows:

1. (i) He shall divide 7 cents (his highest March, 1942 retail price) by 5 cents (his last net cost in March, 1942).

```
  1.40
5/7.00
  5
  —
  20
  20
  —
```

The resulting figure of 1.40 is his "March, 1942 percentage mark-up."

(ii) He multiplies $4.87 (his net cost) by 1.40 (his "March, 1942 percentage mark-up").

```
 $4.87
   1.4
 ─────
  1948
  487
 ─────
$6.818
```

(iii) $6.818 per case of 100 rolls or 7 cents per roll is the retailer's ceiling price.

2. Assume that the retailer made his last purchase in March, 1942 of toilet tissue at $4.60 per case. The calculations are as follows:

```
 $4.60
   1.4
 ─────
  1840
  460
 ─────
$6.440
```

The retailer's ceiling price is $6.44 per case of 100 rolls or 6 cents per roll.

3. Assume the retailer's March, 1942 selling price was 3 for 19 cents, the new cost is $4.77, and his last March, 1942 invoice was $5.00. His "March, 1942 percentage mark-up" is calculated as follows:

```
  1.266
5/6.330
  5
  —
  13
  10
  ——
   33
   30
   ——
    30
    30
    —
```

The resulting figure of 1.266 is his "March, 1942 percentage mark-up" over net cost. His ceiling price is determined as follows:

Multiply $4.87 (his net cost) by 1.266 (his "March, 1942 percentage mark-up"). The retailer's ceiling price is 3 for 18 cents or $6.04 per case of 100 rolls.

(e) *Marking of products and notices.* (1) The manufacturer shall plainly mark on each case of toilet tissue the basis weight, the chemical pulp class, sheet and roll count, and sheet size.

---

[4] See definition of mark-up, § 1347.511 (a) (23).

(2) The manufacturer shall insert a copy of paragraph (d) of this section in each case of resale toilet tissue shipped before January 31, 1943, except that no such notice need be inserted in cases already prepared for shipment on the effective date of this regulation. The manufacturer shall also attach to all billings on sales made to distributors before January 31, 1943, paragraph (c) of this section.

On both these notifications, the manufacturers shall add the following statement: "Cessation of this notification will not constitute revocation thereof."

§ 1347.516 *Appendix B: Maximum prices for paper towels*—(a) *Manufacturers' maximum prices for sales on a uniform nationally delivered basis.* Where a manufacturer sells on a uniform nationally delivered basis, his maximum prices shall be as follows:

TOWELS DISPENSED IN SINGLE THICKNESS

(1) Towel area for interfolded towels (sq. in.)	Less than 25# (V)	Basis weight classes [1] 24″ x 36″—500			
		25#-27.9# (W)	28#-33.9# (X)	34#-37.9# (Y)	38# and over (Z)
1. 85 to 108.9	$1.65	$1.85	$2.20	$2.40	$2.50
2. 109 to 119.9	1.80	2.00	2.30	2.55	2.65
3. 120 to 134.9	1.95	2.15	2.45	2.70	2.80
4. 135 to 147.9	2.05	2.25	2.55	2.80	2.90
5. 148 and over	2.15	2.35	2.65	2.90	3.00
6. Household Roll [2]	2.60	2.90	3.30	3.50	3.65

TOWELS DISPENSED IN DOUBLE THICKNESS

7. 70 to 84.9	2.60	2.80	3.25	3.45	3.55
8. 85 to 99.9	2.80	3.00	3.45	3.70	3.80
9. 100 to 109.9	3.00	3.20	3.65	3.95	4.10
10. 110 and over	3.20	3.45	3.90	4.20	4.35

[1] The classes are established on basis weights of 24 x 36—500. A manufacturer is permitted a 5% tolerance per case, but in no event may the basis weight vary plus or minus from the stated basis weight by more than 5% of any case.

[2] The maximum prices for household rolls are for cases of 7,500 towels, 7½″ x 11″. Where the case count or sheet size varies, a directly proportionate adjustment in price shall be made.

These maximum prices are for cases of towels made from furnish containing less than 65% chemical pulp.[5] Where the chemical pulp content is between 65% and 90%, 4% may be added to the case price; where the chemical pulp content is over 90%, 8% may be added to the case price.

The maximum basis weight to be used in computing the manufacturer's maximum price shall be either (i) the basis weight ascribed by the manufacturer for the same item from January 1, 1942 to the issuance of this regulation, or (ii) the actual basis weight of the same item from January 1, 1942 to the issuance of this regulation, whichever is lower. In no case shall the price as calculated above exceed the price which was charged for deliveries during March, 1942. (iii) In the event that the maximum price as calculated above is less than 95% of the highest carload price which was charged on a uniform nationally delivered basis by the manufacturer during the period of October 1 to October 15, 1941, the maximum price shall be 95% of such October 1 to 15, 1941 carload price.

(iv) Where towels are made from 100% chemical pulp, and where the following minimum strength and absorbency tests are met, the maximum price, calculated in accordance with the provisions of paragraphs (a) and (b) of this section, may be exceeded by not more than 65¢ per case.

Delivery from dispenser	Basis weight	Strength [1]	Absorbency [2]
Single	Under 32#	20#	200 seconds.
Single	32#—37#	25#	175 seconds.
Single	38# and over	30#	125 seconds.
Double	Under 32#	40#	20 seconds.
Double	32#—37#	50#	15 seconds.
Double	38# and over	60#	10 seconds.

[1] Pounds per square inch, as measured by the Mullen test.

[2] Seconds required for the absorption of one-half cubic centimeter of water placed on the top of the sheet, according to Bureau of Standards test UU-T-591.

Manufacturer's maximum prices for wet-strength paper towels shall not exceed those in the (X) basis weight class, the group to be determined by the sheet size.

(v) Continuous roll towels take a proportionate price, on an area basis, to household roll towels.

(b) *Manufacturers maximum prices for sales not on a uniform nationally delivered basis.* (1) Where a manufacturer does not sell on a nationally delivered basis, his maximum prices, which in no event may exceed the prices charged for deliveries made during March, 1942, shall be computed in accordance with the procedure of paragraph (a) (1) (i) (ii) of this section, with the adjustments as shown in the following table:

Location of manufacturing plant	Point of delivery	Addition to or subtraction from applicable case price
1. Zone 1	Zone 1	Deduct $0.10
2. Zone 1	Zone 2	Add $0.05
3. Zone 1. Zone 4	Zone 3	Add $0.20
4. Zone 1	Zone 4	Add $0.20
5. Zone 2 Zone 3 Zone 4	Anywhere in continental United States (subject to (3) above).	No addition or deduction.

In the event that the maximum prices as calculated in accordance with the provisions of paragraph (b) of this section are less than 95 percent of the highest carload price which was charged by the manufacturer on sales into any particular zone during the period of October 1 to October 15, 1941, the maximum price shall be 95 percent of such October 1 to October 15, 1941 price for sales into the same zone.

(2) *Manufacturers' maximum prices for shipments of other than carload lots to one consignee.* On shipments of other than carload lots to one consignee, the manufacturer may add the established differentials which he had in effect during the period October 1 to October 15, 1941. These differentials may be added to the maximum price established by this regulation for carload quantities. These differentials may be charged unless they are disapproved by the Office of Price Administration within 21 days after filing, or an extension thereof specified by the Office of Price Administration. These differentials shall be subject to non-retroactive adjustment by the Price Administrator at any future date. Such differentials shall be reported in accordance with § 1347.508 (c) of this regulation.

(c) *Distributors' maximum prices.* The distributor's maximum price, which in no event may exceed the highest price charged for deliveries during March, 1942, is to be computed by multiplying the manufacturers' maximum price by the lesser of the following amounts: "Highest price charged" shall include an offering price if no sales were made during March, 1942.

(1) The highest mark-up[6] which the distributor applied to sales of paper towels of a given grade to a purchaser of the same class during March, 1942. Or,

(2) On sales by:

	Paper merchants %	Wholesale druggists %	Wholesale grocers %
1. 2 cases or less	155	120½	117½
2. 3 to less than 6 cases	140		
3. 6 to less than 25 cases	127½		
4. 25 to less than 200 cases	122½		
5. 200 cases to less than C/L	117½		
6. Carload	105		

(3) Paper merchants, wholesale druggists, and wholesale grocers who purchase toilet tissue from other merchants or distributors may not charge a price in excess of the maximum price which would be applicable if the purchase were made directly from the manufacturer, computed in accordance with paragraphs (a), (b), and (c) of this section: *Provided,* That on less-than-case sales by wholesale druggists and grocers, the mark-up may exceed the mark-ups specified in paragraphs (c) (1) and (c) (2) of this section by an amount not in excess of the differential between one case and less-than-case lots which was charged on deliveries made during March, 1942.

(4) For sales in carload lots involving shipment from the manufacturer to a person purchasing from a merchant or distributor where local delivery by the merchant or distributor from a warehouse or rail siding is required, there may be added to the maximum price established herein the actual delivery expense (except that no rail freight shall be included), which in no event shall exceed the applicable local common carrier rate. Such expense shall be separately noted in the invoice or other evidence of sale.

(5) Where a merchant or distributor supplies cabinets or other fixtures for the disposing of paper towels in connection with the sale of such products, he may make a charge for the sale of such cabinet or fixture at a price not exceeding 150 per cent mark-up of the cost to him of such cabinet or fixture.

(6) On sales of less than carload lots to points outside his recognized free delivery zones or areas, the merchant or distributor may add to his maximum price the lesser of the following differentials:

(i) The amount which he charged during the period of October 1 to October 15, 1941, or, if he made no such sale, the amount which he would have charged on such sales to purchasers of the same class; or

(ii) The actual freight.

(d) *Retailer's maximum prices.* The retailer shall calculate his maximum price for household roll towels as follows: (for unit and multiple sales separately)

(1) *The maximum price rule.* The retailer shall first find his "net cost" of the brand he is pricing. He must then multiply that "net cost" by his "March, 1942 percentage mark-up." The meanings of "net cost" and "March, 1942 percentage mark-up" are explained in (2) and (3) which follow.

(2) *The meaning of "net cost."* "Net cost" as used in the maximum price rule above means the amount the retailer paid for the brand delivered at his customary receiving point, less all discounts and all allowances allowed him, except the discount for prompt payment. "Net cost" should be based on the first sale of such brand of household roll towels delivered to the retailer in which there has been inserted a copy of this paragraph (d); "Net cost" refers to a customary quantity from a customary supplier and by the customary mode of transportation: *Provided,* That if the cost to the retailer of such household roll towels is adjusted by any amendment issued to this regulation by the Office of Price Administration, then that cost shall be based on the first case of such household roll towels delivered to the retailer at prices subject to the amendment.

(3) *The meaning of "March, 1942 percentage mark-up."* The percentage which the retailer shall use as his "March, 1942 percentage mark-up" depends upon whether or not in March, 1942 he sold such brand of household roll towels:

(i) If the retailer did sell such brand of household roll towels in March, 1942, he shall:

(*a*) Take the highest price at which he made sales of such household roll towels during March, 1942, and,

(*b*) Divide this price by his "net cost" of such brand which appeared on his last invoice in March, 1942.

The resulting figure is the retailer's "March, 1942 percentage mark-up." This is the figure by which the retailer should multiply his new cost to arrive at his ceiling price.

(ii) If the retailer did not sell such brand of household roll towels during March, 1942, he shall use his "March, 1942 percentage mark-up" calculated as in (d) (3) above, on the largest volume brand of household roll towels which he sold during March, 1942.

(4) *Fractions of cents.* If the calculation of a maximum price for a customary unit of sale under this Regulation results in a fraction of less than one-half cent, the maximum price shall be reduced to the nearest lower cent; if the calculation results in a fraction one-half cent or more, it should be increased to the nearest higher cent. Calculations shall be made separately for multiple sales and for unit sales of such products.

(5) *Example.* A retailer purchases from his supplier a case of X brand of household roll towels at a net cost of $3.90 in December, 1942. His last March, 1942 purchase of X brand was made at a net cost of $4.20 per case. His highest March, 1942 price was 10 cents per roll. He shall find his ceiling price for X brand of household roll towels as follows:

(i) He shall divide 10 cents (his highest March, 1942 retail price) by 8.4 cents per roll (his last net cost in March, 1942).

```
       1.1905
  8.4 10.000
       84
       ──
       160
        84
       ───
        760
        756
       ────
         400
         420
        ───
```

The resulting figure of 1.19 is his "March, 1942 percentage mark-up."

(ii) He multiplies 7.8 cents (his net cost per roll) by 1.19 (his "March, 1942 percentage mark-up")

```
  $1.19
   .078
 ──────
    952
   833
 ──────
 $.09282
```

(iii) His ceiling price is $.09282 or 9 cents per roll.

(e) *Marking of products and notices.* (1) The manufacturer shall plainly mark on each case of paper towels the basis weight, the chemical pulp class, sheet and roll count, and sheet size, except that cases already prepared for shipment need not be so marked.

(2) The manufacturer shall insert a copy of paragraph (c) of this section in each case of resale paper towels shipped before January 31, 1943, except no such notice need be inserted in cases already prepared for shipment. The manufacturer shall also attach to all billings on sales made to distributors before January 31, 1943, paragraph (c) of this section.

On both these notifications, the manufacturers shall add the following statement: "Cessation of this notification will not constitute revocation thereof."

Issued this 12th day of November 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 68 Under § 1499.18 (b) of GMPR]

STANDARD BRANDS, INC.

Order No. 68 under § 1499.18 (b) of the General Maximum Price Regulation—Docket No. GF3-1192.

For reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.868 *Adjustment of maximum prices for Chase and Sanborn brand coffee sold by Standard Brands, Inc.* (a) Standard Brands, Inc., 595 Madison Avenue, New York, N. Y., may sell and deliver, and any person may buy and receive from Standard Brands, Inc., the following commodities at prices not higher than those set forth below:

(i) Chase and Sanborn brand coffee packed in paper bags of 1 pound each at 28¢ per pound.

(ii) Chase and Sanborn, Inc., shall continue the customary quantity discounts, allowances or any other price differentials existing in March 1942.

(b) Purchasers from Standard Brands, Inc., or from wholesale distributors of Standard Brands products shall in no event charge more for Chase and Sanborn coffee at retail than their maximum prices as determined under paragraph (a) of § 1499.2 of the General Maximum Price Regulation, or as adjusted under any other regulation issued by the Office of Price Administration.

(c) On or after the effective date of the order, before or at the time of, his first delivery to any wholesaler or retailer, Standard Brands, Inc., shall supply a written statement as follows:

> A price increase of one cent per pound on Chase & Sanborn brand coffee has been granted us by the Office of Price Administration. This increase was granted because our March 1942 price was abnormally low in relation to the prices charged by our competitors and the resulting hardship would have made it impossible to continue production. Our new price of 28¢ per pound is subject to all allowances, discounts and trade practices we had in effect in March 1942 with respect to sales of Chase and Sanborn Coffee. Your established ceiling price cannot be increased except that your maximum delivered selling price may be increased to the extent of adjusted mark-ups determined under the provisions of Maximum Price Regulation No. 237 (Adjusted and Fixed Mark-up Regulation for Sales of Certain Food Products at Wholesale) or Maximum Price Regulation #238 (Adjusted and Fixed Mark-up Regulation for Sales of Certain Food Products at Retail).

(d) All prayers of the petition not granted herein are denied.

(e) This Order No. 68 may be revoked or amended by the Price Administrator at any time.

(f) This Order No. 68 is hereby incorporated as a section of Supplementary Regulation No. 14 which contains modifications of maximum prices established by § 1499.2.

(g) This Order No. 68 (§ 1499.868) shall become effective November 12, 1942.

PART 1499—COMMODITIES AND SERVICES

[Amendment 1 to Order 92[1] Under § 1499.3 (b) of GMPR]

KRAFT CHEESE CO.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

Amended: § 1499.956 (a), (b), and (d).
Added: § 1499.956 (g), (h), and (i).

§ 1499.956 *Authorization of maximum prices for sales of Kraft Spaghetti Dinner, a combination of dry spaghetti and a dehydrated sauce mixed with cheese, by Kraft Cheese Company of Chicago, Illinois, by authorized distributors and by retailers.* (a) On and after November 12, 1942, the maximum price for sale by Kraft Cheese Company, having its principal place of business in Chicago, Illinois, and by its authorized distributors, of Kraft Spaghetti Dinner, a combination of dry spaghetti and a dehydrated sauce mixed with cheese, shall be the list prices to retailers delivered at purchasers' customary receiving points as follows:

(1) $1.85 per dozen of 7½ ounce packages in the states of California, Oregon, Washington, Nevada, Idaho, Arizona, Utah, Montana (Billings and West), and Wyoming (Western half).

(2) $1.80 per dozen of 7½ ounce packages in all other states and in the District of Columbia,

subject to the customary quantity discounts applying to Kraft Dinner items.

(b) A seller at retail shall determine his maximum selling price of Kraft Spaghetti Dinner by adding to his net cost of this product a markup of 33⅓% of his net cost, except that the maximum selling price at retail so determined shall not exceed 21¢ per 7½ ounce package in the area described in subparagraph (1) of paragraph (a) above and shall not exceed 20¢ per 7½ ounce package in the area described in subparagraph (2) of paragraph (a) above. If the price so determined is a fractional cent price and the fraction of a cent is less than one-half of a cent, the price shall be lowered to the next lower cent. If the fraction is one-half cent or larger, the retailer is permitted to increase his maximum price to the next larger cent.

Net cost as used in this paragraph shall be the retailer's invoice cost of Kraft Spaghetti Dinner based on the purchase of a customary quantity of this type of item delivered at his customary receiving point less all discounts, allowances, and free deals, except cash discount for prompt payment. Net cost shall not include unloading charges or charges for local cartage.

* * * * *

(d) Kraft Cheese Company shall distribute or cause to be distributed at the time of or before the initial sale to each retailer purchasing Kraft Spaghetti Dinner from said company or from an authorized distributor or shall print on, include in or securely attach to each shipping case for a period of three months after the intial offering of this product written notice as follows:

> The Office of Price Administration has authorized us and our authorized distributors to sell Kraft Spaghetti Dinner to retailers at maximum delivered selling prices of:
>
> $1.85 per dozen of 7½ ounce packages in the states of California, Oregon, Washington, Nevada, Idaho, Arizona, Utah, Montana (Billings and West), and Wyoming (western half),
>
> $1.80 per dozen of 7½ ounce packages in all other states and in the District of Columbia,
>
> subject to customary quantity discounts applying to Kraft Dinner Items.
>
> As a retailer, you are to determine your maximum selling price of Kraft Spaghetti Dinner by adding to your net cost of Kraft Spaghetti Dinner a 33⅓% markup on your net cost. Your maximum selling price so determined cannot exceed 21¢ per 7½ ounce package in the Western territory described above nor can it exceed 20¢ per 7½ ounce package in all other states and in the District of Columbia.
>
> Your "net cost" of Kraft Spaghetti Dinner is described by the Office of Price Administration Order as your invoice cost based on a purchase of a customary quantity of this type of item delivered at your customary receiving point less all discounts, allowances and free deals, except cash discount for prompt payment. Net cost shall not include unloading charges or charges for local cartage.

(g) On and after November 12, 1942, the maximum price for sale by Kraft Cheese Company of Kraft Spaghetti Dinner, shall be the net price to distributors delivered at purchasers' customary receiving points as follows:

(1) $1.54 per dozen of 7½ ounce packages in the states of California, Oregon, Washington, Nevada, Idaho, Arizona, Utah, Montana (Billings and west) and Wyoming (western half).

(2) $1.49 per dozen of 7½ ounce packages in all other states and in the District of Columbia.

(h) Kraft Cheese Company shall mail at the time of, or before each, initial sale to each distributor written notice of its maximum prices and of distributors' maximum prices for sales to retailers.

(i) Amendment No. 1 (§ 1499.956 (a) (b) (d) (g) (h) (i)) to Order No. 92 under § 1499.3 (b) of the General Maximum Price Regulation shall become effective November 12, 1942.

[Order 93 Under § 1499.18 (b) of GMPR]

CHARLES A. BALDWIN & SONS

Order No. 93 under § 1499.18 (b) of the General Maximum Price Regulation—Docket No. GF1-548-P—Charles A. Baldwin & Sons, West Stockbridge, Massachusetts.

For the reasons set forth in an Opinion issued simultaneously herewith, *It is ordered:*

§ 1499.893 *Adjustment of maximum prices for sale of Red Cross Gauze Bandages by Charles A. Baldwin & Sons, of West Stockbridge, Massachusetts.* (a) Charles A. Baldwin & Sons, of West Stockbridge, Massachusetts, may sell and deliver, and any purchaser may buy and receive Red Cross Bandages manufactured by Johnson & Johnson at prices not in excess of those hereinafter set forth:

1 inch x 10 yards at	$0.61
1½ inch x 10 yards at	.90
2 inch x 10 yards at	1.13

(b) All discounts, allowances, practices with regard to charges for transportation and other trade practices in effect with respect to the above listed commodity during March, 1942, by the seller, shall remain in effect under this Order.

(c) Charles A. Baldwin & Sons, of West Stockbridge, Massachusetts, shall until November 30, 1942, send to each retailer purchasing the following Johnson & Johnson Red Cross Gauze Bandages a copy of the following notice:

> The Office of Price Administration has permitted us to raise our maximum prices for the sale to you of Red Cross Gauze Bandages manufactured by Johnson & Johnson as follows:
>
> 1 inch x 10 yards from $.45 to $.61.
> 1½ inch x 10 yards from $.85 to $.90.
> 2 inch x 10 yards from $1.00 to $1.13.
>
> You or any other sellers are not permitted by such order to raise your maximum prices for the sale of such Johnson & Johnson Red Cross Gauze Bandages. If, however, you feel that you are suffering substantial hardship and your maximum prices are abnormally low in relation to the maximum prices established for your most competitive sellers of such products, you may apply to the Office of Price Administration in Washington, D. C., under the provisions of § 1499.18 (a) of the General Maximum Price Regulation prior to November 30, 1942.

(d) This Order No. 93 may be revoked or amended by the Price Administrator at any time.

(e) This Order No. 93 (§ 1499.893) is hereby incorporated as a section of Supplementary Regulation No. 14, which contains modifications of maximum prices established by § 1499.2.

(f) This Order No. 93 (§ 1499.893) shall become effective November 13, 1942.

(Pub. Laws 421 and 729, 77th Cong., E.O. 9250, 7 F.R. 7871)

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 5—ADJUDICATION: DEPENDENTS' CLAIM

PENSIONABLE AND COMPENSABLE SERVICE FOR DEATH PENSION AND COMPENSATION PURPOSES

Sections 5.2548 and 5.2576 are revised.

§ 5.2548 *Death of World War Veteran from disease or injury not the result of military service, who at time of death had a service-connected disability (Public No. 484, 73d Congress, as amended).* No change in (a), (b), (c), (d), (e), (f), (g), and (h).

(i) *Absence for seven years.* On and after June 5, 1942, compensation under Public No. 484, 73d Congress, as amended, may be awarded to persons, otherwise entitled, in instances where the death of the veteran is presumed by applying the provisions of Public No. 591, 77th Congress, relating to the continued and unexplained absence of a person from his home and family for a period of seven years, provided the veteran had a service-connected disability such as would, by its nature, be known to have existed to a degree which would bring it within the provisions of Public No. 484, 73d Congress, as amended, at the time presumption of death arose. The date of death in such cases is the date determined to be the end of the seven year period. (See §§ 5.2518 and 5.2576 (h).) (November 14, 1942) (Pub. No. 591, 77th Cong.)

§ 5.2576 *Public No. 484, 73d Congress, as amended by Public No. 844, 74th Congress, Publics No. 304 and 514, 75th Congress, Public No. 198, 76th Congress, and Section 9, Public No. 866, 76th Congress.* No change in (a), (b), (c), (d), (e), (f), and (g).

(h) Original awards of compensation under Public No. 484, 73d Congress, as amended, predicated upon a finding of continued and unexplained absence of a veteran from his home and family for a period of seven years (Public No. 591, 77th Congress; §§ 5.2518 and 5.2548 (i)), under which it must be borne in mind that the date of death is the date determined to be the end of the seven year period, shall commence:

(1) On June 5, 1942, in those cases where the death of the veteran is determined to have occurred prior to June 5, 1942, and an application was pending on that date or filed on or after that date and within one year following the date of death.

(2) The day following the date of death where the death of the veteran is determined to have occurred on or after June 5, 1942, and application is filed within one year following the date of death.

(3) The date of filing application, if application is not filed within one year from date of death, but in no event prior to June 5, 1942. (November 14, 1942) [Pub. No. 591, 77th Congress]

Previous paragraph (h) relettered (i).

TITLE 46—SHIPPING

Chapter IV—War Shipping Administration

PART 303—CONTRACTS FOR CARRIAGE ON VESSELS OWNED OR CHARTERED BY THE WAR SHIPPING ADMINISTRATION

[General Order 26]

UNIFORM PASSENGER TICKET

Whereas on February 7, 1942, by Executive Order No. 9054 the President of the United States, by virtue of the authority in him vested, established the War Shipping Administration under the direction of the Administrator, to perform, among other functions, control of the operation and use of all ocean vessels under the flag and control of the United States, except (1) combatant vessels of the Army, Navy, and Coast Guard; fleet auxiliaries of the Navy; and transports owned by the Army and Navy; and (2) vessels engaged in coastwise, intercoastal and inland transportation under the control of the Director of the Office of Defense Transportation, and the issuance of such directives concerning shipping operations as he may deem necessary or appropriate; and

Whereas it is deemed necessary and appropriate that in the exercise of the said functions a uniform passenger ticket be used in the operation of all vessels the operation of which is so within the control of the Administrator; *Now, therefore, it is hereby ordered,* That:

Sec.	
303.24	Uniform passenger ticket.
303.25	Size and type of uniform passenger ticket.
303.26	Consent of master required.
303.27	Signature by passengers.
303.28	Special terms and conditions.
303.29	Short form of passenger ticket.
303.30	Approval of other forms of passenger ticket.

AUTHORITY: §§ 303.24 to 303.30, inclusive, issued under E.O. 9054, 7 F.R. 837.

§ 303.24 *Uniform passenger ticket.* All operators of vessels owned by or under bareboat or time charter to or operated by or for the use or account of the United States of America shall, on or before November 15, 1942, on all outbound carriage of passengers from United States ports excluding Alaska, and as soon thereafter as possible on all other such carriages, and on all such subsequent carriages, use or cause to be used only the uniform passenger ticket designated as Warshipticket 11/15/42, which shall be as follows:

By acceptance of this contract ticket, whether or not signed by him or on his behalf, or of passage on the ship, the passenger named herein agrees that the following terms and conditions, which are incorporated herein as part hereof, shall govern the relations between and be binding upon the carrier and the passenger in every possible contingency:

1. "Passenger" includes all persons named in this ticket as passengers; "Carrier" includes the ship, her owner, master, operator, demise charterer, and, if bound hereby, time charterer; "Baggage" includes all kinds of personal effects and property whatsoever of the passenger, whether or not remaining wholly or partly in the custody of the passenger, but does not include any articles such as are described in Clause 20. The rules and regulations and/or charges herein referred to are those promulgated by the carrier or the agent whose name is subscribed hereto and for the time being in force.

2. Passenger shall be bound by and comply with the rules and regulations established from time to time by the carrier or i agent respecting the transportation of passengers and their property, except to the extent, if any, of conflict herewith.

3. This ticket is not transferable. The passenger shall not be entitled to transportation except on production and surrender of this ticket or, in case of loss or theft of the ticket, only upon the furnishing of sufficient indemnity against use of the lost or stolen ticket. If this ticket is not used for the ship and sailing named herein, and the accommodations reserved are not released or canceled to the carrier at least seven days before the scheduled sailing date, it shall be void and the passage money may be retained by the carrier, except to the extent that the accommodations shall be sold to others.

4. The bed, berth or stateroom allocated to the passenger may be changed at the discretion of the carrier or its representative at any time without notice. If accommodations are not available at the rate indicated on this ticket at the time that the passenger presents himself for transportation, the passenger will pay or receive, as the case may be, the difference between the rate already paid and the rate charged for the accommodations actually furnished. The carrier also reserves the right at all times, if the accommodations occupied or to be occupied by the passenger shall be required for any person whose carriage is in the opinion of any officer or agent of the Government of the United States essential to the efficient prosecution of any war in which that Government may be engaged, to require the passenger to vacate such accommodations and to disembark forthwith at any port or place, and the carrier shall not incur any liability of any nature whatsoever by reason of the exercise of the right reserved under this clause.

5. This ticket is good for the agreed ship only, but the carrier in its discretion may substitute another ship, of the same or different ownership, at the port of embarkation or at any other port, and in such case, all terms and conditions hereof, insofar as may be, shall be applicable with respect to the substituted ship.

6. Prior to passenger's embarkation, carrier, with or without notice to the passenger, may abandon the voyage or delay or advance the time of sailing, and in such case carrier shall not be liable for any loss, damage or expense caused thereby, and in no event liable in excess of the price paid for this ticket.

7. After embarkation of passenger and prior to his arrival at final destination, carrier may discontinue service between any ports, or omit any port, in the itinerary, or deviate from the voyage (including going into any port or ports not in the itinerary or putting back into any port or ports of call), if carrier, in its absolute discretion, deems such discontinuance, omission or deviation justified for any reason including, but not limited to, the saving of life or property, getting coal, oil, water or other supplies, actual or apprehended obstructors, riots, strikes of carrier's employees or others, civil commotions, war, health conditions, possibility of quarantine, or any dangerous or unsafe conditions. Carrier shall have no liability by reason of any such discontinuance, omission or deviation, or for any failure to arrive at or depart from any port at scheduled or announced time. The obligations of carrier in any such event shall be as herein expressly provided and not otherwise.

8. If, after embarkation, and prior to arrival of passenger at final destination, the voyage shall be discontinued or the port of final destination omitted from the itinerary for any reason except disaster or misfortune to the ship, carrier may return to the passenger for the unused portion of this ticket, a sum deemed by the carrier to be a fair proportion of the price paid, or by another vessel or by railroad or by air, at the sole risk of the passenger, return the passenger and his baggage to the point of departure or forward to destination, carrier paying the fare therefor, or at passenger's option paying to passenger a sum equal thereto. In event of such discontinuance or omission, by reason of disaster or misfortune to the ship, carrier shall refund to the passenger 50% of the passage money actually paid for carriage hereunder and in no event shall the payment hereunder be less than $25 unless the original fare was less than the sum. If the passage money paid is less than $25 no refund shall be made.

9. Carrier has liberty, without any obligation whatsoever, to comply with any orders or directions as to departure, arrival, routes, ports of call, stoppages, destinations, delivery, loading, embarkation, discharges, disembarkation or otherwise, howsoever given by the government of any nation or any department or agency thereof, or any person acting or purporting to act with the authority of such government or any department or agency thereof, or any committee or person having, under the terms of any war risk insurance which may be on the ship, the right or authority to give such orders or directions.

10. Ship may sail armed or unarmed and with or without convoy, may leave or enter any port with or without pilot, may tow and be towed and assist other ships in all situations and save or attempt to save life or property, and all of the foregoing are included in the contract voyage.

11. Passenger is notified that the ship on the voyage for which this ticket is issued carries dangerous or hazardous articles including but not limited to those so defined by law, and acknowledges due notification of that fact.

12. Passenger assumes all responsibility for obtaining passports, visas, and other documents, including health and vaccination certificates, which are or may be required by governmental or other authorities. If the failure of passenger to obtain any such documents might delay or threaten the delay of the ship, or might be deemed a violation of any rule, order or direction of any governmental or other authority, carrier shall have no further obligation to transport or furnish transportation to passenger, and carrier's sole obligation to passenger shall be to refund the fare paid or an amount deemed by carrier to be a fair proportion of the fare for any unused portion of this ticket.

13. Carrier at all times shall have the right to refuse to transport passenger, or may land or eject passenger at any port of call, at passenger's own expense, in the event of any illness, disease, injury, mental derangement, disorderly or vulgar conduct, or failure or refusal to observe or comply with any regulations which are or may be established on board the ship for the general comfort or safety, which renders or may render passenger unfit to proceed, or is likely to endanger the health or safety of or cause annoyance or discomfort to others on board. If passenger be, or is believed to be, suffering from such physical or mental disqualification, or is otherwise objectionable for the reasons herein mentioned, the passenger may be required to submit to such restrictions on board the ship as in the opinion of the master or other officer in charge may be necessary for the safety and comfort of the passenger and/or other passengers or persons aboard the ship. The master or such other officer shall be the sole judge of such matters, and passenger agrees to accept such judgment as final, and neither the carrier nor the master nor such officer shall be liable for mistakes

in judgment exercised in good faith. In the event of any such refusal to transport passenger, or such landing or ejection of passenger, carrier's sole obligation to passenger shall be to refund the fare paid or a sum deemed by carrier to be a fair proportion of the fare for any unused portion of this ticket, and in either case, less any expenses paid or incurred by the carrier because of the aforesaid conditions or for account of the passenger. The acceptance of passenger for passage shall not constitute a waiver by carrier of any right to object thereafter to any condition or conduct of passenger which would have brought passenger within any of the above classes at time of acceptance for passage.

14. If the vessel carries a surgeon, physician, barber, hairdresser, or manicurist, that is done solely for the convenience of passengers and any such person in dealing with a passenger shall not be considered in any respect as the servant or agent of the carrier and the carrier shall not be liable for any act or omission of such person or those under his or her orders, or assisting him or her with respect to treatment, advice or care of any kind given to any passenger. The surgeon, physician, barber, hairdresser or manicurist shall be entitled to make a proper charge subject to the approval of the master, for any services performed with respect to a passenger and the carrier shall not be concerned otherwise in any way whatsoever in any such arrangement. The carrier shall not be under any obligation to provide the passenger with facilities for medical treatment or care in any case until the master has received notice from the passenger, which shall be in writing, if possible, that medical treatment or care is required and the carrier shall have had an opportunity to provide such facilities.

15. Passenger will pay all port charges, health fees, quarantine dues and charges, and in case of detention by quarantine, no matter for what reason, passenger will bear all risks and expenses thereby incurred. If quartined on ship, passenger will pay daily to carrier for maintenance according to the latter's charges for every day of detention. Passenger agrees that carrier shall have a lien upon all passenger's baggage, and all property of passenger on the ship, for such charges and for all other property charges due carrier from passenger, including but not limited to bar, laundry, excess baggage, telegrams and other items of such nature, and carrier shall have the right to hold and retain such baggage and property until such charges are paid, and if not paid within 60 days after demand, carrier may enforce this lien by public or private sale of such baggage and property.

16. Carrier does not undertake to transport passenger or passenger's baggage between the anchorage and the landing where the landing is not reached by the ship; such transportation by others to be at the passenger's risk and expense and without liability or responsibility on the part of the carrier.

17. Liability of the carrier in any capacity whatsoever under this ticket is limited to the time the passenger and/or passenger's baggage are on board the ship. Carrier acts only as agent for the passenger in arranging any transportation beyond its own line, or in securing accommodations or facilities of any nature on behalf of passenger, and shall have no liability or responsibility therefor. Carrier shall have no obligation to provide care or maintenance for passenger at point of transfer to other carrier or ship.

18. Passenger assumes the risk of, and agrees that carrier shall not be liable for (a) injury, death or delay of or to passenger or (b) loss, damage or delay of or to passenger's baggage, effects or property arising from, caused by or in the judgment of the carrier or master rendered necessary or advisable by reason of any Act of God or public enemies, arrests, restraints of princes, rulers or people, piracy, war, revolution, rebellion, insurrection, civil strife, fire, explosion, collision, stranding, grounding, perils of the sea, rivers, canals, locks or other waters, perils of navigation of any kind, lack of water or passageway in canals, theft, accident to or from machinery, boilers, steam or latent defects even though existing at embarkation or commencement of voyages, barratry, desertion or revolt of crew, seizure of ship by legal process, strike, lockout or labor disturbance whatsoever (whether or not such strike, lockout or labor disturbance results from a dispute between carrier and its employees or between other parties, whether or not the fault of carrier), or from causes of any kind beyond carrier's control, whether or not of like or similar character to the foregoing.

19. The fare for transportation under this ticket is based partly upon limitations and restrictions on the value, amount, and the nature of passenger's baggage, effects and property, and carrier's liability and obligations in respect thereof. Full fares include transportation of baggage not exceeding weights and volumes set forth in carrier's current passenger traffic rules and regulations and additional charge at rates prescribed therein will be payable for any excess. Carrier in no event shall have any liability whatsoever for any baggage, effects, or property consisting of money, jewelry, or other articles of high value mentioned in Title 46, section 181, U. S. Code, unless the same have been delivered to and accepted by carrier for transportation under bill of lading, or have been deposited with purser. Carrier in no event shall have any liability whatsoever for the loss, destruction, theft, embezzlement, delay or damage of or to any passenger's baggage, effects, or property, not shipped under bill of lading, whether deposited or intended for deposit with purser or carried or intended for carriage in baggage rooms, passenger's custody, in excess of $100 for a passenger paying full adult fare or, in the case of a passenger paying less than full adult fare, in excess of a proportion of such sum based on the relation of the fare paid to such full adult fare, which amount it is agreed value of same does not exceed, unless on or before deposit of same with purser or delivery of custody of same to carrier, or if not so deposited or delivered, then on or before embarkation, passenger shall declare in writing to carrier a higher value for same and shall pay carrier such sum, not exceeding five per cent on such declared excess, as may be fixed by carrier, in which event any liability of carrier shall not exceed the sum so declared. Any partial loss or damage for which the carrier may be liable shall be adjudged pro rata on the foregoing basis. Birds, dogs or other animals will not be carried as baggage, and if carried will be subject to carrier's regulations.

20. Carrier does not undertake to carry as baggage merchandise, furniture, household effects, paintings, pictures, securities, documents, instruments, samples, perishable goods, property of other than the passenger, glassware, liquids or bric-a-brac or any other articles whatsoever not necessary for the passenger's personal use on the voyage covered hereby, and transportation thereof must be arranged for in writing by bill of lading or otherwise by the passenger with the carrier.

21. Carrier shall have no liability for loss of life or bodily injury unless written notice of claim shall be given to, and written claim filed with carrier not later than six months, and suit on such claim is begun not later than one year from the day when such death or injury shall have occurred. Such notice shall be given at the home office of carrier or to carrier's agent at place of landing. Carrier shall have no liability whatsoever for any other loss, destruction, theft, embezzlement, delay, or damage in connection with this transportation unless written notice of claim therefor is so presented and given within thirty days, and unless suit on such claim is begun and process served within six months from the day passenger is landed or the ship arrives at passenger's destination, whichever is the earlier.

22. All provisions of law relating to carrier's exemption from and limitation of liability, shall be applicable also to the master.

23. All questions arising under this contract shall be decided according to the laws of the United States.

24. No agent or employee of carrier shall have any authority to modify or waive any of the terms or conditions of this contract, and it expressly is agreed by passenger that no modification or waiver respecting this contract shall be effective which is not in writing and signed by a duly authorized officer of carrier. Any waiver of any regulation of carrier or condition of this contract, or any failure to assert or enforce any right of carrier under this contact, shall not be deemed a waiver as to any other or further breach. No action by carrier or any agent, employee or attorney of carrier, in considering or dealing in respect of claims of passenger, shall be considered a waiver of any of the terms or conditions of this contract.

25. Each of the provisions of this ticket contract is, and is to be deemed, severable, and if any thereof should be invalid, illegal, or unenforceable, the remaining provisions shall remain in full force and effect.

26. Nothing in this ticket shall operate to limit or deprive the carrier of any statutory protection or exemption from, or limitation of, liability, which would have been applicable in the absence of any terms set forth herein, and, in particular, the carrier shall be entitled to the benefit of sections 4281 to 4286, inclusive, of the Revised Statutes of the United States.

27. In the event that any person designated in this ticket is received under an agreement for free transportation, this ticket has effect only as a non-transferable pass and is given only on the condition that the user assumes all risk of personal injury, loss of life and loss of or damage to property however caused, and expressly agrees that the carrier shall not be liable under any circumstances whatsoever, and whether or not there be negligence on the part of the carrier or its agents or servants, for injury to the person or loss of life, or for loss of or damage to property. The above exemption from liability shall be applicable even though the user of the ticket is charged for meals and berth, and the carrier may also avail itself of any provisions contained in this ticket which may operate in its favor.

§ 303.25 *Size and type of uniform passenger ticket.* Said passenger ticket shall be printed in type no smaller than six point. All operators shall at their own expense, under agency agreements now or hereafter in effect, cause said passenger ticket to be printed as aforesaid, and any such operator shall indicate its name and may also print appropriate

and customary house flags, office addresses, etc., on the face thereof.

§ 303.26 *Consent of master required.* Prior to the issuance of tickets for the carriage of passengers on any vessel the operator or agent thereof shall obtain the written consent of the master of said vessel to the execution of such tickets, for and on behalf of said master.

§ 303.27 *Signature by passengers.* All passenger tickets, when practicable, must be signed by the passenger, as well as the agent for the master. When it shall not be practicable to procure the signature of a passenger a ticket shall be issued to such passenger and shall have conspicuously stamped upon the face thereof the following:

NOTICE

Passenger to whom this ticket is issued is carried at the convenience of the United States. Passenger's signature is not required. *Passenger is notified,* however that carrier and vessel reserve all limitations, exceptions and rules set forth herein as governing the contract of carriage.

READ TICKET CAREFULLY

§ 303.28 *Special terms and conditions.* The operator shall, upon previous advice to War Shipping Administration, incorporate in all passenger tickets any special arrangements on the face thereof and any special clauses respectively appropriate to the trade and route undertaken, and shall make such changes in the arrangement of the face of the ticket as best suit the operator's needs.

§ 303.29 *Short form of passenger ticket.* If or when a short form of passenger ticket shall have been approved incorporating by reference the aforesaid terms and conditions of carriage it shall be used with the same force and effect as though the said terms and conditions had been set forth in full therein.

§ 303.30 *Approval of other forms of passenger ticket.* The right is reserved to approve other forms of passenger tickets or clauses as the Administrator may deem appropriate in certain circumstances.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 15—RULES AND REGULATIONS GOVERNING ALL RADIO STATIONS IN THE WAR EMERGENCY RADIO SERVICE

The Commission on November 6, 1942, effective immediately, adopted the following amendments:

§ 15.2 *Civilian defense stations.* The term "Civilian defense station" means a station operated by a municipal government for emergency communication relating directly to the activities of the United States Citizens' Defense Corps[1] or other equivalent officially recognized organization.

§ 15.61 *Eligibility for station license.* Authorizations for civilian defense stations will be issued only to municipal governments, such as cities, towns, counties, etc.

§ 15.62 *Supplementary statements.* (a) * * *

(4) Methods to be used in monitoring, supervising, and controlling the operation of all stations for which license is requested, including method of compliance with Restricted Order No. 2.

§ 15.64 *Communication with other stations.* Within the scope of service permitted under § 15.63 and during tests and drills, civilian defense stations may be used to communicate with other stations in the war emergency radio service, with stations in the emergency radio service (police, forestry, special emergency, and marine fire stations), and with United States Government stations, in those cases which require cooperation or coordination of activities. Transmissions not directed to a specific authorized station are prohibited.

§ 15.75 *Tests.* The licenses of civilian defense stations are permitted to make such tests as are necessary for the purpose of maintaining equipment, making adjustments to insure that the apparatus is in operating condition, training personnel, and perfecting methods of operating procedure: *Provided,* That such tests shall be conducted only during the following periods:

(a) Tests may be conducted by individual stations during the three months' period immediately following the date on which the respective station license was first granted, in accordance with the following schedule:

Time zone	Eastern	Central	Mountain	Pacific
Wednesdays	10 p. m.-12 m	9 p. m.-11 p. m	8 p. m.-10 p. m	7 p. m.-9 p. m.
Sundays	5 p. m.-7 p. m	4 p. m.-6 p. m	3 p m.-5 p. m	2 p. m.-4 p. m.

(b) Tests may be conducted by individual stations during any period of the respective station license, in accordance with the following schedule:

Time zone	Eastern	Central	Mountain	Pacific
Sundays	5 p. m.-7 p.m	4 p. m.-6 p. m	3 p. m.-5 p. m	2 p. m.-4 p. m.

All times given are local standard (war) time.

§ 15.82 *Supplementary statement.* (d) Methods to be used in monitoring, supervising, and controlling the operation of all stations for which the license is requested, including method of compliance with Restricted Order No. 2.

§ 15.83 *Scope of service.* (b) State guard stations may be used to communicate with stations in the war emergency radio service, in the emergency radio service (police, forestry, special emergency, and marine fire stations), and with United States Government stations, in those cases which require cooperation or coordination of activities. Transmissions not directed to a specific authorized station are prohibited.

PART 3—RULES GOVERNING STANDARD AND HIGH-FPEQUENCY BROADCAST STATIONS

MINIMUM OPERATING TIME

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of November 1942:

It appearing (1) that the demand by the military services has decreased the supply of trained personnel available for the operation of broadcast stations, and (2) that there is a scarcity of materials for the maintenance of broadcast stations, and

It further appearing that a relaxation of the Commission's Rules, Regulations and other requirements with respect to minimum operating schedules for broadcast stations will serve the public interest;

Now, therefore, *It is ordered:*

1. That until further order of the Commission § 3.71 of the Rules and Regulations with respect to minimum operating schedules for standard broadcast stations be, and it is hereby, suspended; and in lieu thereof, except Sundays, the minimum operating schedule for standard broadcast stations shall be one-third of the total hours it is authorized to operate between 6 a. m. and midnight, local standard time, except that in an emergency, due to causes beyond the control of the licensee, it becomes impossible to continue operating, the station may cease operation for a period of not to exceed 10 days, provided that the Commission and the Inspector in Charge shall be notified in writing immediately after the emergency develops.

PART 3—RULES GOVERNING STANDARD AND HIGH-FREQUENCY BROADCAST STATIONS

CHANGES IN METHOD OR METHODS OF DETERMINING CERTAIN OPERATING CONSTANTS OF STANDARD BROADCAST STATIONS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of November 1942.

Pursuant to the request of the Board of War Communications,

It is ordered:

1. That the provision of § 3.52 of the Rules and Regulations with respect to determining the operating power of Standard Broadcast stations by the indirect method be, and they are hereby, suspended, and in lieu thereof, the following provisions be, and they are hereby, substituted:

§ 3.52 *Operating power: indirect measurement.* The operating power determined by indirect measurement from the plate input power of the last radio stage is the product of the plate voltage (E), the total plate current of the last radio stage (I_p), and the proper factor (F) given in the following tables: that is

Operating Power $E_p \times I_p \times F$

A. FACTOR TO BE USED FOR STATIONS EMPLOYING PLATE MODULATION IN THE LAST RADIO STAGE[1]

[Factor (F) to be used in determining the operating power from the plate input power]

Maximum rated carrier power of transmitter:[2]	
100–1,000 watts	0.88
5,000 and over watts	1.00

B. FACTOR TO BE USED FOR STATIONS OF ALL POWERS USING LOW LEVEL MODULATION[1]

[Factor (F) to be used in determining the operating power from the plate input power]

Class of power amplifier in the last radio stage:	
Class B	0.44
Class BC[3]	0.82

C. FACTORS TO BE USED FOR STATIONS OF ALL POWERS EMPLOYING GRID MODULATION IN THE LAST RADIO STAGE[1]

[Factor (F) to be used in determining the operating power from the plate input power]

Type of tube in the last radio stage:	
Table C[1]	0.32
Table D[1]	0.44

[1] See power rating of vacuum tubes.

[2] The maximum rated carrier power must be distinguished from the operating power. (See §§ 2.18 and 2.19).

[3] All linear amplifier operation where efficiency approaches that of class C operation.

2. That the provisions of the 6th paragraph of section 7, "Further Requirement for Direct Measurement of Power", of the Standards of Good Engineering Practice, reading:

> An accurate determination of the antenna resistance can only be made by taking a series of measurements each for a different frequency. From 10 to 12 resistance measurements covering a band 50 to 60 kc. wide with the operating frequency near the middle of the band must be made to give data from which accurate results may be obtained. The values measured should be plotted with frequency as abscissa and resistance in ohms as ordinate and a smooth curve drawn. The point on the ordinate where this curve intersects the operating frequency gives the value of the antenna resistance.

be, and they are hereby, suspended, and in lieu thereof the following provisions be, and they are hereby, substituted therefor:

> An accurate determination of the antenna resistance can only be made by taking a series of measurements each for a different frequency. From 10 to 12 resistance measurements covering a band 50 to 60 kc. wide with the operating frequency near the middle of the band must be made to give data from which accurate results may be obtained. The values measured should be plotted with frequency as abscissa and resistance in ohms as ordinate and a smooth curve drawn. The value of the point on the ordinate where this curve intersects the operating frequency, multiplied by the factor 1.26, gives the value of the antenna resistance.

3. That each broadcast station shall operate in accordance with best engineering practice for the conservation of equipment. The instructions and suggestions set forth in "The Manual for the Adjustment of Broadcast Equipment"[1] and any subsequent amendments or additions thereto shall be the basis of such operation and for points not specifically covered or where they may not be specifically applicable to the particular equipment, the principles set out shall be followed. In all other particulars, operation shall be in accordance with the Rules and Regulations and Standards of Good Engineering Practice governing Standard Broadcast stations.

It is further ordered, That the license of each standard broadcast station shall be modified so as to conform to this order.

This order shall be effective at 3 a. m., E. S. T., on December 1, 1942.

COALS SHIPMENT TO CINCINNATI, OHIO

ORDER REOPENING HEARING

In the matter of a review of the minimum prices effective for shipment of coals by rail and by river for delivery in the City of Cincinnati, Ohio (Market area 19).

Pursuant to a Notice of and Order for Hearing dated December 27, 1941, a hearing commenced at Cincinnati, Ohio, on January 28, 1942, before the undersigned, a Trial Examiner of the Bituminous Coal Division, and was recessed on March 16, 1942, until such date as the Acting Director or the Trial Examiner should determine. On October 14, 1942, there were submitted to the undersigned for admission into evidence certain documents identified as Exhibits Nos. 144 and 145. On October 15, 1942, the undersigned issued a notice requiring all parties to file a verified specific written statement of position with such Trial Examiner on or before October 31, 1942, setting forth their objections to the admission of said exhibits in evidence or their desire to present evidence relating thereto, or to any other matter pertaining to the above-entitled proceeding.

Certain objections to the admission into evidence of Exhibits Nos. 144 and 145 were thereafter filed in said matter by Walter K. Sibbald, Esq., as attorney for the members of Solid Fuel Institute, Campbell and McNeer, Esqs., as attorneys for Island Creek Coal Company, Island Creek Fuel and Transportation Company, Queen City Coal Company and Hatfield Campbell Creek Coal Company, and by Luther Harr, Bituminous Coal Consumers' Counsel within the time prescribed in said Notification. No party, person, or entity in interest has expressed any desire to present evidence relating to matters other than those pertaining to Exhibits 144 and 145.

It appears, therefore, that it is desirable to reopen the hearing for the limited purpose of considering certain of the objections so raised to the admission of said exhibits into evidence.

Now, therefore, it is ordered, That the hearing herein be reopened for the limited purpose of receiving evidence relating to Exhibits Nos. 144 and 145 and the consideration of objections to the admission of said exhibits into evidence.

It is further ordered, That said reopened hearing be held before the undersigned, or any other officer of the Division duly designated for that purpose, on December 2, 1942, at 10 o'clock in the forenoon of that day at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section will advise as to the room when such hearing will be held.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding.

Dated: November 10, 1942.

DISTRICT BOARD 8

NOTICE OF AND ORDER FOR HEARING, ETC.

In the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8.

In the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of the Frank Coker Mine, Mine Index No. 510, of Frank Coker.

[1] 7 F.R. 8337.

Memorandum opinion and order severing Docket No. A-1682 Part II from Docket No. A-1682 and denying temporary relief in Docket No. A-1682 Part II, and notice of and order for hearing.

An original petition in the above-entitled matter having been duly filed with the Division on October 7, 1942, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 praying for the establishment of temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 8; and

As indicated in a separate order entered in Docket No. A-1682, a reasonable showing of necessity having been made for the granting of the relief prayed for by the petitioner, but, in connection with the prayer contained in the original petition for Mine Index No. 510, it appearing that no final determination should be made at this time with respect to a change in the established price classifications and minimum prices for the coals of the Frank Coker Mine, Mine Index No. 510, of Frank Coker, for Great Lakes cargo only; and

No reasonable showing of necessity having been presented for the granting of temporary relief herein without a hearing; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

Now, therefore, it is ordered, That the portion of Docket No. A-1682 relating to the coals of the Frank Coker Mine, Mine Index No. 510, of Frank Coker be and it hereby is severed from the remainder of that docket and designated as Docket No. A-1682 Part II.

It is further ordered, That the request for temporary relief be and the same hereby is denied without prejudice to the renewal of such request for temporary relief, upon further showing or upon the basis of the record to be made at the hearing to be held herein.

It is further ordered, That a hearing in the above-entitled matter under the applicable provisions of the Bituminous Coal Act of 1937 and the rules of the Division be held on December 14, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Cuff or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before December 8, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 8 for a change in the established price classifications and minimum prices for the coals of the Frank Coker Mine, Mine Index No. 510, of Frank Coker for Great Lakes cargo only.

Dated: November 11, 1942.

[Docket No. A-1692]

DISTRICT BOARD 13

ORDER GRANTING LEAVE TO INTERVENE, ETC.

In the matter of the petition of District Board No. 13 for the establishment of certain price classifications and minimum prices for coals produced in District No. 13 and sold for use as steamship bunker fuel.

Order granting leave to intervene and denying motion to deny relief and to change place of hearing.

District Board No. 13 has filed a petition in the above-entitled matter requesting that it be permitted to intervene and become a party thereto, and has moved that the relief requested in the original petition be denied and that the hearing therein, heretofore scheduled to be held in Fort Smith, Arkansas, on November 13, 1942, be removed to Washington, D. C., or Memphis, Tennessee.

District Board No. 13 alleges that it has a substantial interest in this proceeding on the ground that the coals involved therein will compete with coals produced in District No. 13. No facts are offered in support of its motion that the relief requested in the original petition be denied. Removal of the hearing from Fort Smith, Arkansas, to Washington, D. C., or Memphis, Tennessee, is requested on the ground that the latter cities are more accessible to all parties, but no facts are alleged to show that Fort Smith, Arkansas, is not equally convenient and accessible to the parties to this proceeding.

Now, therefore, it is ordered, That District Board No. 13 be, and it hereby is, granted leave to intervene in the above-entitled matter.

It is further ordered, That the motion to deny the relief requested in the original petition herein be, and it hereby is, denied without prejudice to the renewal of such motion upon the hearing in this matter.

It is further ordered, That the motion to remove the hearing in this proceeding to Washington, D. C., or Memphis, Tennessee, be, and it hereby is, denied.

Dated: November 11, 1942.

GREATER KANSAS CITY MARKETING AREA

PROPOSED MARKETING AGREEMENT, ETC.

Notice of report and opportunity to file written exceptions with respect to a proposed marketing agreement, as amended, and a marketing order, as amended, regulating the handling of milk in the Greater Kansas City marketing area, prepared by the Administrator of the Agricultural Marketing Administration.

Pursuant to § 900.12 (a) of the General Regulations of the Agricultural Marketing Administration, United States Department of Agriculture, governing proceedings to formulate marketing orders and marketing agreements, notice is hereby given of the filing with the hearing clerk of this report of the Administrator of the Agricultural Marketing Administration, with respect to a proposed marketing agreement, as amended, and to a marketing order, as amended, regulating the handling of milk in the Greater Kansas City marketing area. Interested parties may file exceptions to the report with the Hearing Clerk, Room 1019, South Building, United States Department of Agriculture, Washington, D. C., not later than the close of business on the 10th day after publication of this notice in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary Statement

The proceeding was initiated by the Agricultural Marketing Administration upon receipt of a joint petition dated June 24, 1942, received from the Pure Milk Producers Association of Greater Kansas City and the Bates County Milk Producers Association, for a public hearing on certain changes in the marketing agreement and marketing order program which they proposed. The Milk Service Association representing six handlers then submitted a proposal for four changes and the Dairy and Poultry Branch of the Agricultural Marketing Administration suggested changes in the regulations pertaining largely to administrative matters. Following this request, and after consideration of the proposals, notice of the hearing was issued on August 14, 1942, and the hearing was convened on August 21, 1942. The time for filing briefs was set at the close of the hearing, to expire September 5, 1942.

The major issues developed at the hearing were concerned with (1) the prices of Class I and Class II milk, with special reference to the basic formula price to be used in determining the prices of Class I milk and Class II milk, (2) the number of delivery periods during which the base and surplus plan would be operative, (3) the butterfat differential to handlers, (4) the inclusion of bottled skim milk in Class I, and (5) the specifications of administrative practice in greater detail.

With respect to these issues it is concluded from the record that:

1. The basic formula price to be used in determining the prices for Class I and Class II milk and the attendant premiums should be revised.
2. The number of delivery periods during which the base and surplus plan would be operative should be revised.
3. The butterfat differential to handlers should be revised.
4. The evidence was insufficient for the inclusion of skim milk in Class I.
5. The administrative provisions of the order should be revised.

The proposed marketing order, as amended, which follows, is recommended as the detailed means by which these conclusions may be effectuated. The proposed marketing agreement, as amended, is not included in this report because the provisions thereof will be the same as the provisions of the proposed marketing order, as amended, set forth below.

PROPOSED MARKETING ORDER, AS AMENDED

It is found upon the evidence introduced at the public hearing held in Kansas City, Missouri, on August 21 and 22, 1942:

Findings

1. That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to §§ 2 and 8 (e) (50 Stat. 246; 7 U.S.C. 1940 ed. 602, 608e) are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk, and that the minimum prices set forth in this order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

2. That this order, as amended, regulates the handling of milk in the same manner as, and is applicable only to handlers defined in, a marketing agreement, as amended, upon which a hearing has been held; and

3. That the issuance of this order, as amended, and all of its terms and conditions, tends to effectuate the declared policy of the act.

§ 913.3 *Definitions*—(a) *Terms*. The following terms shall have the following meanings:

(1) "Greater Kansas City marketing area" hereinafter called the "marketing area," means all of the territory in: Jackson County, Missouri; that part of Clay County, Missouri, south of Highway 92, beginning at the Platte County and Clay County line, east to the west section line of section 26 in Washington Township, north to the north section line of said section 26, east to the Clay County and Ray County line; Lee, Waldron, May, and Pettis Townships in Platte, County, Missouri; Wyandotte County, Kansas; Shawnee and Mission Townships in Johnson County, Kansas; and Delaware, Leavenworth, and that part of Kickapoo and High Prairie Townships east of the 95th principal meridian in Leavenworth County, Kansas.

(2) "Person" means any individual, partnership, corporation, association, or any other business unit.

(3) "Producer" means any person who, with respect to the regulations applicable to milk to be used for consumption as milk or cream in the marketing area, (i) under supervision of the health department of Kansas City, Kansas; Leavenworth, Kansas; Excelsior Springs, Missouri; Independence, Missouri; or Kansas City, Missouri; or (ii) under a permit issued by either the Kansas State Board of Health or the Missouri State Board of Health, produces milk (*a*) which is purchased or received in bulk by a handler, other than himself, at such handler's plant from which milk is disposed of as Class I milk or Class II milk in the marketing area, or (*b*) which a cooperative association causes to be delivered to a plant of a handler or to a plant from which no milk is disposed of as Class I milk or Class II milk in the marketing area, for the account of such cooperative association.

(4) "Handler" means any person who, on his own behalf or on behalf of others, disposes of Class I milk or Class II milk in the marketing area. "Handler" also means any coperative association with respect to the milk of a producer which such cooperative association causes to be delivered to a plant of a handler or to a plant from which no milk is disposed of as Class I milk or a Class II milk in the marketing area for the account of such cooperative association.

(5) "Market administrator" means the person designated pursuant to § 913.4 as the agency for the administration hereof.

(6) "Delivery period" means the current marketing period from the first to, and including, the last day of each month.

(7) "Base" means the quantity of milk calculated for each producer pursuant to § 913.10.

(8) "Cooperative association" means any cooperative association of producers which the Secretary determines (i) to have its entire activities under the control of its members and (ii) to have and to be exercising full authority in the sale of milk of its members.

(9) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246 (1937) 7 U.S.C. 1940 ed. 601 et. seq.), as amended.

(10) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and to perform the duties of the Secretary of Agriculture of the United States.

§ 913.4 *Market administrator*—(a) *Designation*. The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers*. The market administrator shall:

(1) Administer the terms and provisions hereof; and

(2) Report to the Secretary complaints of violation of the provisions hereof.

(c) *Duties*. The market administrator shall:

(1) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(2) Pay, out of the funds provided by § 913.13, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(3) Keep such books and records as will clearly reflect the transactions provided for herein and surrender the same to his successor or to such other person as the Secretary may designate;

(4) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 10 days after the date upon which he is required to perform such acts, has not (i) made reports pursuant to § 913.5 or (ii) made payments pursuant to § 913.11; and

(5) Promptly verify the information contained in the reports submitted by handlers.

§ 913.5 *Reports of handlers*—(a) *Periodic reports.* On or before the 7th day after the end of each delivery period, each handler who purchased or received milk from sources other than his own production or other handlers shall with respect to milk or dairy products which were purchased, received, or produced by such handler during such delivery period report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(1) The receipts at each plant of milk from each producer, the butterfat content and the number of days on which milk was received from each producer.

(2) The quantity of milk received from each producer in excess of his respective base.

(3) The receipts from such handler's own farm production and the butterfat content.

(4) The receipts of milk, cream, and milk products from handlers who purchase or receive milk from producers and the butterfat content.

(5) The receipts of milk, cream, and milk products from any other source, including receipts of milk and cream completely processed and packaged for distribution to consumers from handlers whose sole source of supply is from such handler's own farm production and the butterfat content.

(6) The respective quantities of milk and milk products and the butterfat content which were sold, distributed, or used, including sales to other handlers for the purpose of classification pursuant to § 913.6.

(7) The sales of milk and Class II products outside the marketing area, listing the market or area in which such milk and such Class II products were sold or disposed of, the date of such sale or disposition, and the plant from which such milk and milk products were supplied; and

(8) Such other information with respect to the use of milk as the market administrator may request.

(b) *Reports of payments to producers.* On or before the 20th day after the end of each delivery period, upon the request of the market administrator, each handler who purchased or received milk from producers shall submit to the market administrator his producer pay roll for such delivery period which shall show for each producer, (1) the daily and total pounds of milk delivered and the average butterfat content thereof and (2) the net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

(c) *Reports of handlers whose sole source of supply is from such handler's own farm production or from other handlers.* Handlers whose sole source of supply is from such handler's own farm production or from other handlers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

(d) *Verification of reports and payments.* The market administrator shall verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose disposition of milk the classification depends. Each handler shall keep adequate records of receipts and utilization of milk and milk products and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to:

(1) Verify the receipts and disposition of all milk and milk products, and, in case of errors or omissions, ascertain the correct figures;

(2) Weigh, sample, and test for butterfat content the milk purchased or received from producers and any product of milk upon which classification depends; and

(3) Verify the payments to producers prescribed in § 913.11.

§ 913.6 *Classification of milk*—(a) *Basis of classification.* All milk and milk products purchased or received by each handler, including milk of a producer which a cooperative association caused to be delivered to a plant of a handler or to a plant from which no milk is disposed of as Class I milk or Class II milk in the marketing area, for the account of such cooperative association, shall be reported by the handler in the classes set forth in (b) of this section: *Provided*, That (i) milk sold or disposed of by a handler as fluid milk to a nonhandler who distributes fluid milk or cream shall be classified as Class I milk, and cream sold or disposed of by a handler as cream to such nonhandler shall be classified as Class II milk, except for such milk or cream in excess of the amount of milk and cream distributed by such nonhandler; (ii) milk or cream sold or disposed of by a handler to a nonhandler who does not distribute fluid milk or cream shall be classified as Class III milk subject to verification by the market administrator; (iii) milk sold or disposed of as fluid milk by a handler who purchases or receives milk from producers to another handler shall be classified as Class I milk: *Provided*, That if such milk, except milk sold or disposed of by such handler to another handler who purchases or receives no milk from producers, is reported by the receiving handler or by the disposing handler as having been utilized as Class II milk or Class III milk, such milk shall be classified accordingly, subject to verification by the market administrator: *And provided further*, That if such milk was sold or disposed of from a handler's plant located outside the marketing area to another handler who purchases or receives milk from producers, such milk shall be classified at the lowest class usage of such purchasing handler; (iv) cream sold or disposed of as fluid cream by a handler who purchases or receives milk from producers to another handler shall be classified as Class II milk: *Provided*, That if such cream, except cream sold or disposed of by such handler to another handler who purchases or receives no milk from producers, is reported by the receiving handler or by the disposing handler as having been utilized as Class III milk, such cream shall be classified accordingly, subject to verification by the market administrator: *And provided further*, That if such cream was sold or disposed of from a handler's plant located outside the marketing area to another handler who purchases or receives milk from producers, such cream shall be classified at the lowest class usage of such purchasing handler; (v) milk or cream sold or disposed of as bulk milk or cream by a handler who receives no milk from producers to another handler who receives milk from producers shall be classified as Class III milk; and (vi) milk sold or disposed of completely processed and packaged for distribution to consumers by a handler who purchases or receives no milk from producers to another handler who purchases or receives milk from producers shall be classified as Class I milk up to the amount of such milk actually sold in the original package by the purchasing handler as bottled Class I milk and the remaining milk shall be classified as Class III milk; and cream sold or disposed of completely processed and packaged for distribution to consumers by a handler who purchases or receives no milk from producers to another handler who purchases or receives milk from producers shall be classified as Class II milk up to the amount of such cream actually sold in the original package by the purchasing handler as bottled Class II milk and the remaining cream shall be classified as Class III milk.

(b) *Classes of utilization.* Subject to the conditions set forth in paragraph (a) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of in the form of milk containing more than 1 percent butterfat, irrespective of whether under the legal standard for milk and unaccounted for butterfat in excess of 3 percent of the total receipts from producers converted to a 3.8 percent milk equivalent, except such milk as is classified as Class II milk and as Class III milk pursuant to (2) and (3) of this paragraph.

(2) Class II milk shall be all milk, except skim milk, used to produce cream which is disposed of in the form of cream, other than for use in products specified in (3) of this paragraph, flavored milk, creamed cottage cheese, creamed buttermilk, products sold or disposed of in the form of cream testing less than 18 percent butterfat, aerated cream, and eggnog.

(3) Class III milk shall be all milk: used to produce butter, cheese (other than creamed cottage cheese), evaporated milk, condensed milk, ice cream, and powdered whole milk; used for starter churning, wholesale baking and candy making purposes; accounted for as salvage from products where the recovery of fat is impossible; and not accounted for but not in excess of 3 percent of the total receipts of butterfat from producers.

(c) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification as required in (b) of this section of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove to the market administrator that such milk should not be classified as Class I milk.

(d) *Computation of milk in each class.* For each delivery period each handler shall compute, in the manner and on forms prescribed by the market administrator the amount of milk in each class as defined in (b) of this section, as follows:

(1) Determine the total pounds of milk received as follows: add together the total pounds of milk received from (i) producers, (ii) own farm production, (iii) other handlers, and (iv) other sources.

(2) Determine the total pounds of butterfat received as follows: multiply by its average butterfat test the weight of the milk received from (i) producers, (ii) own farm production, (iii) other handlers, (iv) other sources, and (v) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I as follows: (i) convert to pounds the quantity of Class I milk on the basis of 2.15 pounds per quart, (ii) multiply the result by the average butterfat test of such milk, and (iii) if the quantity of butterfat so computed when added to the pounds of butterfat in Class II milk and Class III milk, computed pursuant to (4) (ii) and (5) (iv) of this paragraph, is less than the total pounds of butterfat received, computed in accordance with (2) of this paragraph, an amount equal to the difference shall be divided by 3.8 percent and added to the quantity of milk determined pursuant to (i) of this subparagraph.

(4) Determine the total pounds of milk in Class II as follows: (i) multiply the actual weight of each of the several products of Class II milk by its average butterfat test, (ii) add together the resulting amounts, and (iii) divide the result obtained in (ii) of this subparagraph by 3.8 percent.

(5) Determine the total pounds of milk in Class III as follows: (i) multiply the actual weight of each of the several products of Class III milk by its average butterfat test, (ii) add together the resulting amounts, (iii) subtract from the total pounds of butterfat computed pursuant to (2) of this paragraph, the total pounds of butterfat in Class I milk, computed pursuant to (3) (ii) of this paragraph, the total pounds of butterfat in Class II milk, computed pursuant to (4) (ii) of this paragraph and the total pounds of butterfat computed pursuant to (ii) of this subparagraph which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shrinkage allowance exceed 3 percent of the total receipts of butterfat from producers by the handler), (iv) add together the results obtained in (ii) and (iii) of this subparagraph, and (v) divide the result obtained in (iv) of this subparagraph by 3.8 percent.

(6) Determine the classification of milk received from producers as follows:

(i) Subtract from the total pounds of milk in each class the pounds of milk which were received from other handlers and used in such class.

(ii) Subtract from the remaining pounds of milk in each class the pounds of milk which were received from sources other than producer, own farm production, and other handlers in series beginning with the lowest class.

(iii) If the remaining pounds of Class III milk are less than 10 percent of the sum of the remaining pounds of Class I milk, Class II milk, and Class III milk, subtract pro rata out of the remaining pounds of milk in each class the pounds of milk received from the handler's own farm production, or if the remaining pounds of Class III milk are more than 10 percent of the sum of the remaining pounds of Class I milk, Class II milk, and Class III milk, subtract pro rata out of the remaining pounds of Class I milk and Class II milk 90 percent of the pounds of milk received from the handler's own farm production and subtract from the remaining pounds of Class III milk the remaining pounds of milk received from the handler's own farm production.

(e) *Reconciliation of utilization of milk by classes with receipts of milk from producers.* In the event of a difference between the total quantity of milk utilized in the several classes as computed pursuant to (6) of (d) of this section and the quantity of milk received from producer, except for excess milk or milk equivalent of butterfat pursuant to § 913.8 (e), such difference shall be reconciled as follows:

(1) If the total utilization of milk in the various classes for any handler, as computed pursuant to (6) of (d) of this section, is less than the receipts of milk from producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to (6) or (d) of this section, is greater than the receipts of milk from producers, the market administrator shall decrease the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

§ 913.7 *Minimum prices*—(a) *Class prices.* Subject to the differentials set forth in (c) and (d) of this section, each handler shall pay producers, at the time and in the manner set forth in § 913.11, for milk purchased or received from them not less than the following prices:

(1) Class I milk: The price per hundredweight of Class I milk during each delivery period shall be the price determined pursuant to (b) of this section, plus 75 cents: *Provided*, That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price shall be the price determined pursuant to (b) of this section, plus 30 cents.

(2) Class II milk: The price per hundredweight of Class II milk during each delivery period shall be the price determined pursuant to (b) of this section, plus 50 cents.

(3) Class II milk: The price per hundredweight of Class III milk during each delivery period shall be the highest price ascertained by the market administrator to have been quoted for ungraded milk of 3.8 percent butterfat content received during such delivery period by any one of the three following plants: The Meyer Sanitary Milk Company at its plant at Valley Falls, Kansas; the Franklin Ice Cream Company at its plant at Tonganoxie, Kansas; and the Milk Producers' Marketing Company at its plant at Kansas City, Kansas.

(b) *Basic formula price to be used in determining Class I and Class II prices.* The basic formula price to be used in determining the Class I and Class II prices, set forth in this section, per hundredweight of milk as computed and announced by the market administrator on or before the 5th day of the delivery period shall be the arithmetical average of the prices per hundredweight reported to the United States Department of Agriculture as being paid all farmers for milk of 3.5 percent butterfat content delivered f. o. b. plant during the immediately preceding delivery period at the following plants and places:

Borden Co., Mt. Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
Borden Co., New London, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

divided by 3.5 and multiplied by 3.8, but in no event shall such basic formula price to be used be less than the following: multiply by 3.8 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the immediately preceding delivery period, and add 20 percent: *Provided*, That such price shall be subject to the following adjustments: (i) add $3\frac{1}{2}$ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption is above $5\frac{1}{2}$ cents per pound, or (ii) subtract $3\frac{1}{2}$ cents per hundredweight for each full one-half cent that the price of such dry skim milk is below $5\frac{1}{2}$ cents per pound. For purposes of determining this adjustment the price per pound of dry skim milk to be used shall be the average of the carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture for the Chicago area during the immediately preceding delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, the average of the carlot prices for dry skim milk for human consumption, delivered at Chicago, shall be used. In the latter event such price shall be subject to the following adjustments: (i) add 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption, delivered at Chicago, is above 7½ cents per pound, or (ii) subtract 3½ cents per hundredweight for each full one-half cent that such price of dry skim milk is below 7½ cents per pound.

(c) *Butterfat differential.* If the average butterfat content of milk purchased or received from producers by any handler during any delivery period is more or less than 3.8 percent, there shall be added or subtracted per hundredweight of such milk for each one-tenth of 1 percent above or below 3.8 percent an amount equal to the Class III price for such delivery period, divided by 38.

(d) *Location differential.* (1) If any handler has received milk from any producer at his plant approved by an applicable health authority for the receiving of milk to be disposed of as milk or cream in the marketing area and located outside the marketing area but more than 30 miles by the shortest highway route from such handler's plant approved by an applicable health authority for the receiving of milk to be sold or disposed of as milk or cream in the marketing area and located within the marketing area, there shall be subtracted with respect to a quantity of milk (but not in excess of the total quantity of milk received from producers by such handler at such plant located outside the marketing area) computed by the market administrator as follows: (i) determine the difference between 105 percent of such handler's total Class I milk and Class II milk received from producers and the total quantity of milk received from producers by such handler at his plant located within the marketing area during the delivery period of the next preceding calendar year when such difference was the greatest; (ii) divide such difference by the number of days in such delivery period; and (iii) multiply by the number of days in the delivery period an amount up to but not exceeding the amount specified for the distance of such plant from such handler's plant located within the marketing area, as follows: not more than 45 miles, 17 cents per hundredweight; for each additional 10 miles or fraction thereof up to 75 miles, an additional 1½ cents per hundredweight; and for each additional 10 miles or fraction thereof beyond 75 miles, an additional ½ cent per hundredweight.

(2) If any handler has received milk from producers at more than one such plant located outside the marketing area, at one of which such plants no facilities for processing or separating milk are maintained and has received no milk from producers at his plant located within the marketing area, there shall be subtracted with respect to a quantity of milk, if received, equal to 105 percent of such handler's total Class I milk and Class II milk received from producers, an amount up to but not exceeding the amount specified for the distance of such plant from such handler's plant located within the marketing area, as follows: not more than 45 miles, 17 cents per hundredweight; for each additional 10 miles or fraction thereof up to 75 miles, an additional 1½ cents per hundredweight; and for each additional 10 miles or fraction thereof beyond 75 miles, an additional ½ cent per hundredweight; such deductions shall first be made on the milk received from producers at such plant located outside the marketing area where no facilities for processing or separating milk are maintained.

§ 913.8 *Application of provisions.* (a) The provisions of §§ 913.6, 913.9, 913.10, 913.11, 913.12, and 913.13, shall not apply to a handler whose sole source of supply is from such handler's own farm production or from other handlers.

(b) If a handler who purchases or receives milk from producers purchases or receives milk or cream in bulk from another handler who purchases or receives no milk from producers and sells or disposes of such milk or cream for other than Class III purposes, the market administrator, in determining the net pool obligation of the handler, pursuant to § 913.9 (a), shall add an amount equal to the difference between (1) the value of such milk or cream according to its utilization by the handler, and (2) the value at the Class III price.

(c) If a handler who purchases or receives milk from producers purchases or receives milk or cream completely processed and packaged for distribution to consumers from another handler who purchases or receives no milk from producers and sells or disposes of such milk or cream not sold as bottled Class I or Class II milk in the original package for other than Class III purposes, the market administrator, in determining the net pool obligation of the handler, pursuant to § 913.9 (a), shall add an amount equal to the difference between (1) the value of such milk or cream according to its utilization by the handler and (2) the value at the Class III price.

(d) If a handler has sold or disposed of milk or cream which was received from sources other than producers, his own farm production, or other handlers as Class I milk or Class II milk within the marketing area to persons other than a handler who purchases or receives milk from producers, the market administrator, in determining the net pool obligation of the handler, pursuant to § 913.9 (a), shall add an amount equal to the difference between (1) the value of such milk according to its utilization by the handler and (2) the value at the Class III price.

(e) If a handler has purchased or received milk or butterfat from sources determined as other than producers, own farm production, or other handlers, the market administrator, in determining the net pool obligation of the handler, pursuant to § 913.9 (a), shall consider such milk or the milk equivalent of such butterfat as Class III milk. If the receiving handler sells or disposes of such milk or butterfat for other than Class III purposes, the market administrator shall add an amount equal to the difference between (1) the value of such milk or butterfat according to its utilization by the handler and (2) the value at the Class III price. This provision shall not apply to milk or butterfat from sources determined as other than producers or handlers, if such handler can prove to the market administrator that such milk or butterfat was used for purposes which did not violate any regulations issued by the various health authorities in the marketing area.

(f) If a handler, after subtracting receipts from his own farm production, receipts from other handlers, and receipts from sources determined as other than producers, own farm production, or other handlers, has disposed of milk and/or butterfat in excess of the milk and/or butterfat which, on the basis of his reports, has been credited to his producers as having been delivered by them, the market administrator, in determining the net pool obligation of the handler, pursuant to § 913.9 (a), shall add an amount equal to the value of such milk and/or butterfat according to its utilization by the handler.

(g) If the shortest highway distance between a handler's plant approved by an applicable health authority for the receiving of milk to be dosposed of as milk or cream in the marketing area and located outside the marketing area and such handler's plant approved by an applicable health authority for the receiving of milk to be sold or disposed of as milk or cream in the marketing area and located within the marketing area is lessened through a relocation of highways to less than 30 miles, the location differential which applied before the highway distance was lessened shall continue to apply.

§ 913.9 *Determination of uniform price to producers*—(a) *Net pool obligations of handlers.* Subject to the provisions of § 913.8, the net pool obligation of each handler for milk received from producers during each delivery period shall be a sum of money computed for such delivery period by the market administrator as follows:

(1) Multiply the pounds of milk in each class, computed pursuant to § 913.6, by the class price and add together the resulting values,

(2) Add, if the average butterfat content of all milk received from producers is in excess of 3.8 percent, and deduct, if the average butterfat content of all milk received from producers is less than 3.8 percent, an amount equal to the total value of the butterfat differential applicable pursuant to § 913.7 (c),

(3) Subtract an amount equal to the total value of the location differential applicable pursuant to § 913.7 (d),

(4) Add an amount equal to the total values pursuant to § 913.8 (b), (c), (d), (e), and (f), and

(5) Deduct, if the average butterfat content of all milk purchased or received from producers is in excess of 3.8 percent, and add, if the average butterfat content of all milk purchased or received from producers is less than 3.8 percent, the total value of the butterfat differential applicable pursuant to § 913.11 (c).

(b) *Computation and announcement of the uniform prices.* The market administrator shall compute and announce the uniform price per hundredweight of milk received during each delivery period, in the following manner:

(1) For the delivery periods other than those of April, May, and June of each year: (i) Combine into one total the net pool obligations of all handlers, computed pursuant to (a) of this section, who made the reports prescribed by § 913.5 and who made the payments prescribed by § 913.11;

(ii) Add the amount of the location differentials applicable pursuant to § 913.11 (d);

(iii) Subtract the total amount to be paid pursuant to § 913.11 (a) (1) (ii);

(iv) Add an amount equal to one-half of the cash balance in the producer-settlement fund;

(v) Divide by a figure equal to the total hundredweight of milk delivered by producers less the hundredweight of milk represented pursuant to § 913.11 (a) (1) (ii) and which is included in these computations;

(vi) Subtract not less than 4 cents nor more than 5 cents per hundredweight of milk for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers. This result shall be known as the uniform price for such delivery period for the milk of producers containing 3.8 percent butterfat; and

(vii) On or before the 10th day after the end of such delivery period, mail to all such handlers and publicly announce (*a*) such of these computations as do not disclose information confidential pursuant to the act; (*b*) the blended price per hundredweight which is the result of these computations; (*c*) the Class III price; and (*d*) the butterfat differentials computed pursuant to § 913.7 (c) and § 913.11 (c).

(2) For the delivery periods of April, May, and June of each year: (i) Combine into one total the net pool obligations of all handlers, computed pursuant to (a) of this section, who made the reports prescribed by § 913.5 and who made the payments prescribed by § 913.11;

(ii) Add the amount of the location differentials applicable pursuant to § 913.11 (d);

(iii) Subtract the total amount to be paid pursuant to § 913.11 (a) (2) (ii);

(iv) Subtract the total amount to be paid pursuant to § 913.11 (a) (2) (iii);

(v) Add an amount equal to one-half of the cash balance in the producer-settlement fund;

(vi) Divide by a figure equal to the total hundredweight of milk delivered by graded producers less the hundredweight of milk represented pursuant to § 913.11 (a) (2) (ii) which is not in excess of the delivered bases of producers and which is included in these computations;

(vii) Subtract not less than 4 cents nor more than 5 cents per hundredweight of milk for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers. This result shall be known as the uniform price for base milk containing 3.8 percent butterfat received from producers during such delivery period; and

(viii) On or before the 10th day after the end of such delivery period, mail to all such handlers and publicly announce (*a*) such of these computations as do not disclose information confidential pursuant to the act; (*b*) the blended price per hundredweight which is the result of these computations; (*c*) the Class III price; and (*d*) the butterfat differentials computed pursuant to § 913.7 (c) and § 913.11 (c).

§ 913.10 *Base ratings*—(a) *Determination of base.* For the delivery periods of April, May, and June of each year, the base of each producer shall be a quantity of milk calculated by the market administrator in the following manner: multiply the applicable figure computed pursuant to (b) (1), (b) (2), or (b) (3) of this section adjusted by (c) of this section by the number of days during such delivery period on which milk was received from such producer.

(b) *Determination of daily base.* (1) Effective for the delivery periods of April, May, and June of each year, the daily base of each producer, who regularly delivered milk to a handler during the entire next previous delivery periods of October, November, December, and January, shall be computed by the market administrator from reports submitted by the handlers pursuant to § 913.5, or from the best information available in the following manner:

(i) Determine for each producer who regularly delivered milk to a handler during the entire next previous delivery periods of October, November, December, and January, the average daily delivery of milk to a handler for the period from the next previous October 1 to and including January 31.

(2) Effective for the delivery periods of April, May, and June of each year, the daily base of each producer, who did not regularly deliver milk to a handler during the entire next previous delivery periods of October, November, December, and January, but who began deliveries of milk to a handler, subsequent to October 1 and previous to March 1, shall be computed by the market administrator from reports submitted by the handlers pursuant to § 913.5, or from the best information available in the following manner:

(i) Determine for each such producer, the average daily delivery of milk to a handler, for each delivery period of April, May, and June, and (ii) multiply by 70 percent.

(3) In case a handler who distributes within the marketing area milk of his own production ceases to act as a handler and begins regular deliveries of milk to a handler, the daily base of such producer shall be computed by the market administrator in the following manner: determine the average daily Class I milk and Class II milk produced and disposed of during the three months next preceding the date of his ceasing to act as a handler.

(c) *Base rules.* (1) In case a producer sells or delivers to a handler milk not of his own production as being milk of his own production, the price to be received by such producer for all milk sold or delivered to a handler by such producer during such delivery period shall be the price for Class III milk for such delivery period pursuant to § 913.7 (a) (3) and such milk shall not be included in the computations pursuant to § 913.10 (b) (1) or § 913.10 (b) (2).

(2) A base of a producer may be transferred to the surviving spouse or a direct heir, upon written request of such spouse or heir to the market administrator on or before the 5th day following the delivery period when such transfer is to be effective and if accompanied by an affidavit with respect to such producer's death.

(3) A landlord who rents on a crop-share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. Likewise, the tenant who rents on a crop-share basis shall be entitled to the entire daily base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by tenant and landlord, the daily base shall be divided between the joint owners according to the ownership of the cattle, if and when such joint owners terminate the tenant and landlord relationship.

(4) A producer, whether landlord or tenant of a farm, may retain his base when moving his entire herd of cows from one farm to another farm: *Provided,* That at the beginning of tenant and landlord relationship the allotted base of each tenant and landlord shall be a combined base and may be divided only if such relationship is terminated.

§ 913.11 *Payments for milk*—(a) *Time and method of payment.* On or before the 12th day after the end of each delivery period, each handler shall make payment, after deducting the amount of the payment made pursuant to (b) of this section, for not less than the total value of milk of producers received by such handler during such delivery period, computed according to § 913.9 and subject to the differentials set forth in (c) and (d), respectively, of this section as follows:

(1) For the delivery periods other than those of April, May, and June of each year: (i) To producers, subject to (ii) of this subparagraph, at the uniform price per hundredweight computed pursuant to § 913.9 (b) (1), for the total quantity of milk received from such producers; and

(ii) To producers, pursuant to § 913.10 (c) (1), at the price per hundredweight for Class III milk, computed pursuant to § 913.7 (a) (3), for the total quantity of milk received from such producers.

(2) For the delivery periods of April, May, and June of each year: (i) To producers, subject to (ii) of this subparagraph, at the uniform price per hundredweight computed pursuant to

§ 913.9 (b) (2), for that quantity of milk received from such producers, not in excess of their respective bases;

(ii) To producers pursuant to § 913.10 (c) (1) at the price per hundredweight for Class III milk, computed pursuant to § 913.7 (a) (3), for the total quantity of milk received from such producers; and

(iii) To producers, at the price per hundredweight for Class III milk, computed pursuant to § 913.7 (a) (3), for that quantity of milk received from such producers in excess of their respective bases.

(b) *Half delivery period payments.* On or before the 25th day of each delivery period, each handler shall make payment to each producer for the approximate value of the milk of such producer which, during the first 15 days of such delivery period, was received by such handler.

(c) *Butterfat differential.* If, during the delivery period, any handler has purchased or received from any producer milk having an average butterfat content other than 3.8 percent, such handler, in making the payments prescribed in (a) of this section, shall add to the prices per hundredweight for such producer for each one-tenth of 1 percent of average butterfat content in milk above 3.8 percent not less than, or shall subtract from such prices for such producer for each one-tenth of 1 percent of average butterfat content in milk below 3.8 percent not more than, an amount computed as follows: add 4 cents to the average price of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and divide the resulting sum by 10.

(d) *Location differentials.* For milk received from producers at plants approved by any applicable health authority for the receiving of milk to be sold or disposed of as milk or cream in the marketing area and located outside the marketing area but more than 30 miles by the shortest highway route from such handler's plant approved by an applicable health authority for the receiving of milk to be sold or disposed of as milk or cream in the marketing area and located within the marketing area, each handler, in making payments pursuant to (a) (1) of this section shall deduct, with respect to all milk except milk subject to (a) (1) (ii) of this section received from such producers, and in making payments pursuant to (a) (2) of this section, shall deduct, with respect to all base milk except milk subject to (a) (2) (ii) of this section received from such producers, the amount per hundredweight specified for the distance of such plant located outside the marketing area from such handler's plant located within the marketing area, as follows: not more than 45 miles, 17 cents per hundredweight; for each additional 10 miles or fraction thereof up to 75 miles, an additional 1½ cents per hundredweight; and for each additional 10 miles or fraction thereof beyond 75 miles, an additional ½ cent per hundredweight.

(e) *Additional payments.* Any handler may make payment to producers in addition to the payments to be made pursuant to (a) of this section: *Provided,* That such additional payments shall be uniform as among all producers for milk of the same grade and quality.

(f) *Producer - settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to (g) and (i) of this section and out of which he shall make all payments to handlers pursuant to (h) and (i) of this section: *Provided,* That the market administrator shall offset any such payment due to any handler against payments due from such handler. Immediately after computing the uniform price for each delivery period, the market administrator shall compute the amount by which each handler's net pool obligation, including the payments to producers which are required to be made pursuant to § 913.8, is greater or less than the sum obtained by multiplying the hundredweight of milk of producers by the appropriate prices required to be paid producers by handlers pursuant to (a) (1) and (a) (2) of this section and adding together the resulting amounts, and shall enter such amount on each handler's account as such handler's pool debit or pool credit, as the case may be, and render such handler a transcript of his account.

(g) *Payments to the producer-settlement fund.* On or before the 12th day after the end of each delivery period each handler shall make full payment to the market administrator of any pool debit balance shown on the account rendered, pursuant to (d) of this section, for such delivery period.

(h) *Payments out of the producer-settlement fund.* On or before the 12th day after the end of each delivery period, the market administrator shall pay to each handler the pool credit balance shown on the account rendered, pursuant to (d) of this section, if any, for such delivery period, less any unpaid obligations of the handler. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler, who, on the 12th day after the end of each delivery period, has not received the balance of the payment due him from the market administrator shall be deemed to be in violation of (a) of this section if he reduces his total payments uniformly to all producers by not more than the amount of the reduction in payment from the producer-settlement fund. Nothing in this paragraph shall abrogate the right of a cooperative association to make payment to its member producers in accordance with the payment plan of such cooperative association.

(i) *Adjustment of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to the producer-settlement fund pursuant to (g) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days of such billings, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to (h) of this section, the market administrator shall, within 5 days, make such payment to such handler or offset any such payment due to any handler against payments due from such handler. Whenever verification by the market administrator of the payment by a handler to any producer, for milk purchased or received by such handler, discloses payment to such producer of less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment to producers next following such disclosure.

§ 913.12 *Marketing services*—(a) *Deductions for marketing services.* Except as set forth in (b) of this section, each handler shall deduct 3 cents per hundredweight from the payments made to each producer pursuant to § 913.11 (a) (1) and (a) (2), with respect to all milk of such producer purchased or received by such handler during the delivery period, and shall pay such deductions to the market administrator on or before the 12th day after the end of such delivery period. Such moneys shall be expended by the market administrator for market information to, and for the verification of weights, sampling, and testing of milk received from, said producers.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," is actually performing the services set forth in paragraph (a) of this section, each handler shall make the deductions from the payments to be made pursuant to § 913.11 (a) (1) and (a) (2), which are authorized by such producers, and, on or before the 12th day after the end of each delivery period, pay over such deductions to the associations of which such producers are members.

§ 913.13 *Expense of administration*—(a) *Payments by handlers.* As his pro-rata share of the expense of the administration hereof, each handler who purchased or received milk from producers, with respect to all milk received from producers during the delivery period, shall pay to the market administrator, on or before the 12th day after the end of such delivery period, an amount not exceeding 2 cents per hundredweight, which amount shall be determined by the market administrator, subject to review by the Secretary.

(b) *Suits by the market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's prorata share of expenses set forth in this section.

§ 913.14 *Effective time, suspension, or termination of order, as amended*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to (b) of this section.

(b) *Suspension or termination of order, as amended.* The Secretary may suspend or terminate this order, as amended, or any provision hereof, whenever he finds that this order, as amended, or any provision hereof, obstructs, or does not tend to effectuate the declared policy of the act. This order, as amended, shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(1) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until removed by the Secretary, (ii) from time to time account for all receipts and disbursements and, when so directed by the Secretary, deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary may direct, and (iii) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate, shall liquidate, if so directed by the Secretary, the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 913.15 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

This report filed at Washington, D. C. this 10th day of November, 1942.

DAKOTA RABBIT AND FUR COMPANY

APPLICATION FOR EXEMPTION FROM MAXIMUM HOURS

In the matter of the application for the exemption of the skinning of wild rabbits and other wild fur bearing animals from the maximum hours provisions of the Fair Labor Standards Act of 1938 pursuant to section 7 (b) (3) of the Act and Part 526 as amended of the regulations issued thereunder.

Whereas an application has been received from the Dakota Rabbit and Fur Company of Sioux Falls, South Dakota, for the exemption of the skinning of wild rabbits and other wild fur bearing animals in wild rabbit skinning establishments from the maximum hours provisions of the Fair Labor Standards Act of 1938 pursuant to section 7 (b) (3) of the Act and Part 526, as amended, of the regulations issued thereunder; and

Whereas it appears from the said application and upon further investigation that:

1. Owing to natural conditions, wild rabbits and other wild fur bearing animals are available for skinning only during the cold weather months, from about November 15 of each year to about March 15 of the following year, when the fur or pelt is prime; and

2. Wild rabbit skinning establishments receive the carcasses of wild rabbits and occasionally the carcasses of other wild fur bearing animals, skin them, and prepare the pelts for shipment to market only during a regularly recurring season of the year when the pelts are prime, from about November 15, of each year to about March 15 of the following year; and

3. Wild rabbit skinning establishments cease operations during the remainder of the year except for such work as maintenance, repair, clerical, and sales work;

Now, therefore, upon consideration of the facts stated in the application and upon further investigation, the Administrator hereby determines pursuant to § 526.5(b) (ii) of the regulations, that a prima facie case has been shown for the granting of an exemption as an industry of a seasonal nature pursuant to section 7(b) (3) of the Fair Labor Standards Act of 1938 and Part 526, as amended, of the regulations issued thereunder, to the skinning of wild rabbits in wild rabbit skinning establishments, and the skinning of other wild fur bearing animals such as skunk, muskrat, mink, and beaver, in wild rabbit skinning establishments during the wild rabbit skinning season.

The term "skinning of wild rabbits in wild rabbit skinning establishments and the skinning of other wild fur bearing animals" includes the operations of collecting or receiving the carcasses of these animals, or occasionally, the pelts of these animals which have not been cleaned, scraped or dried, and it includes the removing of the pelts from the carcasses, cleaning, scraping and drying the pelts, baling the pelts for shipment and all operations immediately necessary and incident to these enumerated operations. It does not include these operations when performed on domesticated rabbits or other fur bearing animals raised in captivity.

In accordance with the procedure established by § 526.5 (b) (ii), of the regulations, Part 526, as amended, the Administrator, for fifteen days following the publication of this determination, will receive objection to the granting of the exemption and request for hearing from any person interested. Upon receipt of objection and request for hearing, the Administrator will set the application for hearing before himself or an authorized representative.

If no objection and request for hearing is received within fifteen days, the Administrator will make a finding upon the prima facie case.

Objections and request for hearing should be filed in writing at the National Office of the Wage and Hour Division, 165 West 46th Street, New York, New York. The application for exemption may be examined in Room 1619 at this address.

Signed at New York, New York, this 11th day of November 1942.

L. METCALFE WALLING,
Administrator.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6444]

Capitol Broadcasting Corp.

NOTICE OF HEARING

In re application of Capitol Broadcasting Corporation (WISH), dated May 8, 1942, for construction permit; class of service, broadcast; class of station, broadcast; location, Indianapolis, Indiana; operating assignment specified: Frequency, 1,310 kc.; power, 5 kw. (DA—night); hours of operation, unlimited.

You are hereby notified that the Commission on October 6, 1942, denied the petition of the applicant filed pursuant to the Memorandum Opinion of the Commission of April 27, 1942, and designated the above-entitled matter for hearing upon the following issues:

1. To determine whether the granting of this application would be consistent with the policy announced by the Commission in its Memorandum Opinion dated April 27, 1942.

2. To determine the extent of any interference which would result from the simultaneous operation of Station WISH as proposed and Station CKCO, Ottawa, Ontario. (Appendix II Table I NARBA).

3. To determine the extent of any interference which would result from simultaneous operation of Station WISH as proposed and Stations KFBB, WIBA and WDOD.

4. To determine the areas and populations which may be expected to lose primary service during nighttime hours, particularly from Stations KFBB, WIBA and WDOD as a result of the operations of Station WISH as proposed and what other broadcast services are available to these areas and populations.

5. To determine the areas and populations which would gain primary service should Station WISH operate as proposed and what other broadcast services are available to these areas and populations.

6. To determine whether the proposed directional antenna would afford adequate protection to the primary service areas of Stations KFBB, WIBA, and WDOD and if not, what procedure might be necessary in order to establish proof of performance and/or necessary protection to the services of the above stations.

7. To determine whether the proposed operation is in accord with the Standards of Good Engineering Practice.

8. To determine the extent of any interference that would be caused to Stations WRR, WTNJ, WCAM and/or WCAP from the operation of Station WISH as proposed.

9. To determine whether, in view of the foregoing, public interest, convenience and necessity would be served by the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows: Capitol Broadcasting Corporation, Radio Station WISH, 215 Board of Trade Building, Indianapolis, Indiana.

Dated at Washington, D. C., November 9, 1942.

Crosley Corporation

ORDER SUPPLEMENTING HEARING ISSUES

In re application of The Crosley Corporation (WLW), Cincinnati, Ohio, for modification of license.

It is ordered, on the Commission's own motion, this 6th day of November, 1942, that the issues heretofore released in Docket No. 6341 be, and they are hereby, supplemented to read as follows:

1. To determine whether the granting of this application would be consistent with the Commission's Memorandum Opinion of April 27, 1942.

2. To determine whether the application may be granted within the purview of the Rules and Regulations of the Commission, particularly § 3.22 (a).

3. To determine whether § 3.22 (a), Commission's Rules, should be waived or an exception allowed, as proposed by applicant.

4. To determine whether the operation of Station WLW as proposed would be consistent with the Standards of Good Engineering Practice, particularly as to the population residing within the predicted "Blanket Area" (250 mv/m contour).

5. To determine the areas and populations which may be expected to gain primary service should Station WLW operate as proposed, and what other broadcast services are available to these areas and populations.

6. To determine the extent of any interference that might result from the simultaneous operation of any of the following stations: WOR, WGN, WISR and KFEQ and Station WLW with the power of 500 kw prior to local sunrise as permitted by § 3.87 of the Commission's Rules should this application be granted.

7. To determine the areas and populations that might lose primary service particularly from Stations WOR, WGN, WISR and KFEQ should Station WLW operate as proposed and as permitted by § 3.87 of Commission's Rules.

8. To determine whether Station WLW, operating as proposed, including operation with daytime facilities as permitted under § 3.87 of Commission's Rules and Regulations would be contrary to provisions of the North American Regional Broadcasting Agreement (Subject "C", Executive Agreement Series No. 136).

9. To determine whether, in view of the foregoing, public interest, convenience and necessity will be served through the granting of this application.

Standard Broadcast Stations

NOTICE TO ALL LICENSEES

The Commission today adopted Order No. 107[1] which requires readjustment of standard broadcast station transmitters for operation in accordance with engineering practices designed to conserve equipment, particularly vacuum tubes, to the maximum extent possible consistent with maintenance of efficient broadcast service. This action has been found necessary because of increasing needs of the armed forces for radio equipment and consequent decreasing supply of such equipment available for other uses.

Such readjustment will include, among other things, a reduction in the antenna current and the filament and plate voltages applied to the tubes, particularly the filament voltage of tubes employing tungsten filaments. It is estimated that 5% reduction in the filament voltage of tubes employing this type of filament will approximately double the life of such tubes. However, in the case of tubes employing oxide coated or thoriated tungsten filaments the filament voltages must be kept constant at the rated voltages in order to obtain the maximum life. In addition, reduction of the plate voltages reduces the emission requirements and heating of the tubes which effects a further extension of the life of tubes. These will have no practical effect as far as service to the broadcast listeners are concerned but will result in a material increase in the life of the equipment.

In conjunction with the above order, there is issued a "Manual on the Adjustment of Standard Broadcast Transmitters" prepared and approved by the Board of War Communications setting forth the procedure to be followed in readjusting the equipment and in making regular checks of such adjustments. It is realized that this manual may not cover all points or may not be specifically applicable to the particular equipment. However, it is required that each station follow the principles set out therein and will be held responsible for operation in accordance therewith.

The Commission at the same time adopted Order No. 94-A superseding its previous Order No. 94 and suspending § 3.71 of the Rules and Regulations with respect to requiring each standard broadcast station to operate at least two-thirds of the authorized time during the broadcast day, i. e., 6 a. m. to midnight, and in lieu thereof only requires operation for one-third of the broadcast day.

---

[1] *Supra.*

This permits a voluntary reduction in time of operation from 12 hours daily, in the case of an unlimited time station, to 6 hours daily. There is no restriction on the maximum hours of operation except as provided by their present licenses and the Rules and Regulations of the Commission.

Stations taking advantage of this relaxation should arrange their schedules so as to best serve the public, but insofar as possible the number of operating periods should not be increased since the heating and cooling of the tubes sets up strains which may cause them to fail prematurely. The procedure set forth in the manual in this regard should be followed very carefully.

The necessity of each broadcast station conserving its equipment to the maximum cannot be over-emphasized. In this connection, attention is invited to a survey made by the Board of War Communications which showed that if no new tubes could be supplied to broadcast stations and the tubes continued to fail at the present rate, within one year 67½% of the broadcast stations would be silenced due to the lack of one or more tubes. The several government departments concerned in this are making every effort to provide adequate replacements of tubes and parts to broadcast stations consistent with the supplying actual equipment required by the military forces. However, it is apparent that the full cooperation of each user of such equipment must be obtained if broadcasting is to be maintained at its present high level.

LEND-LEASE ADMINISTRATION.

[Directive No. 1]

Storage, Forwarding, and Transportation of Cargo for Certain Governments

Storage, forwarding and transportation of cargo intended for the government of any country whose defense has been deemed by The President to be vital to the defense of the United States, pursuant to the act of March 11, 1941.

To all departments, agencies, officers and persons of the United States Department of the Treasury, Department of Agriculture and the United States Maritime Commission engaged in the procurement, storage, forwarding or transportation of cargo intended for the government of any country whose defense has been deemed by the President to be vital to the defense of the United States pursuant to the Act of March 11, 1941 (which government is hereinafter referred to as a Lend-Lease government):

By virtue of the authority vested in the President by the Act of March 11, 1941 (Public Law 11, 77th Congress), and delegated to me pursuant to Executive Order 8926, dated October 28, 1941, as amended, and in order to assure the most effective handling, storage and forwarding to seaboard of Lend-Lease cargo and to further the successful prosecution of the war, it is hereby directed:

1. No department, agency, officer or person of the United States Department of the Treasury, Department of Agriculture and the United States Maritime Commission engaged in the procurement of Lend-Lease cargo intended for a Lend-Lease government (which departments, agencies, officers and persons are hereinafter referred to as procurement agencies) shall forward or authorize forwarding such cargo to a port or point in the United States for export transportation therefrom by water (hereinafter referred to as forwarding to seaboard) except at the direction of the War Shipping Administrator. The routing of shipping documents in connection with such forwarding shall be pursuant to the instructions of the War Shipping Administrator.

2. All such cargo shall be forwarded and consigned pursuant to the directive of the War Shipping Administrator dated November 3, 1942, and any supplements thereto and administrative orders and regulations issued thereunder, and the procurement agencies shall notify or cause to be notified the War Shipping Administrator and the representatives of the Lend-Lease government concerned as Lend-Lease articles become available for such forwarding. If such Lend-Lease government desires that a Lend-Lease article be forwarded to seaboard, it shall communicate its request therefor to the War Shipping Administrator, who shall

direct such forwarding to the extent shipping space is available.

3. The procurement agencies shall furnish all shipping instructions to their respective contractors, and shall prepare or cause to be prepared all inland shipping documents employed in connection therewith.

4. The procurement agencies shall establish inland depots to receive all Lend-Lease cargoes made available by their contractors, and shall endeavor to forward such cargo to seaboard from such depots, except when insufficient depot stocks or considerations of efficient transportation require forwarding to seaboard direct from the contractor. The procurement agencies, in conjunction with the Director of the Office of Defense Transportation, shall arrange for such depots, and the Office of Lend-Lease Administration from time to time will provide the necessary funds therefor. The Office of Lend-Lease Administration shall obtain forecasts of requirements from the foreign governments on the basis of which the procurement agencies shall endeavor to maintain in such depots supplies of "common" Lend-Lease items sufficient for approximately 30 days' shipping requirements. The Office of Lend-Lease Administration will from time to time provide the necessary funds therefor. No such cargo shall be forwarded to seaboard from such depots except at the direction of the War Shipping Administrator.

5. Prior to the issuance of instructions to forward to seaboard, the procurement agencies shall notify the War Shipping Administrator that the cargo is available for forwarding to seaboard immediately. If advised that the cargo is to be so forwarded, and after obtaining the proper traffic control release, the procurement agencies shall instruct the depot or the contractor accordingly, and shall immediately cause the War Shipping Administrator or his agent to be furnished with such information and documents as may be required. After cargoes have been consigned to the War Shipping Administrator, the War Shipping Administrator, in conjunction with the Director of the Office of Defense Transportation, shall provide for such storage as may from time to time be required while such cargoes are being called forward to seaboard, and the Office of Lend-Lease Administration from time to time, whenever necessary, will provide the necessary funds therefor. Whenever cargo called forward to seaboard is placed in such storage, the War Shipping Administrator shall promptly notify the Lend-Lease Administrator, the Lend-Lease government concerned, and the appropriate procurement agencies.

6. The procurement agencies shall comply with instructions issued by the Munitions Assignments Board, through its committees, in cases within its jurisdiction, or by the Lend-Lease Administrator in all other cases, with respect to the diversion of such cargo to some other use.

7. It shall be the responsibility of each procurement agency to maintain or cause to be maintained appropriate records concerning all Lend-Lease cargo in depots, or in transit to such depots, and, to the extent and in the manner requested, to make the same available to the Munitions Assignments Board and the Lend-Lease Administrator.

8. It shall be the responsibility of the War Shipping Administrator to maintain or cause to be maintained appropriate records showing by class, type and specifications of goods the quantities of all Lend-Lease cargo called forward by him, consigned to him or his agent, or forwarded by him or his agent, and all such cargo loaded on an ocean carrier, and, to the extent and in the manner requested, to make the same available to the Munitions Assignments Board and the Lend-Lease Administrator.

9. Nothing in this directive shall be deemed to apply to the forwarding of any Lend-Lease cargo destined for export transportation overland or via inland waterways to any points outside the United States within continental North America. With respect to such cargo, the procurement agency concerned, in conjunction with the Office of Defense Transportation, shall maintain appropriate records concerning all such cargo, whether in depots or in transit, and to the extent and in the manner requested, to make the same available to the Munitions Assignments Board and to the Lend-Lease Administrator in periodic summary reports showing by class, type and specifications of goods the quantities of such Lend-Lease cargo intended for each Lend-Lease government. The Lend-Lease government calling such cargo forward shall also furnish to the extent and in the manner requested similar reports to the Munitions Assignments Board and to the Lend-Lease Administrator concerning all such cargo called forward by it, consigned to it or to its agent, or forwarded by it or its agent, and concerning all such cargo, if any, loaded on ocean carriers departing from North American ports.

10. This directive shall become effective on December 1, 1942.

E. R. STETTINIUS, Jr.,
Administrator.

G., whose last known address was represented to the undersigned as being Frankfurt, Germany, and therefore is property of, and represents ownership of said business enterprise which is, a national of a designated enemy country (Germany), and determining that to the extent that either or both of such nationals are persons not within a designated enemy country such persons are controlled by or acting for or on behalf of or as cloaks for a designated enemy country (Germany) or a person within such country and the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country, and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Franz B. Lehmann Trust

Under the authority of the Trading with the enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding that the property described as follows:

All right, title, interest and estate, both legal and equitable, of Franz B. Lehmann, whose last known address was represented to the undersigned as being Comeniusstrasse 7, Dresden, Germany, in and to the Franz B. Lehmann Trust Fund, of which Florence M. Kranz is trustee, and all accrued and unpaid annuities thereunder,

is property within the United States owned or controlled by a national of a designated enemy country (Germany), and determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of the aforesaid designated enemy country (Germany), and having made all determinations and taken all action, after appropriate consultation and certification required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

CERTAIN INDEBTEDNESS OWING BY WESTMINSTER INDUSTRIAL CORPORATION

Under the authority of the Trading with the enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

(a) Finding that Fritz von Opel (alien detention camp) is a national of a designated enemy country (Germany);

(b) Finding that Fritz von Opel beneficially owns 100 shares of the capital stock of Westminster Industrial Corporation, a New York corporation, New York, New York, which is a business enterprise within the United States and which 100 shares of common stock (which were vested by the undersigned pursuant to Vesting Order Number 18 issued under date of June 4, 1942) constitute all the outstanding capital stock of said business enterprise and represent ownership thereof, and therefore determining that such business enterprise is a national of the aforesaid designated enemy country (Germany);

(c) Finding that all right, title, interest, and claim of any name or nature whatsoever of Overseas Finance Corporation, Ltd. in and to all indebtedness contingent or otherwise and whether or not matured, owing to it by said Westminster Industrial Corporation, including but not limiited to all security rights in and to any and all collateral for any or all of such indebtedness and the right to sue for and collect such indebtedness is held for the benefit of said Fritz von Opel and therefore is an interest in the aforesaid business enterprise held by a national of an enemy country and also is property within the United States owned or controlled by a national of a designated enemy country (Germany);

(d) Determining that to the extent that such nationals are persons not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country (Germany);

(e) Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

(f) Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the indebtedness described in subparagraph (c), to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

OFFICE OF DEFENSE TRANSPORTATION.

[Special Order ODT B–31]

AMARILLO, TEXAS—ALBUQUERQUE, N. M.

OPERATION OF PASSENGER CARRIERS BY MOTOR VEHICLE

Directing coordinated operation of passenger carriers by motor vehicle between Amarillo, Texas, and Albuquerque, New Mexico.

Upon consideration of the application for authority to coordinate motor vehicle service in the transportation of passengers filed with this Office by New Mexico Transportation Company, Inc., Roswell, New Mexico, and Southwestern Greyhound Lines, Inc., Fort Worth, Texas, and in order to assure maximum utilization of the facilities, services, and equipment of common carriers of passengers by motor vehicle, and to conserve and providently utilize vital equipment, materials, and supplies, including rubber, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. New Mexico Transportation Company, Inc. and Southwestern Greyhound Lines, Inc. (hereinafter called "carriers"), respectively, in the transportation of passengers on the routes served by them between Amarillo, Texas, and Albuquerque, New Mexico, as common carriers by motor vehicle, shall:

(a) Honor each other's tickets between all points common to their lines where equal fares apply and divert to each other traffic routed between such points for the purpose of relieving overloads and reducing the operation of additional equipment in extra sections;

(b) Adjust and establish schedules to eliminate duplication of times of departure of the respective carriers and provide reasonable frequency of service throughout the day;

(c) Wherever practicable eliminate duplicate depot facilities and commission ticket agencies and in lieu thereof, utilize joint depot facilities and joint commission ticket agencies. Contracts, agreements, and arrangements for any such joint facilities and agencies shall not extend beyond the effective period of this order. At such depot facilities and commission ticket agencies used jointly by the carriers, service, travel information, and ticket sales shall be impartial, without preference or discrimination for or against either of such carriers.

2. On the routes served by the carriers between Amarillo, Texas, and Albuquerque, New Mexico, New Mexico Transportation Company, Inc. shall operate a through service of not to exceed three round trips daily, and Southwestern Greyhound Lines, Inc. shall operate a through service of not to exceed two round trips daily.

3. The carriers forthwith shall file with the Interstate Commerce Commission, in respect of transportation in interstate or foreign commerce, and with each appropriate regulatory body in respect of transportation in intrastate commerce, and publish in accordance with law, and continue in effect until further order, tariffs, or appropriate supplements to filed tariffs, setting forth any changes in the fares, charges, operations, rules, regulations, and practices of each carrier which may be necessary to accord with the provisions of this order, together with a copy of this order; and forthwith shall apply to said Commission and each such regulatory body for special permission for such tariffs or supplements to become effective on one day's notice.

4. Communications concerning this order should be addressed to the Division of Local Transport, Office of Defense Transportation, Washington, D. C., and should refer to "Special Order ODT B–31".

This order shall become effective November 25, 1942, and shall remain in full force and effect until further order of this Office.

Issued at Washington, D. C., this 11th day of November 1942.

OFFICE OF PRICE ADMINISTRATION.

WILLIAM F. DALY

[Suspension Order 157]

ORDER RESTRICTING TRANSACTIONS

William F. Daly, 1752 Riverdale Road, West Springfield, Massachusetts, hereinafter called respondent, was duly served with a notice of specific charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing upon the charges was held on September 2 and 3, 1942, in Boston, Massachusetts. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator, it is hereby determined that:

(a) Respondent is a dealer in and an intermediate distributor of gasoline within the meaning of Ration Order No. 5A, Gasoline Rationing Regulations.

(b) Respondent has wilfully violated §§ 1394.1502 and 1394.1503 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 5, 1942, in West Springfield, Massachusetts, respondent transferred three gallons of gasoline to a consumer, Francis Nokes, and into the fuel tank of a motor vehicle without receiving in exchange therefor any gasoline ration coupon and without requiring the presentation of any gasoline ration coupon book.

(c) Respondent has wilfully violated §§ 1394.1502 and 1394.1503 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 10, 1942, in West Springfield, Massachusetts, respondent transferred three gallons of gasoline to a consumer, William F. Otto, and into the fuel tank of a motor vehicle without receiving in exchange therefor any gasoline ration coupon and without requiring the presentation of any gasoline ration coupon book.

(d) Respondent has violated §§ 1394.1502 and 1394.1503 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 4, 1942, in West Springfield, Massachusetts, respondent transferred three and one-half gallons of gasoline to a consumer, Gordon Joyce, and into the fuel tank of a motor vehicle without receiving in exchange therefor any gasoline ration coupon and without requiring the presentation of any gasoline ration coupon book.

(e) Respondent has violated §§ 1394.1502, and 1394.1503 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 5, 1942, in West Springfield, Massachusetts, respondent transferred three gallons of gasoline to a consumer, Clarence W. Niles, Jr., and into the fuel tank of a motor vehicle without receiving in exchange therefor any gasoline ration coupon and without requiring the presentation of any gasoline ration coupon book.

(f) Respondent has violated §§ 1394.1502 and 1394.1503 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 5, 1942, in West Springfield, Massachusetts, respondent transferred five and one-half gallons of gasoline to a consumer, Gordon C Smith, and into the fuel tank of a motor vehicle without receiving in exchange therefor any gasoline ration coupon and without requiring the presentation of any gasoline ration coupon book.

(g) The foregoing transfers by respondent were not within any of the classes of transfers of gasoline permitted by the provisions of Ration Order No. 5A, Gasoline Rationing Regulations, to be made without the exchange of coupons.

Because of the great scarcity and critical importance of gasoline in Massachusetts, violations of Ration Order No. 5A, Gasoline Rationing Regulations, by respondent have necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator that further violations of Gasoline Rationing Regulations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(h) During the period in which this Suspension Order shall be in effect,

(1) Respondent shall not in any manner directly or indirectly sell, transfer or deliver any gasoline to any person: *Provided, however*, That subject to the prior approval of and the supervision by the Regional Administrator of Region I, Office of Price Administration, respondent may dispose of his stocks of gasoline on hand at the time this Order is served upon him.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondent.

(i) Any terms used in this Suspension Order No. 157 that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(j) This Suspension Order No. 157 shall become effective 12:01 A. M. November 13, 1942, and shall remain in effect until further order by the Deputy Administrator in Charge of Rationing but not later than December 31, 1944.

(Sec. 2 (a) of Pub. Law 671, 76th Cong.; as amended by Pub. Laws 89, 421 and 507, 77th Cong.; E.O. No. 9125, 7 F.R. 2719; WPB Dir. 1, 7 F.R. 562; WPB Supp. Dir. 1H, 7 F.R. 3478, 3877, 5216)

Issued this 11th day of November 1942.

Rationing of Fluid Milk Shipping Containers and Covers and Farm Fencing

AUTHORIZATION OF THE SECRETARY OF AGRICULTURE

Pursuant to the authority conferred upon the Office of Price Administration and the Administrator by Executive Order No. 9125[1] and by War Production Board Directive No. 1[2] as extended by Supplementary Directive No. 1-P[3], the following order is prescribed:

(a) The Secretary of Agriculture is hereby authorized and directed to exercise the functions, duties, powers, authority and discretion, including but not limited to the power of subpoena, and the power to issue suspension orders, conferred upon the Office of Price Administration and the Administrator for the purpose of securing the efficient rationing of fluid milk shipping containers and covers and farm fencing within the limits of the continental United States.

(b) Any order issued by the Secretary of Agriculture pursuant to this delegation of authority shall have the same force and effect as if issued by the Administrator.

(c) As used herein the terms "fluid milk shipping container", "cover", and "farm fencing" shall have the meanings given them in paragraph (b) of War Production Board Supplementary Directive No. 1-P.

Issued and effective this 11th day of November 1942.

[Suspension Order 151]

Long Hook Development Company

ORDER RESTRICTING TRANSACTIONS

Order on petition for reconsideration of Suspension Order No. 151.

On November 4, 1942, Long Hook Development Company, a corporation, hereinafter called respondent, filed a petition for reconsideration of Suspension Order No. 151 issued October 30, 1942. On November 4, 1942, an order was issued staying Suspension Order No. 151 until further order of the Deputy Administrator in Charge of Rationing. The petition and the brief accompanying the same having been duly considered by the Deputy Administrator in Charge of Rationing, *It is hereby ordered,* That Suspension Order No. 151 is modified to read as follows:

Long Hook Development Company, a corporation, hereinafter called respondent was served with a notice of charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations issued by the Office of Price Administration. Pursuant to the notice a hearing on the charges was held on the 16th day of September 1942, in Wilmington, Delaware. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been considered by the Deputy Administrator,

It is hereby determined that:

(a) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 19, 1942, at a filling station operated by it at 525 South Market Street, Wilmington, Delaware, respondent transferred gasoline to a consumer and into the fuel tank of a motor vehicle without requiring the presentation of a gasoline coupon book issued with respect to said motor vehicle and without detaching therefrom any coupons.

Because of the great scarcity and critical importance of gasoline in Delaware, the violation of Ration Order No. 5A, Gasoline Rationing Regulations by respondent necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to national defense. It appears to the Deputy Administrator from the evidence before him that further violations of Ration Order No. 5A, Gasoline Rationing Regulations by respondent are likely unless appropriate administrative action is taken. *It is therefore ordered:*

(b) During the period in which this Suspension Order No. 151 shall be in effect, (1) Respondent shall not sell, transfer or deliver any gasoline to any consumer at its filling station at 525 South Market Street, Wilmington, Delaware.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source, any gasoline at its filling station at 525 South Market Street, Wilmington, Delaware, for resale at said station.

(3) No person, firm or corporation shall deliver or in any manner directly or indirectly transfer to respondent, any gasoline at its filling station at 525 South Market Street, Wilmington, Delaware, for resale at said station.

(c) Any terms used in this suspension order that are defined in Ration Order No. 5A, Gasoline Rationing Regulations shall have the meaning therein given them.

(d) This Suspension Order No. 151 shall become effective 12:01 A. M. November 18, 1942, and unless sooner terminated, shall expire 12:01 A. M. December 3, 1942.

[Revised Suspension Order 154]

Willard M. Blodgett

ORDER RESTRICTING TRANSACTIONS

Suspension Order No. 154 is hereby amended to read as follows:

Willard M. Blodgett, Fitzwilliam, New Hampshire, hereinafter called respondent, was duly served with a notice of specific charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice, a hearing upon the charges was held on September 25, 1942, in Concord, New Hampshire. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator,

It is hereby determined that:

(a) Respondent is a dealer in gasoline within the meaning of Ration Order No. 5A, Gasoline Rationing Regulations.

(b) Respondent has violated § 1394.-1503 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 17, 1942, and on at least one other occasion between July 22 and August 17, 1942, in Fitzwilliam, New Hampshire, respondent transferred five gallons of gasoline to a private consumer and into the fuel tank of a private passenger automobile without requiring the presentation of a gasoline ration coupon book and on each occasion respondent received in exchange for the transfer a gasoline ration coupon Class S.

Because of the great scarcity and critical importance of gasoline in the New Hampshire area, violations of Ration Order No. 5A, Gasoline Rationing Regulations, by respondent have necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator that further violations by respondent are likely unless appropriate administrative action is taken. *It is therefore ordered:*

(c) During the period in which this Suspension Order shall be in effect,

(1) Respondent shall not sell, transfer or deliver any gasoline to any person.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondent.

(d) Any terms used in this Suspension Order No. 154 that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(e) This suspension order shall become effective 12:01 A. M. November 18, 1942, and unless sooner terminated, shall expire 12:01 A. M. December 18, 1942.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong.; as amended by Pub. Laws 89 and 507, 77th Cong.; E.O. No. 9125 (7 F.R. 2719); WPB Dir. No. 1 (7 F.R. 562) and Supp. Dir. No. 1H (7 F.R. 3478, 3877, 5216)

Issued this 11th day of November 1942.

Deputy Administrator
in Charge of Rationing.

[Order 13 Under MPR 169]

Earl C. Gibbs, Incorporated

ORDER GRANTING ADJUSTMENT

Order No. 13 Under Maximum Price Regulation No. 169—Beef and Veal Carcasses and Wholesale Cuts—Docket No. 3169-177.

On September 16, 1942, Earl C. Gibbs, Incorporated, 3378 West 65th Street, Cleveland, Ohio, filed a petition for adjustment pursuant to § 1364.60 of Maximum Price Regulation No. 169, as amended. Due consideration has been given to the petition and an opinion in support of this Order No. 13 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Revised Procedural Regulation No. 1 issued by the Office of Price Administration, *It is hereby ordered:*

(a) Earl C. Gibbs, Incorporated, may sell and deliver and agree, offer, solicit and attempt to sell and deliver beef carcasses of the grades hereinafter set forth, and any person may buy and receive from Earl C. Gibbs, Incorporated, such beef carcasses at prices not in excess of those established as follows:

	Cents per lb.
Steer and heifer carcasses, AA or choice grade	22
Steer and heifer carcasses, A or good grade	21
Steer and heifer carcasses, B or commercial grade	20
Cow carcasses, A or good grade	18
Cow carcasses, B or commercial grade	17½
All carcasses, Cutter and canner grade	15

(b) Earl C. Gibbs, Incorporated, shall mail or cause to be mailed to all persons who purchase beef carcasses from it for resale a notice reading as follows:

> The Office of Price Administration, by Order No. — effective ———, 1942, pursuant to Section 1364.60 of Maximum Price Regulation No. 169, as amended, has permitted us to raise our maximum prices for sales to you of beef carcasses as follows:
>
> Steer and heifer carcasses, AA or choice grade from 21¢ to 22¢ per lb.
>
> Steer and heifer carcasses, A or good grade from 20½¢ to 21¢ per lb.
>
> Steer and heifer carcasses, B or commercial grade from 19½¢ to 20¢ per lb.
>
> Cow carcasses, A or good grade from 17½¢ to 18¢ per lb.
>
> Cow carcasses, B or commercial grade from 16½¢ to 17½¢ per lb.
>
> All carcasses, Cutter and Canner grade from 14½¢ to 15¢ per lb.
>
> This amount represents only that part of cost increases which we were unable to absorb and it was granted with the understanding that resale prices would not be raised. The Office of Price Administration has not permitted you or any other seller to raise maximum prices for sales of beef carcasses. In order that we may continue to provide you with these carcasses, it will be necessary for you to accept this reduction in your margin.

(c) All prayers of the petition not granted herein are denied.

(4) This Order No. 13 may be revoked or amended by the Price Administrator at any time. Unless the context otherwise requires, the definitions set forth in § 1364.62 of Maximum Price Regulation No. 169, as amended, shall apply to the terms used herein.

(e) This Order No. 13 shall become effective November 13, 1942.

Issued this 12th day of November 1942.

[Suspension Order 156]

L AND J TIRE COMPANY

ORDER RESTRICTING TRANSACTIONS

Ben Greenblatt and Doris Greenblatt, doing business as L and J Tire Company, 3222 Market Street, Youngstown, Ohio, herein called respondents, were duly served with a notice and a supplemental notice of specific charges of violations of Revised Tire Rationing Regulations issued by the Office of Price Administration. Pursuant to said notices a hearing upon the charges was held on August 31, 1942, and on October 5, 1942, in Youngstown, Ohio. There appeared a representative of the Office of Price Administration and respondents. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator in Charge of Rationing, It is hereby determined that:

(a) Respondents have violated § 1315.803 of Revised Tire Rationing Regulations in that on May 9, 1942, respondents accepted delivery of 4,000 pounds of camelback from a dealer in camelback without delivering in exchange therefor any portion of any certificate issued pursuant to Revised Tire Rationing Regulations.

(b) Respondents have violated § 1315.803 of Revised Tire Rationing Regulations in that between May 10, 1942, and May 20, 1942, respondents as dealers in camelback delivered 500 pounds of camelback to one Sidney Ulansky without receiving in exchange therefor any portion of any certificate issued pursuant to Revised Tire Rationing Regulations.

(c) Respondents have violated § 1315.803 of the Revised Tire Rationing Regulations in that on May 15, 1942, respondents, as dealers in camelback, delivered 500 pounds of camelback to Butler County National Bank and Trust Company, Butler, Pennsylvania, without receiving in exchange therefor any portion of any certificate issued pursuant to Revised Tire Rationing Regulations.

(d) Respondents have violated § 1315.803 of the Revised Tire Rationing Regulations in that on June 20, 1942, respondents as dealers in camelback, delivered 2,000 pounds of camelback to Butler County National Bank and Trust Company, Butler, Pennsylvania, without receiving in exchange therefor any portion of any certificate issued pursuant to Revised Tire Rationing Regulations.

(e) Respondents have violated § 1315.401 and § 1315.802 of Revised Tire Rationing Regulations in that between May 15, 1942, and August 31, 1942, respondents delivered 89 recapped tires to Butler County National Bank and Trust Company, Butler, Pennsylvania, without receiving in exchange therefor any certificate authorizing such delivery issued by a War Price and Rationing Board.

(f) The foregoing deliveries made or received by respondents were not within any of the classes of deliveries of camelback or recapped tires permitted by the provisions of the Revised Tire Rationing Regulations to be made without the exchange of certificates or portions of certificates.

Because of the great scarcity and critical importance of rubber in the United States, respondents' violations of the tire rationing regulations issued by the Office of Price Administration have necessarily resulted in the diversion of rubber from military and essential civilian uses to non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing that further violations of the Tire Rationing Regulations by respondents are likely unless appropriate administrative action is taken.

It is therefore ordered:

(g) During the period in which Suspension Order No. 156 shall be in effect,

(1) Respondents, their successors or assigns, shall not accept any transfers or deliveries of or in any manner directly or indirectly receive from any source any new tires, new tubes, recapped tires, retreaded tires, camelback or other recapping or retreading material.

(2) No person shall in any manner, directly or indirectly, sell, transfer or deliver any new tires, new tubes, recapped tires, retreaded tires, camelback or other recapping or retreading material to respondents, their successors or assigns, regardless of whether such materials have been previously purchased and completely paid for.

(3) Respondents shall not directly or indirectly sell, transfer, deliver, or otherwise deal or trade in any new tires, new tubes, recapped tires, retreaded tires, camelback or other retreading or recapping material: *Provided, however,* That respondents may make sales, transfers, or deliveries of their stocks thereof in their possession at the time this Suspension Order No. 156 is served upon them with the prior approval and under the supervision of the Regional Administrator of the Office of Price Administration for Region III.

(4) Respondents, their successors, or assigns, shall not enter into any contract or commitment for the recapping or retreading of tires or recap or retread any tires or in any way use or consume any camelback or other retreading or recapping material: *Provided, however,* That if any contract for retreading or recapping of tires have been entered into by respondents and such tires have been prepared in any degree for retreading or recapping or have been retreaded or recapped before this Suspension Order No. 156 is served upon respondents, such recapping or retreading may be completed and the retreaded or recapped tires delivered with the prior approval and under the supervision of the Regional administrator of the Office of Price Administration for Region III.

(h) Any term used in this Suspension Order No. 156 that is defined in Revised Tire Rationing Regulations shall have the meaning therein given it.

(i) This Suspension Order No. 156 shall become effective November 17, 1942, and shall remain in effect until further order of the Deputy Administrator in Charge of Rationing, but in no event later than December 31, 1944.

(Pub. Law 421, 77th Cong.; Sec. 2 (a) of Pub. Law 671, 76th Cong.; as amended by Pub. Laws 89 and 507, 77th Cong.; E.O. No. 9125 (7 F.R. 2719); W.P.B. Directive No. 1 and Supplementary Directive No. 1B (7 F.R. 562, 925); W.P.B. Supplementary Order No. M-15-C (6 F.R. 6792))

Issued this 12th day of November 1942.

[Suspension Order 159]

ANGELINA RESTAURANT

ORDER RESTRICTING TRANSACTIONS

Angelina Nicholas, doing business as Angelina Restaurant, 1123 West Columbus Avenue, Philadelphia, Pennsylvania, hereinafter called respondent, was duly served with a notice of specific charges of violation of Rationing Order No. 3, Sugar Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing upon the charges was held on September 25, 1942, in Philadelphia, Pennsylvania. There appeared a representative of the Office of Price Administration and the respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator, It is hereby determined that:

(a) On the 28th of April, 1942, respondent registered for Angelina Restaurant, an institutional user of sugar, located at 1123 West Columbus Avenue, Philadelphia, Pennsylvania, and filed OPA Form R-310 with Local Rationing Board No. 39, Philadelphia, Pennsylvania.

(b) Respondent has violated § 1407.83 of Rationing Order No. 3, Sugar Rationing Regulations, in that on said OPA Form R-310 respondent declared that the quantity of sugar used by her for meals or food services was 500 pounds per month during each of the months of 1941 and that the quantity of sugar owned by her at the time of such registration was 250 pounds whereas the quantity of sugar, in fact, used by respondent for meals and food services during each of the months of 1941 was substantially less than 500 pounds and the quantity of sugar owned by respondent at the time of such registration was approximately 2,275 pounds.

(c) By reason of the false statements made by her on OPA Form R-310 respondent subsequently received an allotment of sugar for the months of May and June, 1942 in an amount in excess of that to which she was entitled under Rationing Order No. 3, the Sugar Rationing Regulations. Respondent, however, never purchased or received the sugar allotted to her nor has she made any purchases of sugar subsequent to her registration on April 28, 1942.

The violations by respondent of Rationing Order No. 3, Sugar Rationing Regulations, have hampered the effective administration and enforcement of necessary wartime regulations in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing that further violations of Ration Order No. 3, Sugar Rationing Regulations, by respondent are likely unless appropriate administrative action is taken. *It is therefore ordered:*

(d) The registration of Angelina Restaurant as an institutional user of sugar is hereby cancelled and all allotments of sugar to Angelina Restaurant are hereby revoked.

(e) Respondent shall forthwith surrender for cancellation to the War Price and Rationing Board that issued the same all sugar purchase certificates heretofore issued to respondent.

(f) Respondent may petition for registration of and assignment to Angelina Restaurant of an allotment. The petition shall be made upon OPA Form R-315 and the proceedings thereafter shall be the same as provided in § 1407.161 of Rationing Order No. 3, Sugar Rationing Regulations.

(g) Respondent shall be entitled to use 200 pounds of sugar per month pending decision on any petition respondent may file pursuant to Paragraph (f) of this Suspension Order No. 159.

(h) Any terms used in this Suspension Order No. 159 that are defined in Rationing Order No. 3, Sugar Rationing Regulations, shall have the meaning therein given them.

(Pub. Law 421, 77th Cong.; sec. 2 (a) of Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong., E.O. No. 9125 (7 F.R. 2719); W.P.B. Directive No. 1 (7 F.R. 562) and Supplementary Directive No. 1E (7 F.R. 2965))

Issued and effective this 12th day of November 1942.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-618]

AMERICAN POWER & LIGHT COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 10th day of November, A. D., 1942.

Notice is hereby given that a declaration or application (or both) has been filed by American Power & Light Company pursuant to the Public Utility Holding Company Act of 1935, which designates sections 10 and 12 (c) of said Act and Rules U-23 and U-42 promulgated thereunder as applicable to the transactions proposed therein. All interested persons are referred to said declaration or application (or both), which is on file in the office of this Commission, for a statement of such proposed transactions, which are summarized as follows:

American has outstanding $41,153,000 principal amount of American's Gold Debenture Bonds, American 6% Series, due 2016, and $3,780,000 principal amount of Southwestern Power & Light Company 6% Gold Debenture Bonds, Series A, due 2022 (the latter issue of Bonds having been assumed by American). American will employ up to $10,000,000 in the purchase in the open market, at prices not exceeding the principal amount thereof (exclusive of accrued interest), of such amount of the Debenture Bonds as are obtainable within a period of approximately six months. If at the end of such period there remains as much as $200,000 unexpended out of such $10,000,000, applicant proposes to call for tenders of such Debenture Bonds for sale to applicant at prices not exceeding the principal amount thereof (exclusive of accrued interest), and will offer to purchase the largest number of Debenture Bonds (excluding any fraction of $1,000 principal amount) which such unexpended cash will pay for, Debenture Bonds offered at the lowest price or prices to be purchased first, and in case more Debenture Bonds are tendered than can be purchased with such unexpended sum, Debenture Bonds offered at the highest price at which Debenture Bonds are to be purchased will be selected by lot.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said matter, and that said declaration or application (or both) shall not be permitted to become effective, nor granted, except pursuant to further order of this Commission:

It is ordered, That a hearing on such matter, under the applicable provisions of said Act and the rules and regulations of the Commission, be held on November 24, 1942, at 10:00 A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on that day by the hearing room clerk in Room 318;

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice;

It is further ordered, That any person desiring to be heard in connection with the proceeding, or proposing to intervene herein, shall file with the Secretary of the Commission on or before November 17, 1942, his request or application therefor, as provided by Rule XVII of the Rules of Practice of this Commission; and

It is further ordered, That without limiting the scope of the issues, presented for the aforesaid declaration or application (or both), to be raised at the hearing, particular attention will be directed to the following matters and questions:

1. Whether the proposed reacquisition by applicant of its Debenture Bonds is in the public interest and the interest of investors.

2. Whether the method proposed by applicant for the reacquisition of said Debenture Bonds is appropriate and in the public interest and the interest of investors.

3. Whether the fees, commissions or other remunerations to be paid, directly or indirectly, in connection with the proposed transaction are reasonable.

4. Whether the proposed reacquisition is detrimental to the carrying out of the provisions of Section 11 of the Act or tends to circumvent any provisions of the Act or any Rules, Regulations or Orders of the Commission.

5. Whether it is necessary or appropriate to impose any terms or conditions in the public interest or for the protection of investors.

COMSTOCK TUNNEL AND DRAINAGE CO.

[File No. 1-2640]

ORDER SETTING HEARING ON APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of November, A. D. 1942.

In the matter of Comstock Tunnel and Drainage Company, Common Stock, $1 Par Value.

The Comstock Tunnel and Drainage Company, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, having made application to the Commission to withdraw its Common Stock, $1 Par Value, from listing and registration on the San Francisco Mining Exchange; and

The Commission deeming it necessary for the protection of investors that a hearing be held in this matter at which all interested persons be given an opportunity to be heard;

It is ordered, That the matter be set down for hearing at 10 a. m. on Friday, December 4, 1942, at the office of the Securities and Exchange Commission, 120 Broadway, New York, New York, and continue thereafter at such times and places as the Commission or its officers herein designated shall determine, and that general notice thereof be given; and

It is further ordered, That John H. Kelley, or any other officer or officers of the Commission named by it for that purpose, shall preside at the hearing on such matter. The officer so designated to preside at such hearing is hereby empowered to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law.

By the Commission.

ELECTRIC BOND AND SHARE CO., ET AL.

ORDER GRANTING APPLICATION FOR EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 9th day of November, A. D. 1942.

In the Matter of Electric Bond and Share Company, American Power & Light Company, Pacific Power & Light Company, Electric Power & Light Corporation, Utah Power & Light Company, National Power & Light Company and Ebasco Services Incorporated, respondents.

Order granting application for extension of time to comply with order under section 11 (b) (2) of the Public Utility Holding Company Act of 1935 directing the dissolution of National Power & Light Company.

The Commission having heretofore, on August 23, 1941, entered its order herein, pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935, requiring (a) that the existence of National Power & Light Company be terminated and that said Company be dissolved, and (b) that National Power & Light Company and Electric Bond and

Share Company proceed with due diligence to submit to the Commission a plan or plans for the prompt dissolution of National Power & Light Company, pursuant to section 11 (b) (2) of the Act; and

National Power & Light Company having filed an application herein requesting the Commission to enter an order under Section 11 (c) of the Act extending for one year the time for compliance with said order of dissolution dated August 23, 1941; and

A public hearing having been duly held on said application, the Commission having considered the record in this matter and having made and filed its Findings and Opinion herein, and being of the opinion that action may appropriately be taken as hereinafter ordered:

It is ordered, That said application for an extension of time is hereby granted, and that the time within which National Power & Light Company shall comply with said order of dissolution dated August 23, 1941, is hereby extended for a period of one year from and after August 23, 1942, subject to the following conditions:

1. On or before December 20, 1942, National Power & Light Company shall submit to this Commission estimated corporate income and surplus statements, by months, for the nine months' period ending August 31, 1943. Such statements shall show the nature and source of the estimated monthly income, the detail of the estimated monthly expenses, deductions from income and surplus items, all classified in accordance with the Uniform System of Accounts for Public Utility Holding Companies under the Public Utility Holding Company Act of 1935.

2. On or before the 20th day of each month from and after December 1, 1942, National Power & Light Company shall submit to the Commission its actual corporate income and surplus statements for the calendar monthly period next preceding the date of the filing thereof. Such statements shall show the nature and source of the monthly income, the detail of the monthly expenses, deductions from income and surplus items, all classified in accordance with the Uniform System of Accounts for Public Utility Holding Companies under the Public Utility Holding Company Act of 1935.

3. National Power & Light Company shall submit an amendment or amendments to its "Plan dated as of May 7, 1942, for Compliance with section 11 (b) of the Public Utility Holding Company Act of 1935", setting forth the extent and manner in which it is proposed that Birmingham Electric Company, Carolina Power & Light Company, Lehigh Valley Transit Company and Pennsylvania Power & Light Company shall (a) restate their respective plant, surplus, capital and other accounts so as to segregate, dispose of, or eliminate write-ups and intangibles in their respective plant accounts, (b) set up adequate reserves for depreciation of plant and property, (c) make such other accounting adjustments as may be deemed necessary to meet the requirements of the Act, and (d) revise and simplify their respective capital structures, and take such other steps as may be deemed necessary to effectuate a fair and equitable redistribution of voting power among their respective security holders. In respect of Birmingham Electric Company, such amendment shall be submitted on or before December 15, 1942. In respect of Carolina Power & Light Company, such amendment, giving consideration to the adjustments proposed in the proceeding entitled "In the Matter of Carolina Power & Light Company, et al., File No. 70-603", shall be submitted on or before January 1, 1943. In respect of Lehigh Valley Transit Company and Pennsylvania Power & Light Company, such amendment or amendments shall be submitted on or before February 15, 1943.

4. Jurisdiction is hereby reserved to rescind or modify, after appropriate notice to National Power & Light Company, the provisions of this order granting the extension of time for the purpose aforesaid.

By the Commission.

THE RAILWAY AND BUS ASSOCIATES

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of November 1942.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by The Railway and Bus Associates, an indirect subsidiary of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, a registered holding company; and

Notice is further given that any interested person may, not later than November 30, 1942, at 5:30 p. m., E. W. T., request the Comission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of such interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such application, as filed or as amended, may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

All interested persons are referred to the said application, which is on file in the office of the said Commission, for a statement of the transaction therein proposed, which is summarized below:

The Railway and Bus Associates propose to acquire from Triple Cities Traction Corporation 800 shares of the common capital stock (par value $1 per share) of Atlantic Utility Service Corporation, a service company in the Associated Gas and Electric Corporation system, for the total consideration of One Dollar ($1). This acquisition is stated to be pursuant to the terms of an agreement between The Railway and Bus Associates and George E. Schreiber, et al., by the terms of which The Railway and Bus Associates, on January 29, 1942, sold and delivered all the common stock totaling 450 shares of Triple Cities Traction Corporation to the said George E. Schreiber, et. al., receiving as consideration therefor the sum of $276,000. The agreement also provided that the purchasers of the stock of Triple Cities Traction Corporation are to cause the Triple Cities Traction Corporation to transfer its 800 shares of common stock of Atlantic Utility Service Corporation to The Railway and Bus Associates for the consideration of $1. The proposed transaction is for the purpose of effectuating the terms of the agreement.

By the Commission.

(b) Low oil content soybeans of classes I and II shall be soybeans produced in areas other than those designated in subsection (a) above.

(c) High oil content soybeans of classes III, IV, and V, and varieties of classes I and II not approved by the United States Department of Agriculture State War Board shall be soybeans of such classes and varieties which are produced in a county as to which it is determined by Commodity on the basis of representative samples that such classes or varieties generally grown in such county have a fat content of not less than 17½ percent on a 10 percent moisture basis.

(d) Low oil content soybeans shall be soybeans of classes III, IV, and V (brown, black, and mixed) and varieties of U. S. classes I and II not approved by the United States Department of Agriculture State War Board unless grown in a county as to which it is determined by Commodity on a basis of representative samples that soybeans of such classes or varieties generally grown in such county have a fat content of not less than 17½ percent on a 10 percent moisture basis.

(e) In any county in which soybeans of any class are to be bought on a low oil content basis, unless they are approved as having high oil content, the county agricultural conservation committee may, with the approval of the State committee, secure representative samples of such class of soybeans for the purpose of determining the average oil content. In preparing such representative samples, the county committee, as the representative of Agricultural Adjustment Agency and Commodity Credit Corporation, shall secure individual farm samples so as to include all varieties of soybeans making up the particular class and so as to include farms located on each soil type in the county in which such class of soybeans is produced. Individual farm samples shall be taken from a minimum of 20 farms, unless there are less than 20 farms producing the particular class of soybeans in the county, in which case a sample shall be taken from each farm. The individual farm samples shall be thoroughly intermingled and from this three composite samples of not less than one quart each shall be prepared and sent to an approved laboratory for oil analysis. If the average oil content of the three composite samples is 17½ percent or more on a 10 percent moisture basis, all soybeans of that class produced in the county shall be considered to be of high oil content, upon submission to the regional director of Commodity Credit Corporation at Chicago of a copy of the analysis and a report of the manner in which the samples were taken and prepared.

If an individual producer desires to have an official determination made with respect to the oil content of the soybeans produced on his farm, he may request the county committee to secure a representative sample of his soybeans. The county committee shall take not less than three samples from the soybeans produced by such producer and from these they shall prepare a composite sample and submit it to an approved laboratory for analysis as indicated above. The county committee shall also determine the approximate number of bushels of soybeans of the particular class which the producer will offer for sale. In the event the analysis of the sample indicates an oil content of 17½ percent or more on a 10 percent moisture basis, the soybeans offered for sale by the producer shall be eligible for the high oil content price, provided the documents executed in connection with the purchase of such soybeans are accompanied by the report of the oil analysis made by the laboratory and a statement by the county committee showing the number of bushels of soybeans of such class represented by the sample produced on the farm to be offered for sale.

In the event a group of producers growing the same variety of soybeans wish to have an official oil determination made, the same procedure should be followed in securing samples as outlined in the first paragraph of this subsection. It will, however, be necessary for the county committee to prepare for submission with all documents executed in connection with the purchase of such soybeans a true copy of the oil analysis prepared by the laboratory, together with their estimate of the number of bushels of soybeans of such class represented by the sample produced and to be offered for sale by each producer in the group.

In both cases covered by the two paragraphs next above, the individual or group of individuals requesting the determination will pay the costs of the oil analysis.

§ 230.5 *County agricultural conservation committees.* Local county agricultural conservation committees will administer the loan and purchase program within a county and will determine eligibility of producers and soybeans. All loan and purchase forms will be obtainable from offices of county committees and must be approved by the committee prior to disbursement of proceeds. A service fee in connection with each loan will be collected by the county committee to cover the expenses incurred in the operation of the program.

§ 230.6 *Regional office of Commodity Credit Corporation.* The regional office of Commodity Credit Corporation, 208 South La Salle Street, Chicago, Illinois, will handle the soybean loan and purchase program for the Corporation.

LOANS

§ 230.10 *Eligible soybeans for loans.* Soybeans eligible for loans must be stored on farms and shall be any class grading No. 3 or better with respect to factors other than moisture and having a moisture content not in excess of 14 percent, which were produced in 1942, the beneficial interest to which is and always has been with the eligible producer, except that soybeans grading weevily or which are musty, sour, heating, or have any objectionable foreign odor, shall not be eligible soybeans for loan. Loans will be made to eligible producers on soybeans stored on the farm in all areas approved by the Agricultural Adjustment Agency. The procedure in § 230.4 (e) relating to high oil content soybeans for purchase applies to soybeans for loans also.

§ 230.11 *Amount.* The basic loan values for No. 1 and No. 2 soybeans shall be in accordance with the following schedules:

(a) Soybeans of classes I and II (green and yellow):

(i) $1.60 per bushel for high oil content.
(ii) $1.50 per bushel for low oil content.

(b) Soybeans of classes III, IV, and V (brown, black, and mixed):

(i) $1.50 per bushel for high oil content.
(ii) $1.40 per bushel for low oil content.

(c) Soybeans of any class grading No. 3 with respect to factors other than moisture and having not more than 14 percent moisture shall be discounted 8 cents per bushel below the basic loan value for No. 1 or No. 2.

§ 230.12 *Maturity and interest.* Loans on eligible soybeans will be available after the 1942 harvest begins and through March 31, 1943. Loans will mature on demand, but not later than June 30, 1943. Consent for storage of the soybeans on the farm until September 1, 1943, will be required. A 7-cent per bushel storage allowance will be advanced which may be retained by the borrower if the soybeans are delivered to Commodity Credit Corporation in payment of the loan at maturity or prior thereto if payment is demanded for a reason other than damage to the collateral or misrepresentation by the borrower. If delivery is made prior to maturity due to damage or threatened damage to the collateral, the producer shall refund to the Corporation an amount equal to 1 cent per bushel per month for each month or fraction thereof he fails to store the beans to June 30, 1943, not to exceed a total of 7 cents per bushel. Loans will be made on a note and chattel mortgage basis, using C.C.C. Grain Form A (Revised) (note) and C.C.C. Grain Form AA (Revised) (chatel mortgage).

§ 230.13 *Determination of quantity of soybeans.* Loans shall be made at values expressed in cents per bushel, a bushel being determined to be 60 pounds when determined by weight or 1.25 cubic feet of soybeans testing 60 pounds per bushel when determined by measurement. In determining the quantity of soybeans stored by measurement, fractional pounds of the test weight per bushel for soybeans testing less than 60 pounds will be disregarded, and the quantity determined by measurement shall be adjusted by the following respective percentages:

	Percent
For soybeans testing 60 pounds or over	100
For soybeans testing 59 pounds or over, but less than 60 pounds	98
For soybeans testing 58 pounds or over, but less than 59 pounds	97
For soybeans testing 57 pounds or over, but less than 58 pounds	95
For soybeans testing 56 pounds or over, but less than 57 pounds	93
For soybeans testing 55 pounds or over, but less than 56 pounds	92
For soybeans testing 54 pounds or over, but less than 55 pounds	90
For soybeans testing 53 pounds or over, but less than 54 pounds	88
For soybeans testing 52 pounds or over, but less than 53 pounds	87

§ 230.14 *Farm storage.* Soybeans shall have been stored in the granary for a reasonable period, determined by the county committee, prior to inspection for measurement, sampling, and sealing. In accordance with regulations issued by the Secretary of Agriculture, the State and county agricultural conservation committees will inspect and approve storage facilities and will arrange for measuring, sampling, grading, and sealing the soybean collateral in approved structures. Chattel mortgages covering farm-stored soybeans must be executed and filed in accordance with the applicable State law. Producers should obtain information and assistance from the county agricultural conservation committees in regard to the execution and filing of such chattel mortgages. Where the borrower is a tenant, the expiration date of the lease must be given in the chattel mortgage and if such date is prior to September 1, 1943, the landlord must execute the consent for storage in the chattel mortgage. The consent for storage agreement must also be executed by any other party or parties entitled to possession prior to September 1, 1943. Each producer must designate in the chattel mortgage a shipping point reasonably convenient for the delivery of the soybeans as determined by the county committee. A separate note and chattel mortgage must be submitted for soybeans stored on each quarter section of land.

§ 230.15 *Source of loans.* Loans may be obtained through banks and other lending agencies as defined in § 230.2 hereof, or direct from the Commodity Credit Corporation.

§ 230.16 *Purchase of loans.* Commodity Credit Corporation will purchase without recourse, notes evidencing loans only from lending agencies which have executed and delivered to a regional office of Commodity Credit Corporation, Contract to Purchase, 1940 C.C.C. Form E. Notes held by lending agencies must be tendered to the Commodity Credit Corporation for immediate or deferred purchase within 10 days of written request or at least 10 days prior to maturity in the absence of written demand. The purchase price to be paid by Commodity Credit Corporation for notes accepted will be the outstanding face amount of such notes, plus accrued interest from the date of disbursement by the lending agency to the date of payment of the purchase price at the rate of 1½ percent per annum. Under the terms of the Contract to Purchase, lending agencies are required to report weekly on 1940 C.C.C. Form F all repayments or collections on producers' notes held by them and to remit with such report to the office of Commodity Credit Corporation an amount equivalent to 1½ percent per annum on the principal amount collected from the date of disbursement by the lending agency to the date of repayment.

§ 230.17 *Release of collateral.* A borrower may obtain the return of his note and redeem the collateral at any time prior to delivery of the collateral to Commodity Credit Corporation upon payment of the principal amount due thereon, plus accrued interest. Borrowers may repay directly notes that are held by lending agencies or if the notes are held by Commodity Credit Corporation, they may request that notes be forwarded to a local bank for collection, or remit an amount sufficient to pay the outstanding principal and interest. Partial payment of a note and partial release of collateral may be arranged with the county agricultural conservation committee.

PURCHASES

§ 230.20 *Eligible soybeans.* Eligible soybeans shall be soybeans of all classes grading No. 4 or better produced in 1942, the beneficial interest to which is and always has been in the eligible producer. Soybeans containing stones and/or cinders, or soybeans grading weevily, musty, sour, heating, or hot, or which have any commercially objectionable foreign odor, shall not be eligible for purchase.

§ 230.21 *Program outline.* In order to handle this year's record crop of soybeans in an orderly and efficient manner and assure producers of the announced support prices, it is necessary that the county agricultural conservation committees assist in the purchase programs. This will require close cooperation with Commodity Credit Corporation, processors, country, terminal, and subterminal warehousemen. To determine the best methods of handling soybeans in their county, the county committee should first estimate the production and then make a survey of the storage situation in the county, determining the amount of farm storage, elevator storage, Commodity Credit Corporation owned steel and wooden bins, and the amount of storage needed, but not available in the county. All expense incurred by the county committee in connection with the purchase program, including supervision, mileage, and the cost of weighing, sampling, making determination of oil content, and loading into Commodity Credit Corporation bins shall be paid by the county committee and claimed as a reimbursable expense.

§ 230.22 *Methods of handling soybean purchases.* (a) By country warehouseman for the account of the processor, either for immediate sale to or storage for the processor.

(b) By approved country warehouseman for immediate shipment to Commodity Credit Corporation, storage for Commodity Credit Corporation, deferred sale to Commodity Credit Corporation, or immediate sale to a processor, or terminal warehouseman.

(c) By processor direct from the producer.

(d) By county agricultural conservation committees for storage in Commodity Credit Corporation owned steel or wooden bins, storage in other facilities, or shipment.

The purchase period shall begin as soon as 1942 soybeans are harvested and shall extend through June 30, 1943.

§ 230.23 *Amount.* The basic price per net bushel to be paid for eligible soybeans grading No. 1 and No. 2, sold and delivered before January 1, 1943, shall be not less than the prices in the following schedule:

Soybeans of class I (yellow) and class II (green):

(a) $1.60 per bushel for high oil content.

(b) $1.50 per bushel for low oil content.

Soybeans of class III (brown), class IV (black) and class V (mixed) and (varieties of classes I and II not approved by the United States Department of Agriculture State War Board, except in the States in which the Processor Contract for Cotton States is offered):

(a) $1.50 per bushel for high oil content.

(b) $1.40 per bushel for low oil content.

The price per net bushel to be paid for soybeans grading No. 3 and No. 4 shall be determined by deducting from the price per net bushel for soybeans grading No. 1 and No. 2, discounts in accordance with the following:

(a) *Test weight.* ½ cent per bushel for each pound or fraction thereof under 54 pounds.

(b) *Moisture.* 3/10 cent per bushel for each 1/10 percent of moisture in excess of 14 percent.

(c) *Splits.* ¼ cent per bushel for each 5 percent or fraction thereof in excess of 15 percent.

(d) *Damage.* 1 cent per bushel for each 1 percent or fraction thereof in excess of 3 percent, but not in excess of 5 percent, plus 2 cents for each 1 percent or fraction thereof in excess of 5 percent.

(e) *Foreign material other than dockage.* 1 cent per bushel for each 1 percent in excess of 2 percent rounded to nearest percent.

(f) *Other colors (than yellow or green).* 1 cent per bushel for each 1 percent in excess of 3 percent (over 5 percent classify as mixed soybeans).

(g) *Dockage.* Not to be paid for. Deduct from the gross weight all dockage entered on the inspection certificate.

§ 230.24 *Increase in soybean price.* For soybeans sold and delivered on or after January 1, 1943, the basic prices shown above shall be increased as follows:

	Cents per bushel
January 1 to January 31, inclusive	1
February 1 to February 28, inclusive	2
March 1 to March 31, inclusive	3
April 1 to April 30, inclusive	4
May 1 to May 31, inclusive	5
June 1 to June 30, inclusive	6

§ 230.25 *Purchase by country warehouseman who has agreement to purchase soybeans for processor.* Country warehouseman will purchase soybeans delivered by wagon or truck at support prices as determined by class, grade, and discounts as stated in § 230.23. The warehouseman will be reimbursed by the processor in accordance with the terms of their agreement in an amount equal to the support price (§§ 230.23 and 230.24), plus not less than 3½ cents per bushel charge for handling the soybeans in and out of the warehouse, plus ¾ of 1 cent per bushel if no storage is earned by the warehouseman and soybeans are shipped prior to January 1, 1943. The 3½ cents and ¾ cent charges stated herein apply only to processors signing the Form B and Pacific Coast contracts.

§ 230.26 *Purchase by country warehouses approved under the Uniform Grain Storage Agreement.* The country warehouseman shall purchase soybeans delivered by wagon or truck from the producer at the support price and will be reimbursed by Commodity Credit Corporation in an amount equal to the support price in effect on the date of purchase by the warehouseman, plus charges as indicated herein.

(a) *Storage in warehouse for Commodity Credit Corporation.* Warehouseman issues warehouse receipts to the order of Commodity Credit Corporation for each producer's soybeans. Warehouse receipts shall be properly listed on C.C.C. Soybean Purchase Form D and attached to a sight draft drawn on Commodity Credit Corporation for the total amount due warehouseman (not including warehouse charges) with respect to the soybeans represented by the receipts. The sight draft and attachments may be presented to a local bank or direct to the Corporation for collection. Warehouseman's charges will accrue against the warehouse receipts in accordance with the Uniform Grain Storage Agreement.

(b) *Storage in Commodity Credit Corporation owned bins.* Eligible soybeans grading No. 4 or better except for moisture content and containing not more than 14 percent moisture and reasonably free from dockage and foreign material may be stored in Commodity Credit Corporation owned bins. Soybeans to be stored in steel or wooden bins for Commodity Credit Corporation should be segregated as to color. If necessary, soybeans of the same color but different grades may be mixed. Warehouseman shall issue scale tickets for the soybeans placed in Commodity Credit Corporation bins and deliver such tickets to the county committee. The scale tickets shall be listed on C.C.C. Soybean Purchase Form D which shall be attached to a sight draft drawn on Commodity Credit Corporation for the amount due the warehouseman for the purchase price of soybeans. For receiving the soybeans and placing them in Commodity Credit Corporation owned bins the warehouseman will receive an amount not to exceed 2 cents per bushel according to the amount of service rendered and in accordance with an agreement with the county committee. The warehouseman will invoice Commodity Credit Corporation at Chicago for the amount of these services and must secure the county committee's written approval of the invoice before submission to the Corporation.

(c) *Immediate shipment.* If the warehouseman does not store the beans in his warehouse or place them in Commodity Credit Corporation owned bins, he may request shipping instructions from the Chicago office of Commodity Credit Corporation. The warehouseman will list all scale tickets representing soybeans loaded for shipment on C. C. C. Soybean Purchase Form D, and attach sight draft for the purchase price of soybeans drawn on Commodity Credit Corporation, together with copy of the bill(s) of lading. Commodity Credit Corporation will pay warehouseman 3½ cents per bushel for handling the soybeans in and out of the warehouse, plus ¾ of 1 cent per bushel for temporarily financing, insuring, and temporarily storing the soybeans, if the soybeans are shipped by the country warehouseman immediately upon purchase by him. This payment will be made after receipt of soybeans by Commodity Credit Corporation and will be subject to adjustment on the basis of official weights and grades at destination.

(d) *Sale to processor.* Country warehouseman may purchase soybeans for sale to processor or to terminal or subterminal warehouses. In such instances the instructions in § 230.25 shall apply.

§ 230.27 *Purchase by processor.* Processor may purchase soybeans at the plant direct from producer at the support price. Processor will not be entitled to a handling charge, but will be reimbursed by Commodity Credit Corporation in accordance with an agreement between the processor and the Corporation.

§ 230.28 *Purchases by county committees where there are no warehousemen or processors available*—(a) *For storage in Commodity Credit Corporation owned bins.* In areas where there are no approved warehousemen, country warehousemen, warehousemen's agent, processor, or processor's agent available at producer's usual shipping point or where warehousemen do not cooperate in the purchase program, the purchase program will be carried out by the county committee. Commodity Credit Corporation will authorize members of the county committee or an agent designated by the county committee and approved by the Corporation to issue sight drafts drawn on the Corporation in favor of producers who sell and deliver soybeans to the Corporation in accordance with instructions from the county committee.

Soybeans which contain in excess of 14 percent moisture shall not be stored in Commodity Credit Corporation owned bins. However, producers may, by filing an Offer of Sale with the county committee, deliver their soybeans for purchase to a point designated by the county committee, without first having secured a grade determination, if in the opinion of the producer and the county committee, the soybeans do not have a moisture content in excess of 14 percent.

In the event the producer is requested by the county committee to deliver his soybeans to a point more distant than his usual delivery point for the purpose of assembling in carload lots, the Corporation will allow not more than 5 cents per ton per mile haul for the additional distance necessary to make such delivery, but in no event should the county committee approve payments for an additional haul in excess of 4 cents per bushel without prior approval of the Regional Director of Commodity Credit Corporation, 208 South La Salle Street, Chicago, Illinois. When payment for additional mileage is approved by the county committee, a statement should be prepared, signed by the producer and approved by the county committee. This statement should be attached to the copies of C. C. C. Soybean Purchase Form E. Purchase Form E will be attached to the sight draft but the amount claimed for additional mileage shall not be included in the amount of the sight draft.

County committees shall weigh, secure a representative sample, load in Commodity Credit Corporation owned bins and forward the sample to the State office of Agricultural Adjustment Agency or to an inspector licensed to grade soybeans for grade analysis. Upon receipt of the grade analysis which shall include all grade factors needed to determine purchase price, the county committee shall draw a sight draft in favor of the producer on Commodity Credit Corporation for the total purchase price of the beans delivered.

In order that the sight draft will be honored by Commodity Credit Corporation, the county committee shall attach to the sight draft C. C. C. Soybean Purchase Form E, Report of Soybeans Purchased for the Account of Commodity Credit Corporation by county committee. The county committee shall list on Commodity Loan 23-A all purchases of soybeans made for storage in Commodity Credit Corporation bins. Two copies of Commodity Loan 23-A should be forwarded to the Regional Director, Commodity Credit Corporation, 208 South La Salle Street, Chicago, Illinois, regularly (not less than once a week) as purchases are made. All soybeans placed in Commodity Credit Corporation bin storage will be under the supervision of the county committee. County committees shall closely supervise the filling of Commodity Credit Corporation owned bins to be sure that soybeans placed in the bins are dry enough to assure safekeeping. Frequent inspections during the harvest season should be made to prevent loss from heating and if the soybeans are found to be questionable as to keeping qualities, the county committee should notify the State committee at once.

(b) *Soybeans purchased for shipment for the account of Commodity Credit Corporation by county committee.* Where soybeans for purchase are delivered to the county committee and are questionable as to keeping qualities or will grade in excess of 14 percent moisture, thus making them ineligible for Commodity Credit Corporation bin storage, or no bin storage is available, they should be assembled in carload lots for immediate shipment. The county committee should then secure shipping instructions from the State committee before loading for shipment. County committees should make certain *before* accepting delivery of soybeans that will have to be shipped because of moisture that such soybeans can be accepted by processors. Farmers may be required to withhold delivery until such time as the county committee finds space for shipment. The method of securing grade determinations and the payment for the soybeans will be handled by the county committee in the same manner as outlined for soybeans stored in Commodity Credit Corporation bins by the county committee.

§ 230.29 *Two types of sight drafts.* (a) A noninterest-bearing sight draft shall be used in all cases when the soybeans are purchased for immediate shipment.

(b) An interest-bearing sight draft shall be used when the soybeans are placed in warehouse storage for Commodity Credit Corporation or in Commodity Credit Corporation bins. In either instance the sight draft may be presented to the local bank or direct to Federal Reserve Bank of Chicago for collection. Upon receipt of an interest-bearing sight draft by a local bank the local bank shall pay the draft and either submit direct to the Federal Reserve Bank of Chicago for collection, or transfer to another bank (one transfer permitted in case of warehouse-stored soybeans only), or hold until called by Commodity Credit Corporation and collect interest thereon at 1½ percent from date on the draft until date of payment by Commodity Credit Corporation.

§ 230.30 *Making grade analysis.* Where requested by the producer, soybean purchasers shall furnish the producer a complete grade analysis which shall include class, grade, test weight, moisture, percent of splits, percent of damage, percent of foreign material other than dockage, percent of brown and/or black soybeans in the case green or yellow soybeans are being offered for sale, and percent of dockage.

If the warehouse is not equipped to furnish all grade factors, a representative sample of the soybeans delivered shall be taken by the purchaser and producer and sent to the State agricultural conservation office laboratory, or to an inspector licensed to grade soybeans, for grade determination before any payment is made to the producer. Each producer will be paid according to the soybeans delivered. The county agricultural conservation committee shall arrange for the warehouseman to mail such samples direct to the laboratory through the use of C. C. C. Soybean Purchase Form F.

All settlements with the producer by the purchaser will be based upon an agreement between the purchaser and producer of grade factors determined. If in agreement, the purchaser shall pay to the producer an amount equal to the rates established in these instructions on the net member of bushels of soybeans delivered.

The producer should understand that he has the right to call for an official grade if, in his opinion, any grade factors furnished by the purchaser are incorrect. In such cases, a representative sample taken by the purchaser and producer shall be forwarded to a qualified licensed inspector or Federal Grain Supervision Office for analysis, and settlement shall then be made on the basis of such analysis. The individual requesting the official grade shall pay the cost of securing grade determination.

§ 230.31 *Guaranteeing the support price.* Processor and Commodity Credit Corporation may require from the purchaser a signed statement that all soybeans were purchased from producers at the support price per bushel indicated by Commodity, and that purchaser had made and will maintain records evidencing the payment of such support price to producers, such record to be open during business hours to inspection by the processor, by Commodity, or by any county committee of the Agricultural Adjustment Agency.

§ 230.32 *Shipping instructions.* Soybeans purchased for the account of the processor shall be loaded and shipped according to instructions from the processor. Soybeans purchased for the account of Commodity Credit Corporation shall be loaded and shipped according to instructions from Commodity Credit Corporation at Chicago, Illinois. In no event shall a car be loaded until shipping instructions have been received.

§ 230.33 *Soybeans of the most adaptable varieties selected for seed.* In the heavy soybean-producing counties, the county agricultural conservation committee will assist the elevatorman in selecting high-quality soybeans of the most adaptable varieties in order that they may be segregated and stored separately in Commodity Credit Corporation owned bins for seed purposes.

§ 230.34 *Insurance by warehouseman.* Warehouseman shall at his own expense keep all soybeans purchased by him for the account of Commodity Credit Corporation, but not covered by storage receipts while the soybeans are in his possession, insured against fire, windstorm, lightning, cyclone, tornado, and inherent explosion (if legal in the State involved) at full market value in his own name.

AUTHORITY: §§ 60.1 to 60.66, inclusive, issued under Pub. Law 674, 77th Cong., 7 U.S.C. 414.

DEFINITIONS

§ 60.1 *Meaning of words.* Words in this part in the singular form shall be deemed to import the plural, and vice versa, as the case may demand.

§ 60.2 *Terms defined.* For the purpose of this part, unless the context otherwise require, the following terms shall be construed, respectively, to mean:

(a) "Act" means the following provisions of an Act of Congress entitled "An Act making appropriations for the Department of Agriculture" for the fiscal year ending June 30, 1943, (Public Law 674, 77th Congress):

> For enabling the Secretary of Agriculture, independently and in cooperation with other branches of the Government, State agencies, purchasing and consuming organizations, boards of trade, chambers of commerce, or other associations of businessmen or trade organizations, and persons or corporations engaged in the production, transportation, marketing, and distribution of farm and food products, whether operating in one or more jurisdictions, to investigate and certify to shippers and other interested parties the class, quality, and condition of cotton, tobacco, fruits, and vegetables, whether raw, dried, or canned, poultry, butter, hay, and other perishable farm products when offered for interstate shipment or when received at such important central markets as the Secretary of Agriculture may from time to time designate, or at points which may be conveniently reached therefrom under such rules and regulations as he may prescribe, including payment of such fees as will be reasonable and as nearly as may be to cover the cost for the service rendered: *Provided,* That officers and employees who, under proper authorization, use privately owned motor vehicles in the performance of official travel within the corporate limits of their official stations for the purpose of inspecting and grading farm and food products and the supervision thereof at points located within the said corporate limits may be reimbursed for such travel at a rate not to exceed three cents per mile: *Provided further,* That certificates issued by the authorized agents of the Department shall be received in all courts of the United States as prima facie evidence of the truth of the statements therein contained.

(2) "Secretary" means the Secretary of Agriculture or any person to whom the Secretary has heretofore lawfully delegated, or to whom the Secretary may hereafter lawfully delegate the authority to act in his stead.

(c) "Administration" means the Agricultural Marketing Administration of the United States Department of Agriculture.

(d) "Administrator" means the Administrator of the Agricultural Marketing Administration or any officer or employee of that Administration to whom the Administrator has heretofore lawfully delegated, or to whom the Administrator may hereafter lawfully delegate, the authority to act in his stead.

(e) "Person" means an individual, association, partnership, or corporation.

(f) "Inspector" means a person authorized by the Secretary to investigate and certify to shippers and other interested parties the grade, class, quantity, condition, and/or origin of rice in accordance with the regulations in this part.

(g) "Rice" means any rice for which standards shall have been fixed and established by the Secretary, or other cultivated rice for which inspection and certification is authorized by the regulations in this part.

(h) "Inspection certificate" means a certificate of the grade, class, quality, condition, and/or origin of rice, issued by an inspector or rice supervisor under the Act.

(i) "Interested party" means a person financially interested in a transaction involved in a rice inspection or an appeal.

(j) "Regulations" mean regulations promulgated under the Act by the Secretary.

(k) "Grade" means grade according to the official rice standards of the United States.

(l) "Official rice standards of the United States" mean standards of grade, class, quality, and condition of rice promulgated under the Act by the Secretary.

(m) "Rice supervisor" means an officer or agent of the Administration designated by the Administrator whose duties include the supervision of the inspection, grading or analysis of rice, of certification of grade, class, quality, condition, and origin thereof, and the determination of appeals in accordance with the Act and regulations.

(n) "License" means a license issued under the Act by the Secretary to any person to inspect rice and to certificate the grade, class, quality, condition, and origin thereof.

(o) "Authorized sampler" means a person authorized by a rice supervisor, or by an inspector with the approval of a rice supervisor, to draw official samples of rice, or any employee of the Administration assigned to perform sampling service.

(p) "District" means a defined portion of the United States designated for the purpose of the administration of the rice inspection service.

(q) "District headquarters" means a field office of the Grain, Feed and Seed Branch of the Agricultural Marketing Administration designated as the headquarters of a rice supervisor.

(r) "Appeal" means an appeal taken to a rice supervisor pursuant to the regulations in this part from the inspection of any lot of rice which has been certificated by an inspector.

ADMINISTRATION

§ 60.3 *Authority.* The Administrator is charged with the administration of the provisions of the Act and of the regulations in this part, and is authorized to issue such instructions as he may deem proper and necessary for the conduct of the service.

INSPECTION SERVICE

§ 60.4 *Kind of service.* Rice may be inspected for grade, class, quality, condition, and/or origin.

§ 60.5 *Who may obtain service.* An application for inspection of rice may be made by any interested party, or his authorized agent, including Federal, State, county, and municipal governments and common carriers.

§ 60.6 *How to make application.* Application for inspection may be made to any inspector in writing, orally, by telegraph or telephone. If made orally the inspector may require that it be confirmed in writing.

§ 60.7 *Form of application.* Application for inspection of rice under the Act shall include the following information: (a) the date of application; (b) the identification and location of the rice; (c) the name and post office address of the applicant and of the person, if any, making the application in his behalf; (d) the interest of the applicant therein; (e) the form of inspection desired; (f) if the rice has been inspected previously at the same place, a statement to that effect; and (g) such other information as the inspector may require or as may be deemed necessary by the Administrator.

§ 60.8 *When application is deemed filed.* An application shall be deemed filed when delivered to an inspector.

§ 60.9 *When application may be withdrawn.* Any application for inspection may be withdrawn by the applicant at any time before the certificate is issued, upon payment of any expenses incurred in connection therewith.

§ 60.10 *When inspection may be refused.* Inspection may be refused by the inspector for noncompliance with the Act or the regulations in this part. Such inspector shall immediately notify the applicant the reasons for such refusal. All expenses incurred in connection therewith may be charged to the applicant.

§ 60.11 *Authority of agent.* Proof of the authority of any person applying for inspection on behalf of another may be required in the discretion of the inspector.

§ 60.12 *Basis of service.* Inspection for grade, class, quality, condition, or origin shall be based upon such standards as may be prescribed by the Secretary, or upon such tests as may be authorized by the Administrator.

§ 60.13 *Date of inspection.* In order to determine the date of inspection at any point for the purpose of the regulations in this part, each day shall be deemed to end at midnight, or at such time before midnight thereof as may be fixed and announced for the convenience of the inspectors and the trade at such point, with the approval of the rice supervisor in charge of the district in which such point shall be located.

§ 60.14 *Lot inspection.* A lot inspection shall consist of taking a representative sample or samples of the rice, examining the same for grade, class, quality, condition, or origin, as the case may be, and of issuing a certificate therefor. No certificate shall be issued reciting the grade, class, quality, condition, or origin of any lot of rice unless a sample or samples of the rice covered by such certificate be drawn by the inspector or by an authorized sampler, and no such certificate shall be issued unless a representative sample or samples are obtained from all parts of the rice to be certificated in accordance with instructions issued by the Administrator.

In case it shall appear that a material portion of a lot of rice is in any manner distinctly inferior to the remainder of the lot, a separate sample shall be taken from each portion, there shall be filed with each such sample a statement showing the quantity of each portion, and a separate inspection shall be made of each such portion.

§ 60.15 *Sample inspection.* A sample inspection shall consist of examining a sample for its grade, class, quality, or condition, as the case may be, and of isuing a certificate therefor. Such sample shall be, in the opinion of the inspector, of sufficient size to permit accurate determination of the grade, class, quality, or condition to be certified.

CERTIFICATES

§ 60.16 *Certificate; issuance.* An official certificate shall be issued for each inspection of any lot or sample of rice to show the grade, class, quality, condition, or origin, as the case may be; but in no case shall an inspector sign a certificate covering rice not inspected by him.

§ 60.17 *Certificate; form.* Certificates shall be issued only in such form as approved by the Administrator.

§ 60.18 *Certificate; contents.* Each inspection certificate issued under the Act by an inspector shall embody within its written or printed terms such information as may be required by the Administrator.

In addition to the matters required by the Administrator, the inspection certificate may include only such additional remarks as may be approved by the Administrator.

§ 60.19 *Lot inspection certificate.* A lot inspection certificate shall be issued to show the grade, class, quality, condition, or origin, as the case may be, of a lot of rice.

§ 60.20 *Sample inspection certificate.* A sample inspection certificate shall be issued to show the grade, class, quality, or condition, as the case may be, of a sample of rice. Each sample inspection certificate shall clearly state that it applies only to the sample described therein.

§ 60.21 *Analysis certificate.* Upon request of an applicant an analysis certificate may be issued by an inspector to show the result of one or more factor analysis tests according to the official rice standards of the United States, or according to any approved test for kind, quality, or condition.

§ 60.22 *Equal-to-type certificate.* Upon application of an interested party and upon compliance with the provisions of §§ 60.4 to 60.28, a rice inspection certificate may be issued by an inspector to state that the quality of a lot or a sample of rice is "equal to or better than" the quality of a type which has previously been placed on file and definitely identified in the office of the inspector, provided such inspection and certification meet the conditions set forth in either paragraphs (a) (1), (2), (3), and (4), (b), or (c) of this section.

(a) (1) The lot or sample to be certificated shall be equal to, or better than, the quality of the type according to all class, quality, and condition factors of the official rice standards of the United States, with the exception of moisture.

(2) At the time of filing the type with the inspector, the depositor shall specify and file in writing with the inspector a statement of the maximum moisture content of any rice which he proposes to have inspected or to deliver against such type.

(3) When the statement of moisture content filed by the depositor with the type specifies a maximum moisture content of 15.0 percent or less and when the lot or sample to be delivered or inspected against the type contains no more moisture than the maximum percentage so specified, the factor of moisture may be disregarded in making the certification.

(4) When the statement of moisture content filed by the depositor with the type specifies a maximum moisture content in excess of 15.0 percent and when the lot or sample to be delivered or inspected against the type contains no more moisture than the maximum percentage so specified, the certificate shall clearly state the maximum percentage of moisture specified by the depositor, also the actual moisture content of the lot or sample covered by the certificate.

(b) An equal-to-type certificate also may be issued to show that rice is "equal to or better than" a properly identified type according to one or more of the class, quality, and condition factors of the official rice standards of the United States or according to other authorized kind, quality, and/or condition tests, provided the certificate clearly states the factors or tests used in making the inspection.

(c) An equal-to-type certificate also may be issued to show that rice is "equal to or better than" a properly identified type according to all of the class, quality, and condition factors of the official rice standards of the United States except for one or more such factors, provided the certificate clearly states the factors excepted in making the inspection.

All certificates issued under the provisions of this section shall clearly state the identity of the type.

In case any inspector finds that a lot or sample of rice offered for inspection under this section fails to meet the above requirements, the certificate issued pursuant to such inspection shall state that the rice is "not equal to type."

§ 60.23 *Milling-test certificate.* Any inspector who has equipment available to him to perform milling tests may, upon application of any interested party, and upon compliance with the provisions of §§ 60.4 to 60.28, make such tests and certificate the results, provided such equipment, and the method of use thereof meet the requirements prescribed by the Administrator, or by the rice supervisor for the area in which the rice is located.

§ 60.24 *Origin certificate.* Upon application of an interested party, a rice inspection certificate may be issued by an inspector to state that any rice sampled or inspected by him is of United States origin provided he determined this to be the fact.

§ 60.25 *Advance information.* Upon request of an applicant, all or any part of the contents of any certificate issued to him may be telegraphed or telephoned to him at his expense.

§ 60.26 *Disposition of certificates.* The original inspection certificate, immediately upon its issuance, shall be delivered or mailed to the applicant or a person designated by him. One copy shall be filed in the office of the inspector, and one or more copies forwarded to the Administrator or his representative. Additional copies may be furnished to the applicant without charge if requested prior to the issuance of the certificate. Additional copies may be furnished in accordance with the provisions of § 60.61 (d).

§ 60.27 *Superseded certificates; copies.* No inspector shall issue, nor permit to be issued over his signature, any copy of an inspection certificate which has been superseded by a Federal appeal inspection certificate, without first notifying the district rice supervisor and securing his approval of such issuance.

§ 60.28 *Certificates; copies filed with rice supervisor.* Each inspector shall, as soon as possible after inspecting and certificating any rice and not later than the close of business on the next following business day, file in, or transmit to, the District Headquarters in the district in which the inspection was performed, a true copy of each certificate issued by him.

LICENSED INSPECTORS

§ 60.29 *Who may be licensed.* Persons who show proper qualifications as provided in §§ 60.30, 60.31 and 60.32 may be licensed by the Secretary to inspect rice. Each license issued shall be countersigned by the rice supervisor under whose direction the licensee is to perform rice inspections, or by such other officer of the Administration as the Administrator may designate.

§ 60.30 *Application; requirements.* Any person desiring a license to inspect rice shall make application to the Administrator or to a rice supervisor. Each application shall contain or be accompanied by (a) satisfactory evidence that the applicant (1) has passed his twenty-first birthday and (2) has had at least one year's experience as an inspector of rice of the kind for which a license is sought, or the equivalent of such experience; (b) satisfactory assurance that the applicant will be provided with the necessary means or facilities for inspecting and grading rice of the kind for which a license is sought; and (c) shall be signed by the applicant.

§ 60.31 *Applicant to be examined for competency.* Each applicant for a license shall, if so required by the Administrator, be examined for the purpose of determining his competency. Such examination shall be held at a time and place and in such manner as may be prescribed by the Administrator.

§ 60.32 *Licensee shall be disinterested.* No person licensed by the Secretary to inspect or grade rice, or employed by him in carrying out any of the provisions of the Act or of the regulations in this part shall, during the term of such license or employment, be interested, financially or otherwise, directly or indirectly, in the rice involved, or in any rice mill or rice storage place, or in the merchandising of rice, nor shall he be in the employment of any person, corporation, or association, owning or operating any mill, storage place, merchandising company or other organization which handles rice commercially.

§ 60.33 *License; property of Administration.* Each license shall be the property of the Administration. Whenever any license shall have been superseded, suspended, canceled, or revoked it shall be returned to the Administrator.

§ 60.34 *Licenses; conditions governing issuance.* Each license issued shall be on condition that the licensee will, during the term of his license, apply the standards correctly, and will comply with all the provisions of the Act and the regulations in this part.

§ 60.35 *Suspension of license.* Whenever he deems such action necessary the Administrator may suspend the license of any inspector by giving him notice to that effect, together with a statement of the reasons therefor.

A licensee will be permitted 7 days from the receipt of such notice and statement of reasons, within which to show cause, supported by any evidence he may wish to offer on his behalf, why his license should not be revoked.

After the expiration of said period, final action as to the disposition of the said license will be taken.

§ 60.36 *Violations to be reported.* Each inspector shall immediately report to the rice supervisor of his district, evidence coming to his knowledge tending to show:

(a) That any provision of the Act or regulations has been violated;

(b) That any rice, inspected, and certificated, or to be inspected and certificated, under the Act or regulations has been irregularly loaded, or so loaded or piled as to conceal evidently inferior rice.

§ 60.37 *Instructions by rice supervisors.* Each inspector shall execute diligently all instructions for carrying out the Act and regulations issued to him, directly or indirectly, by a rice supervisor or by any officer of the Administration engaged in administering the Act and regulations, and, upon request, shall advise such rice supervisor or administrative officer, in full detail, of any facts regarding inspection services performed by him and the compensation received therefor.

§ 60.38 *Instructions by chief inspectors.* No chief or supervising inspector, shall issue to inspectors under his supervision any instructions inconsistent with the provisions of the Act and the regulations in this part. Each inspector shall immediately report to his rice supervisor any instructions issued contrary to this section.

§ 60.39 *Inspection and certification; when required.* Each inspector shall upon request, without discrimination, as soon as practicable, and upon reasonable terms, inspect any rice of the kind mentioned in his license, if such rice be offered and made accessible during customary business hours for such inspection, at a point where he performs service as an inspector. For each inspection, an official certificate shall be issued showing the grade, class, quality, condition, or origin, as the case may be.

§ 60.40 *Lot inspection to be based on representative sample.* No inspector shall issue an inspection certificate for any lot of rice unless the inspection thereof be based upon a correct and representative sample of the lot and be made under conditions which permit the determination of its true grade, class, quality, condition, or origin, as the case may be. Each inspector shall take proper precautions to insure that no sample be exposed to manipulation which would deprive it of its representative character from the time of its collection until the certificate is issued. No sample shall be deemed representative unless of the size and procured in accordance with the method prescribed in instructions issued by the Administrator.

§ 60.41 *Lot certification; when prohibited.* No inspector shall issue an inspection certificate for a lot of rice based upon a sample thereof drawn by a sampler who is not employed or authorized by him or his inspection department; or who is not an employee of the Administration approved for the purpose; or who is interested, financially or otherwise, directly or indirectly, in the rice involved, or in any rice mill, or rice storage place, or in the merchandising of rice, nor shall he be in the employment of any person, corporation, or association owning or operating any mill, storage place, merchandising company, or other organization which handles rice commercially, or who the inspector knows, or has reason to believe, is incompetent.

§ 60.42 *Inspection; restrictions.* No inspection shall be made of any rice which is to be loaded into a vessel, vehicle, or other container, if it appears to the inspector that the hold, compartment, or other enclosure into which the rice is to be loaded is in such condition as to contaminate the rice or to lower the grade, quality, or condition.

§ 60.43 *Inspector to make records.* Each inspector shall keep complete and correct records of all rice inspected by him, which records shall be open for inspection and examination by any rice supervisor or by any officer of the Administration designated for the purpose by the Administrator.

SAMPLERS

§ 60.44 *Authorized samplers.* Each inspector and rice supervisor may authorize samplers to draw official samples for him for inspection purposes under the following conditions:

(a) *Sampler shall be disinterested.* No sampler authorized to draw official samples for an inspector or rice supervisor shall, during the term of such authorization, be interested, financially or otherwise, directly or indirectly, in the rice involved, or in any rice mill, or rice storage place, or in the merchandising of rice, nor shall he be in the employment of any person, corporation, or association owning or operating any mill, storage place, merchandising company or other organization which handles rice commercially.

(b) *Authorization to be approved by rice supervisor.* No authorization issued to any sampler by an inspector shall be valid unless approved by the rice supervisor.

(c) *Form of authorization.* Each such authorization shall be in the form required by the Administrator. Each such authorization shall be signed by the inspector issuing the same, shall bear, or be accompanied by, a statement signed by the sampler that he will perform sampling services in accordance with instructions issued by the Administrator, and it shall also be signed as approved by a rice supervisor.

§ 60.45 *Suspension or revocation of authorization.* Each authorization shall be subject to suspension or revocation by the inspector issuing same or by any rice supervisor, upon its being established that the sampler is incompetent, that he is not acting in accordance with instructions, that he is not needed for service, that he has entered other employment that renders him unable to meet the requirement of § 60.44 (a), or for any other good reason. No sample drawn by a sampler after his authorization has been suspended or revoked shall be used by an inspector for inspection purposes.

§ 60.46 *Instructions to authorized samplers.* Each authorized sampler shall act in accordance with instructions issued to him by the inspector or the rice supervisor issuing the authorization, except that no inspector shall issue any instructions to authorized samplers that are inconsistent with the Act, with the regulation in this part, or with special instructions issued by the Administrator.

APPEAL INSPECTION

§ 60.47 *When and by whom appeal may be taken.* An application for an appeal inspection of a lot of rice may be made by an interested party who is dissatisfied with the determination stated in the original certificate. An appeal shall be taken (a) before the rice leaves the place where the inspection appealed from was made, (b) before the identity of the rice has been lost, and (c) as promptly as possible, but not later than the close of business on the second business day following the date of the inspection appealed from; however, the rice supervisor may permit the filing of an appeal application after the time prescribed herein upon the showing of fraud, insufficient time, or for other good reason.

§ 60.48 *How to obtain appeal inspection.* An appeal inspection may be obtained by any interested party, upon filing an application for such appeal inspection in writing, or by telegraph, in the office of the rice supervisor in the district in which the original inspection was made: *Provided,* That in his discretion the officer designated in charge of the rice inspection service may authorize the entertaining of an appeal by a rice supervisor in charge of a District Headquarters other than a rice supervisor having jurisdiction over the district in which the inspection appealed from was made.

§ 60.49 *Advance notice of appeal.* Any interested party desiring an appeal inspection may, in advance, transmit to the proper District Headquarters, by telegraph, telephone, or otherwise, such information as may be necessary to enable a rice supervisor in such office to proceed to the examination of the rice involved.

§ 60.50 *Contents of appeal application.* An application for an appeal signed by the appellant, shall state: (a) the identification and location of the rice at the time of taking the appeal; (b) the names and post office addresses of all other parties interested in the rice involved, if any; and (c) such other information as may be required by the rice supervisor in charge of the District Headquarters in which such application is filed.

§ 60.51 *Inspection certificate; filing.* The appellant may be required to file or cause to be filed, in the District Headquarters referred to in § 60.48, the inspection certificate for the rice involved issued by the inspector from whose inspection the appeal is taken if the same be in his possession. If such certificate be in the custody or control of the inspector, he shall upon request, immediately transmit or deliver it to said office.

§ 60.52 *Record of filing appeal.* A record showing the date and place of filing an appeal application or other documents pertaining to an appeal shall be made immediately by the receiver thereof. Each application or other document shall be deemed filed in a District Headquarters when delivered thereto.

§ 60.53 *When appeal may be dismissed.* A rice supervisor may dismiss any appeal filed in his office for noncompliance with the regulations in this part, or if it shall appear (a) that the reasons stated in an application for an appeal inspection are frivolous or unsubstantial, or (b) that the quality or condition of the rice has undergone a material change since the original inspection, or (c) that the rice cannot be made accessible for a thorough examination and sampling of all parts of the rice inspected. Upon the dismissal or withdrawal of an appeal the inspection certificate filed therein shall be immediately returned to the person by whom filed, or delivered upon his written order. No appeal may be withdrawn after the issuance of an appeal inspection certificate.

§ 60.54 *When appeal may be withdrawn.* Any application for appeal inspection may be withdrawn by the appellant at any time before the appeal inspection certificate referred to in § 60.56 has been issued, upon payment of any expense incurred in connection therewith.

§ 60.55 *Rice supervisor to determine appeals.* The sample or samples of rice involved in an appeal, complying with § 60.60 shall be examined as soon as possible, such tests shall be applied as are necessary, and the documents and all other evidence shall be carefully considered by the rice supervisor in determining the appeal.

§ 60.56 *Appeal inspection certificates, issuance.* Immediately after an appeal inspection has been made a certificate designated as "Appeal Inspection Certificate" shall be issued showing the grade, class, quality, condition, or origin, as the case may be, assigned by the rice supervisor to the lot of rice involved, which certificate shall be the final appeal inspection certificate for the purpose of that inspection. Each appeal inspection certificate shall be numbered and shall, by number or otherwise, identify the certificate which it supersedes.

§ 60.57 *Appeal inspection certificates; disposition.* The original of the appeal inspection certificate, issued by the rice supervisor and marked as such, shall be delivered to the appellant or upon the written order of the appellant. Additional copies may be furnished to the appellant without charge if requested prior to the issuance of the certificate. A copy of each appeal inspection certificate marked as such shall be furnished to each interested party of record other than the appellant, to whom the original appeal inspection certificate is issued. Additional copies may be furnished in accordance with the provisions of § 60.61 (d).

§ 60.58 *Appeal certificate supersedes inspector's certificate.* An appeal inspection certificate shall supersede the inspection certificate from which the appeal was taken and such superseded inspection certificate shall not thereafter represent the grade, class, quality, condition, or origin, as the case may be, of the rice.

§ 60.59 *Right of appeal not to be impaired.* No rule, regulation, bylaw, or custom of any market, board of trade, chamber of commerce, exchange, inspection department, or other organization, nor any contract, agreement, or understanding, shall be ground for refusing to hear and determine any appeal taken in compliance with the Act and regulations in this part.

§ 60.60 *Appeal inspection to be based on representative sample.* No appeal shall be determined except upon the basis of a representative sample or samples of the rice involved. Such samples shall be drawn by a person authorized for the purpose by either the Administrator or the rice supervisor in charge of the District Headquarters in which the appeal is entertained. For the purpose of an appeal no sample shall be deemed representative unless of the size and procured in accordance with the method prescribed in instructions issued by the Administrator.

CHARGES FOR INSPECTION

§ 60.61 *Fees and charges.* Fees and charges for inspection, appeal inspection, and certification as to grade, class, quality, condition, or origin, as the case may be, shall be in accordance with paragraphs (a) to (d) of this section.

(a) *Fees for inspections.* For each inspection of rice a fee according to a schedule of fees approved by the Administrator shall be assessed against the applicant.

(b) *Fees for appeal inspections.* The fee for an appeal inspection shall be in the same amount as the fee assessed for the inspection from which the appeal is taken: *Provided,* That in the case of an appeal from an inspection for grade, no appeal fee shall be assessed if the inspector's grade be changed.

(c) *Charges for traveling and other expenses.* Such additional charges may be made for traveling and other expenses paid and incurred by an inspector or by the Administration in the performance of inspection or appeal inspection services as will reimburse the inspector or the Administration.

(d) *Charges for copies of certificate.* In addition to the copies of certificates provided for in § 60.26, additional copies of certificates may be furnished to the applicant or upon his order; and in the case of appeal inspection certificates provided for in § 60.57, additional copies may be furnished to any interested party of record in the appeal, or upon his order. For such additional copies a reasonable charge may be made for each copy, but the maximum charge for each such copy shall not exceed twenty-five cents.

§ 60.62 *How fees and charges shall be paid.* Fees and charges for inspections and appeal inspections of rice shall be paid in accordance with the provisions of paragraphs (a), (b), and (c) of this section and in advance if required by the inspector or by the rice supervisor.

(a) *Inspections by Department employees.* Fees and charges for inspections made by inspectors who are employees of the Department and acting exclusively for the Administration shall be paid by the applicant by check, draft, or money order payable to the Treasurer of the United States and remitted promptly to the Administration.

(b) *Inspections under cooperative agreements.* Fees and charges for inspections made by inspectors employed and licensed under a cooperative agreement between the Administration and a person, or a State or other agency shall be paid by the applicant and disposed of in accordance with the terms of such agreement.

(c) *Appeal inspections.* Fees and charges for appeal inspections shall be paid by the appellant by check, draft, or money order payable to the Treasurer of the United States and remitted promptly to the Administration.

MISCELLANEOUS

§ 60.63 *Fraud or misrepresentation.* Any wilful misrepresentation or any deceptive or fraudulent practice made or committed by any person in connection with the making or filing of an application for inspection or appeal or any wilful violation of the regulations in this part may be deemed sufficient cause for debarring from any further benefits of the Act the person found guilty thereof, after opportunity for hearing has been accorded him and, pending investigation and hearing, the Administrator may, without hearing, direct that such person shall be denied the benefits of the Act. The facts and circumstances with respect to any such wilful misrepresentation or deceptive or fraudulent practice may be published.

§ 60.64 *Publications.* Publications under the Act and the regulations in this part may be made in the FEDERAL REGISTER, the Service and Regulatory Announcements of the Administration, and/or such other media as the Administrator may approve for the purpose.

§ 60.65 *Political activity.* All inspectors authorized, either by appointment or license from the Secretary to issue inspection certificates under the Act and the regulations in this part are forbidden, during the period of their appointment or license to take an active part in political management or in political campaigns. Political activity in city, county, State, or national elections, whether primary or regular, or in behalf of any party or candidate, or any measure to be voted upon, is prohibited. This applies to all appointees, including temporary and cooperative employees, and employees on leave of absence with or without pay. Wilful violation of this section will constitute grounds for dismissal in the case of appointees, and revocation of licenses in the case of licensees.

§ 60.66 *Identification.* All inspectors and samplers shall have in their possession at all times, and be able to present upon request, while on duty appropriate means of identification.

PART 942—MILK IN THE NEW ORLEANS, LOUISIANA, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Order suspending certain provisions of § 942.5 (a) (1) of the order,[1] as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area.

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "Act", and the provisions of the order, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area, it is hereby determined that the provisions of such order which provide that the price of Class I milk disposed of under a program approved by the Secretary of Agriculture for the sale or disposition of milk to low income consumers, including persons on relief, shall be a price which is less than the established price of Class I milk, are provisions which obstruct and do not tend to effectuate the declared policy of the Act with respect to the producers of milk defined in the said order.

It is, therefore, ordered, That the provisions of § 942.5 (a) (1) of the order, as amended, regulating the handling of milk in the New Orleans, Louisiana, marketing area, which relate to the price to be paid by handlers for Class I milk disposed of under a program approved by the Secretary of Agriculture for the sale or disposition of milk to low income consumers, including persons on relief, shall be, and hereby are, suspended, effective as of 12:01 a. m., c. w. t., November 15, 1942.

Done at Washington, D. C., this 13th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

TITLE 29—LABOR

Chapter VI—National War Labor Board

PART 803—GENERAL ORDERS

WAGE STABILIZATION IN BUILDING

§ 803.12 *General Order No. 13.* (a) As provided in Title III, section 3, of Executive Order No. 9250[2] the Wage Adjustment Board of the Building Construction Industry established by the Secretary of Labor's Administrative Order No. 101 shall continue to perform the duty ascribed to it by that order as amended by Supplement No. 1 and by the Wage Stabilization Agreement of May 22, 1942, between the Building and Construction Trades Department of the American Federation of Labor and several Government agencies. As provided in the agreement, rates are to be revised above the July 1, 1942, levels only where those rates are inadequate because:

(1) They were fixed at a time so long before July 1, 1942, as to be out of line with the general wages then prevailing;

(2) They were applicable in a locality where changing conditions in the building construction industry require a revision of wage rates; or

(3) They do not sufficiently take into account any abnormal changes in conditions.

(b) In the performance of this duty the Wage Adjustment Board shall take no action which is inconsistent with the terms of Executive Order No. 9250.

(c) Any recommendation of the Wage adjustment Board directed to the parties for a change in wage rates shall be transmitted to the National War Labor Board and shall become a final order of the National War Labor Board seven days after filing unless in the interim the National War Labor Board determines that the recommendation should be stayed for the purpose of review or should be put into operation subject to review. If the National War Labor Board assumes review, it shall enter its order confirming the recommendation of the Wage Adjustment Board or remanding the case to the Wage Adjustment Board for further consideration. The Wage Adjustment Board may refer to the National War Labor Board or the National War Labor Board may bring up on its own motion, any recommendation of the Wage Adjustment Board directed to the parties in order to determine whether the action is inconsistent with the terms of Executive Order No. 9250.

(d) Unless and until otherwise ordered this order shall apply only to wage adjustments in contracts which were entered into prior to November 5, 1942, or which are otherwise excluded from the operation of Maximum Price Regulation 251 of the Office of Price Administration.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1691]

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT No. 7

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 7 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 7.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 7; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 327.11 (*Low volatile coals: Alphabetical list of code members*) is amended by adding thereto Supplement R-I, § 327.21 (*High volatile coals: Alphabetical list of code members*) is amended by adding thereto Supplement R-II, and § 327.34 (*General prices in cents per net ton for shipment into any market area*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

The price classifications and minimum prices set forth in the schedules attached are based upon the price classifications and minimum prices in effect on October 1, 1942 for comparable and analogous coals and already reflect the changes, if any, made in minimum prices by the Acting Director's Order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21. Except as otherwise stated herein, the minimum prices in the attached Schedules do not differ, except in this regard, from the minimum prices proposed by petitioner.

The coals of the Deepwater Mine, Mine Index No. 295, of the Deepwater Coal Company, have not been given a classification of C for Size Group 27 as requested by petitioner, but have been given a classification of E for Size Group 27 for the reason that the coals of the Beards Fork Mine of the Eastern Gas and Fuel Associates (Koppers Coal Company), Mine Index No. 15, an adjacent mine, are analogous with the coals of the Deepwater Mine and have a classification of E for Size Group 27 established therefor.

Dated: November 2, 1942.

[SEAL] DAN H. WHEELER, *Director*.

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 7

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 327, Minimum Price Schedule for District No. 7 and supplements thereto.

PART 339—MINIMUM PRICE SCHEDULE, DISTRICT No. 19

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 19 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 19.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 19 for shipment by truck; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 339.4 (*Code member price index*) is amended by adding thereto Supplement T-I, and § 339.21 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T-II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

The price classifications and minimum prices set forth in the attached schedule marked Supplement T-I and T-II are based upon the price classifications and minimum prices in effect on October 1, 1942, for comparable and analogous coals and reflect the changes, if any, made in minimum prices by the Acting Director's Order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21. Except as otherwise stated herein, the minimum prices in the attached schedule do not differ, except in this regard, from the minimum prices proposed by petitioner.

Dated: November 6, 1942.

PART 343—MINIMUM PRICE SCHEDULE, DISTRICT No. 23

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 23 for the establishment of price classifications and minimum prices for the coals of the Buffalo Mine.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Buffalo Mine (Mine Index No. 169) of the Buffalo Coal Company, Incorporated, Subdistrict I of District No. 23; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 343.4 (*Code member price index*) is amended by adding thereto Supplement R-I, § 343.5 (*General prices; minimum prices for shipment via rail transportation*) is amended by adding thereto Supplement R–II, and § 343.21 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

The price classifications and minimum prices set forth in the attached Schedule marked Supplement R–I, R–II and T are based upon the price classifications and minimum prices in effect on October 1, 1942, for comparable and analogous coals and reflect the changes, if any, made in minimum prices by the Acting Director's Order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21. Except as otherwise stated herein, the minimum prices in the attached Schedule do not differ, except in this regard, from the minimum prices proposed by petitioner.

Dated: November 3, 1942.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S–141]

GREATER BUFFALO PRESS, INC.

The Greater Buffalo Press, Inc., Buffalo, New York, is engaged in the printing business. Although it had not used any organic pigments in the manufacture of printing ink during the year 1941, between March 30 and July 1, 1942, operating under the assumed name of Chemical Process and Supply Company, the Company accepted deliveries of and used in the manufacture of printing ink approximately 4,000 pounds of yellow organic pigment and 4,000 pounds of red organic pigment. This constituted a violation of Conservation Order M–53.

During the months of July and August, 1942, the Company used, in the manufacture of printing ink, approximately 4,400 pounds of red organic pigment, 14,000 pounds of yellow organic pigment, and 7,200 pounds of blue organic pigment. This constituted a violation of Conservation Order M–53 as amended June 29, 1942. The Company at all times was fully aware of the restrictions contained in Conservation Order M–53.

These violations of Conservation Order M–53 have hampered and impeded the War effort of the United States by diverting organic pigments to uses unauthorized by the War Production Board. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.141 *Suspension Order No. S–141.* (a) Deliveries of material to The Greater Buffalo Press, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries to The Greater Buffalo Press, Inc., by means of Preference Rating Certificates, Preference Rating Orders, General Preference Orders, or any other orders or regulations of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(b) No allocation shall be made to The Greater Buffalo Press, Inc., its successors and assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(c) Nothing contained in this Order shall be deemed to relieve The Greater Buffalo Press, Inc. from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect November 14, 1942, and shall expire on May 14, 1943, at which time the restrictions contained in this order shall be of no further effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 12th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1119—METAL PLASTERING BASES AND METAL PLASTERING ACCESSORIES

[Limitation Order L–59–b]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of steel, zinc, and other metals for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1119.3 *Supplementary Limitation Order L–59–b*—(a) *Definitions.* For the purpose of this order:

(1) "Metal plastering base" means any support or reinforcement, made in whole or in part of metal which is of a type commonly used as a base for the application of interior or exterior plastering or stucco construction, including, but not limited to, the following: expanded metal lath, metal stucco mesh, sheet metal lath, wire lath, wire cloth, wire fabric (whether woven or welded) and any of the foregoing in combination with any other of the foregoing or with paper, fabric or other backing.

(2) "Metal plastering accessory" means any article (other than a metal plastering base, a nail or clips or any device for holding plaster base other than metal plastering base), which is of a type commonly used as a guide, support, reinforcement or means of attachment for metal plastering bases or other plaster bases, and which is made in whole or in part of metal including, but not limited to, the following: corner lath (cornerite), corner beads, base screed, corner bead clips, tie wire, metal partition studs, floor and ceiling track for partitions, steel plastering shapes such as channels and rods, and concealed picture mold and trim to be applied before plastering.

(b) *General restrictions.* On and after the 16th day of November, 1942, notwithstanding any contract, agreement or preference rating, no person shall manufacture or fabricate any metal plastering base or metal plastering accessory except metal plastering base to fill an order from the Army or Navy of the United States, the United States Maritime Commission, or the War Shipping Administration when such metal plastering base is required by specifications (including performance specifications) applicable to such order.

Nothing in this order shall supersede the directive for wartime construction, dated May 20, 1942, issued by the Chairman of the War Production Board, the Secretary of War and the Secretary of the Navy, or the "List of Prohibited Items for Construction Work", dated June 29, 1942, issued by the Army and Navy Munitions Board as amended from time to time.

(c) *Reports.* Each person to whom this order applies shall execute and file with the War Production Board such reports and questionnaires as said board shall from time to time request.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(e) *Appeals.* Any appeal from the provisions of this order shall be filed on Form PD–500 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(f) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(g) *Routing of correspondence.* Reports to be filed and communications concerning this order, other than appeals, shall be addressed to the War Production Board, Building Materials Branch, Washington, D. C. Ref: L–59–b.

(P.D. Reg. 1, as amended, 6 F.R 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 13th day of November 1942.

PART 3031—WALL PAPER

[General Limitation Order L–177]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply for defense, for private account and for export, of paper, inks, chemicals and other material and facilities used in the manufacture and distribution of Wall Paper and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3031.1 *General Limitation Order L–177*—(a) *Applicability of priorities regulations.* This order (and any schedule pursuant thereto) and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, or organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any person who manufactures or processes wall paper.

(3) "Wall paper" shall include all paper designed for use as a covering for the ceiling or walls of rooms, which is manufactured or produced by printing on paper or fabric with oil, water, or other coloring materials, and/or by the embossing or pressing of designs on paper.

(4) "Distributor" shall include any person who sells wall paper to any person for resale; and shall further include any person who offers wall paper for sale by means of the distribution of sample books to the ultimate consumer by mail, or otherwise.

(c) *Schedule for the simplification and standardization of wall paper.* (1) No person shall sell, deliver, purchase or otherwise acquire any base paper stock for the manufacture of wall paper unless the same shall conform to the specifications set forth in Schedule 1 which is made a part of this order.

(2) No person shall process or manufacture any base paper stock into wall paper except in conformity with the specifications set forth in said Schedule 1.

(d) *Amendments to schedule.* The Director General for Operations from time to time may issue such amendment or amendments to Schedule 1 of this order as he deems necessary.

(e) *Reports.* Each manufacturer and distributor shall file such reports as may be required from time to time by the Director General for Operations.

(f) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning their manufacture, processing and/or distribution of wall paper.

(g) *Appeals.* Any person affected by this order or any schedule issued pursuant thereto who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared to the amount of materials conserved or that compliance with this order or such schedule would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(h) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall unless otherwise directed, be addressed to: War Production Board, Printing and Publishing Branch, Washington, D. C., Ref.: L–177.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries, or from process or use, of material under priority control and may be deprived of priorities assistance.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E. O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 13th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

SCHEDULE 1 TO GENERAL LIMITATION ORDER L-177

SPECIFICATIONS AND PRACTICES FOR MANUFACTURE OF WALL PAPER

(a) *Definitions.* For the purposes of this schedule:

(1) All trade words, phrases and terms used herein shall be construed as commonly understood in the wall paper trade.

(b) *General limitations on wall paper manufacture*—(1) *Patterns.* New wall paper patterns (those not previously used in production by any manufacturer) shall be limited to 60% of the total number of patterns employed in the 1941–1942 lines of each manufacturer

(2) *Paper limitations.* In the manufacture of wall paper for the 1942–43 season, no manufacturer shall:

(i) Purchase or otherwise acquire, or put in process paper stock in excess of fifty percent (50%) of the total tonnage of paper stock consumed by him in the production of wall paper in the 1941–42 season.

(ii) Exceed the 1941–42 percentage ratio of the usage of ground-wood free paper stock in relation to his total tonnage consumption of paper stock.

(iii) Use paper stock which will exceed 19¼″ in width to trim to 18″.

(iv) Use paper stock in excess of base weight of paper stock theretofore employed by him in the manufacture of his line.

(3) *Exception.* All paper stock acquired prior to the date of this order, and in the possession of the manufacturer on said date, is specifically excepted from the provisions of subdivisions (ii), (iii) and (iv) of paragraph (b) (2).

(c) *Styles sampled.* All manufacturers and distributors of wall paper shall reduce the number of styles in their 1942–1943 line or lines of sidewall and ceiling wall paper (including specials) in accordance with the following schedule of percentage reductions:

Number of styles of sidewall and ceiling wall paper samples in the 1941–1942 line or lines (including all specials)		Required percentage reduction of styles to be sampled in the 1942–1943 line or lines (including all specials)
By manufacturers	By distributors	
First 400	First 200	10%
Next 200	Next 100	15%
Next 200	Next 100	20%
Next 200	Next 100	25%
All additional	All additional	30%

Provided however, That any manufacturer or distributor who reduced the number of styles of sidewall and ceiling wall paper sampled in his 1941–1942 line or lines (including specials) 25% or more from the number of such styles sampled in his 1940–1941 line or lines, may employ the average number of such styles sampled in his 1940–1941 and 1941–1942 line or lines as the base for computing the permissible number of styles to be sampled in his 1942–1943 line or lines, in accordance with the foregoing schedule of percentage reductions.

(d) *Sample books.* In his 1942–1943 line or lines, each manufacturer and/or distributor of wall paper may cut up only such total number of rolls of wall paper for the making of sample books, as results from a reduction of the total cut up for his 1941–1942 line or lines by the same percentage of overall reduction of the number of styles required by paragraph (c) hereof. *Provided however,* That such reduction in the number of rolls of wall paper shall not apply to books of selection, but no more than five (5) copies of any book of selection may be prepared.

(e) *Color usage.* (1) No manufacturer, in his 1942–1943 line or lines, shall exceed the following color limitations of red, green, blue and yellow colored grounds (including pad grounds and full chokes), whether organic or inorganic colors, set forth in "Munsell Book of Color, Abridged" (1929 edition).

Wall paper ground color class	Munsell hue designation	Minimum value permissible	Maximum chroma permissible
Rose red	7.5P-10RP	6	8
Orange red	2.5R-10R	6	8
Yellow	2.5YR-10Y	8	6
Green	2.5G-10BG	7	4
Blue	2.5B-5.0P	5	5

(2) In his 1942–1943 line or lines, each manufacturer may produce only such total number of styles in each classification of colored grounds (set forth in subparagraph (1) of this paragraph (e)) as results from a reduction of the total produced in his 1941–1942 line or lines by the same percentage of overall reduction of the number of styles required by paragraph (c) hereof.

(3) *Metallic inks.* No manufacturer may use any aluminum or bronze powder, paste, ink or leaf in the manufacture of wall paper for his 1942–1943 line or lines, *Provided, however,* That this provision shall not operate to prevent any person from disposing of inventories of such processed wall paper from his 1941–1942 line or lines.

PART 3061—STEEL SHIPPING DRUMS

[Amendment 3 to Limitation Order L-197[1]]

Subparagraph (5) of paragraph (c) of Limitation Order L-197 (§ 3061.1) is hereby amended to read as follows:

(5) Notwithstanding the provisions of paragraph (c) (4), any person who owns a drum which is not required to be embossed or marked with the letter **X** pursuant to paragraphs (c) (1) and (c) (2) of this order, whether such drum is in his possession or is hereafter returned to him by another person, may use such drum for packing any of the materials listed in said paragraph (c) (4), so long as he retains ownership of such drum; but the provisions of said paragraph (c) (4) shall become applicable as soon as he sells such drum.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 13th day of November 1942.

Chapter XI—Office of Price Administration

PART 1300—PROCEDURE

[Procedural Regulation 11]

NOTICE OF INCREASES IN RATES AND CHARGES OF COMMON CARRIERS AND OTHER PUBLIC UTILITIES

Pursuant to the authority conferred by the Emergency Price Control Act of 1942, as amended, including sections 1, 2 and 7 (b) of the Act to Amend the Emergency Price Control Act of 1942, to Aid in preventing inflation and for other purposes, by Executive Order No. 9250[1] dated October 3, 1942, and Directive No. 1 of the Director of Economic Stabilization,[2] the following rules are prescribed for the filing of notices of proposed general increases in rates or charges of common carriers and other public utilities.

§ 1300.901 *Definition.* For the purpose of this Procedural Regulation No. 11, a general increase in the rates or charges of a common carrier or other public utility is defined as any change in its rates, fares, classifications, rules, regulations or practices which results in an increase in the charges for transportation or other public utility service applicable to a class of passengers, shippers or customers, including increases in wholesale or industrial rates or charges for public utility services, as distinguished from an increase of rates or charges applicable to a particular customer or transportation service under special arrangement.

§ 1300.902 *General requirements with respect to notices.* Thirty (30) days before the effective date of a general increase in the rates or charges of any common carrier or other public utility, there shall be filed with the Transportation and Public Utilities Division of the Office of Price Administration, Washington, D. C., two copies of notice of such proposed increase, except as otherwise provided in paragraphs (d) and (e) of § 1300.904. Such notices shall be deemed to have been filed when received in the Office of such Division. If authority for the establishment of any such increase is required by any regulatory agency, notice shall be given on or before the time such authority is sought in order that the Price Administrator may have timely opportunity to intervene, but in no event shall such notice be given less than 30 days before such proposed increased rates or charges are to become effective. All notices shall state the name and address of the Federal, State or municipal authority having jurisdiction over the rates or charges in question.

Each such notice shall contain a statement that the common carrier or other public utility consents to the timely intervention by the Price Administrator, on behalf of the Director of Economic Stabilization, before the Federal, State or municipal authority having jurisdiction to consider such increase.

One copy of each notice must be over the signature of an executive officer, a responsible traffic officer, or a duly authorized attorney or agent of the carrier or other public utility. Duly authorized officers of corporate agents shall sign on behalf of such agents. The person signing the notice shall certify that the information contained therein is true to the best of his knowledge, information and belief.

§ 1300.903 *Contents of notice filed by common carriers other than common carriers included in § 1300.904.* (a) Notice filed by common carriers other than common carriers included in § 1300.904 shall show the names and addresses of the carriers on whose behalf the notice is filed, except that in case of a notice filed by an agent or agents on behalf of a group of carriers, parties to a tariff filed with a federal agency, reference may be made to such tariffs wherein is shown the names of the carriers for whom such agent is acting. In case of notice filed by an agent or agents on behalf of a group of carriers, parties to a tariff not filed with a federal agency, one copy of such tariff showing the names and addresses of such carriers may be submitted.

In cases other than those specified in paragraph (c), the notice shall contain a reference to the tariffs filed with a regulatory authority having jurisdiction, or, in lieu thereof, a statement of specific changes proposed.

(b) Notice of increases of the character set forth in paragraph (c) shall also contain the information indicated below:

(1) The present and proposed rates, fares, charges, classifications, practices, rules or regulations, the commodities affected, the minimum weight and the points between which the changes apply shall be shown: *Provided,* That where it is proposed to increase a large number of rates, fares or charges, the notice instead of showing each specific change may show the present and proposed rates, fares, or charges between typical points: *Provided further,* That where it is proposed to change a rule a clear statement of the effect of the change shall be made.

(2) If the proposed rates, fares or charges are predicated on the proceedings or order of a regulatory agency having jurisdiction over those rates, the notice shall so indicate by proper reference to each proceeding.

(3) A statement of the reasons for the increases sought to be established shall be submitted with the notice. There may be submitted as a part of such statement an estimate of the volume of movement under the rates proposed to be increased when that information is available, and comparisons of the present and proposed rates with comparable rates of other carriers or with other rates of the carrier filing the notice.

(4) Upon request of the Office of Price Administration, the tariff or rate sheet authorities of the present rates, ratings or rules shall be indicated as well as the tariff or rate sheets in which the proposed rates, ratings or rules will be published.

(c) The information set forth in paragraph (b) shall be filed in every case where the proposed general increase is of the following nature:

(1) An increase of general application within a recognized rate territory, or between such territories; or

(2) An increase having application from or to numerous points of origin or designation; or

(3) An increase in a proportional rate or rates which by application in connection with other rates, apply from or to numerous points of origin or destination; or

(4) An increase in a rate or rates between points which are related to rates applying from or to other points which on the whole apply from or to numerous points of origin or destination; or

(5) An increase in a rate or rates between two or more points on one or more commodities or class of passengers when the transportation between such points constitutes a substantial part of the business of the carrier.

§ 1300.904 *Contents of notice of proposed increase in rates and charges of public utilities.* (a) For the purpose of this section the term public utility shall include the following: Any person, firm, corporation (private or public), engaged in the production, transmission, or sale of electric energy, gas (whether natural, artificial, or mixed) water, or heat; or in the transportation or transmission of electric energy, gas, water, or heat; or in the transmission of messages, communications, or other intelligence by telephone, telegraph, cable, radio, or other wire or wireless conductors or appliances, as a common carrier for hire; or in the transportation as common carrier of passengers by street railway, trolley, bus or motor vehicle in urban areas.

(b) The notice filed by a public utility shall be accompanied by a copy of each application or petition submitted to any regulatory agency in support of the request for such increase in rates or charges.

(c) The following information or data shall be submitted with each notice filed by a public utility, except as provided in paragraphs (d) and (e): *Provided,* That if such information or data is furnished pursuant to the requirements of § 1300.902 above, it need not be furnished in duplicate under this paragraph:

(1) A statement of the reasons for the proposed increase;

(2) A comparison of the existing and proposed rates or charges;

(3) A statement indicating the class or classes of customers affected, and the approximate number of each such class; and the community or communities, or territory affected;

(4) An estimate of the probable sales and revenue under the proposed rates or charges for a period of twelve months after the increase becomes effective;

(5) Detailed income statements for the two calendar years preceding the filing of the application or petition, and an income statement for as much of the current years as is available;

(6) Balance sheets as of the end of the calendar year preceding the filing of the application or petition, and also as of the latest date for which such balance sheets are available;

(7) A statement of federal income taxes paid or accrued during the calendar year 1939 and each calendar year thereafter, including the current year;

(8) A statement, if available, showing the original cost of the facilities used, and useful in furnishing the service for which increased rates or charges are proposed.

(d) Local telephone companies having five hundred or less stations shall not be required to file the information or data specified in subparagraphs (4) to (8), inclusive of paragraph (c) above, excepting the filing of the latest available annual income statement.

(e) Taxi cabs or taxi cab companies shall serve notice upon the nearest state or district office of the Office of Price Administration and shall not be required to furnish information set forth in subparagraphs (4) to (8), inclusive, of paragraph (c), except the filing of the latest available annual income statement.

§ 1300.905 *Supplementary orders.* The Administrator may issue such supplementary orders as may be required to effectuate the purposes of this regulation.

§ 1300.906 *Effective date.* This Procedural Regulation No. 11 (§§ 1300.901 to 1300.906, inclusive) shall become effective November 12, 1942.

PART 1499—COMMODITIES AND SERVICES

[Amendment 61 to Supp. Reg. 14[1] of GMPR[2]]

OIL MEALS AND OIL CAKES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.* A new subparagraph (44) is added to paragraph (a) of § 1499.73 as set forth below.

§ 1499.73 *Modification of maximum prices established by § 1499.2 of General Maximum Price Regulation for certain commodities, services and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services and transactions listed below are modified as hereinafter provided:

* * * * *

(44) *Oil meals and oil cakes*—(i) *Maximum prices for sales by a person other than a processor of oil meals and oil cakes.* Maximum prices for sales of oil meals and oil cakes by a person other

---

*Copies may be obtained from the Office of Price Administration.

[2] 7 F.R. 8942.

than a processor are hereby modified as follows:

(*a*) *Sales by a jobber; profit margin over cost.* A jobber may charge the maximum profit margin or markup of 50¢ per ton.

(*b*) *Sales by a wholesaler; profit margin over cost.* If a wholesaler purchases from a processor, his maximum profit margin or markup shall be $2.50 per ton. If a wholesaler purchases from a jobber, his maximum profit margin or markup shall be $2.00 per ton.

(*c*) *Sales by a retailer; profit margin over cost.* If a retailer purchases from a processor, his maximum profit margin or markup shall be $5.50 per ton. If a retailer purchases from a jobber, his maximum profit margin or markup shall be $5.00 per ton. If a retailer purchases from a wholesaler, his maximum profit margin or markup shall be $3.00 per ton.

(*d*) The maximum profit margins over cost specified in inferior subdivisions (*a*), (*b*), (*c*) above may be charged only once, that is to say, on sales between jobbers or between wholesalers or between retailers, the applicable markup can be added only once.

(ii) *Maximum prices for sales in sacks.* Where the jobber, wholesaler, or retailer buys oil meal or oil cake unsacked and resells the same sacked, he may add to his maximum price as specified in subdivision (i) above, the replacement cost of sacks: *Provided*, That the total charge does not exceed $3.50 per ton.

(iii) *Maximum prices for sales of imported oil meals and oil cakes.* Where the jobber, wholesaler, or retailer buys or imports oil meal or oil cake, he may add the actual duties paid plus an additional 50¢ per ton to his maximum price as specified in subdivisions (i) and (ii) above.

(iv) *Profit margin includes all charges.* The profit margin as specified in inferior subdivisions (*a*) (*b*), (*c*) hereof include, and no increase or charges shall in any manner be made for, brokerage, commissions, storage, insurance, extension of credit, carrying charges, handling charges, or any other charges of any nature whatsoever.

(v) *Cost.* The cost to which the above specified profit margins may be added is as follows:

(*a*) In the case of the jobber, cost shall mean the actual price paid by him for each individual purchase. The price paid by the jobber's buyer (wholesaler or retailer, as the case may be) may include all applicable transportation charges provided that under no circumstances shall the jobber's profit margins or markup exceed 50¢ per ton.

(*b*) In the case of the wholesaler, the weighted average delivered price to him on deliveries at his warehouse or place of business for the period October 1, 1942, to October 31, 1942, both inclusive, shall be his cost for the period November 1, 1942, to November 30, 1942, both inclusive. For each month preceding November, 1942, his cost shall be the weighted average delivered price to him at his warehouse or place of business during the preceding calendar month. If no deliveries were made in any month the cost shall be determined in the manner aforesaid on the basis of deliveries during the last preceding month in which deliveries were made. The price paid by the wholesaler's buyer (the retailer) may include all applicable transportation charges from the wholesaler's warehouse or place of business to the place designated by the retailer: *Provided*, That under no circumstances shall the wholesaler's profit margin or markup exceed, if he purchased from a processor, $2.50 per ton, or, if purchased from a jobber, $2.00 per ton.

(*c*) In the case of the retailer, the weighted average delivered price to him at his receiving point or points for the period October 1, 1942, to October 31, 1942, both inclusive, shall be his cost for the period November 1, 1942, to November 30, 1942, both inclusive. For each succeeding month after November 1942 his cost shall be the weighted average delivered price at his warehouse or place of business during the preceding calendar month. If no deliveries were made in any month the cost shall be determined in the manner aforesaid on the basis of deliveries during the last preceding month in which deliveries were made. Under no circumstances shall the retailer add any transportation charge from his receiving point to his buyer and under no circumstances shall the retailer's profit margins or markup exceed if he purchased from a processor $5.50 per ton, or, if he purchased from a jobber, $5.00 per ton, or, if he purchased from a wholesaler, $3.00 per ton.

(vi) *Definitions.* For the purposes of this subparagraph (44) the following terms shall have the following meanings:

(*a*) "Processor" means any person who by expeller, extraction or hydraulic process removes oil from soybeans, flaxseed, cottonseed, peanuts, sesame seeds, ivory nuts, palm kernels, coconuts, or other vegetable oil bearing materials, and in that process produces an oil meal or oil cake.

(*b*) "Jobber" or "dealer" means a person who buys oil meal or oil cake, whether in carlots, or less than carlots, and resells the same without unloading into a warehouse.

(*c*) "Wholesaler" means a person who buys oil meal or oil cake and unloads his purchase into a warehouse and resells the same, except at retail.

(*d*) "Retailer" means a person who buys oil meal or oil cake and resells the same to a feeder or ultimate user.

(*e*) "Oil meal or oil cake" means the oil meal or oil cake produced in the manner hereinbefore described under the definition of processor.

(*f*) All other terms used in the subparagraph (44) shall have the meanings ascribed to them in § 1499.20 of this General Maximum Price Regulation.

(vii) *Records and reports.* Every person making a sale or purchase of oil meals or oil cakes in the course of trade or business shall keep for inspection by the Office of Price Administration for so long a period as the Emergency Price Control Act of 1942, as Amended, remains in effect, complete and accurate records of each such sale or purchase showing: (*a*) the date thereof, (*b*) the name and address of the buyer and seller, (*c*) the product and the quantity bought or received, (*d*) the price charged and the method of computing it, listing separately all items of transportation charges and the mode of transportation. Such persons shall submit such reports to the Office of Price Administration, and keep such other records in addition to or in place of the records hereinbefore required, as the Office of Price Administration may from time to time direct.

(viii) The provisions of ths subparagraph (44) shall be applicable to the forty-eight states of the United States and to the District of Columbia.

(b) *Effective dates.*

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[Ration Order 1A]

TIRES, TUBES, RECAPPING, AND CAMELBACK

Correction

An incorrect line appeared in § 1315.804 (c) (4) on page 9173 of the issue for Tuesday, November 10, 1942. The subparagraph should read as follows:

(4) *Allotment of Grade III tires.* Any manufacturer or dealer may, in exchange for an appropriate certificate (OPA Form R-46) transfer the number of Grade III tires authorized thereon to a dealer. No manufacturer or wholesaler who has a supply of Grade III tires of the size ordered may refuse to transfer them to a dealer who presents a certificate for an allotment of Grade III tires (OPA Form R-46) if the dealer's order is accompanied with cash or its equivalent. A manufacturer or wholesaler shall fill all accepted orders for Grade III tires received on one day before filling any orders received on any subsequent day.

(2) *Specially prepared brass mill scrap.* (i) Paragraphs (a), (b) and (c) of this section do not apply to sales or deliveries of specially prepared brass mill scrap to a person other than a brass mill, a brass and bronze ingot maker, or a copper smelter or refiner.

(ii) The maximum price for specially prepared brass mill scrap sold or delivered to a person other than a brass mill, a brass and bronze ingot maker or a copper smelter or refiner shall be a price hereafter established in writing by the Office of Price Administration. The price so established shall be a price in line with the general level of prices established by this Revised Price Schedule No. 12 taking into account the applicant's special requirements and the additional cost to the seller involved in preparing material to meet these requirements.

(iii) Any person other than a brass mill, a brass and bronze ingot maker or a copper smelter or refiner desiring to purchase specially prepared brass mill scrap may apply to the Office of Price Administration for the establishment of a price that such person may pay for such scrap. Such application shall be in writing, shall be signed and sworn to by the applicant or by an authorized officer or partner of the applicant, shall be filed with the Copper, Aluminum and Ferro-Alloys Branch of the Office of Price Administration, Washington, D. C., and shall state:

(*a*) The name and address of the applicant.

(*b*) The nature of applicant's business.

(*c*) The purpose for which applicant will use the material which he desires to purchase.

(*d*) The name and address of the proposed seller or sellers.

(*e*) The date of issuance and an identification of the War Production Board authority permitting applicant to purchase brass mill scrap.

(*f*) A detailed statement of applicant's specifications for the material.

(*g*) A description of the manner in which the material has been specially prepared.

(*h*) To the extent possible, a statement of the additional expense to the seller in preparing the material for the applicant's use.

(*i*) If the applicant purchased the material prior to July 11, 1941, a statement of the price normally paid by the applicant.

(*j*) The proposed price f. o. b. point of shipment.

PART 1377—WOODEN CONTAINERS

[Rev. MPR 195[1]]

INDUSTRIAL WOODEN BOXES

The preamble is amended, and §§ 1377.151 to 1377.167, inclusive, are renumbered and amended to read as set forth below:

In the judgment of the Price Administrator it is necessary and proper to establish in a separate regulation the maximum price for the sale of industrial wooden boxes since, because of their special nature, they cannot satisfactorily be priced on the basis of deliveries made in March 1942. The maximum prices established by this regulation are in the judgment of the Price Administrator, generally fair and equitable, and in conformity with the general level of prices established by the General Maximum Price Regulation.[2] A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

So far as practicable the Price Administrator has given due consideration to prices prevailing between October 1 and 15, 1941, and to relevant factors of general applicability. So far as practicable the Price Administrator has consulted with representatives of trade and industry.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Revised Maximum Price Regulation No. 195—Industrial Wooden Boxes—is hereby issued.

AUTHORITY: §§ 1377.151 to 1377.167, inclusive, issued under the authority contained in Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1377.151 *What products are covered.* The term "industrial wooden box" as used in this regulation has a somewhat wider meaning than may be customary in some parts of the trade. It includes any assembled or unassembled box, crate, case, carrier, shipping pallet, reel, or similar container made principally of wood, in the form of lumber, plywood, or veneer, and used for packaging any product other than perishable fruits and vegetables. The term includes any constituent wooden part of the kind of containers mentioned, if it is ready to be assembled into the container. It does not include cooperage products or parts, used containers, or any wire-bound boxes. Some of the containers which are covered by this regulation, but may not usually be thought of as "industrial" boxes, are butter boxes, lard boxes, egg cases, cheese boxes, fish boxes, and munitions boxes.

Any industrial wooden box whose sale is governed by any other maximum price regulation, such as Maximum Price Regulation No. 176 on Rotary Cut Southern Hardwood Box Lumber or Maximum Price Regulation No. 186 on Western Wooden Agricultural Containers, is not subject to this regulation. This regulation does, however, supersede the General Maximum Price Regulation as to all sales and deliveries which this regulation covers.

§ 1377.152 *Sales of industrial wooden boxes at higher than maximum prices prohibited.* (a) On and after November 19, 1942, regardless of any contract or other obligation, no person shall sell or deliver, and no person shall buy or receive in the course of trade or business, any industrial wooden box at a price higher than the maximum price, and no person shall agree, offer, or attempt to do any of these things.

(b) If, upon the purchase of any industrial wooden box, the purchaser gets from the seller a written statement that to the best of his knowledge the price paid does not exceed the maximum price established by this regulation, and if the purchaser has no reason to doubt the truth of the statement, the purchaser shall be deemed to have complied with this section.

(c) Prices lower than the maximum prices may, of course, be charged or paid.

§ 1377.153 *Maximum price: Sales by manufacturers.* The maximum price for any industrial wooden box is the price which the particular manufacturer would have quoted on that box on March 31, 1942, if his material costs and the number of hours of overtime labor in the producing plant had been what they are now. This means that all other costs and all labor rates (straight and overtime), must be figured at the March 31, 1942 levels. Of course, the material cost cannot be figured higher than the maximum price set for that material by any applicable maximum price regulation. The statement that material costs and the number of hours of overtime labor should be taken as they are "now" means that they should be taken as of the time the particular quotation is made. These factors, then, are not necessarily rigidly fixed as of the effective date of this regulation, but may go up or down, so long as the material cost does not exceed the applicable maximum price for the material.

The specific methods of applying these rules are outlined below:

(a) *Price-determining methods based on costs.* In computing what the March quotation would have been, a manufacturer who on March 31, 1942, had an established price-determining method based on costs (such as an "NRA-type" formula) must continue to use that method. As stated above, the formula must be applied to the March 31, 1942 costs. The details of how to adjust March 31, 1942 costs as to material costs and overtime hours are given below in §§ 1377.154 and 1377.155.

(b) *"Lumber-cost method"*—(1) *Boxes priced in March.* If the manufacturer had no established price-determining method based on costs, his maximum price for a box which he priced in March 1942 shall be based on the relation of the March 1942 lumber cost to the March 1942 price for this box. This relation must be figured in terms of dollars and cents, not percentages. For example, if the lumber cost on the box was $1.00 in March and the sales price on the box was $2.00, and if the lumber cost is now $1.20, the maximum price for the box would be $2.20, not $2.40. This maximum price may be adjusted for changes in material costs other than lumber, and for changes in overtime hours as explained in § 1377.155.

(2) *Boxes not priced in March.* This "lumber-cost method" should be used (by a manufacturer having no price-determining method based on costs) for any box on which he figured a price in March 1942. Then, if he wants to find a price for a box which he did not price in March 1942, he should use as a "yardstick" the box with the nearest board footage content for which he has been able to figure a maximum price under paragraph (1) just above. This "yardstick" box should be a box of the same style using a thickness of stock involving comparable sawing operations. (For example, a box using resawn lumber should not be used as a yardstick for one using stock not resawn.) If there is a normal dollars-and-cents price differential between the two boxes, he should adjust the maximum price which he has figured for the "yardstick" box by that differential, and this will give him the maximum price for the box being priced. If there is not a normal dollars-and-cents differential, the differential should be built up on the basis of normal individual price differentials for the differences in board footage content, extra operations, and any other specifications.

(c) *Competitor's-price method.* If paragraphs (a) and (b) cannot be applied, a manufacturer should find his principal competitor who has an established maximum price on a similar box, and use that price as the basis for his own maximum price, adjusted for any difference such as footage and extra operations. Any manufaoturer who has an established maximum price on a box must tell that price to any competitor who needs it for purposes of this paragraph. This does not mean, however, that actual selling prices, or the method of arriving at the maximum price must be revealed to competitors.

§ 1377.154 *How to figure material costs*—(a) *Purchased lumber.* The cost of purchased lumber is the average of the actual prices paid for the lumber (of the kind used in the particular box) in the manufacturer's inventory or under contract at the time of the sale subject to this regulation. The purchases must be weighted on the basis of quantity. If inventory is kept on grade, the average purchase price of the grade or grades actually used in the box should be taken as the lumber cost. If inventory is not kept on grade, the average value of inventory should be used, and lumber taken out of inventory should be charged off at the average purchase price at the time of removal. The average need not be figured every day, but may be figured by the manufacturer's usual periods. The average must, however, be figured at least monthly.

The purchased-lumber cost must in no case be figured higher than the applicable maximum price for purchase of the lumber.

(b) *Produced lumber.* A manufacturer who produces his own lumber shall use the same method of working out his lumber cost as he used in March 1942. In no event shall a lumber cost over the applicable maximum price for sale of the lumber at a mill be used.

§ 1377.155 *How to figure the adjustment for increased overtime.* A manufacturer with an established price-determining method based on cost may use his present overtime hours in figuring labor cost, but must apply them to the March 1942 wage rate. A manufacturer who figures his maximum price from lumber cost under § 1377.153 (b) can increase that maximum price to the extent of any added expense due to any increase in overtime hours above the hours worked in March 1942. No increase due to increased basic wage rates since March may be included. Thus, if time-and-a-half is paid for overtime, and if the hourly rate has increased from 60¢ to 70¢ since March, the overtime expense is figured on the 60¢ rate. Under both methods, the added expense for the additional overtime must be computed on a weekly basis and spread evenly over all the industrial box production of the plant. A manufacturer who uses a competitor's maximum prices as his own cannot make any adjustment for his own added overtime.

§ 1377.156 *Maximum prices: Sales by other persons than manufacturers.* (a) The maximum price for the sale of an industrial wooden box by a seller other than a manufacturer is the seller's net invoice cost of this box plus the seller's average percentage mark-up during March 1942 on sales of all industrial wooden boxes to purchasers of the same class. This "average percentage mark-up during March 1942" must be an average weighted by volume of sales.

If he sold no industrial wooden boxes during March, he should use as his own mark-up the "average percentage mark-up during March 1942" of his most closely competitive seller. A person who is asked what his mark-up is by a competitor who needs it for use under this paragraph must reveal it.

§ 1377.157 *Maximum prices: All other cases.* If any seller of industrial wooden boxes cannot figure his maximum price under the provisions of this regulation up to this point, he should write a letter to the Lumber Branch of the Office of Price Administration, Washington, D. C., telling why he can not. He should describe the box, (giving inside dimensions; style of box; number, size, thickness of each piece, and species of lumber; grade requirements of box; whether veneer or sawed; fixtures, such as hinges and hasps; any special operations, such as hand-holes; whether in shook form, unitized, or set-up; and any other relevant facts), state the requested price and whether it is f. o. b. mill or delivered, and give any information, such as competitive or market prices, costs, and the like which would be of assistance in determining a proper price. The Office of Price Administration will then by letter send instructions either in the form of a specific price or in the form of a method of computing the price. A seller who has written this kind of letter does not have to suspend negotiations or deliveries. He may sell and deliver at the price requested by him, but he may not accept final payment until the Office of Price Administration has acted on his request. If he sells or delivers during this interim period, he must tell the buyer that the final price is subject to adjustment according to the action of the Office of Price Administration.

§ 1377.158 *Extras, discounts, and allowances.* The maximum price shall be adjusted for all extra charges, discounts, or allowances in use by the seller in March 1942.

§ 1377.159 *Reports.* No reports need be filed under this regulation, unless the Office of Price Administration specifically requests them, except in this one case: If the seller has once used a maximum price computed under this regulation as a basis for sale or quotation, and then later computes a higher maximum price for the same box, he must send a letter to the Office of Price Administration in Washington, D. C., explaining the higher price. The reason for this is that when a seller's maximum price has once been made known, and he later sells at a higher price, it appears on the surface that the seller is violating the regulation. It is to prevent any such misunderstanding that this report is required.

§ 1377.160 *Records.* All sellers of industrial wooden boxes must keep records which will clearly identify the box sold and show the name and address of the purchaser, the date of the sale, and the price. Records must also be kept showing the method of determining prices used by the seller, and any calculated cost factors, such as material and labor costs, which were used in applying the price-determining method. Purchasers must keep a record of the name and address of the seller, the date of the purchase, a description of the box purchased, and the price paid for it. Any other records which the Office of Price Administration later requires must also be kept.

§ 1377.161 *Petitions for amendment or adjustment*—(a) *Government contracts or subcontracts.* Any person who has entered into or proposes to enter into a contract with the United States or any agency thereof, or with the government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States", or any agency of any such government, or a subcontract under any such contract, who believes that the maximum price impedes or threatens to impede production of an industrial wooden box which is essential to the war program and which is or will be the subject of such contract or subcontract, may file an application for adjustment of the maximum prices established by this regulation in accordance with Procedural Regulation No. 6,[3] issued by the Office of Price Administration.

(b) *General amendments.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

(c) *Adjustment of abnormally low maximum prices.* The Office of Price Administration or any duly authorized officer thereof, may by order adjust the maximum prices established under this Maximum Price Regulation No. 195, for any seller of industrial wooden boxes in any case in which such seller shows:

(1) That such maximum price causes him substantial hardship and is abnormally low in relation to the maximum prices established for competitive sellers of the same or similar commodities; and

(2) That establishing for him a maximum price, bearing a normal relation to the maximum prices established for competitive sellers of the same or similar commodities, will not cause or threaten to cause an increase in the level of retail prices.

Applications for adjustment under this paragraph (c) shall be filed in accordance with Revised Procedural Regulation No. 1,[4] issued by the Office of Price Administration. No application for adjustment filed after November 15, 1942, will be granted under this paragraph (c).

§ 1377.162 *Adjustable pricing.* It is permissible under this regulation to provide in a contract that the price shall be adjustable to a price not higher than the maximum price in effect at the time of delivery.

§ 1377.163 *Prohibited practices.* (a) Any practice or device which is an attempt to get the effect of a higher price without actually raising the price is as much a violation of this regulation as an outright excessive price. This applies to devices involving commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(b) The following are among the practices specifically prohibited:

(1) Decreasing cash discounts or the discount period below those available to the buyer in March 1942, or making credit terms more unfavorable to the buyer than they were in March 1942.

(2) Making the purchaser bear a larger part of the transportation cost than he would have borne in March 1942.

(3) Making the purchaser buy something he does not want in order to get what he does want.

(4) Billing the buyer for more boxes than were shipped.

(5) Billing against a style of box which was not actually delivered.

§ 1377.164 *Enforcement.* (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) No war procurement agency, nor any contracting or paying finance officer thereof shall be subject to any liability, civil or criminal, imposed by this regulation or the Emergency Price Control Act of 1942. "War procurement agency" includes the War Department, the Department of the Navy, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any agency of the foregoing.

(c) Persons who have evidence of any violation of this regulation or of any other regulation or order issued by the Office of Price Administration are urged to communicate with the nearest field, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1377.165 *Export sales.* The maximum price for export sales of industrial wooden boxes is governed by the Maximum Export Price Regulation[1] issued by the Office of Price Administration.

§ 1377.166 *Definitions.* (a) The term "person" includes an individual, corporation, partnership, association, or any other organized groups of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, shall apply to other terms used herein.

§ 1377.167 *Effective date.* All of the provisions of Revised Maximum Price Regulation No. 195 (§§ 1377.151 to 1377.167, inclusive) shall become effective November 19, 1942.

Issued this 13th day of November 1942.

Part 1394—Rationing of Fuel and Fuel Products

[Ration Order 11,[2] Amendment 4]

FUEL OIL RATIONING REGULATIONS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In § 1394.5266 new paragraphs (e) and (f) are added; § 1394.5267 is renumbered § 1394.5267 (a), and a new paragraph (b) is added thereto; a new § 1394.5461 is added; § 1394.5707 is renumbered § 1394.5707 (a), and a new paragraph (b) is added thereto; and a new paragraph (d) is added to § 1394.5902; as set forth below:

HEAT AND HOT WATER RATIONS

§ 1394.5266 *Same: applications made on or after November 1, 1942; heat or both heat and hot water.* * * *

(e) If the applicant has taken a transfer of fuel oil on or after October 1, 1942, the Board shall issue (in addition to coupon sheets issued pursuant to paragraph (b) of this section) Class 1 or Class 2 coupon sheets containing currently valid coupons equal in gallonage value to the amount of fuel oil transferred to the applicant for such purpose during the period from October 1, 1942, to the date of application, except that the aggregate number of coupons issued pursuant to this paragraph and to paragraph (b) of this section shall not exceed in gallonage value the allowable ration determined in accordance with §§ 1394.5256 or 1394.5261, whichever is applicable.

(f) Notwithstanding the provisions of subparagraph (2) of paragraph (b) of this section, the gallonage value of the aggregate number of currently valid coupons issued pursuant to paragraphs (b) and (e) of this section shall be not less than the number of gallons purchased by the applicant during the period from October 1, 1942 to the date of application.

§ 1394.5267 *Same: applications made on or after November 1, 1942 for hot water only.* * * *

(b) If the applicant has taken a transfer of fuel oil on or after October 1, 1942 for such equipment for furnishing hot water (but not heat) to premises other than private dwellings, the coupon sheets issued to such applicant shall contain coupons (in addition to those issued pursuant to paragraph (a) of this section) equal in gallonage value to the amount of fuel oil transferred to the applicant for such purpose during the period from October 1, 1942 to the date of application, except that the aggregate number of coupons issued pursuant to this paragraph and to paragraph (a) of this section shall not exceed in gallonage value the allowable ration determined in accordance with paragraph (b) of § 1394.5261.

GENERAL PROVISIONS WITH RESPECT TO ISSUANCE OF RATIONS

§ 1394.5461 *Applications made on or after November 1, 1942: special cases.* Notwithstanding any other provisions of Ration Order No. 11, when a State Director of the Office of Price Administration so directs, any application for a ration executed by the applicant prior to November 1, 1942 and filed with a Board on or before a date (not later than November 14, 1942) fixed by such Director, shall be acted upon by the Board as though such application had been made prior to November 1, 1942.

RESTRICTIONS ON TRANSFERS TO DEALERS AND SUPPLIERS

§ 1394.5707 *Restrictions on transfers.* * * *

(b) Notwithstanding any other provisions of Ration Order No. 11, any transfer required by paragraph (a) of this section to be accompanied by an exchange of coupons or other evidences, or any transfer specified in § 1394.5708, may, during the period from November 1, 1942 to November 23, 1942, inclusive, be made without requiring the surrender of coupons or other evidences, subject to the following conditions:

(1) No dealer or supplier may accept a transfer pursuant to this paragraph unless he has filed an application for registration with a Board in accordance with the provisions of § 1394.5701.

(2) At the time of transfer the dealer or supplier receiving the transfer shall deliver to the transferor a written receipt showing the date of transfer, the number of gallons of fuel oil transferred, and the name and address of the transferee, except that when a transfer specified in § 1394.5708 is made, such receipt may be forwarded to the transferor within five (5) days after the transfer.

(3) A dealer or supplier who receives a transfer of fuel oil and delivers a receipt therefor pursuant to this paragraph shall, on or before November 28, 1942, surrender to the transferor coupons or other evidences equal in gallonage value to the amount of fuel oil so transferred.

(4) Any dealer or supplier who has made a transfer pursuant to this paragraph shall, on or before November 30, 1942, report in writing to the nearest State Office of the Office of Price Administration, the name and address of any dealer or supplier who has accepted a transfer pursuant to this paragraph and who has failed to surrender coupons or other evidences as required by subparagraph (3).

WITT ICE & GAS CO.

For reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.894 *Adjustment of maximum prices for Witt Ice and Gas Company.* (a) Witt Ice and Gas Company of Los Angeles, California, may sell and deliver, and any purchaser may buy and receive dry ice at a price not in excess of that hereinafter set forth:

> Dry ice at 3¢ per pound, in wholesale quantities from the seller's warehouse in Amarillo, Texas.

(b) All discounts, allowances, practices with regard to charges for transportation and other trade practices in effect with respect to the above listed commodity during March 1942, by the seller, shall remain in effect under this order.

(c) Witt Ice and Gas Company shall accompany each first sale, to each customer buying dry ice at 3¢ per pound, wholesale, from its Amarillo, Texas, warehouse, with the following notice:

> The Office of Price Administration has granted Witt Ice and Gas Company permission to increase its maximum price on dry ice from 2½¢ per pound to 3¢ per pound in wholesale quantities, delivered from its Amarillo, Texas, warehouse.
>
> Permission to increase its maximum price has been granted on the presumption that purchasers from this company will not request an increase in prices on the products which they sell because of such increase in the cost of dry ice.

(d) This Order No. 94 may be amended or revoked by the Price Administrator at any time.

(e) This Order No. 94 (§ 1499.894) is hereby incorporated as a section of Supplementary Regulation No. 14, which contains modifications of maximum prices established by § 1499.2.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts

PART 202—MINIMUM WAGE DETERMINATIONS

AVIATION TEXTILE PRODUCTS MANUFACTURING INDUSTRY

In the matter of the determination of the prevailing minimum wage for the Aviation Textile Products Manufacturing Industry.

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Supp. III, 35) entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes" otherwise known as the Walsh-Healey Public Contracts Act. The Public Contracts Board, created in accordance with Section 4 of the said Act by Administrative Order dated October 6, 1936, held a hearing on March 24, 1942, in the above-entitled matter.

Notice of this hearing was sent to all known members of the industry, to trade unions, and to trade publications. Invitation to attend the hearing was extended through the national press to all other interested parties.

Appearances were made and testimony was given at the hearing by members of the industry, Upholsterers' International Union of North America, United Textile Workers of America, United Garment Workers of America, and Central Labor Union, Washington, Indiana.

Wage data for this industry were collected by a committee designated by the Administrator of the Public Contracts Division and consisting of manufacturers and employee representatives. The data were tabulated by the Research Section of the Division. This survey included 2,765 production workers employed by 12 establishments located in 10 states. The payroll period covered by the wage survey was that including the day of October 20, 1941 except in the case of two plants whose wage data were for a payroll period in February 1942.

At the time of the survey the industry was undergoing a process of augmentation through gradual conversion of adaptable plants which were primarily members of other industries such as the Cotton Garment Industry. The evidence presented at the hearing indicates that the survey represented an adequate coverage of the industry both as to the number of workers and as to the number of plants; and that it was representative of the different geographical regions in the industry.

On the basis of the evidence before it, the Public Contracts Board recommended that prevailing minimum wages for the Aviation Textile Products Manufacturing Industry be determined to be 55 cents an hour for the States of California, Oregon, and Washington; and 47½ cents an hour for the remaining states and the District of Columbia. The Board further recommended that the employment of workers who are bona fide learners in the industry be permitted without present limitation of their number at rates of 40 cents an hour for the first two weeks and 45 cents an hour for the second two weeks of their employment. The Board's recommendations were circularized by the Assistant Administrator of the Division of Public Contracts to interested parties who were invited to express their approval or to register their objections and submit verifiable wage evidence in support of such objections. Several objections to the Board's recommendations have been received.

The data in the wage survey indicates a substantial concentration of employees in the 40-42 cent wage bracket, 25 percent of the workers being found in that bracket. Other large concentrations of employees are shown in the 50-52 cent bracket (15 percent) and the 55 cent bracket (11 per cent). The testimony at the hearing shows a number of increases of 5 cents an hour between the payroll period covered by the survey and the date of the hearing. A comparison of minimum wages prevailing in different plants as determined from their individual schedules indicates an exceptionally homogenous wage structure with the exception of the Pacific Coast. The evidence in the record indicates a prevailing minimum wage of 55 cents an hour on the Pacific Coast as represented by the State of California and 47½ cents an hour in the rest of the country as represented by the other nine states included in the survey.

The survey indicates that there are workers employed as learners in this industry. Evidence shows that the learner period ranges upward from two weeks. While the wage survey shows that only slightly more than 6 percent of the workers are employed as learners, the industry is a new and growing one and it appears advisable not to fix any definite percentage of learners who may be employed, but merely to limit the tolerance to employees who are in fact learners in the industry.

The nature of the objections to the Board's recommendations varies. Thus, objections have been received on the grounds that the proposed minima are too low as well as that they are too high; that the learner period is inadequate; and that there should be no difference between the Pacific Coast and the rest of the country, and that 55 cents an hour should be established for the entire country. Very few of the objections were accompanied by supporting data. I have considered the data submitted and find that they do not constitute a basis for departing from the Board's recommendations.

Upon consideration of all the facts and circumstances, I hereby determine that:

§ 202.45 *Aviation Textile Products Manufacturing Industry.* (a) The Aviation Textile Products Manufacturing Industry is defined for the purpose of this determination as that industry which is engaged in the manufacture of articles (other than apparel) primarily of fabric for use in connection with the Aviation Industry, including, but without limitation, parachutes of all types, parachute packs, parachute harnesses, safety belts, aerial delivery containers made primarily from fabrics, tow targets, and wind direction indicators of the wind-sock type: *Provided, however,* That the manufacture of canvas and duck articles for ground use, such as signaling panels, is not included.

(b) The minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of the Walsh-Healey Public Contracts Act of June 30, 1936 (49 Stat. 2036, 41 U.S.C. Supp. III, 35), for the manufacture or furnishing of the products of the Aviation Textile Products Manufacturing Industry shall be 55 cents an hour or $22.00 a week of 40 hours, arrived at either on a time or piecework basis, for the States of California, Oregon, and Washington, and 47½ cents an hour or $19.00 a week of 40 hours, arrived at either on a time or piecework basis, for the remaining 45 states and the District of Columbia: *Provided,* That workers who are in fact learners may be employed at the rate of 40 cents an hour or $16.00 a week of 40 hours during the first two weeks of their employment and at the rate of 45 cents an hour or $18.00 a week during the third and fourth weeks of their employment.

This determination shall be effective and the minimum wages hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced by the contracting agency on or after December 11, 1942.

Nothing in this determination shall affect such obligations for the payment of minimum wages as an employer may have under the Fair Labor Standards Act of 1938, or any wage order thereunder, or under any other law or agreement more favorable to the employees than the requirements of this determination.

Dated: November 11, 1942.

EMPLOYMENT OF FEMALE PERSONS UNDER 18 YEARS OF AGE

EXEMPTION FROM PROVISIONS OF WALSH-HEALEY ACT

Exemption from the provisions of section I (d) of the Walsh-Healey Public Contracts Act to permit the employment of female persons under 18 years of age in any industry.

Whereas, the Acting Secretary of War, the Acting Secretary of the Navy and the Chairman of the Maritime Commission having requested that an exemption be granted under section 6 of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C. Supp. III, 35), hereinafter called the Act, permitting the award of contracts to contractors in all other industries not included in the exemption order dated April 21, 1942,[1] without the inclusion in such contracts as required by section 1 (d) of the Act the representation and stipulation:

> That no * * * female person under eighteen years of age * * * will be employed by the contractor in the manufacture or production or furnishing of any of the materials, supplies, articles, or equipment included in such contract; and

Whereas, the request is supported by written findings signed by the Acting Secretaries of War and Navy and the Chairman of the Maritime Commission that the inclusion of such stipulation as provided in section 1 (d) of the Act will impair seriously the conduct of Government business by retarding essential production and interfering with the successful prosecution of the war in which the United States is engaged and which requires the complete utilization of the human and national resources of the nation; and

Whereas, an exemption has been granted heretofore to permit the employment of girls between the ages of 16 and 18 upon contracts in certain industries; and

Whereas, it is apparent that justice and public interest will be served by extending the exemption to all other industries on a basis of the findings by the Acting Secretary of War, the Acting Secretary of the Navy and the Chairman of the Maritime Commission;

I hereby amend the order dated April 21, 1942, pursuant to the powers vested in me by section 6 of the Walsh-Healey Public Contracts Act until further ordered granting an exemption from the application of section 1 (d) and section 2 of the Act with respect to the employment of girls between the ages of 16 and 18 by contractors from this date in any industry, subject to the following conditions:

(1) That no girl under 16 years of age shall be employed.

(2) That no girl under 18 years of age shall be employed for more than 8 hours in any one day, or between the hours of 10 p. m. and 6 a. m., or in any way contrary to State laws governing hours of work.

(3) That no girl under 18 years of age shall be employed in any operation or occupation which, under the Fair Labor Standards Act or under any State law or administrative ruling, is determined to be hazardous in nature or dangerous to health.

(4) That for every girl under the age of 18 years employed by him the contractor shall obtain and keep on file a certificate of age showing that the girl is at least 16 years of age.

(5) That a specific and definite luncheon period of at least 30 minutes be regularly granted any women workers under 18 years of age.

(6) That no girl under 18 shall be employed at less than the minimum hourly rate set by or under the Fair Labor Standards Act or the Walsh-Healey Public Contracts Act for the industry in which the exemption is granted.

Dated: November 11, 1942.

DISTRICT BOARD NO. 2

NOTICE OF AND ORDER FOR HEARING

In the matter of the petition of District Board No. 2 for a change in the effective minimum prices for truck shipments for coals produced by certain mines in District No. 2.

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on December 9, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section will advise as to the room where such hearing will be held.

It is further ordered, That Edward J. Hayes or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before December 4, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to a petition filed with the Division by District Board No. 2 requesting that the effective minimum prices for truck shipments for the coals produced by Ritenour Mine, (Mine Index No. 923) of O. N. Ritenous; Kennedy Mine, (Mine Index No. 858) of J. C. Hindman Coal Company; Stadnick Mine, (Mine Index No. 934) of Stadnick Coal Company (Louis Stadnick); and Taylor Mine, (Mine Index No. 1628) of Taylor Cannel Coal Company (H. L. Taylor), be changed as follows:

[Docket No. A-1713]

DISTRICT BOARD 11

MEMORANDUM OPINION AND ORDER GRANTING TEMPORARY RELIEF

In the matter of the petition of District Board No. 11 for establishment of price classifications and minimum prices for coals of Pyramid Coal Corporation.

An original petition pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 was filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Victory Mine, Mine Index No. 1354, of the Pyramid Coal Corporation for shipment by both rail and truck.

Petitioner requests the temporary establishment of the price classifications and minimum prices set forth in its petition stating that the Victory Mine is a new mine now being developed in a third vein seam and that until such mine is actually producing and loading its coals for shipment petitioner will be unable to obtain sufficient factual data to propose permanent price classifications and minimum prices for the coals of that mine.

Accordingly, a reasonable necessity having been shown for the granting of the request in the original petition it is deemed advisable to temporarily establish the price classifications and minimum prices requested by petitioner for the coals of its mine. However, it does not appear advisable to permanently establish price classifications and minimum prices for the coals of that mine until such time as all factual data necessary to such an establishment has been obtained by petitioner and has been submitted to the Division for consideration.

Therefore It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, the Schedules of Effective Minimum Prices for District No. 11 for All Shipments Except Truck and for Truck Shipments are supplemented to include the price classifications and minimum prices set forth in the schedules marked "Supplement R" and "Supplement T" annexed hereto and hereby made a part hereof.[1]

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: November 12, 1942.

[Vesting Order 349]

ALL OF THE CAPITAL STOCK OF HENRY PELS & CO., INC.

Under the authority of the Trading with the enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding that the property described as follows:

> All of the capital stock of Henry Pels & Co., Inc., a New York corporation, New York, New York, which is a business enterprise within the United States, consisting of 500 shares of $100 par value common stock.

is owned by Berlin-Erfurter Maschinenfabrik Henry Pels & Co. A. G., whose last known address was represented to the undersigned as being Berlin, Germany, and therefore is property of, and represents ownership of said business enterprise which is, a national of a designated enemy country (Germany), and determining that to the extent that such national is a person not within a designated enemy country the national interest of the United States requires that such person be treated as a national of the aforesaid designated enemy country (Germany), and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy Country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C. on November 9, 1942.

[SEAL] LEO T. CROWLEY,
Alien Property Custodian.

NEW YORK WATER SERVICE CORPORATION AND FEDERAL WATER AND GAS CORPORATION

NOTICE OF AND ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 10th day of November, A. D. 1942.

The Commission having instituted proceedings with respect to Federal Water and Gas Corporation, a registered holding company, and New York Water Service Corporation, one of its subsidiaries, to determine whether, for the purpose of fairly and equitably distributing voting power among security holders of New York Water Service Corporation pursuant to the provisions of section 11 (b) (2) of the Public Utility Holding Company Act of 1935, it is necessary or appropriate to require that said corporation shall revise and simplify its capital structure and what further action may be required by New York Water Service Corporation to effect complete compliance with section 11 (b) (2) of the Public Utility Holding Company Act of 1935, as more fully set forth in the Commission's notice of and order instituting proceedings and setting date for hearing (Holding Company Act Release No. 3156);

Hearings having been held in respect of such proceeding and having been adjourned subject to call of the Trial Examiner; and

It appearing appropriate to the Commission that hearings in this matter be reconvened for the purpose of adducing additional evidence;

It is ordered, That the hearing in the above-entitled matter be reconvened on the 18th day of November 1942 at 10 o'clock in the forenoon of that day in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pa. On that day the hearing room clerk in 318 will inform the parties as to the exact room in which said reconvened hearing shall be held;

It is further ordered, That without limiting the scope of the issues presented by these proceedings, attention will be directed at such hearing to a consideration of the following matters and questions:

(1) Whether, for the purpose of fairly and equitably distributing voting power among security holders of New York Water Service Corporation, pursuant to the provisions of section 11 (b) (2) of the Public Utility Holding Company Act of 1935, it is necessary or appropriate to require that New York Water Service Corporation shall revise and simplify its stock structure so as to cause the same to consist of common stock only;

(2) Whether, in the event the stock structure of New York Water Service Corporation is so revised, any participation should be accorded to Federal Water and Gas Corporation by reason of its holdings in the present common stock of New York Water Service Corporation;

(3) Whether, and if so the extent to which, New York Water Service has suffered any detriment in connection with its transactions with associate companies or affiliates.

By the Commission.

[File Nos. 54-50, 59-39, 59-10]

NORTH AMERICAN LIGHT & POWER CO., ET AL.

NOTICE OF FILING, ETC.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 12th day of November, A. D. 1942.

In the matter of North American Light & Power Company, File No. 54-50, North American Light & Power Company, Holding-Company System, and The North American Company, File No. 59-39, The North American Company, et al., File No. 59-10.

Notice of filing of plan for liquidation of North American Light & Power Company and Illinois Traction Company (application No. 11) and order for hearing.

The Commission on December 30, 1941, having entered an order pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935 (File No. 54-50) directing that North American Light & Power Company (Light & Power) shall be liquidated and its existence terminated, and further directing that Light & Power and The North American Company shall proceed with due diligence to submit to this Commission a plan or plans for the prompt liquidation of Light & Power in a manner consistent with the provisions of the Public Utility Holding Company Act of 1935; and

The Commission in its Findings and Opinion of December 30, 1941, having stated,

> We observe in passing that in addition to owning about 85% of the common stock of Light & Power, North American also owns about 43% of Light & Power's preferred stock and 63% of its debentures. The record discloses that these senior securities were acquired at substantial discounts and at a time when dividend arrears on its preferred stock were mounting and an earned surplus deficit increasing. These facts raise serious questions concerning the possible application to North American's holdings of various equitable doctrines. At this time, we do not determine or indicate in what manner North American's claims as a senior security holder of Light & Power shall be treated, as the record is not complete on that matter. Whether such claims shall be treated on a parity with those of the same class held by others; whether North American shall be confined to cost, computed in light of all relevant factors; whether North American's claims must be subordinated in whole or in part; or whether some other disposition of these problems may be appropriate, will depend on a comprehensive inquiry into the facts and a consideration of the applicable principles. We reserve jurisdiction to pass on these questions at a later time.

and

The Commission having on May 5, 1942 entered an order directing that the said proceeding (File No. 54-50) be consolidated with the proceeding entitled "In the matter of The North American Company, et al., (File No. 59-10)" and with the proceeding entitled "In the matter of North American Light & Power Company Holding-Company System and The North American Company, (File No. 59-39)";

Notice is hereby given that North American Light & Power Company filed on October 15, 1942, a plan for the liquidation and termination of the existence of said Light & Power and for the liquidation and termination of the existence of Illinois Traction Company, a subsidiary of The North American Company and said Light & Power. Said plan is designated as Application No. 11.

All interested persons are referred to said application which is on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

It is recited in said plan that Light & Power has heretofore filed Applications No. 1 to 4 inclusive, all of which have been approved by the Commission and which provided for the dissolution of Power & Light Securities Company (a subsidiary of Light & Power), for the retirement of Light & Power's publicly held debentures, for the sale of the assets and dissolution of The McPherson Oil & Gas Development Company (a subsidiary of Light & Power) and for the sale of Light & Power's 50% interest in Blue River Power Company to The Kansas Power and Light Company.

Light & Power proposes to file additional applications (designated 5 to 10, inclusive) which will request authority for Illinois Traction Company to sell its interest in Kewanee Public Service Company for approximately $300,000, for Western Illinois Ice Company to sell its physical property for approximately $250,000 in cash, for Cahokia Manufacturers Gas Company to sell its physical properties to Illinois Iowa Power Company for approximately $20,000, for Light & Power to sell its preferred stock holdings (and dividend arrears certificates) of Illinois Iowa Power Company, at the market, netting approximately $343,220, to retire 210 shares of publicly held preferred stock of Illinois Traction Company, and for Illinois Traction Company to turn over to Light & Power its residual cash assets estimated to be approximately $30,917.

The plan further states that when all of the above transactions shall have been accomplished it is estimated that there will be available for distribution by Light & Power and Illinois Traction Company as of December 31, 1942, the following:

Cash (estimated)	$2,501,031.27
	Shares
Preferred Stock, Missouri Power & Light Company	3,298
Common Stock, Missouri Power & Light Company	75,000
Common Stock, The Kansas Power & Light Company	1,050,000
Common Stock, Northern Natural Gas Company	355,250
Common Stock, Illinois Iowa Power Company	312,478
Common Stock warrants Illinois Iowa Power Company	300,000

North American Light & Power Company will have outstanding as of December 31, 1942, the following securities:

5½% Debentures, all owned by The North American Company, principal amount	$5,623,000
	Shares
Preferred stock owned by public investors	109,255
Preferred stock owned by The North American Company	84,925
Total preferred stock shares	194,180
Liquidating value of preferred stock	$19,418,000
Dividend arrears to end of 1942 at $63 per share	12,233,340
Total preferred stock	31,651,340
	Shares
Common Stock, $1 par value	6,288,059
Held by The North American Company	5,327,067
Held by the public	960,992

Light & Power proposes, subject to determination of various claims (involving questions of fact and law) which may have an effect on the amount of assets available therefor, the following plan of distribution:

1. To pay off the outstanding debentures in the principal amount of $5,623,500 as follows:

(a) By use of available cash to the extent of $2,200,000.

(b) By offering for sale 3,298 shares of preferred stock and 75,000 shares of the common stock of Missouri Power & Light Company; and 63,980 shares of the common stock of Northern Natural Gas Company for $3,423,500.

(c) In case such sum cannot be realized from the sale of said securities, then to pay cash in the amount of $2,200,000 and transfer the above securities to the holders of the debentures as payment in full for same.

The North American Company acquired the debentures as follows:

	Par value	*Cost*
Purchased	$9,608,500.00	$6,479,611.52
Redeemed by Light & Power	3,985,000.00	2,688,388.58
Balance remaining	$5,623,500.00	*$3,791,211.94

*Includes intercompany profit of $256,786.

2. To distribute to the preferred stockholders pro rata the following:

Cash (Balance remaining after distributions to debenture holders as provided in part (1) of Plan)

	Shares
Common capital stock of The Kansas Power and Light Company	1,050,000
Common capital stock of Northern Natural Gas Company	291,270
Common stock Illinois Iowa Power Company	312,478
Common stock warrants	300,000

The application states that the face amount of the outstanding debentures plus the liquidating value of the preferred stock including accrued dividends is approximately $37,000,000 and the current value of the assets is materially less than this amount so that there will be no assets remaining for distribution to holders of common stock.

Sections 9 (a), 10, 11 (b) (1), 11 (b) (2), 11 (e), 12 (d) of the Act, and Rules U-43, U-44, U-45, and U-50 of the Rules and Regulations of the Commission issued thereunder, have been indicated as applicable to the proposed transactions.

The Commission being required by the provisions of section 11 (e) of said Act, before approving any plan for compliance with section 11 (b), to find, after notice and opportunity for hearing that such plan, as submitted or as modified is necessary to effectuate the provisions of section 11 (b), and is fair and equitable to the persons affected by such plan; and

It appearing to the Commission that the public interest, and the interest of investors may be served by consideration of certain limited issues presented by such plan (which are hereinafter described) prior to a determination of whether said plan is in all respects in accordance with the applicable standards of said Act;

It is ordered, That a hearing on said application be held on December 8, 1942 at 10:00 A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at such hearings is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice; and

It is further ordered, That the Secretary of the Commission shall serve notice of the hearing aforesaid by mailing a copy of this order by registered mail to North American Light & Power Company, The North American Company, Illinois Iowa Power Company, and Illinois Traction Company; and that notice of said hearing is hereby given to all security holders of North American Light & Power Company, to all states, municipalities and political subdivisions of states within which are located any of the utility assets of the said North American Light & Power Company Holding Company System, to all state commissions, state security commissions, and all agencies, authorities, or municipalities of the United States, one or more states, municipalities, or other political subdivisions having jurisdiction over said North American Light & Power Company or any of its subsidiaries, and to all other persons who may have any interest in the proceeding, such notice to be given by a general release of the Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication in the FEDERAL REGISTER not later than fifteen days prior to the date hereinbefore fixed as the date of the hearing; and

It is further ordered, That North American Light & Power Company mail to each of its security holders at his last known address at least fifteen days prior to December 8, 1942, a copy of this notice and order and a copy of the plan of liquidation and dissolution as set forth in item 6 of Application No. 11 filed herein and include therewith the following exhibits filed with said application: D-2, D-3, D-5, D-6, D-8, D-9, D-10, D-11 and D-14.

It is further ordered, That any person desiring to be heard in connection with these proceedings or proposing to intervene shall file with the Secretary of this Commission on or before December 1, 1942 his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission;

It is further ordered, That particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the provisions in said plan relating to the participation of The North American Company are necessary and fair and equitable; and

(2) Whether there are any special equities affecting the securities of Light & Power held by The North American Company which require that the participation of The North American Company be limited, or that for the purpose of determining such participation said holdings be subordinated to the holdings of any claims of securities of Light & Power held by the public.

By the Commission.

ASSOCIATED GAS AND ELECTRIC CORP., ET AL.

ORDER PERMITTING AMENDMENT TO DECLARATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of November 1942.

In the matter of Denis J. Driscoll and Willard L. Thorp, as trustees of Associated Gas and Electric Corporation, respondents, File No. 59-32; in the matter of Northeastern Water and Electric Corporation and Denis J. Driscoll and Willard L. Thorp as trustees of Associated Gas and Electric Corporation, applicants-declarants, File No. 70-455.

The Commission having heretofore, on March 3, 1942, issued an order in the above-captioned proceedings, which, among other things, permitted a declaration to become effective under section 12 (d) of the Public Utility Holding Company Act of 1935 and Rule U-44 promulgated thereunder, regarding the proposed sale to John H. Ware, Jr. and Penn-Jersey Water Company of 155,747 shares of common stock of Northeastern Water and Electric Corporation by Trustees of Associated Gas and Electric Corporation, a registered holding company, for a cash consideration of $3,805,197.14; and

An amendment having now been filed providing, among other things, that the consideration to be received be reduced to $3,224,665.77, and further providing that $2,000,000 thereof be in the form of a collateral promissory note of vendees bearing 3% interest and maturing November 15, 1943; the amended filing indicating that section 10 of the Act is applicable to the proposed acquisition; and

A public hearing having been held on the amended filings, after appropriate notice; the Commission having considered the record and finding that there is no reason to make any adverse findings under section 12 (d) of the Act and the applicable rules regarding the proposed disposition, and further finding that the acquisition meets the standards of section 10; and having made and filed its findings and opinion herein;

It is ordered, That the amended declaration be, and the same hereby is, permitted to become effective forthwith, and that the application be, and the same hereby is, approved, subject to the terms and conditions set forth in Rule U-24.

By the Commission.

GENERAL WATER, GAS & ELECTRIC CO., ET AL.

ORDER RELEASING JURISDICTION AS TO FEES AND EXPENSES

In the matter of General Water Gas & Electric Company, Boise Water Corporation, Natatorium Company, Kellogg Power and Water Company.

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 7th day of November, A. D. 1942.

General Water, Gas & Electric Company, a registered holding company, and its subsidiaries, Kellogg Power and Water Company and Boise Water Corporation, together with the latter company's subsidiary, Natatorium Company, having joined in appropriate applications and declarations filed with this Commission, with amendments thereto, under sections 6 (b), 10 and 12 of the Public Utility Holding Company Act of 1935 for approval of (1) the acquisition of the outstanding securities of Kellogg Power and Water Company by Boise Water Corporation from its parent, General Water, Gas & Electric Company, in exchange for common stock to be issued by Boise Water Corporation; (2) the issuance and private sale of $950,000 principal amount of bonds by Boise Water Corporation; (3) the redemption of $1,000,000 principal amount of bonded debt by Boise Water Corporation from General Water, Gas & Electric Company; and (4) transactions incident thereto; and

The Commission having permitted such declarations to become effective subject, however, to certain conditions including the reservation of jurisdiction with respect to all accounting entries to be made, and certain fees and expenses to be paid, in connection with the consummation of such transactions; and

General Water Gas & Electric Company, Boise Water Corporation, Natatorium Company and Kellogg Power and Water Company having filed a notification and itemized statement of such accounting entries and fees and expenses; and

It appearing to the Commission that under the circumstances of this proceeding, and the fact that the Public Utilities Commission of Idaho will have jurisdiction in respect of the proposed accounting entries, it is unnecessary that this Commission further reserve jurisdiction in the present proceeding concerning such accounting entries, and it further appearing that the fees and expenses proposed to be paid by the applicants are not unreasonable;

It is ordered, That jurisdiction be, and the same is hereby released in respect of said fees and expenses, and be, and the same is hereby released, insofar as the present proceeding is concerned in respect of said proposed accounting entries, but without prejudice to the right and power of this Commission to consider further the propriety of said accounting entries in any other or further proceeding in which the same may appropriately be considered: *And, provided further*, That the release of jurisdiction in respect of all matters concerning which the same is hereby released is made subject to the conditions prescribed by Rule U-24;

It further appearing to the Commission that by clerical error a line was omitted from the Findings and Opinion of this Commission herein of July 1, 1942 (Holding Company Act Release No. 3643) in the first sentence of the second paragraph of that subdivision of said opinion entitled "Proposed Transactions", and that said sentence should read as follows:

> As the initial step in accomplishing the designated purpose, Boise proposes to acquire from its parent, General, all the outstanding securities of Kellogg consisting of a $100,000 6% demand note and 65,000 shares of common stock (par value $1.00) in exchange for 1,650 shares of common stock (par value $100) to be issued by Boise;

It is further ordered, That said Findings and Opinion be, and the same are hereby amended and corrected so that said sentence shall read as hereinabove set forth.

By the Commission.

ORDER OF SEPARATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 10th day of November 1942.

In the matter of Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation, NY PA NJ Utilities Company, File No. 70-529; In the matter of Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation, Associated Utilities Corporation, File No. 70-530; In the matter of Atlantic Utility Service Corporation, File No. 37-28.

Order separating consolidated proceedings and consenting to withdrawal of declarations and applications pursuant to request of declarants and applicants.

Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, a registered holding company, and Associated Utilities Corporation, a subsidiary of the said Trustees, having filed applications and declarations pursuant to the Public Utility Holding Company Act of 1935 regarding the dissolution and liquidation of Associated Utilities Corporation, and the acquisition by the Trustees of the assets of Associated Utilities Corporation and the assumption by the Trustees of all the liabilities of Associated Utilities Corporation, as shown by its books at the time of the transfer of its assets to the Trustees (File No. 70-530); and the Trustees and NY PA NJ Utilities Company having filed declarations and applications pursuant to the said Act regarding the contribution by the Trustees of certain securities to NYPA NJ Utilities Company (File No. 70-529); and Atlantic Utility Service Corporation, a subsidiary of the Trustees, having filed with the Commission an application for approval as a mutual service company, pursuant to section 13 of the said Act (File No. 37-28); and the Commission having consolidated the foregoing matters for hearing, and hearings having been held on the consolidated proceedings; and

Trustees of Associated Gas and Electric Corporation, Associated Utilities Corporation, and NY PA NJ Utilities Company having filed requests for withdrawal of the declarations and applications with respect to File Nos. 70-529 and 70-530; the Commission having considered the request and deeming it appropriate that the same should be granted; and that the application of Atlantic Utility Service Corporation (File No. 37-28) should be separated from the consolidated proceedings for further determination;

It is ordered, That the application of Atlantic Utility Service Corporation (File No. 37-28) be, and hereby is, separated from the consolidated proceedings for further determination.

It is further ordered, That the declarations and applications of the Trustees of Associated Gas and Electric Corporation, Associated Utilities Corporation, and NY PA NJ Utilities Company (File Nos. 70-529 and 70-530) be, and hereby are, permitted to be withdrawn.

By the Commission.

ASSOCIATED ELECTRIC CO., ET AL.

ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of November 1942.

In the matter of Associated Electric Company, Metropolitan Edison Company, Staten Island Edison Corporation, File No. 70-613.

Order permitting declarations to become effective pursuant to section 12 and Rules U-42, U-43 and U-45.

Associated Electric Company, a registered holding company; Staten Island Edison Corporation, a subsidiary of New York State Electric & Gas Corporation and an indirect subsidiary of NY PA NJ Utilities Company, a registered holding company; and Metropolitan Edison Company, a subsidiary of NY PA NJ Utilities Company, having filed declarations pursuant to sections 12 (b), 12 (c), and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-42, U-43, and U-45 promulgated thereunder, in regard to the following transactions: Associated Electric Company proposes to acquire (a) $2,222,000 principal amount of its own 4½% bonds, due January 1, 1953, from Staten Island Edison Corporation for a cash consideration of $955,460, plus accrued interest (the consideration being determined upon the basis of 43% of principal amount), and (b) $3,602,000 principal amount of its own 4½% bonds, refunding series, due April 1, 1956, from Metropolitan Edison Company, for a cash consideration of $1,548,860, plus accrued interest (the consideration also being determined upon the basis of 43% of principal amount); and Staten Island Edison Corporation proposes to advance the sum of $1,050,000 to its subsidiary, Richmond Light and Railroad Company, to enable such company to have sufficient cash available to redeem, at the call price of 105, the entire outstanding issue of $1,000,000 principal amount of its First and Collateral Trust 4% 50-year Gold Bonds, due July 1, 1952; and

Such declarations having been filed on October 10, 1942, and a notice and amended notices of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said declarations within the period specified in said notices, or otherwise, and not having ordered a hearing thereon; and

It appearing that the approval of the Pennsylvania Public Utility Commission is required to permit the sale by Metropolitan Edison Company of $3,602,000 principal amount of 4½% Associated Electric Company bonds, refunding series, due April 1, 1956, to the Associated Electric Company, for a cash consideration of $1,548,860, plus accrued interest, and that such approval has not as yet been obtained; and

The Commission finding that the requirements of sections 12 (b), 12 (c), and 12 (f) and the rules promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers to permit the said declarations to become effective forthwith in regard to and limited to the acquisition by Associated Electric Company of the $2,222,000 principal amount of its own 4½% bonds due January 1, 1953, from Staten Island Edison Corporation for a cash consideration of $955,460 plus accrued interest and the advance by Staten Island Edison Corporation of the sum of $1,050,000 to Richmond Light and Railroad Company to enable such company to have sufficient cash available to redeem, at the call price of 105, the entire outstanding issue of $1,000,000 principal amount of its First and Collateral Trust 4% 50-year Gold Bonds, due July 1, 1952;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-24, that said declarations, in regard to and limited to the acquisition by Associated Electric Company of $2,222,000 principal amount of its own 4½% bonds, due January 1, 1953, from Staten Island Edison Corporation for a cash consideration of $955,460, plus accrued interest, and to the advance by Staten Island Edison Corporation of the sum of $1,050,000 to Richmond Light and Railroad Company to enable such company to have sufficient cash available to redeem, at the call price of 105, the entire outstanding issue of $1,000,000 principal amount of its First and Collateral Trust 4% 50-year Gold Bonds, due July 1, 1952, be and hereby are, permitted to become effective forthwith; and

It is further ordered, That jurisdiction be and is hereby reserved over the proposed sale by Metropolitan Edison Company of $3,602,000 principal amount of 4½% Associated Electric Company bonds, refunding series, due April 1, 1956, to the Associated Electric Company, for a cash consideration of $1,548,860, plus accrued interest.

The President

PROCLAMATION 2571

DAYS OF PRAYER: THANKSGIVING DAY AND NEW YEAR'S DAY

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

"It is a good thing to give thanks unto the Lord." Across the uncertain ways of space and time our hearts echo those words, for the days are with us again when, at the gathering of the harvest, we solemnly express our dependence upon Almighty God.

The final months of this year, now almost spent, find our Republic and the nations joined with it waging a battle on many fronts for the preservation of liberty.

In giving thanks for the greatest harvest in the history of our nation, we who plant and reap can well resolve that in the year to come we will do all in our power to pass that milestone; for by our labors in the fields we can share some part of the sacrifice with our brothers and sons who wear the uniform of the United States.

It is fitting that we recall now the reverent words of George Washington,

> "Almighty God, we make our earnest prayer that Thou wilt keep the United States in Thy holy protection",

and that every American in his own way lift his voice to Heaven.

I recommend that all of us bear in mind this great Psalm:

> "The Lord is my shepherd; I shall not want.
>
> "He maketh me to lie down in green pastures: he leadeth me beside the still waters.
>
> "He restoreth my soul: he leadeth me in the paths of righteousness for his name's sake.
>
> "Yea, though I walk through the valley of the shadow of death, I will fear no evil: for thou art with me; thy rod and thy staff they comfort me.
>
> "Thou preparest a table before me in the presence of mine enemies: thou anointest my head with oil; my cup runneth over.
>
> "Surely goodness and mercy shall follow me all the days of my life: and I will dwell in the house of the Lord for ever."

Inspired with faith and courage by these words, let us turn again to the work that confronts us in this time of national emergency: in the armed services and the merchant marine; in factories and offices; on farms and in the mines; on highways, railways and airways; in other places of public service to the Nation; and in our homes.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby invite the attention of the people to the joint resolution of Congress approved December 26, 1941, which designates the fourth Thursday in November of each year as Thanksgiving Day; and I request that both Thanksgiving Day, November 26, 1942, and New Year's Day, January 1, 1943, be observed in prayer, publicly and privately.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this eleventh day of November, in the year of our Lord nineteen hundred and forty-two, and of the Independence of the United States of America the one hundred and sixty-seventh.

[SEAL]

FRANKLIN D ROOSEVELT

By the President:

CORDELL HULL,
Secretary of State.

TITLE 7—AGRICULTURE

Chapter VIII—Sugar Agency

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF FAIR AND REASONABLE PRICES FOR THE 1942 CROP OF VIRGIN ISLANDS SUGARCANE (REVISED)

Whereas section 301 (d) of the Sugar Act of 1937, as amended, provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

> That the producer on the farm who is also, directly or indirectly, a processor of sugar beets or sugarcane, as may be determined by the Secretary, shall have paid, or contracted to pay under either purchase or toll agreements, for any sugar beets or sugarcane grown by other producers and processed by him at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing.

Whereas the Secretary of Agriculture, on March 26, 1942, held a public hearing at Christiansted, St. Croix, Virgin Islands, for the purpose of receiving evidence likely to be of assistance to him in determining fair and reasonable prices for the 1942 crop of Virgin Islands sugarcane:

Now, therefore, I, Grover B. Hill, Assistant Secretary of Agriculture, after investigation and due consideration of the evidence obtained at the aforesaid hearing and all other information before me, do hereby make the following determination with respect to the requirements of section 301 (d) of the said act:

§ 802.53 *Fair and reasonable prices for the 1942 crop of Virgin Islands sugarcane.* Processors who, as producers, apply for payment under the Sugar Act of 1937, as amended, shall be deemed to have complied with the provisions of section 301 (d) of said act, if the requirements specified below have been met:

(a) Purchased sugarcane is paid for at the rate of not less than the f. o. b. mill value of 6 pounds of 96° raw sugar per hundredweight of such sugarcane. The average New York price of 96° raw sugar, for the week (or such other period as may be agreed upon) in which sugarcane was delivered, less all costs involved in the marketing of such sugar (other than bags and bagging, storage in company warehouses, war risk insurance, or any item of expense incurred in the marketing of such sugar which is reimbursed in whole or in part by the federal government or any agency thereof) shall be deemed as the f. o. b. mill value of such sugar.

(b) There is paid, per hundredweight of purchased sugarcane, an amount equal to one-half of the excess, if any, of the net proceeds derived from the sale of blackstrap molasses produced from a hundredweight of sugarcane of the 1942 crop over the net proceeds from the sale of blackstrap molasses produced from a hundredweight of sugarcane from the 1941 crop.

(c) The cost of transportation of purchased sugarcane up to 3 cents per hundredweight, shall be absorbed by the processor. (Sec. 301, 50 Stat. 910; 7 U.S.C., 1131)

This determination supersedes the "Determination of Fair and Reasonable Prices for the 1942 Crop of Virgin Islands Sugarcane", issued July 21, 1942.

Done at Washington, D. C., this 13th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Assistant Secretary of Agriculture.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 36—CLAIMS AGAINST THE UNITED STATES

Sections 36.3, 36.5 (d), 36.5a (a) (4) and (6), 36.6 (b), 36.7a, and 36.7b are hereby amended, section 36.5 (g) and (h) is redesignated 36.5 (h) and (i) respectively, and section 36.5a (a) (7) and a new paragraph (g) in section 36.5 are added as follows:

§ 36.3 *Classification*—(a) *General.* Claims may be divided into two general classes:

(1) Those for damages to persons or property arising through the activities of the Army or War Department.

(2) Those arising under contractual relations.

(b) *Claims for personal injury.* No provision has been made for the settlement by the War Department of claims for damages for personal injury, except in the case of personal injury inflicted in the operation of aircraft, as provided in the annual appropriation acts, and, in the case of claims falling within the provisions of the act of January 2, 1942 (55 Stat. 880), providing for the settlement of claims for damages occasioned by Army forces in foreign countries. (See § 36.5 (d) and 36.5 (g).) However, all other claims for personal injury will be investigated by a board of officers and reported upon in the same manner as claims for property damage in order that information relative thereto may be on hand in the War Department for future use. (R.S. 161; 5 U.S.C. 22) [Par 2, AR 35–7020, October 14, 1942]

§ 36.5 *Laws granting authority for settlement of claims by Secretary of War.*

* * *

(d) *Claims incident to operation of aircraft.* The annual appropriation act approved July 2, 1942 (Bull. 30, W.D., 1942), authorizes the payment of claims (not exceeding $500 each) for damage to private property, including claims of military and civilian personnel in and under the War Department, and for injury to persons other than military personnel resulting from the operation of aircraft. See §§ 36.12–36.14b and § 36.5 a (a) (4).

* * * * *

(g) *Claims for damages occasioned by Army forces in foreign countries.* The act of January 2, 1942 (55 Stat. 880), authorizes the Secretary of War to appoint a claims commission or commissions composed of officers of the Army to consider, adjust, and determine bona fide claims on account of damages caused by Army forces, or individual members thereof, in a foreign country or possession thereof, including places located therein which are under the temporary or permanent jurisdiction of the United States, to the property, public or private, or the persons of inhabitants of such foreign countries, where the amount of such claim does not exceed $1,000. Under this law, payment is made from such appropriation as may be determined by the Secretary of War. (See § 36.55.)

(h) *Real estate claims.* * * *

(i) *Claims incident to river and harbor works.* * * *

(R.S. 161; 5 U.S.C. 22) [Par. 4, AR 35–7020, October 14, 1942]

§ 36.5a *Application of regulations*—(a) *General.* The following general principles will govern in determining which regulations have application to any claim:

* * * * *

(4) Claims resulting from the operation of aircraft:

(i) Not exceeding $500, exclusively for damage to persons, involving negligence, will be considered under the provisions of §§ 36.12–36.13.

(ii) Not exceeding $500 for damages to private property, or to persons and private property, but not involving negligence, will be considered as within the scope of §§ 36.12–36.13.

(iii) Not exceeding $1,000 for damage to private property, involving negligence, if the negligence occurred within the scope of the employment, will be considered as within the provisions of §§ 36.14–36.14b.

(iv) Which exceed $500, but do not exceed $1,000, for damage to private property, and do not involve negligence, will be considered under the provisions of §§ 36.9–36.11 or §§ 36.21–36.23, whichever is applicable.

(v) *While engaged on special field exercises.* Not exceeding $500, for damage to private property, whether or not caused by negligence, will be considered under §§ 36.18–36.20.

* * * * *

(6) Claims not exceeding $1,000 occasioned by Army forces in foreign countries will be considered under § 36.55.

(7) Military personnel who are, at the time of the incident from which the damage arises, engaged in an official mission and who have not materially deviated therefrom on a personal mission will be deemed to be acting within the scope of their employment as contemplated by the provisions of §§ 36.14–36.14b, regardless of the degree of negligence involved, or by other regulations if applicable. Where loss of or damage to property of any person has occurred through depredation, willful misconduct, or such reckless disregard of property rights as to carry an implication of guilty intent, committed by persons subject to military law not acting within the scope of the Government, except under the provisions of § 36.55, but the claim may properly be considered under the one hundred and fifth article of war and §§ 36.15–36.16. Where investigation discloses a case of simple negligence, whether within or beyond the scope of employment, the one hundred and fifth article of war does not apply. However, cases involving simple negligence within the scope of employment come within the provisions of the appropriate regulations cited in this paragraph, but, in those cases involving simple negligence not within the scope of employment, none of the statutes mentioned in this paragraph, except under the provisions of § 36.55, has any application, and the claimant is necessarily left to his ordinary civil remedies. (R.S. 161; U.S.C. 22) [Par. 5, AR 35–7020, October 14, 1942]

§ 36.6 *Action to be taken by claimant.* * * *

(b) *Form in which claim should be submitted.* The claimant will be required to submit a sworn statement over his signature and address setting forth all the facts and circumstances in connection with the damage claimed, including the nature and extent, the date incurred, the agency by which caused, if known, and the amount of the claim. Standard Form No. 28 (Claim for Damages—Accident, Motor Transporation), may be used whenever practicable. (R.S. 161; 5 U.S.C. 22) [Par. 6, AR 35–7020, October 14, 1942]

* * * * *

§ 36.7a *Claims, settlement of which is not provided for by any specific law.* Claims may arise which on account of statutory limitations, or for other reasons, do not come within the provisions of any law governing settlement and payment. All such claims will be referred to a board of officers for investigation and report in a manner similar to that prescribed in § 36.7, with such modification as the features of the particular cases may warrant. Such claims will then be forwarded to the Chief of Finance for examination, administrative action, and submission to the Secretary of War. (R.S. 161; 5 U.S.C. 22) [Par. 9, AR 35–7020, October 14, 1942]

§ 36.7b *Notification to claimant.* Upon receipt of notification by the Chief of Finance of the action taken by the Secretary of War on any claim falling under the provisions of §§ 36.9 to 36.11, 36.14 to 36.14b, and 36.18 to 36.23, the Chief of Finance will notify the claimant of that action, transmitting one copy of notification to the commanding general of the service command under whose jurisdiction the claim arose. (R.S. 161; 5 U.S.C. 22) [Par. 10, AR 35–7020, October 14, 1942]

PART 36—CLAIMS AGAINST THE UNITED STATES

Sections 36.15 and 36.16 are rescinded and the following substituted therefor:

§ 36.15 *Application of statute.* The provisions of A. W. 105 apply only when the loss or damage has been caused by depredation, wilful misconduct, or such reckless disregard of property rights as to carry an implication of guilty intent. It does not apply in cases of simple negligence, whether or not without the scope of employment of the offender, or under the conditions set forth in §§ 36.2–36.8. See Dig. Ops. JAG 1912–1930, sec. 807, and MS. Ops. JAG, Mar. 5, 1928. (R.S. 161, 5 U.S.C. 22) [Par. 2, AR 35–7080, July 16, 1942]

§ 36.16 *General procedure.* When claims of this character are submitted to the commanding officer of the post, camp, station, or other unit of the Military Establishment within which or nearest adjacent to which the loss or damage occurred, as provided in § 36.2–36.8, the commanding officer will refer it in the usual manner to a board of one to three officers who will take the action prescribed in § 36.2–36.8. (R.S. 161, 5 U.S.C. 22) [Par. 3, AR 35–7080, July 16, 1942]

Chapter V—Military Reservations and National Cemeteries

PART 52—REGULATIONS AFFECTING MILITARY RESERVATIONS

Sections 52.1 to 52.8, inclusive, are rescinded and the following substituted therefor:

Sec.
52.1 Real estate defined.
52.2 Real estate; how acquired.
52.3 Function of Chief of Engineers.
52.4 Leases and similar instruments.
52.5 Temporary use; how granted.
52.6 Rights which may be granted by Secretary of War.
52.7 Rights which may be granted by Secretary of the Interior.
52.8 Rights which may be granted by Secretary of Agriculture.
52.9 Rights which may be granted by Federal Power Commission.
52.10 Rights which may be granted by President of the United States.
52.11 Limitations on rights which may be granted.
52.12 Rights which cannot be granted without specific statutory authority.
52.13 Forms to be used.
52.14 Payments.
52.15 Refund of rental paid.
52.16 Revocation of grants.
52.16a Real estate; claims for damages.

AUTHORITY: §§ 52.1 to 52.16a, inclusive, issued under R.S. 161; 5 U.S.C. 22.

SOURCE: The regulations in §§ 52.1 to 52.16a are also contained in AR 100–60, September 29, 1942; AR 100–61, September 15, 1942; AR 100–62, September 15, 1942; and AR 100–64, September 29, 1942; the particular paragraphs being shown in brackets at end of sections.

§ 52.1 *Real estate defined.* The term "real estate," as used in connection with the activities of the War Department, includes land; buildings; piers, docks, and wharves; office and storage space; rights of way or easements, whether temporary or permanent; and any interests which may be acquired or held therein for the us or benefit of the United States by the Army or any branch thereof. [Par. 1, AR 100–60, Sept. 29, 1942]

§ 52.2 *Real estate; how acquired*—(a) *Methods of acquiring real estate.* Real property and interests therein may be acquired by the War Department by:

(1) Purchase or condemnation.
(2) Donation.
(3) Lease or similar instrument. [Par. 1, AR 100–61, Sept. 15, 1942]

(b) *Authority to acquire real estate*—(1) *Congressional authority necessary.* No land shall be acquired on account of the United States except under a law authorizing such acquisition. See R.S. 3736; 41 U.S.C. 14.

(2) *Acts authorizing Secretary of War to acquire real estate.* The Secretary of War is authorized to acquire land, interest therein, or rights pertaining thereto needed for military purposes by purchase, condemnation, donation, or lease. See sec. 1, act August 1, 1888 (25 Stat. 357; 40 U.S.C. 257). Act July 2, 1917 (40 Stat. 241). Act April 11, 1918 (40 Stat. 518; 50 U.S.C. 171). Sec. 1, act February 26, 1931 (46 Stat. 1421; 40 U.S.C. 258a) act July 2, 1940 (54 Stat. 712). Second War Powers Act 1942; approved March 27, 1942 (Bull. 18, W. D., 1942). [Par. 2, AR 100–61, Sept. 15, 1942]

§ 52.3 *Function of Chief of Engineers.* (a) The Chief of Engineers, under the authority of the Secretary of War, is charged with the acquisition of all real estate and interests therein for the use of the War Department. See act December 1, 1941 (55 Stat. 787; 10 U.S.C. 181b).

(b) With the exception of the acquisition of trespass rights, and such other exceptions as may be specifically authorized from time to time, the Chief of Engineers is charged with the execution of administrative details in connection with the acquisition and disposal of real estate.

(c) The Chief of Engineers is responsible that acquisitions are accomplished in accordance with War Department directives and that expensive tracts bordering on roads or other boundaries are eliminated whenever this action will not decrease the general usefulness of the area for the purpose for which it is being acquired. Boundaries or priorities of acquisition will not be changed without authority of the Chief of Engineers.

(d) To avoid any possibility of misunderstanding by property owners, and resultant embarrassment to the War Department, under no circumstances will commitments be made, either by negotiation or by the dissemination of information to the public, by any authority other than the Chief of Engineers. [Par. 4, AR 100–61 Sept. 15, 1942]

§ 52.4 *Leases and similar instruments*—(a) *Authority of certain commanders.* Commanders of theaters of operation and defense commands outside the continental limits of the United States, and commanders of oversea departments and bases are authorized to negotiate and approve leases for real estate or facilities, required for the accomplishment of their missions, without approval by higher authority. [Par. 10, AR 100–61, Sept. 15, 1942]

(b) *Authority of local officers.* (1) The following classes of leases are authorized to be made by local commanders without approval by higher authority, when funds are available and the rental consideration conforms to the prevailing rate in the locality concerned. [Par. 11, AR 100–61, Sept. 15, 1942]

(i) Leases for hire of camp sites, buildings, and grounds for troops; office and storage space for small detachments; garage space; and space for recruiting stations; provided the premises are to be occupied not longer than 3 months, and the rental for the entire period of occupancy is $500 or less; or

(ii) Commanding generals of defense commands within the continental limits of the United States, through their rents and claims boards or other units designated by them, are authorized to negotiate leases and agreements involving rentals not in excess of $500 per annum where immediate possession or expeditious action is necessary to acquire the use of premises for the activities of their commands, and are charged with the processing of all instruments, including renewals, terminations, and payments of all rentals thereunder. Leases and renewals will conform with applicable laws, regulations, and provisions of the Real Estate Manual of the Chief of Engineers.

(2) Leases in subparagraph (1) (i) and (ii) above may be by informal written agreements, unless the rental for the period exceeds $100, in which case execution on Standard Form No. 2, (Lease Between/and the United States of America) is preferable.

(i) Informal written agreements may be worded substantially as follows:

(Place)

(Date)

The undersigned hereby agrees to allow the use of premises --------------------------
(Description of premises)
by ---------------------- at a rental of
(Designation of detachment)
$------ per month, or proportionate part thereof for the time of occupancy.

(Signature of property owner)

(ii) The following certificate should be indorsed on informal agreements: I certify that I have this day entered into an informal agreement with -------------------- covering rental of -------------------- same being
(Name of property owner)
(Description of premises)
required and absolutely necessary for the successful operation of my detachment.

(Name)

(Grade and organization)

----------------, 19--.

(c) *Authority of Chief of Engineers.* Except as provided in paragraphs (a) and (b) of this section, all leases and similar instruments must be approved by the Chief of Engineers or his authorized representative. [Par. 12, AR 100–61, Sept. 15, 1942.]

(d) *Preparation and execution of instruments*—(1) *Forms to be used.* Except as provided in paragraphs (a) and (b) (2) of this section, or unless otherwise authorized by the Chief of Engineers, all leases will be prepared and executed on Standard Form No. 2. (Lease Between/and the United States of America.)

(2) *Alterations, improvements, and repairs.* (i) As a rule, buildings will be selected that do not require any alterations, improvements, and repairs. Whenever the rent is more than $2,000 per annum, alterations, improvements, and repairs which will become a structural part of the premises will not exceed 25 percent of the amount of the rent for the first year of the rental term, or for the entire rental term if less than 1 year. Amounts expended by the Government for repairs, etc., to premises occupied rent free or at a nominal rent, are to be regarded as rent.

(ii) Section 322 of the act of June 30, 1932, as amended, limiting the amount which may be paid for rent of leased premises and that which may be expended for repairs, etc., "where the rental to be paid shall exceed $2,000 per annum," must be considered as applicable where premises are occupied rent free or at a nominal rental, if the amount proposed to be expended for repairs, etc., plus the nominal rental, if any, exceeds $2,000.

(iii) Amounts in excess of $2,000 proposed to be expended by the Government for repairs, etc., to premises occupied rent free or at a nominal rent, plus any nominal rent, must not exceed the 15-percent-of-the-fair-market-value rental limitation contained in section 322 of the act of June 30, 1932, as amended, which becomes applicable when the rent for leased premises exceeds $2,000 per annum.

(iv) When premises are occupied under a lease covering a fraction of a year with the privilege of renewal, the first 12 months of occupancy constitute "the first year of the rental term" within the meaning of section 322 of the act of June 30, 1932, as amended, limiting the amount which may be expended by the Government for repairs, etc., to leased premises.

(v) The requirements contained in subdivisions (i) to (iv) above, are based on the provisions of section 322, act June 30, 1932 (47 Stat. 412) as amended by sec. 15, act March 3, 1933 (47 Stat. 1517; 40 U.S.C., 278a; M. L., 1939, sec. 957a. See 21 Comp. Gen. 906. However, the provisions of said section 322 as amended, "* * * shall not apply during a war or a national emergency * * * to such leases or renewals of existing leases * * * as are certified by the Secretary of War * * *, or by such persons as he may designate, as covering premises for military, * * * or civilian purposes necessary for the prosecution of the war or vital in the national emergency." Act April 28, 1942 (Sec. I, Bull. 23, W. D., 1942).

(vi) The Chief of Engineers is designated to make certificates contemplated by the provisions of the above Act.

(3) *Not to cover portions of two fiscal years.* Except when specifically authorized in special cases, leases must not be executed to cover portions of two fiscal years, unless the rental consideration is $1.00, and receipt is acknowledged.

(4) *Option to renew.* Since the term of the lease must be limited to a fiscal year, every effort will be made to obtain an option of renewal from year to year for the longest period of time compatible with the interest of the Government. When improvements are contemplated, said period will be for at least 25 years, or for the duration of the war and 6 months thereafter. If the lease contains a renewal privilege, the term of the renewal will begin on July 1.

(5) *Option to purchase.* If obtainable, the lease will include an option to purchase, with a provision for application of rental payments to the purchase price.

(6) *Right of termination.* A right to terminate or cancel the lease or any renewal upon a stipulated number of days' notice will be inserted in the lease where it is obtainable without increased rental.

(7) *Title to buildings and improvements.* Leases will contain a provision that buildings and improvements constructed by the United States, will remain the personal property of the United States, and that the United States will have the right to remove such buildings prior to or upon termination of the lease or renewal or extension thereof. Action will be taken to insure that buildings are so removed.

(8) *Services.* If heat, light, water, or other services are necessary, they will be furnished by the lessor when not otherwise obtainable at a lower cost, and the rental agreed upon will be expressed in the lease as including the services to be furnished.

(9) *Lessor must have valid interest.* Contracting officers will satisfy themselves, before executing leases, that the prospective lessor has such an interest in the premises as will insure the validity of the lease.

(10) *Authority of lessor's agent.* In executing leases, contracting officers will exercise great care to insure that the authority for the execution thereof on behalf of the owner by agents, trustees, etc., is adequate.

(11) *Effective date.* Original leases must take effect on the date the premises are first occupied. [Par. 14, AR 100–61, Sept. 15, 1942]

(e) *Survey of premises upon taking possession.* When possession of any premises is taken for temporary use, the officer or other agent of the War Department taking possession will cause a careful survey and detailed examination of the premises to be made jointly with the owner or his authorized representative. A report of survey, showing the detailed condition of the premises and facilities, will be prepared and signed by both parties and placed with the original lease or agreement on file in the office of the Chief of Engineers. [Par. 17, AR 100–61, Sept. 15, 1942]

(f) *Cancelation.* (1) A lease may be canceled prior to the expiration date, if cancelation is authorized by its terms, or if the lessor consents.

(2) Notice of cancelation will be prepared in triplicate. The lessor will be requested to acknowledge receipt on all three copies of the cancelation notice. If the lessor refuses or fails to do so, the officer serving the notice will certify thereon as to the fact, date, and method of service. [Par. 20, AR 100–61, Sept. 15, 1942]

(g) *Vacation of premises*—(1) *Vacation.* The premises will be vacated prior to date of expiration of lease or prior to the effective date of termination.

(2) *Release; form used.* Upon vacation of the premises, a release executed on forms prescribed by the Chief of Engineers will be obtained from the lessor

(3) *Survey; when required.* If the release referred to above is not obtainable from the lessor, a report will be made after thorough survey of the property, detailing specifically all of the changes made in the premises while in the possession of the United States, including a separate estimate of the cost of restoring the property to the condition in which it existed when the United States first entered into possession as evidenced by the survey made under paragraph (e) of this section. If the lessor requires the Government to restore the premises as provided under the lease, and restoration is not possible or practicable, the lessor will be requested to execute a modified release detailing his exceptions to the condition in which the property is returned. He will also be requested to participate in, or indicate in writing his acceptance of, the survey mentioned above. The estimate of actual injuries to the premises will be made independently by the survey officer, who must possess qualifications, training, and experience which will enable him to qualify as an expert witness, in the event of litigation. [Par. 21, AR 100–61, Sept. 15, 1942]

(h) *Sale of Government improvements to lessor*—(1) *Authority.* Government improvements which have been installed on leased premises may, incident to the settlement of a claim for the restoration of the premises under the terms of the lease, be sold to the lessor at their fair market value. Before sale to the lessor of any improvements erected prior to April 6, 1917, or subsequent to March 3, 1921, an inspection report must be made by the Chief of Engineers or his duly authorized representative.

(2) *Form of agreement.* In such case the sale must be in the form of an agreement supplementary to the original lease, executed prior to its termination.

(3) *Procedure prescribed by the Chief of Engineers.* In cases involving the sale of Government improvements as authorized above, or in those cases in which particular requirements of restoration exist, the procedure will be as prescribed by the Chief of Engineers to meet the conditions in each particular case.

Use of War Department Real Estate

§ 52.5 *Temporary use; how granted.* There are three methods by which the temporary use of real estate under the control of the War Department may be granted: lease, easement, and license or permit. [Par. 1, AR 100–61, Sept. 15, 1942]

§ 52.6 *Rights which may be granted by Secretary of War*—(a) *General.* (1) The Secretary of War is authorized with or without advertising, to provide for the operation and maintenance of certain plants, buildings, facilities, utilities, and appurtenances thereto and, when he deems it necessary in the interest of the National Defense, to lease, sell or otherwise dispose of, any such plants, buildings, facilities, utilities, appurtenances thereto, and land, under such terms and conditions as he may deem advisable, and without regard to the provisions of section 321 of the act of June 30, 1932 (47 Stat. 412), which requires the consideration to be in money only. See secs. 1 and 5, act July 2, 1940, (54 Stat. 712; M. L., 1939, Supp. I, sec. 2216).

(2) The above provisions applied only to the fiscal year ending June 30, 1941. They were first extended to cover the fiscal year ending June 30, 1942, and later to cover the period of the present war and 6 months thereafter, or until such earlier time as the Congress by concurrent resolution or the President by proclamation may designate. See sec. 9, act June 30, 1941 (55 Stat. 393; sec. 13, act June 5, 1942) (Bull. 27, 1942).

(3) The Secretary of War may acquire any real property, temporary use thereof, or other interest therein, together with any personal property located thereon or used therewith, that shall be deemed necessary for military purposes, and may dispose of such property or interest therein, by sale, lease, or otherwise, in accordance with section 1 (b) of the act of July 2, 1940 (54 Stat. 712). See Second War Powers Act, 1942 (Public Law 507, 77th Cong.).

(b) *Leases.* The Secretary of War is authorized, when in his opinion it will be for the public good, to lease for a period not exceeding five years, and revocable at any time, such property of the United States under his control, exclusive of mineral and phosphate lands, as may not for the time be required for public use. See act July 28, 1892 (27 Stat. 213), as amended, sec. 1 act May 29, 1928 (45 Stat. 988; 40 U.S.C. 303; M. L., 1939, sec. 997).

(c) *Roads.* The Secretary of War may permit the extension of State, county, or territorial roads across military reservations or the changing of the location of any such roads as may already exist. See act July 5, 1884 (23 Stat. 104; 10 U.S.C. 1348; M. L., 1939; sec. 999).

(d) *Poles and wires.* The Secretary of War may grant rights of way, for periods not exceeding 50 years, for pole lines for electric-power transmission, or telephone and telegraph purposes over lands under his jurisdiction. See act March 4, 1911 (36 Stat. 1253; 43 U.S.C. 961; M. L., 1939, sec. 993).

(e) *Pipe lines.* The Secretary of War may grant easements for rights of way for gas, water, and sewer pipe lines, provided such grant is in the public interest and will not substantially injure the interest of the United States in the property affected thereby. See act May 17, 1926 (44 Stat. 562; 10 U.S.C. 1351; M. L., 1939, sec. 994).

(f) *Licenses.* The Secretary of War may, by revocable license terminable at his discretion as the public interest may require, grant to private interests the temporary use of real estate belonging to the United States which is under his control and which is not for the time being required for public use, provided such license conveys no interest therein and such use does not conflict with the purpose for which the property is held. (See Dig. Op. JAG, 1912, p. 950), As a matter of policy, the term of such licenses will be limited to 5 years.

(g) *Ferries, bridges, livestock.* The Secretary of War may permit the landing of ferries and erection of bridges on, and the driving of livestock across military reservations. See act July 5, 1884 (23 Stat. 104; 10 U.S.C. 1348; M.L., 1939, sec. 999).

(h) *Archaeological excavations.* The Secretary of War may grant permits for the examination of ruins, the excavation of archaeological sites, and the gathering of objects of antiquity upon War Department lands, to institutions which are deemed properly qualified to conduct such examination, excavation, or gathering, subject to prescribed rules and regulations. Such examinations, excavations, and gatherings must be undertaken for the benefit of reputable museums, univerities, colleges, or other recognized scientific or educational institutions, with a view to increasing the knowledge of such objects, and the gatherings shall be made for permanent preservation in public museums. See act June 8, 1906 (34 Stat. 255; 16 U.S.C. 432; M.L. 1939, sec. 1041); and Uniform Rules and Regulations approved December 28, 1906 (Cir. 14, W.D. 1907).

(i) *Post offices.* The Secretary of War shall assign proper and suitable room or rooms for post office purposes at all military posts where post offices have been established. See sec. 1, act August 1, 1914 (38 Stat. 629; 10 U.S.C. 1345; M.L., 1939, sec. 954).

(j) *American National Red Cross.* The Secretary of War may grant revocable licenses permitting the erection and maintenance on military reservations by the American National Red Cross of buildings suitable for the storage of supplies available for the aid of the civilian population in case of serious national disaster, or the occupation for that purpose of buildings erected by the United States. See sec. 127a, act June 3, 1916, as amended by act June 4, 1920 (41 Stat. 785; 10 U.S.C. 1347; M.L. 1939, sec. 1000).

(k) *Young Men's Christian Association.* The Secretary of War may grant revocable licenses permitting the erection and maintenance on military reservations by the Young Men's Christian Association of such buildings as their work for the promotion of the social, physical, intellectual, and moral welfare of the garrisons may require. See act May 31, 1902 (32 Stat. 282; 10 U.S.C. 1346; M.L. 1939, sec. 1001).

(l) *Temporary buildings.* The Secretary of War may grant, by revocable licenses of lease, permission to erect or construct temporary buildings other than public, on military reservations; in the lease or license the condition for occupancy will be clearly set forth, except with respect to unimportant structures and temporary structures incident to the work of contractors on Government jobs. (§ 52.18 (d).)

(m) *Busses and taxicabs.* The Secretary of War may grant revocable licenses to operate transportation facilities by bus and taxicab to and from posts, camps, and stations. [Par. 2, AR 100–62, Sept. 15, 1942]

§ 52.7 *Rights which may be granted by Secretary of the Interior.* (a) Subject to the approval of the Secretary of War, the Secretary of the Interior may grant rights-of-way through military reservations for:

(1) Electrical lines for telephone and telegraph purposes and for the transmission of current, other than that generated by water power, for power purposes.

(2) Canals, ditches, pipes and pipelines, flumes, tunnels, or other water conduits, for purposes other than the production of water power.

(3) Water plants, dams, and reservoirs used to promote irrigation, mining or quarrying; for the manufacturing or cutting of timber or lumber; or for the supplying of water for domestic, public, or other beneficial uses. See act February 15, 1901 (31 Stat. 790; 43 U.S.C. 959; M. L., 1939, sec. 998).

(b) Subject to like approval, rights may also be similarly granted to canal or ditch companies to take material, earth, and stone necessary for the construction of a canal or ditch, for which a right of way has been granted, from public lands adjacent to the line of such canal or ditch. See act March 3, 1891 (26 Stat. 1101), as amended by the acts of March 4, 1917 (39 Stat. 1197), and May 28, 1926 (44 Stat. 668; 43 U.S.C. 946). [Par. 3, AR 100–62, Sept. 15, 1942]

§ 52.8 *Rights which may be granted by Secretary of Agriculture.* (a) National forests on certain military reservations were created by executive orders pursuant to the provisions of section 9 of the act approved June 7, 1924 (43 Stat. 655; 16 U.S.C. 471), which provides for administration by the Secretary of Agriculture under such rules and regulations and in accordance with such general plans as may be jointly approved by the Secretary of Agriculture and the Secretary of War, for the occupation and protection of such lands and for the sale of products therefrom, subject to the unhampered use by the War Department for purposes of national defense and without affecting or restricting the authority over such lands for such purposes now vested in the Secretary of War. See sec. 9, act June 7, 1924 (43 Stat. 655; 16 U.S.C. 471, 505; M.L. 1939, secs. 992 and 995).

(b) The use of portions of reservations may be authorized for rights of way or sources of material for constructing and maintaining Federal-aid projects, if determined reasonably necessary by the Secretary of Agriculture, and if not objected to by the Secretary of War. See act November 9, 1921 (42 Stat. 216; 23 U.S.C. 18; M.L., 1939, sec. 1013a). [Par. 4, AR 100–62, Sept. 15, 1942]

§ 52.9 *Rights which may be granted by Federal Power Commission.* The Federal Power Commission, subject to the approval of the Secretary of War, may grant licenses for waterpower projects upon, or partly upon, a military reservation, including dams, reservoirs, conduits, transmission lines, and other project works. See act June 10, 1920 (41 Stat. 1063), sec. 202, Title II, act August 26, 1935 (49 Stat. 840; 16 U.S.C. 797; M.L., 1939, sec. 1866). [Par. 5, AR 100–62, Sept. 15, 1942]

§ 52.10 *Rights which may be granted by President of the United States.* The President is authorized, through the head of any executive department, upon terms and conditions considered advisable by him or such head of department, to lease real property acquired by the United States since April 6, 1917, for storage purposes for the use of the Army which in the judgment of the President or the head of such department is no longer needed for use by the United States, and to execute and deliver in the name of the United States and in its behalf, any and all contracts or other instruments necessary to effectuate any such lease. See act July 11, 1919 (41 Stat. 129; 10 U.S.C. 1263). [Par. 6, AR 100–62, Sept. 15, 1942]

§ 52.11 *Limitations on rights which may be granted*—(a) *Consideration.* (1) Unless otherwise provided by law, leases of buildings and properties of the United States shall be for a money consideration only, and there shall not be included in the lease, any provision for the alteration, repair, or improvement of such buildings or properties as a part of the consideration for the rental to be paid for the use and occupation of the same. See sec. 321, act June 30, 1932 (47 Stat. 412; 40 U.S.C. 303b) But leases made under the authority contained in act July 2, 1940 (54 Stat. 712) or in Second War Powers Act, 1942 (Public Law 507, 77th Cong.), are not subject to this restriction. See § 52.6(a).

(2) The consideration provided for in leases must be adequate.

(3) The consideration payable under temporary grants other than leases may consist of either money or some direct or indirect adequate benefit to the United States.

(b) *Competitive conditions.* It is the policy of the War Department to recommend the granting of leases to the highest responsible bidder, after advertising for bids, unless competition is impracticable.

(c) *Private use.* It is the policy of the War Department not to permit the use of public quarters by organization or societies other than those of a purely military character, nor to permit private uses of military reservations or parts thereof to the exclusion of the general public, nor to grant licenses or other instruments for the establishment at military posts of activities, the revocation of which may prove embarrassing to the War Department. [Par. 7, AR 100–62, Sept. 15, 1942]

§ 52.12 *Rights which cannot be granted without specific statutory authority.* Except when specifically authorized by Congress, the Secretary of War is without authority to grant an interest in real estate of the United States for any of the following purposes:

(a) Cutting of grass or gathering of fruit, except as incident to a lease.

(b) Mining.

(c) Quarrying of rock, sand, or gravel, or sale, thereof.

(d) Cutting of timber, or sale thereof. See R.S. 1241 (10 U.S.C. 1261; M. L. 1939, sec. 2017), under which timber that has reached maturity, so that it begins to deteriorate, may be regarded as damaged and unsuitable, and may be sold in the manner prescribed therein. See Dig. Op., JAG 1912, p. 959; Dig. Op., JAG 1912–40, sec. 2017 (3).

(e) Permanent rights-of-way for railroad purposes.

(f) Sinking of oil wells, or sale of oil or other minerals.

(g) Use of surplus water from post water systems. See AR 100–80[1] and § 52.18 (f).

(h) Use of electricity from a Government-owned supply. See AR 100–80.[1]

(i) Construction by private interests of permanent structures on military reservations. See § 52.18 (d); 21 Op. Atty. Gen. 537; and 10 Comp. Gen. 395. But temporary permission in exceptional cases may be granted for structures on military reservations pending the enactment of statutory authority therefor. See 35 Op. Atty Gen. 485. [Par. 8, AR 100–62, Sept. 15, 1942]

§ 52.13 *Forms to be used*—(a) *Applications for leases, easements, licenses, and permits.* Applications ordinarily will consist of a simple written request, and no particular form is required.

(b) *Form of instruments.* Instruments will be prepared on forms prescribed by the Chief of Engineers. [Pars. 10 and 11, AR 100–62, Sept. 15, 1942]

§ 52.14 *Payments.* The initial payment made by private interests for privileges granted by leases, licenses, easements, or permits, will be collected at the time the instrument is signed by the grantee and, in order to avoid undue delay in cashing checks and drafts, will be promptly turned over to the nearest disbursing officer or agent officer with a request that the proceeds therefrom be placed in his special deposit account pending final disposition of the instrument by the Chief of Engineers and notification from the Chief of Finance for the disposition of the collection. The Chief of Engineers will be informed by his real estate representative of the collection of the initial payment. All deferred payments on instruments which provide for a fixed rental will be made payable to the Treasurer of the United States, and forwarded by the grantee direct to the Chief of Finance, or to representatives designated by him. All deferred payments on instruments which do not provide for a fixed rental and all payments for temporary storage will be collected by the authorized representative of the Chief of Engineers and turned over to the nearest disbursing officer or agent officer, [Par. 12, AR 100–62, Sept. 15, 1942]

§ 52.15 *Refund of rental paid.* On the termination of a grant by the lessee between rent days, refund of rental paid in advance is not authorized unless provided for in the instrument. (See 8 Comp. Gen. 643). But a refund of rental may be made under a supplemental lease which is in the interest of the United States. (MS. Comp. Gen. A 40803 February 20, 1932.) Where the revocation or termination of a grant is in contemplation, collections of rental will be made only to the effective date of such revocation or termination, and temporarily placed in the special deposit account. [Par. 14, AR 100–62, Sept. 15, 1942]

§ 52.16 *Revocation of grants*—(a) *When permissible; by whom revoked.* All grants or rights for the temporary use of real estate by private interests are subject to revocation at will by the Secretary of War, except as follows:

(1) Rights-of-way granted by the Secretary of the Interior (§ 52.7 (a)) are revocable by him at his discretion.

(2) Rights-of-way granted for the purpose specified in § 52.6 (e) are not revocable, but may be terminated for nonuse or abandonment.

(3) Unless specific provision for revocation is made therein, permits of the character specified in § 52.6 (d) and § 52.6 (h) constitute easements upon and across said reservations and are not revocable.

(4) Leases of property, acquired for storage purposes since April 6, 1917, granted after determination that such property is no longer required for public use, are not revocable unless the lease so provides.

(b) *When and by whom recommended.* Any officer becoming aware of any facts or receiving any information indicating that the interest of the United States requires the revocation of an existing grant, lease, license, permit, or privilege will immediately report the facts, or transmit the information, together with his remarks and recommendations to the Chief of Engineers, through the division engineer.

(c) *Instruments of revocation; by whom prepared; how disposed of.* If revocation is determined upon, the Chief of Engineers will prepare the necessary instruments of revocation and transmit them to the commanding officer concerned, together with instructions for the necessary action. [Par. 15, AR 100–62, Sept. 15, 1942]

[1] Administrative regulations of the War Department relating to repairs and utilities.

§ 52.16a *Real estate; claims for damages*—(a) *Scope of regulations.* These regulations cover the method of handling claims for damages arising under the terms and conditions, whether express or implied, of leases for the use and occupancy of real estate by the Army, and all claims arising out of the use and occupancy of real estate by the Army, without formal lease or other contract therefor. They have no application to claims for damage caused by constructing contractors, their officers, agents, or employees, and they have no application to cases that are within the provisions of §§ 36.9–36.23, 36.55 and 37.3–37.5 or any of the following Army Regulations:

AR 35-950—Accounts of Foreign Governments and Foreign Claims by or against the War Department.
AR 35-7030—Claims for Damages to or Loss of Private Property Resulting from the Conduct of Special Field Exercises.
AR 35-7040—Claims for Damages to or Loss of Private Property Incident to the Training, Practice, Operation, or Maintenance of the Army, General.
AR 35-7050—Claims for Reimbursement for Damage to or Loss of Private Property Under the Act of August 24, 1912. (Maneuvers, target practice, etc.)
AR 35-7060—Claims for Damages to Persons and Private Property Resulting from the Operation of Aircraft.
AR 35-7070—Claims for Reimbursement for Damage to or Loss of Private Property caused by the Negligence of any Officer or Employee of the Government Acting Within the Scope of his Employment.
AR 35-7080—Claims under the One Hundred and Fifth Article of War.
AR 35-7090—Claims for Damages Occasioned by Army Forces in Foreign Countries.
AR 35-7100—Claims of Military Personnel for Private Property Lost, Damaged, or Destroyed in the Military Service.
AR 35-7220—Claims in Favor of the United States on Account of Damages to Government Property.

[Par. 1, AR 100-64, Sept. 29, 1942]

(b) *Action to be taken by claimant* (1) The claimant will be required to submit a statement, over his signature and address, setting forth all the facts and circumstances in connection with the premises and the occupancy thereof, by virtue of which the claim is said to have accrued; the nature and extent of any damages thereto; how and by whom caused, if known; and the cost of repairs of replacement.

(2) This statement will be accompanied by such evidence as is available, including a receipt for the payment of repairs of replacement, if made, or an estimate of the cost thereof. [Par. 2, AR 100-64, Sept. 29, 1942]

(c) *Claims; where referred.* All claims will be referred to the commanding officer of the post, camp, station, or other military establishment within which, or most adjacent to which, the loss or damage occurred. [Par. 3, AR 100-64, Sept. 29, 1942]

(d) *Investigating boards.* (a) The commanding officer to whom the claim is referred will convene a board of one or more officers or civilian employees of the War Department.

(2) The board will investigate the claims, and report:

(i) Circumstances under which the claim accrued, or the occupancy of the premises occurred.

(ii) Date of the beginning of such occupancy, and the date of the vacation of the premises.

(iii) Nature and extent of the damage, and the fair rental value of the premises for the purpose to which they were put.

(iv) Cause of the damage, that is, whether due to accident, or to fault on the part of any officer or agent of the United States or any other person, or were the necessary result of occupancy of the premises.

(v) Estimated cost of restoring the premises to substantially the condition in which they were before they were so occupied, or before the damage occurred, and the value of any permanent improvements made by the Government to the premises during such occupancy, and appropriate deductions therefor.

(vi) Amount of any salvage value realized, the amount of any insurance actually collected from any insurer, and the fair salvage value of any improvements installed upon the premises during such occupancy.

(3) Boards investigating such claims will not undertake negotiations for the settlement thereof, but will confine their reports to findings of the facts and to recommendations as to appropriate settlements to be made in the interest of the United States.

(4) The board will reduce to writing all pertinent evidence submitted in behalf of the claimant and of the Government, and will transmit a complete transcript thereof with its report, certified as correct by the senior member of the board.

(5) When practicable, testimony will be secured verbally by questions and answers rather than by written depositions, but additional or supplementary proof will be secured when deemed necessary.

(6) The board will require the claimant to state in writing whether he will or will not accept the award, and if not his reasons therefor. This statement will be made a part of, and forwarded with, the recommendation as to the award.

(7) The action required of the board by the preceding provisions of this paragraph must not be confused with the inspection required by § 52.4 (e), which is separate and distinct therefrom, and the result of which should be included in evidence on which the findings of the board are based. [Par. 4, AR 100-64, Sept. 29, 1942]

(e) *Action by commanding officer and higher authority.* (1) The commanding officer convening such board will recommend approval or disapproval of its proceedings, or make such other recommendation as he may deem proper, and before forwarding the proceedings will exercise the utmost care that the findings of the board are complete, that the facts and evidence are clearly stated, and that the report contains all the essential facts and evidence.

(2) All claims and proceedings of boards with reference to claims will, after action by the commanding officer, be forwarded to the division engineer, who will transmit the claims and proceedings, together with his remarks and recommendations, to the Real Estate Claims Board in the office of the Chief of Engineers for examination, recommendation, and reference to the Chief of Finance for review and administrative action. [Par. 5, AR 100-64, Sept. 29, 1942]

(f) *Conditions precedent to payment.* There are three conditions which must be fulfilled before payment from the appropriations applicable to that purpose of claims for damages arising out of the use and occupancy of real estate:

(1) The damages must have been ascertained by the War Department.

(2) The claimant must accept in full satisfaction of his claim, the amount so awarded, approved, and recommended, and execute a clear and complete release discharging the United States from any and all claims arising out of the use and occupancy of the premises.

(3) The settlement must be made by the General Accounting Office, Claims Division. [Par. 6, AR 100-64, Sept. 29, 1942]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regulations, Serial No. 245]

PART 202—ACCOUNTS AND REPORTS

FORMS OF FINANCIAL AND STATISTICAL REPORTS OF AIR CARRIERS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 10th day of November 1942.

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 407 (a) thereof, and deeming its action necessary to carry out the provisions of said Act and to exercise its powers and perform its duties thereunder, hereby makes and promulgates the following regulation:

Effective November 20, 1942 paragraph (a) of § 202.1[1] of the Economic Regulations is hereby amended to read as follows:

§ 202.1 *Forms of financial and statistical reports of air carriers.* (a) Each air carrier engaged in regularly scheduled interstate air transportation within the continental limits of the United States and each air carrier engaged in regularly scheduled operations within the territory of Hawaii shall for all periods subsequent to October 1, 1942, make periodic financial and statistical reports to the Board using the appropriate schedules of the Report of Financial and Operating Statistics of Domestic Air Carriers, CAB Form 2780,[1] and such amendments thereto as may hereafter be approved by the Board. Such reports shall be made in accordance with, and shall be filed with the Secretary of the Board at such times as are specified in, the instructions relating to the reporting procedure contained in section 32 of the Uniform System of Accounts for Domestic Air Carriers, effective January 1, 1942, and such amendments thereto as may have been or may hereafter be approved by the Board.

By the Civil Aeronautics Board.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter I—Agricultural Marketing Administration

PART 1—GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT

DEPOSIT OF INVESTMENT SECURITIES, ETC.

By virtue of the authority vested in the Secretary of Agriculture by the Commodity Exchange Act (42 Stat. 998, as amended; 7 U.S.C. 1940 ed. 1–17a), §§ 1.26 and 1.29, Title 17, Chapter I, Part 1, Code of Federal Regulations (17 CFR, Chapter I, Part 1, as amended by 7 F.R. 2721), are hereby amended to read as follows:

§ 1.26 *Deposit of investment securities, obligations, and warehouse receipts.* Each futures commission merchant who, in accordance with section 4d (2) of the act and with these rules and regulations, invests money belonging or accruing to customers in obligations or investment securities described in said section, or loans such money on the security of negotiable warehouse receipts, shall promptly:

(a) Deposit such obligations, securities, and warehouse receipts in safekeeping with a bank or trust company under an account name which will clearly show that they represent investments of, or security for loans of, customers' funds segregated as required by the Commodity Exchange Act, and under a written agreement with such bank or trust company waiving any claim, lien, or right of set-off of any nature which such bank or trust company might otherwise have or obtain against such obligations, securities, and warehouse receipts, and authorizing inspection thereof at any reasonable time by representatives of the Administration; or

(b) Deposit such obligations, securities, and warehouse receipts with a clearing organization of a contract market under an account name which will clearly show that they represent investments of, or security for loans of, customers' funds segregated as required by the Commodity Exchange Act, and under a written agreement with such clearing organization providing that such obligations, securities, and warehouse receipts are deposited solely to margin, guarantee, secure, transfer, adjust, or settle the contracts or trades of the commodity customers of such futures commission merchant and waiving any other claim, lien, or right of set-off of any nature which such clearing organization might otherwise have or obtain against such obligations, securities, and warehouse receipts. Such agreement shall authorize the inspection at any reasonable time by representatives of the Administration of such obligations, securities, and warehouse receipts.

An executed copy of the agreement prescribed herein shall be kept as a permanent record by the futures commission merchant. (Sec. 4d, as added by sec. 5, 49 Stat. 1494; 7 U.S.C. 6d (2))

* * * * *

§ 1.29 *Increment or interest resulting from investment or lending of customers' funds.* The investment and lending of customers' funds in accordance with the provisions of section 4d (2) of the Commodity Exchange Act and these rules and regulations and the deposit, in accordance with the provisions of § 1.26, of obligations, investment securities, and warehouse receipts, shall not operate to prevent the depositor from receiving and retaining as his own any increment or interest resulting therefrom. (Sec. 4d, as added by sec. 5, 49 Stat. 1494; 7 U.S.C. 6d (2))

Done at Washington, D. C., this 13th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1676]

PART 332—MINIMUM PRICE SCHEDULE, DISTRICT NO. 12

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 12 for the establishment of minimum prices for the coals of certain mines in District No. 12.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines located in District No. 12; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 332.2 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 332.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.—

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Dated: November 6, 1942.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

PART 1106—PRINTING AND PUBLISHING

[Amendment No. 1 to General Conservation Order M-99]

Section 1106.1 *General Conservation Order M–99*[1] is hereby amended as follows:

1. By adding the following subparagraph (8) to paragraph (a):

(8) "Putting into process" means the first change made by a person after November 15, 1942 in the form of material.

2. By adding the following paragraphs:

(e) *Restrictions on use of zinc for plates.* No person may put into process during the second half of the last calendar quarter of 1942 for the purpose of making zinc plates more than 37½% of the amount by weight of zinc put into process by him in the entire last calendar quarter of 1941 for the same purpose; no person may put into process during the first half of the first calendar quarter of 1943 for the purpose of making zinc plates more than 37½% of the amount by weight of zinc put into process by him in the entire first calendar quarter of 1941 for the same purpose; no person may put into process during the second half of the first calendar quarter of 1943 for the purpose of making zinc plates more than 25% of the amount by weight of zinc put into process by him in the entire first calendar quarter of 1941 for the same purpose; and no person may put into process during any calendar quarter subsequent to the first calendar quarter of 1943 for the purpose of making zinc plates more than 50% of the amount by weight of zinc put into process by him in the corresponding calendar quarter of 1941 for the same purpose.

(f) *Exemption from Order M–11–b.*[2] The provisions of Conservation Order M–11–b (§ 937.13) do not apply to the putting into process of zinc for the purpose of making zinc plates.

3. By relettering former paragraph (e) to be paragraph (g).

PART 993—DOMESTIC ICE REFRIGERATORS

[Supplementary Limitation Order L-7-c]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel and other critical materials used in the production of Domestic Ice Refrigerators for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 993.4 *Supplementary Limitation Order L–7–c*—(a) *Definitions.* For the purposes of this order:

(1) "Domestic ice refrigerator" means any non-mechanical ice chest or ice box designed for home use.

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(3) "Iron and steel content" means the aggregate weight of iron and steel contained in a finished domestic ice refrigerator, including but not limited to, latches, hinges, screws, nails, rivets, bolts, sheet steel, binder strips, drain tubes, drip pans and shelving.

(4) "Net ice capacity" means the maximum amount of standard scored ice in one piece which the ice chamber of a domestic ice refrigerator will hold.

[2] 7 F.R. 5703, 7802.

[1] 6 F.R. 5534; 7 F.R. 114, 1792, 2462.

(b) *General restrictions.* (1) On and after November 24, 1942, no person shall produce any domestic ice refrigerator:

(i) Containing any rubber (crude, synthetic or reclaimed) or any metal other than iron and steel (except metal used in galvanizing, plating or coating steel); or

(ii) Having an iron and steel content of more than 15 pounds.

(2) On and after January 1, 1943, no person shall produce any domestic ice refrigerator:

(i) Having an iron and steel content of more than 6 pounds; or

(ii) Having a net ice capacity of other than 50 or 75 pounds, except that it may vary ten per cent from either of these amounts.

(3) On and after November 14, 1942, no person shall produce any domestic ice refrigerator except in accordance with a production quota assigned to him in a schedule issued by the Director General for Operations pursuant to this order. Such production quotas shall be assigned for a calendar quarter, except that the initial one may be for any period less than three months ending December 31, 1942, and shall expire on the last day of the quarter for which they are assigned. Any person desiring to obtain a production quota for a calendar quarter beginning on or after January 1, 1943, shall file with the War Production Board, at least 30 days before the beginning of such quarter, a written application to be assigned a production quota for such quarter. Such application should contain a statement as to the amount of iron and steel and other critical materials to be contained in each domestic ice refrigerator the applicant proposes to produce during such quarter. Whenever production quotas are assigned by the Director General for Operations, he will take into consideration the amount of iron and steel and other critical materials to be used by each applicant, the performance of the domestic ice refrigerators which each applicant proposes to produce as established by tests of the National Bureau of Standards or otherwise, and also the labor and transportation situation in the area where the plant of each applicant is located and such other factors as the Director General for Operations shall deem appropriate.

(c) *Applicability of other orders.* On and after November 24, 1942, the provisions of this order, and of any schedules issued pursuant thereto, shall supersede the provisions of Limitation Orders L-7 and L-7-b. In so far as any other order heretofore or hereafter issued by the Director General for Operations, the Director of Priorities, or the Director of Industry Operations limits the use of any material in the production of domestic ice refrigerators to a greater extent than the restrictions imposed by this order, the restrictions of such other order shall govern unless otherwise specified therein.

(d) *Applicability of priorities regulations.* This order (and any schedules issued pursuant thereto) and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(e) *Avoidance of excessive inventories.* No manufacturer of domestic ice refrigerators shall accumulate for use in the manufacture of such domestic ice refrigerators inventories of raw materials, semi-processed materials or finished parts in quantities in excess of the minimum amount necessary to maintain production at the rates permitted by this order and any schedules issued pursuant thereto.

(f) *Records.* All persons affected by this order or any schedule issued pursuant thereto, shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(g) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Reports.* Each person who produces or ships any domestic ice refrigerator shall file with the War Production Board, not later than 10 days after the end of each calendar month in which he produced or shipped any domestic ice refrigerator, a report on Form PD-655, showing all domestic ice refrigerators which he produced and shipped during such month. Each person, before he offers for sale any new model of domestic ice refrigerator, shall file with the War Production Board a report on Form PD-531, setting forth a bill of material for such model. Each person affected by this order, or any schedule issued pursuant thereto, shall file such other reports and answers to questionnaires as the War Production Board shall from time to time require.

(i) *Violations.* Any person who wilfully violates any provision of this order, or of any schedule issued pursuant thereto, or who, in connection with this order, or any such schedule, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(j) *Appeal.* Any appeal from the provisions of this order, or of any schedule issued pursuant thereto, should be made on Form PD-500, filed with the War Production Board.

(k) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, or any schedule issued pursuant thereto, shall, unless otherwise directed, be addressed to the War Production Board, Consumers' Durable Goods Branch, Washington, D. C., Ref. L-7-c.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1049—INCANDESCENT, FLUORESCENT AND OTHER ELECTRIC DISCHARGE LAMPS

[Interpretation 1 to Supplementary Limitation Order L-28-a]

The following interpretation is hereby issued by the Director General for Operations with respect to § 1049.2, Supplementary Limitation Order L–28–a,[1] issued September 17, 1942:

---

[1] *Supra.*

In Schedule A of Supplementary Limitation Order L–28–a it is stated that a manufacturer may use "only one type of base" for lamps appearing on a single line of the schedule. To conform to this restriction a manufacturer may not vary the design or shape of any base, but he may vary its material content. Thus, as far as Order L–28–a is concerned, bases which are made of brass are considered to be of the same "type" as those made of plated steel, plastics or any other material, provided they are of the same design, shape and size. It should be noted, however, that the production of brass bases is controlled by the terms of General Limitation Order L–28, as Amended October 24, 1942.

Order L–28–a, in paragraph (b) (1) (iii), states that on and after November 1, 1942, no manufacturer may mark on any incandescent, fluorescent or glow discharge lamp any "trade mark or identification of any person other than himself or another manufacturer". This provision does not prohibit a manufacturer from using more than one trade mark to identify his own product. But in any case where the trade mark is used primarily to identify a purchaser (who is not himself a manufacturer) of the lamps rather than the lamp manufacturer, such trade mark may not be etched or otherwise marked on a lamp after October 31, 1942.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1243—OFFICERS UNIFORMS

[Amendment 1 to Preference Rating Order P–131, as Amended Septmeber 22, 1942]

Section 1243.1 *Preference Rating Order P–131*[2] is hereby amended in the following respects:

1. Paragraph (b) (1) is amended to read as follows:

(1) "Officers uniform" means only the overcoat, short overcoat, raincoat, coat, blouse, trousers, slacks, skirt, cap, web belt or shirt, but only of the material and specifications prescribed by the applicable United States departmental or agency regulations (such as, U. S. Army Regulation No. 600–35 or U. S. Navy Uniform Regulations, 1941) for:

(i) U. S. Army officers (commissioned and warrant) and nurses, but not including officers of the U. S. Women's Army Auxiliary Corps (WAACS).

(ii) U. S. Navy officers (commissioned and warrant), chief petty officers and nurses, but not including officers of the U. S. Women's Reserve of the U. S. Naval Reserve (WAVES).

(iii) U. S. Marine Corps officers (commissioned and warrant).

(iv) U. S. Coast Guard officers (commissioned and warrant) and chief petty officers.

(v) U. S. Government military and naval academy and training school students.

(vi) U. S. Maritime Commission officers.

(vii) U. S. War Shipping Administration officers.

(viii) U. S. Coast and Geodetic Survey officers.

(ix) U. S. Public Health Service officers and nurses.

2. Paragraph (d) (3) is amended to read as follows:

(3) No producer, except a custom or merchant tailor producer, shall apply the rating assigned by paragraph (c) to obtain delivery of any tropical worsted cloth of a khaki or sun tan shade for the production of any officers uniform for U. S. Army officers (commissioned and warrant), but not including officers uniforms for U. S. Army nurses.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1010—SUSPENSION ORDERS

[Suspension Order S–142]

CAMBRIDGE COFFEE COMPANY

Cambridge Coffee Company, 5137 Lake Park Avenue, Chicago, Illinois, is a roaster and wholesale distributor of coffee. During the months of June and July, 1942, the company sold and delivered approximately 13,632 pounds of coffee in excess of its allowable quota under Conservation Order M–135. These deliveries were made with full knowledge of the quota assigned the company under Conservation Order M–135, and constituted wilful violations of the order.

The violations of Conservation Order M–135, set forth above, have hampered and impeded the war effort of the United States. In view of the foregoing facts, *It is hereby ordered*, That:

§ 1010.142 *Suspension Order No. S–142.* (a) During each of the calendar months this order shall be in effect, deliveries of coffee by Cambridge Coffee Company, its successors and assigns, shall not exceed 7,088 pounds, except as specifically authorized by the Director General for Operations.

(b) The restrictions contained in paragraph (a) hereof shall not apply to deliveries by Cambridge Coffee Company, its successors and assigns, to any hospital, asylum, orphanage, prison, or other similar institution which is operated by any United States federal, state, or local governmental agency, and which received coffee during 1941 under contracts awarded upon the basis of competitive bids.

(c) Nothing contained in this order shall be deemed to relieve Cambridge Coffee Company from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations of the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall remain in effect from December 1, 1942, to September 30, 1943.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 14th day of November 1942.

PART 1251—BUTYL ALCOHOL

[General Preference Order M–159, as Amended November 16, 1942]

Section 1251.1 *General Preference Order M–159* is hereby amended to read:

§ 1251.1 *General Preference Order M–159,* as amended November 16, 1942—(a) *Definitions.* (1) "Butyl alcohol" means normal, secondary and tertiary butyl alcohol and includes isobutyl alcohol.

(2) "Producer" means any person engaged in the production of butyl alcohol and includes any person who has butyl alcohol produced for him pursuant to toll agreement.

(3) "Distributor" means any person who has purchased or purchases butyl alcohol for purposes of resale.

(b) *Restrictions on deliveries and use.* (1) Subject to paragraph (c) hereof, no producer or distributor shall deliver or use butyl alcohol, and no person shall accept delivery of butyl alcohol from a producer or distributor, except as specifically authorized or directed by the Director General for Operations.

(2) Authorizations or directions with respect to deliveries to be made or accepted in each month will so far as practicable be issued by the Director General for Operations prior to the commencement of such month, but the Director General for Operations may at any time at his discretion and notwithstanding the provisions of paragraph (c) hereof, issue directions with respect to deliveries to be made or accepted or with respect to the use or uses which may or may not be made of material to be delivered or then on hand.

(3) Each person specifically authorized to accept delivery of butyl alcohol shall use such material for the purpose authorized, and only for such purpose, except as otherwise specifically directed.

(c) *Small order exemption.* No specific authorization shall be required for:

(1) Acceptance of delivery by any person in any one calendar month of 54 gallons or less of butyl alcohol in the aggregate: *Provided,* That such person has not been specifically authorized to accept delivery of any quantity of such material during such month;

(2) The delivery by any producer or distributor to any person who shall certify to him in writing that he is entitled pursuant to paragraph (c) hereof to accept delivery: *Provided, however,* That no producer shall deliver an aggregate amount of butyl alcohol in any one calendar month pursuant to this paragraph (c) in excess of 2% of the amount of his estimated production of butyl alcohol for such month.

(3) The use by any producer in any calendar month of 54 gallons or less of butyl alcohol in the aggregate.

(d) *Applications for delivery of butyl alcohol and reports.* (1) Each person seeking authorization to accept delivery of butyl alcohol during any calendar month, whether for his own consumption or resale (and each producer seeking authorization to use butyl alcohol during any calendar month), shall file application therefor on or before the 10th day of the month preceding the month for which authorization for delivery or use is requested, except that requests for delivery from a distributor shall be filed not later than the 7th day of the month. In each case, such application should be made on Form PD–600 in the manner prescribed therein (except that applications for acceptance of delivery or use in November or December, 1942 may be made in the applicant's discretion on Form PD–505), subject to the following special instructions

(i) Copies of Form PD–600 may be obtained at local field offices of the War Production Board.

(ii) Five copies shall be prepared, of which one shall be forwarded to supplier and three forwarded to the War Production Board, Chemicals Branch, Washington, D. C., Ref.: M–159, the fifth to be retained for your files.

(iii) In the heading, under name of chemical, specify butyl alcohol; under WPB Order No., specify M–159; under unit of measure, specify pounds; under name of your company, specify name and mailing address; and specify the month and year for which authorization for acceptance of delivery is sought.

(iv) In Columns 1, 11 and 19, indicate grade in terms of the following: normal, secondary, tertiary, iso.

(v) In Columns 3, 20 and 22, specify your primary product in terms of the following:

Dibutyl phthalate.
Butyl xanthate.
Nitrocellulose lacquer.
Ethylene glycol monobutyl ether.
Butyric Acid.
Oil additives.
Insect repellants.
Others (specify).
Protective coating (specify).
Butyl acetate.
Hydraulic brake fluid.
Resins and plastics.
Medicinal and pharmaceutical.
Butyl amines.
Photographic and reproduction products.
Resale (as butyl alcohol).

(vi) In Column 4, specify ultimate use of product. For example, if the "primary product" called for in Columns 3, 20 and 22 is "dibutyl phthalate", the "ultimate use of product" might be "smokeless powder". In the case where the primary product is a protective coating, show in Column 4 the article or material to which the coating is to be applied; for example, aircraft, shell casings. Specify in each case whether your customer is Army, Navy, other government agency, Lend-Lease or commercial customer, and give government specification number, if any.

(2) Each producer or distributor seeking authorization to make delivery of butyl alcohol during any calendar month shall file application on or before the 17th day of the month preceding the month for which authorization is requested. Such application shall be made on Form PD–601 in the manner prescribed herein, subject to the following special instructions:

(i) Copies of Form PD–601 may be obtained at local field offices of the War Production Board.

(ii) Prepare four copies and file three copies with the War Production Board, Chemicals Branch, Washington, D. C., Ref: M–159, retaining the fourth copy for your files. A separate set of Form PD–601 shall be filed for each grade of butyl alcohol for which authorization to deliver is sought, viz. normal, secondary, tertiary, iso.

(iii) Producers and distributors who have filed application on Form PD–600, specifying themselves as their suppliers, shall list their own names as customers on Form PD–601, and shall list their requests for allocation in the manner prescribed for other customers.

(iv) In the heading, under name of chemical, specify butyl alcohol; under WPB Order No., specify M–159; under name of company, state your name and mailing address; under unit of measure, specify pounds; and state the month and year during which deliveries covered by the application are to be made.

(v) List all customers alphabetically. The names of customers to whom small order deliveries are to be made during the next month pursuant to paragraph (c) of this order need not be given, but insert in Column 1 "Total small order deliveries (estimated)" and in Column 4 specify the estimated quantity. If it is necessary to use more than one sheet to list customers, number each sheet in order and show grand total for all sheets on the last sheet which is the only one that need be certified.

(vi) Column 5 may, at your discretion, be left blank.

(vii) Leave Column 6 blank.

(3) The Director General for Operations may require each person affected by this order to file such other reports as may be prescribed, and may issue other and further directions with respect to preparing and filing Forms PD–600 and PD–601.

(e) *Notification of customers.* Each supplier shall notify his regular customers, as soon as possible, of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(f) *Transactions outside of the continental United States.* This order shall not apply to transactions in butyl alcohol originating and completed outside of the continental United States.

(g) *Restrictions on production of butyl alcohol.* Except as may be otherwise directed by the Director General for Operations, no producer shall produce butyl alcohol from molasses (as defined in General Preference Order M–54, amended) unless his equipment and facilities capable of producing butyl alcohol from corn or grain are being utilized to the fullest extent possible in the production of butyl alcohol from corn or grain.

(h) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board priorities regulations, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C. Ref: M–159

PART 1270—METHYL ETHYL KETONE

[General Preference Order M–169, as Amended November 16, 1942]

Section 1270.1 *General Preference Order M–169* is hereby amended to read:

§ 1270.1 *General Preference Order M–169*, as amended November 16, 1942—(a) *Definitions.* (1) "Methyl ethyl ketone" means methyl ethyl ketone, ethyl methyl ketone or 2-butanone of any grade and from whatever source derived.

(2) "Producer" means any person engaged in the production of methyl ethyl ketone and includes any person who has such methyl ethyl ketone produced for him pursuant to toll agreement.

(3) "Distributor" means any person who has purchased or purchases methyl ethyl ketone for purposes of resale.

(b) *Restrictions on deliveries and use.* (1) Subject to paragraph (c) hereof, no producer or distributor shall deliver or use methyl ethyl ketone, and no person shall accept delivery of methyl ethyl ketone from a producer or distributor, except as specifically authorized or directed by the Director General for Operations.

(2) Authorizations or directions with respect to deliveries to be made or accepted in each month will so far as practicable be issued by the Director General for Operations prior to the commencement of such month, but the Director General for Operations may at any time at his discretion and notwithstanding the provisions of paragraph (c) hereof, issue directions with respect to deliveries to be made or accepted or with respect to the use or uses which may or may not be made of material to be delivered or then on hand.

(3) Each person specifically authorized to accept delivery of methyl ethyl ketone shall use such material for the purpose authorized and only for such purpose, except as otherwise specifically directed.

(c) *Small order exemption.* No specific authorization shall be required for:

(1) Acceptance of delivery by any person in any one calendar month of 54 gallons or less of methyl ethyl ketone in the aggregate: *Provided,* That such person has not been specifically authorized to accept delivery of any quantity of such material during such month;

(2) The delivery by any producer or distributor to any person who shall certify to him in writing that he is entitled pursuant to paragraph (c) hereof to accept delivery: *Provided, however,* That no producer shall deliver an aggregate amount of methyl ethyl ketone in any one calendar month pursuant to this paragraph (c) in excess of 2% of the amount of his estimated production of methyl ethyl ketone for such month.

(3) The use by any producer in any calendar month of 54 gallons or less of methyl ethyl ketone in the aggregate.

(d) *Applications for delivery and use, and reports.* (1) Each person seeking authorization to accept delivery of methyl ethyl ketone during any calendar month, whether for his own consumption or resale, (and each producer seeking authorization to use methyl ethyl ketone during any calendar month) shall file application therefor on or before the 10th day of the month preceding the month for which authorization for delivery or use is requested, except that requests for delivery from a distributor shall be filed not later than the 7th day of the month. In each case, such application shall be made on Form PD–600 in the manner prescribed therein (except that applications for acceptance of delivery or use in November and December, 1942 may be made in the applicant's discretion on Form PD–523), subject to the following special instructions:

(i) Copies of Form PD–600 may be obtained at local field offices of the War Production Board.

(ii) Five copies shall be prepared, of which one shall be forwarded to supplier and three forwarded to the War Production Board, Chemicals Branch, Washington, D. C., Ref: M–169, the fifth to be retained for your files.

(iii) In the heading, under name of chemical, specify methyl ethyl ketone; under WPB Order No. specify M–169; under unit of measure, specify pounds; under name of your company, specify name and mailing address; and specify the month and year for which authorization for acceptance of delivery is sought.

(iv) Leave blank Columns 1, 11 and 19.

(v) In Columns 3, 20 and 22, specify your primary product in terms of the following:

Cements.
Protective coating.
Cellulose acetate sheets.
Toluol substitute.
Coated fabric.
Lubricating oils.
Paint and varnish remover.
Resale (as methyl ethyl ketone).

(vi) In Column 4, specify ultimate use of product. For example, if the "primary product" called for in Columns 3, 20 and 22 is "cements", the "ultimate use of product" might be "self sealing gas tanks". In the case where the primary product is a protective coating, show in Column 4 the article or material to which the coating is to be applied; for example, aircraft, munition finish. Specify in each case whether your customer is Army, Navy, other government agency, Lend-Lease or commercial customer, and give government specification number, if any.

(2) Each producer or distributor seeking authorization to make delivery of methyl ethyl ketone during any calendar month, shall file application on or before the 17th day of the month preceding the month for which authorization is requested. Such application shall be made on Form PD–601 in the manner prescribed herein, subject to the following special instructions:

(i) Copies of Form PD–601 may be obtained at local field offices of the War Production Board.

(ii) Prepare four copies and file three copies with the War Production Board Chemicals Branch, Washington, D. C., Ref: M–169, retaining the fourth copy for your files.

(iii) Producers and distributors who have filed application on Form PD–600, specifying themselves as their suppliers, shall list their own names as customers on Form PD–601, and shall list their requests for allocation in the manner prescribed for other customers.

(iv) In the heading, under name of chemical, specify methyl ethyl ketone; under WPB Order No., specify M–169; under name of company, state your name and mailing address; under unit of measure, specify pounds; and state the month and year during which deliveries covered by the application are to be made.

(v) List all customers alphabetically. The names of customers to whom small order deliveries are to be made during the next month pursuant to paragraph (c) of this order need not be given, but insert in Column 1 "Total small order deliveries (estimated)" and in Column 4 specify the estimated quantity. If it is necessary to use more than one sheet to list customers, number each sheet in order and show grand total for all sheets on the last sheet, which is the only one that need be certified.

(vi) Leave Columns 3 and 6 blank.

(vii) Column 5 may, at your discretion, be left blank.

(3) The Director General for Operations may require each person affected by this order to file such other reports as may be prescribed, and may issue other and further directions with respect to preparing and filing Forms PD–600 and PD–601.

(e) *Notification of customers.* Each supplier shall notify his regular customers, as soon as possible, of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(f) *Transactions outside of the continental United States.* This order shall not apply to transactions in methyl ethyl ketone originating and completed outside of the continental United States.

(g) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board priorities regulations, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C. Ref: M–169.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 16th day of November 1942.

PART 3046—LOW PRESSURE CAST IRON BOILERS

[Amendment 1 to Limitation Order L–187]

Section 3046.1 *Limitation Order L–187*[1] is hereby amended by striking out paragraph (b) *Restrictions,* and substituting the following in place thereof:

(b) *Restrictions.* On and after the 1st day of December 1942, no person shall manufacture any low pressure cast iron boiler built to use exclusively gas or exclusively oil as a fuel, and no person shall manufacture any other low pressure cast iron boiler except to fulfill a specific contract or subcontract for delivery:

(1) Of a military low pressure cast iron boiler upon specific authorization of the Director General for Operations after written application has been made on Form PD–704.

(2) For use in a hospital constructed, to be constructed or under construction, upon specific authorization of the Director General for Operations after written application has been made on Form PD–704;

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 14th day of November 1942.

PART 3141—MILITARY ARMS

[Limitation Order L–230]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of military arms and of steel scrap for defense, for private account and for export; and the following order is deemed necessary and appropriate in the war interest and to promote the national defense:

§ 3141.1 *Limitation Order L–230*—(a) *Definitions.* For the purpose of this order:

(1) "Military arms" means any cannon, machine gun, grenade, bomb, or other weapon using explosives, and any ammunition therefor, but does not include any pistol, rifle, or shotgun (except such as are machine guns as defined in paragraph (a) (2)) or ammunition therefor.

(2) "Machine gun" means any weapon which will fire more than one round without renewing pressure on the trigger or other firing device.

(3) "Non-operating" means in such condition that it cannot be used for the purpose for which it was originally made whether by reason of obsolescence, absence of necessary parts or explosive charge, accidental or intended damage or for any other reason.

(b) *Prohibited deliveries of military arms.* Notwithstanding any existing contract, payment or other action, no person shall hereafter sell, transfer or deliver, and no person shall accept delivery of, any military arms, whether operating or non-operating, or parts therefor, except as provided in paragraph (c).

(c) *Permitted deliveries.* The restrictions in paragraph (b) shall not apply to the following sales, transfers or deliveries:

(1) Sales, transfers or deliveries to or by any department or agency of the United States or of any State or political subdivision thereof or any person acting for the account of any such department or agency.

(2) Sales, transfers or deliveries for export if such export is covered by an export license previously issued by the appropriate agency or department of the United States Government.

(3) Sales, transfers or deliveries of non-operating military arms to any scrap dealer, when sold, transferred or delivered as scrap.

(4) Sales, transfers or deliveries of non-operating military arms by any scrap dealer, when sold, transferred or delivered as scrap to any person regularly engaged in the business of melting scrap.

(5) Sales, transfers or deliveries made with the specific authorization of the Director General for Operations.

(d) *Reports.* Any person making any delivery pursuant to paragraph (c) (3)

or (c) (4) hereof shall at the time of

ment (whether purchased or leased) or

or (c) (4) hereof shall at the time of such delivery report to the War Production Board a detailed description of the property delivered and the person to whom such delivery was made.

(e) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, sales, transfers and deliveries of military arms.

(f) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall be addressed to: War Production Board, Bureau of Governmental Requirements, Washington, D. C., Ref: L–230.

(g) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Effective date.* This order shall take effect 12:01 a. m., November 16, 1942.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Amendment 2 to Priorities Regulation 11, as Amended October 3, 1942]

PRODUCTION REQUIREMENTS PLAN

Priorities Regulation 11[1] (§ 944.32) is hereby amended as follows:

1. Paragraph (b) (7) is hereby amended to read as follows:

"Supplies" means maintenance and repair materials and operating supplies. It also includes minor items of productive capital equipment (such as jigs and fixtures, dies and die blocks, portable pneumatic or portable electric tools, and material required for minor relocations of plant machinery and equipment). It does not include any production material or any office machinery or office equipment (whether purchased or leased) or materials for plant expansion or plant construction.

2. Paragraph (c) is hereby amended to read as follows:

(c) *Persons required to qualify under PRP.* Every Class I producer shall file a PRP application. For the first quarter of 1943, this application shall be filed not later than October 25, 1942. Any person who becomes a Class I producer shall file such application as promptly as possible after becoming a Class I producer. The Director General for Operations may specifically require other persons to file such applications from time to time, and may also exempt particular Class I producers from the requirements of this paragraph or extend or advance their time for filing PRP applications. Any other processors of materials desiring priority assistance on a quarterly basis may also, with the consent of the Director General for Operations, qualify under the Production Requirements Plan, although not required to do so by this regulation.

3. Paragraph (d) (2) is hereby amended by adding after the opening words of the first sentence reading "During the fourth quarter of 1942," the following words "but not thereafter,".

4. Paragraph (d) (5) is hereby amended to read as follows:

(5) In case preference rating assistance for a material is denied on the PRP certificate on the express ground that such assistance is unnecessary or that ratings for such material are not currently being assigned on PRP certificates, the provisions of this paragraph (d) shall not apply to such material.

5. Paragraph (e) (3) is hereby amended to read as follows:

(3) Any PRP unit which has applied ratings under the interim procedure specified in paragraph (i) of this regulation based on a particular PRP application may, until receipt of that particular PRP certificate, accept deliveries of the quantities of the materials to which it is authorized to apply ratings under the interim procedure. After receipt of such PRP certificate it may accept deliveries of listed materials and listed fabricated items in excess of the quantities authorized on such certificate only if the same were in transit to the PRP unit at the time its supplier received notice of postponement or cancellation of delivery pursuant to the provisions of paragraph (j) of this regulation and even then may not accept delivery of such materials or items unless shipment was made within ten days (including Sundays) after receipt by the PRP unit of the PRP certificate which necessitated such postponement or cancellation.

6. Paragraph (e) is further amended by adding the following subparagraphs (4) and (5) at the end thereof:

(4) A PRP unit may accept delivery of material to which it extends an AAA rating in accordance with the provisions of paragraph (d) (6) of this regulation.

(5) A PRP unit may accept delivery of listed materials or listed fabricated items in excess of the quantities authorized on its PRP certificates, to the extent that cancellation or postponement of such delivery is waived by the provisions of paragraph (j) (3) of this regulation.

7. Paragraph (i) is hereby amended to read as follows:

(i) *Interim procedure.* During the interim between filing a PRP application for a particular quarter and receipt of the PRP certificate for such quarter a person may apply or extend preference ratings for delivery during such quarter, and, in case he shall have submitted advance quarter applications, may apply or extend preference ratings for delivery during only the first advance quarter, as follows:

(1) If he has been operating under the Production Requirements plan, he may apply the same preference ratings he was authorized to apply by his PRP certificates for the preceding quarter, to orders calling for delivery of not more than 40% during the first month of the quarter and 70% during the entire quarter, of the quantities of the materials indicated as his anticipated requirements on his PD–25A and on any PD–25F application for the quarter, submitted prior to receipt by him of the first PRP certificate received by him for the quarter.

(2) If he has not been operating under the Production Requirements Plan, he may continue to apply and extend ratings under any applicable preference rating orders or preference rating certificates in the same manner as permitted prior to the beginning of the particular quarter; and, notwithstanding the termination of any preference rating order on or after the end of the preceding quarter, the same shall be deemed to continue in effect as to any such person until he receives his PRP certificate: *Provided, however,* That he shall not apply or extend ratings to the delivery in the particular quarter of any material in an aggregate quantity greater than 40% during the first month of the quarter, nor greater than 70% during the entire quarter, of the amount of such material which he has indicated as his anticipated requirements on his PRP application for the quarter, subject to any further restrictions contained in the preference rating certificates or orders assigning the ratings which he is applying or extending.

(3) After a person has received an advance quarter authorization, he may not thereafter apply ratings under the interim procedure to deliveries in that advance quarter of any materials included in the authorization for that quarter, until he files a complete PD–25A application for such quarter, but must use only the ratings authorized on advance quarter authorizations for such materials in that quarter. Upon the filing of a complete PD–25A application for a quarter a PRP unit may then rate purchase orders in accordance with the interim procedure even if this permits rating quantities in excess of those authorized by a previous advance quarter authorization for that quarter.

(4) A person who applies or extends any preference rating pursuant to this paragraph (i) shall deduct the amount of any material which he has received or to which he has applied or extended such rating from the amount rated or otherwise authorized by his corresponding PRP certificate (on Form PD–25A or PD–25F, as the case may be) when issued to him.

8. Paragraph (j) is hereby amended to read as follows:

(j) *Rerating on receipt of PRP certificates.* (1) Each PRP unit, not later than the seventh day (including Sundays) after the receipt of any PRP certificate for a quarter, shall adjust its outstanding purchase orders so that they shall not exceed, either in quantities or in grades of preference rating, those authorized for the quarter and for any advance quarters covered by the PRP certificates in accordance with the provisions of this regulation; but this provision shall not require the adjustment of orders duly placed under paragraph (i) of this regulation for materials covered by a PD–25F application filed before receipt of a PD–25A certificate, until the return of such PD–25F certificate.

(2) This adjustment may be made by cancellation, postponement of deliveries, or by rerating. To the extent that authorized ratings are higher than those already applied to outstanding orders, rating adjustment shall be optional, and, with respect to any material, the balance of any authorized rating not used may be added to the authorized amount of any lower authorized rating.

(3) No person shall be required by the provisions of this paragraph (j), however, to cancel any order or portion thereof calling for delivery on or before November 21, 1942, or during the first twenty-one days of the first month of any subsequent quarter, of any listed material, if the producer thereof certifies in writing to such person (i) that substitution of other orders, or diversion of the material to fill other orders, (even if such other orders call for later delivery or carry a lower rating) is impossible, and (ii) that the production of such material has been completed or that cancellation would disrupt the producer's production schedules and result in substantially diminished production. Nothing herein contained, however, shall relieve a PRP unit from the obligation of cancelling or postponing delivery under other orders calling for delivery of similar material during the quarter, as to which no certification is received, to the extent necessary to bring the total receipts of such material during the quarter within the quantities authorized on its PRP certificates.

9. Paragraph (k) is hereby amended to read as follows:

(k) *Restrictions on Class I producers who have not filed PRP applications.* Any Class I producer who has not filed his PRP application by the time required by this regulation or by any specific direction of the Director General for Operations may not extend or apply any rating, other than AAA ratings, until he has mailed or personally submitted his PRP application to the War Production Board: *Provided, however,* That these restrictions do not apply to ratings specifically assigned to a Class I producer for the purpose of acquisition of items of capital equipment, or materials for authorized plant expansion or plant construction.

10. The following new paragraphs (n) and (o) are added:

(n) *Reporting of excess receipts.* Any PRP unit which receives during a quarter any listed material other than, or in excess of, quantities of such material authorized by its PRP certificates for such quarter, or by specific authorization of the Director General for Operations, shall promptly report to the Production Requirements Branch, War Production Board, Washington, D. C., the quantities and kinds of materials so received, together with a statement of the reasons why such receipt was necessary, referring to the provisions of this regulation under which such receipt is permitted, and giving the name and serial number of the PRP unit which received the material.

(o) *Exceptions or exemptions.* The Director General for Operations may grant exceptions or exemptions with respect to any or all provisions of this regulation. Any such action shall be in writing over the signature of the Director General for Operations and shall refer specifically to the fact that it is an exemption from or an exception to this regulation.

11. Paragraph (a) (1) of the metals list attached to Priorities Regulation No. 11 is hereby amended to read as follows:

Iron
Carbon steel
Alloy steel
Stainless steel
Aluminum
Magnesium
Copper
Brass
Bronze
Lead (including antimonial)
Zinc
Nickel
Tin
Cupro-nickel
Monel
Nickel-silver
Chrome nickel
Cadmium
Silver
Tantalum metal
Tungsten carbide

12. Paragraph (a) (2) of the metals list attached to Priorities Regulation No. 11 is hereby amended by adding at the end thereof but within the parenthesis the following words "but not including insect wire screen cloth".

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 16th day of November 1942.

PART 1340—FUEL

[MPR 122,[1] Amendment 11]

SOLID FUELS

Solid fuels delivered from facilities other than producing facilities—dealers.

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In § 1340.258 (a), a new subparagraph (11) is added; in § 1340.261 (d), new subparagraphs (3) and (4) are added and subparagraphs (1) and (2) are amended to read as set forth below:

§ 1340.258 *Definitions.* (a) When used in this Maximum Price Regulation No. 122, the term:

* * * * *

(11) "Appropriate regional office" means the regional office of the Office of Price Administration for the area in which is located the seller's place of business from which the solid fuel is offered for sale.

* * * * *

§ 1340.261 *Appendix A: Maximum prices for solid fuels delivered from facilities other than producing facilities.* * * *

(d) (1) If the seller's maximum price cannot be determined under paragraphs (a), (b) and (c) of this section, the seller's maximum price shall be the maximum price of his most closely competitive seller carrying on a business of the same character (wholesale or retail; equipped or unequipped) in the same locality. This shall be the maximum price for the sale of:

(i) The same size, kind and quality of solid fuel;

(ii) In similar quantities;

(iii) To purchasers of the same class (e. g., domestic, commercial, industrial);

(iv) By the same method of delivery (e. g., truck, rail, etc.); and

(v) Under the same terms of delivery (e. g., delivered to the purchaser or f. o. b. transportation facilities at the seller's yard, dock, or terminal facilities, etc.).

Within ten days after a maximum price is determined under the provisions of this subparagraph, the maximum price so determined shall be reported by the seller to the appropriate regional office of the Office of Price Administration, together with the name and address of the seller's most closely competitive seller; the name, if any, by which such competitive seller identifies the solid fuel involved; the name, if any, by which the solid fuel is identified by the seller determining his maximum price under this subparagraph and a statement of the reasons why a maximum price for sales thereof cannot be determined under paragraphs (a), (b) and (c) of this section.

(2) If the seller's maximum price cannot otherwise be determined under this section, the seller's maximum price shall be a price not in excess of the sum of the per net ton cost of such solid fuel f. o. b. transportation facilities at supplier's shipping point, plus the actual cost incurred in transporting such solid fuel to the seller's yard, dock or other terminal facility and plus the margin over delivered cost obtained on the seller's similar sale of solid fuel most nearly like the sale of solid fuel for which a maximum price is computed under this subparagraph, taking into account similarity in:

(i) Size, kind and quality of solid fuel;

(ii) Quantity of solid fuel;

(iii) Class of purchasers (e. g., domestic, commercial, industrial);

(iv) Method of delivery (e. g., truck, rail, etc.);

(v) Terms of delivery (e. g., delivered to the purchaser or f. o. b. transportation facilities at the seller's yard, dock, or terminal facilities, etc.).

Within ten days after the seller determines the maximum price for the sale of such solid fuel under the provisions of this subparagraph, he shall report to the appropriate regional office of the Office of Price Administration the maximum price so determined, together with the computations made by him in determining such maximum price and a statement of the reasons why a maximum price for such solid fuel could not otherwise be determined under this section.

(3) If the seller's maximum price for a particular size, kind and quality of solid fuel cannot be determined under this section by reason of the fact that the seller had no sale of solid fuel which can reasonably be considered similar within the meaning of paragraph (d) (2), his maximum price shall be the price established by the appropriate regional office of the Office of Price Administration. Such seller shall file an application with such regional office of the Office of Price Administration setting forth:

(i) The size, kind and quality of the solid fuel involved;

(ii) The name of the producer and the origin of such solid fuel, or in the case of bituminous coal, the price classification, size group and mine index number as set forth in the minimum price schedules established by the Bituminous Coal Division of the United States Department of the Interior;

(iii) The per net ton price f. o. b. transportation facilities at supplier's shipping point;

(iv) The transportation costs incurred in transporting such solid fuel to the seller's yard, dock, or other terminal facility;

(v) A proposed schedule of prices for sales to each class of purchaser involved, stating proposed variations in price for different quantities, methods and terms of delivery;

(vi) The margin over delivered cost on his sales of solid fuel serving the same purpose;

(vii) Such additional pertinent information as the regional office of the Office of Price Administration may require.

Each Regional Administrator is authorized to establish maximum prices under this subparagraph in line with the level of maximum prices established by this Maximum Price Regulation No. 122.

(4) For the purposes of this paragraph, the term "margin over delivered cost" means the difference between (i) the cost per net ton f. o. b. transportation facilities at supplier's shipping point, determined by the most recent purchase of such solid fuel, plus the actual cost incurred in transporting such solid fuel to the seller's yard, dock or other terminal facility and (ii) the maximum price for the sale of such solid fuel under the provisions of this section.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Ration Order 11,[1] Amendment 7]

FUEL OIL RATIONING REGULATIONS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Subparagraph (9) of paragraph (a) of § 1394.5001, subparagraph (3) of paragraph (a) of § 1394.5151 is amended; and a new paragraph (e) is added to § 1394.5507 and a new paragraph (g) is added to § 1394.5902; as set forth below:

Definitions

§ 1394.5001 *Definitions.* (a) When used in this Ration Order No. 11:

* * * * *

(9) "Convertible facilities" means any fuel oil burning equipment, including converted facilities, which can be converted to the use of an alternate fuel: *Provided,* That such equipment and facilities shall be deemed convertible in the absence of satisfactory proof that the materials necessary for such conversion are not on hand and that the required labor is not available and that such materials and labor can be obtained only with unreasonable difficulty or expense, or that an alternate fuel is not available.

* * * * *

Restrictions on Issuance of Rations

§ 1394.5151 *Restrictions on issuance of rations.* (a) No ration shall be issued or used:

* * * * *

(3) For the operation of convertible facilities for furnishing heat or hot water, or both, to premises other than private dwellings, except to the extent necessary to operate such facilities until the earliest date when conversion can be completed (but not later than the end of the valid period for coupons numbered "2", indicated in paragraph (b) of § 1394.5201.

Expiration and Revocation of Rations

§ 1394.5507 *Suspension and revocation of rations.* * * *

(e) The Board shall review all applications granted for the operation of oil burning equipment furnishing heat or hot water, or both, to premises other than private dwellings; it shall require the applicant to establish that such equipment is not convertible, and shall, pursuant to paragraph (d) of this section, revoke any ration issued to such applicant if he has failed to establish that such equipment is not convertible.

[MPR 138,[1] Amendment 3]

STANDARD FERROMANGANESE

A statement of the considerations involved in the issuance of this Amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

A new paragraph (f) is added to § 1405.10 as set forth below:

§ 1405.10 *Appendix A; maximum prices for standard ferromanganese.* * * *

(f) The maximum prices set forth above for standard ferromanganese, other than the prices for standard ferromanganese when crushed and pressed into briquettes, shall be adjusted downward in the amount of $10.00 per gross ton upon sales to the United States or any agency thereof for shipment outside the United States (1) if the standard ferromanganese sold is made from dutiable ore and the import duty thereon has not been paid at the time of shipment by the seller or is made from other ore which has been substituted for such dutiable ore in a bonded warehouse, or (2) if the seller will have a claim by substitution or otherwise for a drawback of duty by reason of the shipment of the standard ferromanganese to a destination outside the United States: *Provided,* That no adjustment downward of maximum price shall be required if the seller, having a claim to a drawback of import duty, assigns or transfers his claim to such drawback to the governmental agency making the purchase of standard ferromanganese.

§ 1405.11a *Effective dates of amendments.* * * *

(c) Amendment No. 3 (§ 1405.10 (f)) to Maximum Price Regulation No. 138 shall become effective November 13, 1942.

PART 1309—COPPER

[MPR 202,[1] Amendment 1]

BRASS AND BRONZE ALLOY INGOT

A statement of the considerations involved in the issuance of this Amendment No. 1 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In § 1309.165 paragraphs (d) and (e) are redesignated as § 1309.165 (e) and (f), the headnote to § 1309.165 (c) is amended and a new § 1309.165 (d) is added to read as set forth below:

§ 1309.165 *Appendix A: Maximum prices for brass and bronze alloy ingot.* * * *

(c) *Maximum prices for sales or deliveries in carload lots of brass or bronze alloy ingot not included in paragraph (b).* * * *

(d) *Maximum prices for sales or deliveries in carload lots of brass or bronze alloy ingot produced by special types of producers.*

(1) The maximum prices established by paragraphs (b) and (c) of this § 1309.165 shall not apply to sales or deliveries of brass and bronze alloy ingot manufactured by persons not customarily regarded as producers of brass and bronze alloy ingot if:

(i) Such person's deliveries in dollars of brass and bronze alloy ingot were less than 30% of his total deliveries in dollars of all products during the period January 1, 1942 to September 30, 1942.

(ii) Such person, during the period from January 1, 1940 to March 31, 1942, regularly charged for each grade of brass or bronze alloy ingot delivered by him a price at least 6 cents per pound in excess of the price established in paragraph (b) for the alloy having the most nearly comparable specifications.

(2) The maximum price for a sale or delivery of any brass or bronze alloy ingot exempted from paragraphs (b) and (c) by subparagraph (1) above shall be the seller's maximum offering price on March 31, 1942 for a sale or delivery of a carload lot of such brass or bronze alloy ingot, reduced by 10% of such price.

(3) On or before December 1, 1942 any person, who has sold or delivered or who proposes to sell or deliver any brass or bronze alloy ingot, the maximum price for which was determined or will be determined under subparagraph (2) hereof, shall file a report with the Copper, Aluminum & Ferro-Alloys Branch, Office of Price Administration, Washington, D. C. containing the following information:

(i) The name, address and principal business of the seller.

(ii) The seller's deliveries of brass and bronze alloy ingot during the period January 1, 1942 to September 30, 1942, in dollars.

---

[1] 7 F.R. 6421, 7247, 8948.

(iii) The seller's total deliveries, including brass and bronze alloy ingot, during the period January 1, 1942 to September 30, 1942, in dollars.

(f) The maximum prices for sales by wholesalers to retailers located in the City of New York and for sales by such retailers shall be as follows:

of the seller and purchaser, price paid or received, buyer's receiving point and the quantity of wheat mill feed sold or purchased: *Provided,* That in case of

in determining the seller's maximum price for wheat mill feeds, and in preparing the records of such seller with respect thereto: if at the time the seller

delivered at any other point than the waters named or the buyer's manufacturing plant shall be determined as follows:

(iii) The seller's total deliveries, including brass and bronze alloy ingot, during the period January 1, 1942 to September 30, 1942, in dollars.

(iv) The alloy content, including impurity limitations and physical specifications for each grade of brass or bronze alloy ingot delivered during the period January 1, 1940 to March 31, 1942.

(v) The carload price at which each such grade was first delivered after January 1, 1940 and any changes in such prices from September 1, 1939 to March 31, 1942.

(vi) The seller's maximum price for each grade of brass and bronze alloy ingot produced by him computed pursuant to subparagraph (2) hereof. * * *

§ 1309.164a *Effective dates of amendments.* * * *

(b) Amendment No. 1 (§§ 1309.165(c), (d), (e) and (f) and 1309.164a (b)) shall be effective as of August 19, 1942.

PART 1350—EMERGENCY CIVILIAN DEFENSE MATERIALS AND EQUIPMENT

[MPR 234,[1] Amendment 2]

APPROVED STIRRUP PUMPS

A statement of considerations involved in the issuance of this Amendment No. 2 has been issued simultaneously herewith and filed with the Division of the Federal Register.*

The text of paragraph (a) and paragraph (b) of § 1350.53, and § 1350.59 are amended; a new paragraph (f) is added to § 1350.53; the text of § 1350.64 is designated as paragraph (a), and a new paragraph (b) is added, as set forth below:

§ 1350.53 *Maximum prices for sales of approved stirrup pumps in the continental United States.* (a) Except as otherwise provided in paragraph (f) of this § 1350.53, maximum prices for sales or deliveries of approved stirrup pumps in the continental United States are as follows: * * *

(b) The price listed under "factory price" in paragraph (a) is the maximum price for sales by the named manufacturer to all classes of purchasers (including municipalities and defense councils) other than those who customarily sell only through one or more retail establishments. For sales by the manufacturer to a person who customarily sells only through one or more retail establishments, the maximum price is the price specified in paragraph (a) as the "factory price", plus $.05. These prices are f. o. b. factory.

* * * * *

(f) The maximum prices for sales by wholesalers to retailers located in the City of New York and for sales by such retailers shall be as follows:

(1) For a sale by a person other than the manufacturer to a retailer located in the City of New York, the maximum price is $2.20, delivered.

(2) For a sale by a retailer located in the City of New York of a stirrup pump bought directly from the manufacturer, the maximum price is $3.00.

(3) For a sale by a retailer located in the City of New York of a stirrup pump bought by him from a person other than the manufacturer, the maximum price is $3.10.

§ 1350.59 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 234 may be charged, demanded, paid or offered, and no seller shall, as a condition of sale, require the purchaser to agree not to sell at lower prices than those established as maximum prices, or in any other manner establish or attempt to establish minimum prices for resales of the approved stirrup pumps.

§ 1350.64 *Effective dates of amendments.* * * *

(b) Amendment No. 2 (§§ 1350.53 (a), (b), (f), 1350.59, 1350.64) to Maximum Price Regulation No. 234 shall become effective:

(1) November 14, 1942 as to the provisions of §§ 1350.53 (a), (b), (f) (1), and 1350.59; and,

(2) November 20, 1942 as to the provisions of §§ 1350.53 (f) (2), and (f) (3).

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

PART 1363—FEEDINGSTUFFS

[MPR 173,[1] Amendment 1]

WHEAT MILL FEEDS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1363.105, subparagraph (6) of paragraph (a) of § 1363.111, subparagraphs (2) and (8) of paragraph (a) and paragraphs (d) and (e) of § 1363.112 are amended and new §§ 1363.115 and 1363.116 are added as set forth below:

§ 1363.105 *Documents and reports.* Every person making a sale or purchase of wheat mill feeds in the course of trade or business after July 3, 1942, shall keep for inspection by the Office of Price Administration for as long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records and documents of such sales and purchases including the date thereof, name of the seller and purchaser, price paid or received, buyer's receiving point and the quantity of wheat mill feed sold or purchased: *Provided,* That in case of sales at retail the seller or buyer, as the case may be, shall be required to keep only such records relating to sales or purchases of mill feed as he customarily kept at the effective date of this regulation.

* * * * *

§ 1363.111 *Definitions.* (a) When used in Maximum Price Regulation No. 173 the term: * * *

(6) "Wheat mill feeds" means all the products of milling wheat except the following commodities which shall remain subject to the provisions, exceptions, and other terms of the General Maximum Price Regulation.

(i) Flour from wheat.

(ii) Farina and semolina.

(iii) Wheat germ and wheat germ meal.

(iv) Wheat germ oil cake and wheat germ oil meal.

(v) Bran for human consumption.

(vi) Ground wheat.

* * * * *

§ 1363.112 *Appendix A: Maximum delivered prices for wheat mill feeds.*—(a) *Maximum delivered prices for sales by millers of wheat mill feeds, sacked and shipped in carload quantities, shall be as follows:* * * *

(2) For shipments to points in the State of Missouri located within the area bounded on the west and south by a line drawn as follows:

From Kansas City, Mo., along the line of the St. Louis-San Francisco Railway Co. to Harrisonville; from Harrisonville to East Lynne; from East Lynne to Springfield; from Springfield to Cabool; from Cabool along a straight line perpendicular to the northern border of Arkansas, but not including (i) points located on the boundary line referred to above and (ii) points located on or adjacent to the main line of the St. Louis-San Francisco Railway Co. from Springfield to, but not including, Pacific, and (iii) points on or adjacent to the branch lines of the St. Louis-San Francisco Railway Co. from Cuba to Salem and Cherry Valley; and also for shipments to points within the State of Arkansas and all states east of the Mississippi River with the exception of Louisiana, Minnesota, Wisconsin and the Northern Peninsula of Michigan, the maximum price at Kansas City, Mo., plus the charge at the lowest railroad carload proportional rate for the transportation of an identical quantity from the applicable Missouri River rate break point to the railroad siding nearest to the point designated by the buyer as his receiving point.

* * * * *

(8) *For shipments to points within the State of California.* (i) To points located on or north of a line drawn as follows:

From a point on the Pacific Coast due west of Los Gatos in a straight line to Los Gatos, and thence in a straight line to San Martin; from San Martin along the line of the Southern Pacific Lines

to San Jose and thence to Niles; from Niles in a straight line to Vernalis; from Vernalis in a straight line to Lathrop; from Lathrop along the line of the Southern Pacific Lines to Turlock; from Turlock in a straight line to Denair; thence along the main line of the Atchison, Topeka and Santa Fe Railway from Denair to Riverbank; from Riverbank along the line of the Sierra Railway Company of California to Tuolumne; and from Tuolumne in a straight line due east to the Nevada border, with the exception of Colusa and points located on or adjacent to the main line of the Northwestern Pacific Railroad Company north of Santa Rosa, the maximum price at Seattle, Washington, plus the lowest railroad transit balance from Seattle, Washington to the railroad siding nearest to the point designated by the buyer as his receiving point computed on the basis of the charge at the lowest railroad carload rate for the transportation of an identical quantity from Spokane, Washington, to the railroad siding nearest to the point designated by the buyer as his receiving point with transit privileges at Seattle, Washington.

* * * * *

(d) *Maximum delivered prices for sales at retail.* To determine the maximum prices for sales at retail of wheat mill feeds, add $4.00 per ton to the maximum price for carload shipments computed under the applicable provisions of paragraph (a) of this section. For purposes of this subparagraph in computing maximum delivered prices under the applicable provisions of paragraph (a) of this section "point designated by the buyer as his receiving point" shall mean the place of business of the retail seller. In the event that the retail seller customarily made a charge for delivery at the effective date of this regulation he may add to the maximum price computed under this paragraph his customary delivery charge.

(e) *Maximum prices for shipments unsacked or in buyer's sacks.* (i) The maximum prices which may be charged or paid for sales of wheat mill feeds shipped in carload quantities unsacked shall be the maximum price computed under the applicable provisions of paragraph (a) of this section less the customary differential applying to shipments of carload quantities unsacked at the effective date of this regulation.

(ii) The maximum prices which may be charged or paid for sales of wheat mill feeds shipped in buyer's sacks shall be the maximum price computed under the applicable provisions of paragraphs (a), (b), (c) or (d) of this section less the customary differential applying to shipments in buyer's sacks at the effective date of this regulation.

§ 1363.116 *Federal and state taxe including certain licenses or inspection fees.* Any tax upon or incident to the sale, delivery, processing or use of wheat mill feeds including license or inspection fees levied on a tonnage basis imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof shall be treated as follows in determining the seller's maximum price for wheat mill feeds, and in preparing the records of such seller with respect thereto: if at the time the seller determines his maximum price, the statute or ordinance imposing the tax does not prohibit the seller from stating and collecting the tax separately from the purchase price and the seller does state it separately, the seller may collect in addition to the maximum price, the amount of tax or feed actually paid by him or an amount equal to the amount of tax or feed paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

* * * * *

§ 1363.115 *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1363.105, 1363.111 (a) (6), 1363.112 (a) (2) and (a) (8) and (d) and (e), 1363.115 and 1363.116 to this Maximum Price Regulation No. 173 shall become effective this 20th day of November 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

§ 1381.160 *Appendix A: Maximum delivered prices for West Coast logs.* * * *

(b) The maximum delivered prices per 1,000 ft. log scale for West Coast Logs delivered at any other point than the waters named or the buyer's manufacturing plant shall be determined as follows:

(1) From the prices in paragraph (a) of this section, subtract the transportation costs, including booming and rafting charges, which would have been applicable to the shipment had it moved from the spar-tree to the waters of the particular district;

(2) Then add actual transportation costs from the spar-tree to the destination specified by the purchaser, including any cost of loading on cars or dumping in a mill pond. For the purpose of this subparagraph (2), delivery at the spar-tree shall be considered as a violation of this Maximum Price Regulation 161 since the seller must make delivery either to towable waters (including booming and rafting), or to the mill pond of the buyer's plant, or to a railhead (including loading on cars).

Regardless of the result of the above computation, the prices shall in no event exceed the prices set forth in paragraph (a) of this section applicable to deliveries into the waters of Puget Sound, Willapa Bay and Grays Harbor, and the Columbia River.

(c) The maximum delivered prices per 1,000 ft. log scale for West Coast logs delivered at any point in the Willamette Valley district shall be determined as follows:

(1) From the prices set forth in paragraph (a) of this section for delivery in the Columbia River district, subtract the transportation costs, including booming and rafting charges, which would have been applicable to the shipment had it moved from the spar-tree to the waters of the Columbia River district;

(2) Then add actual transportation costs from the spar-tree to the destination specified by the purchaser, including any cost of loading on cars, dumping in a mill pond, or booming and rafting in the Willamette River. For the purpose of this subparagraph (2), delivery at the spar-tree shall be considered as a violation of this Maximum Price Regulation 161 since the seller must make delivery either to towable waters (including booming and rafting), or to the mill pond of the buyer's plant, or to a railhead (including loading on cars).

Regardless of the result of the above computation, the prices for the Willamette Valley district shall in no event exceed the prices set forth in paragraph (a) of this section for delivery in the Columbia River district. Further, if such computation results in a maximum price which is $3.50 or more below the Columbia River district price, the maximum price shall be a price $3.50 below the Columbia River district price. * * *

(2) Not later than the 15th of October, 1942, and the 15th of every month thereafter in which the overtime addition is claimed, the company must file a certified statement with the Office of Price Administration, Washington, D. C., containing the following:

---

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 4426, 5360, 7008, 7839.

(i) A statement that the required hours prevailed during the preceding month;

(ii) The company's production figures, log scale, by species, for the month;

(iii) The amount of logs by species, both log scale and total value, sold during the month on which the overtime addition was claimed;

(iv) The amount of logs, log scale, by species, used in the seller's own mill.

PART 1388—DEFENSE-RENTAL AREAS

[MRR 24, Amendment 1]

HOUSING ACCOMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES IN THE BALTIMORE DEFENSE-RENTAL AREA

Section 1388.1016[1] (d) (1) of Maximum Rent Regulation No. 24 as heretofore amended by Supplementary Amendment No. 6 is hereby amended to read as follows:

§ 1388.1016 *Restrictions on removal of tenant.* * * *

(d) (1) Every notice to a tenant to vacate or surrender possession of housing accommodations shall state the ground under this section upon which the landlord relies for removal or eviction of the tenant. A written copy of such notice shall be given to the Area Rent Office within 24 hours after the notice is given to the tenant.

No tenant shall be removed or evicted from housing accommodations, by court process or otherwise, unless, at least ten days prior to the time specified for surrender of possession and to the commencement of any action for removal or eviction, the landlord has given written notices of the proposed removal or eviction to the tenant and to the Area Rent Office, stating the ground under this section upon which such removal or eviction is sought and specifying the time when the tenant is required to surrender possession: *Provided, however,* That the requirements of this sentence shall not apply to housing accommodations within the City of Baltimore, Maryland, when the ground for the removal or eviction of a tenant is non-payment of rent.

Where the ground for removal or eviction of a tenant is non-payment of rent, every notice under this paragraph (d) (1) shall state the rent for the housing accommodations, the amount of rent due and the rental period or periods for which such rent is due. The provisions of this paragraph (d) (1) shall not apply where a certificate has been issued by the Administrator pursuant to the provisions of paragraph (b) of this section.

§ 1388.1024a *Effective dates of amendments.* (a) Amendment No. 1 (§ 1388.1016 (d) (1)) to Maximum Rent Regulation No. 24 shall become effective November 16, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 14th day of November 1942.

LEON HENDERSON,
Administrator.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Ration Order 11,[1] Amendment 8]

FUEL OIL RATIONING REGULATIONS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

In paragraph (b) of § 1394.5254, the phrase "or (4)" is inserted between "(a) (3)" and "of"; paragraph (a) of § 1394.5256 is amended and a new paragraph (c) is added thereto; paragraph (b) of § 1394.5257, paragraph (b) of § 1394.5258, § 1394.5259 and paragraph (a) of § 1394.5270 are amended; and a new paragraph (h) is added to § 1394.5902; as set forth below:

Heat and Hot Water Rations

* * * * *

§ 1394.5256 *Determination of allowable ration for heating private dwellings.* (a) Except as provided in paragraph (c) of this section, the allowable ration for heating private dwelling premises during the heating year shall be $66\frac{2}{3}\%$ of the amount of fuel oil consumed (as adjusted for temperature variations from the norm, pursuant to § 1394.5257) in heating such premises during the base period, except that:

(1) If $66\frac{2}{3}\%$ of such adjusted consumption exceeds the maximum of range established pursuant to § 1394.5258, the allowable ration shall be such maximum;

(2) If $66\frac{2}{3}\%$ of such adjusted consumption is less than the minimum of such range, the allowable ration shall be either such minimum or 85% of such adjusted consumption, whichever is less;

(3) If the applicant fails to obtain or to furnish the required certification from any dealer or supplier, but shows good cause for such failure, and if consumption during the base period is representative of normal fuel oil requirements for heating the premises during the heating year, the allowable ration shall be midpoint of such range or $66\frac{2}{3}\%$ of such consumption (as adjusted for temperature variations from the norm in accordance with paragraphs (b) and (c) of § 1394.5257) whichever is less: *Provided,* That if $66\frac{2}{3}\%$ of such adjusted consumption is less than the minimum of such range, the allowable ration shall be such minimum or 85% of such adjusted consumption, whichever is less;

(4) If consumption during the base base period cannot be determined, or if such consumption is, for any reason (other than weather conditions) not representative of normal fuel oil requirements for heating the premises during the heating year, the allowable ration shall be the midpoint of such range.

* * * * *

(c) Where application is made for a ration for furnishing heat and hot water to private dwelling premises and the amount of fuel oil deducted for hot water pursuant to paragraph (b) of § 1394.5257 exceeds the total amount of fuel oil consumed during the base period, such total amount of fuel oil shall be deemed to have been consumed for heating the premises and the allowable ration for heating the premises shall be determined in accordance with the provisions of paragraph (a) and (b) of this section. In such cases no ration for domestic hot water shall be issued.

§ 1394.5257 *Same; determination of adjusted fuel oil consumption during base period.* * * *

(b) The amount of fuel oil (if any) used for hot water shall be deducted from such total. If fuel oil was used, during all or part of the base period, for supplying domestic hot water, the amount so used shall, in the absence of proof to the contrary, be deemed to have been twenty (20) gallons per month for the first person, plus five (5) gallons per month for each additional person, regularly occupying the premises while fuel oil was used for such purpose: *Provided,* That where a space heater supplied such hot water, the amount so used shall, in the absence of proof to the contrary, be deemed to have been fifteen (15) gallons per month; * * *

§ 1394.5258 *Same, determination of range.* * * *

(b) In computing the floor area of the premises for the purposes of paragraph (a) of this section, only necessary living and sleeping quarters and space used for occupational purposes shall be included: *Provided,* That in no event shall a total area in excess of 2,000 square feet for the first person, plus 600 square feet for the second person and 300 square feet for each additional person, regularly occupying the premises covered by the application, be included in determining the range: *Provided further,* That in no event shall a total area in excess of 550 square feet be included in determining the range where application is made for a ration for heating premises by a space heater unless:

(1) The applicant submits satisfactory proof that the space heater actually heats a floor area in excess of 550 square feet, or

(2) Consumption during the base period has been determined in accordance with paragraph (a) of § 1394.5254 and is representative of normal fuel oil requirements for heating the premises during the heating year.

§ 1394.5259 *Determination of ration for domestic hot water in private dwelling.* Except as provided in paragraph (c) of § 1394.5256, the allowable ration for supplying domestic hot water to private dwelling premises shall be $66\frac{2}{3}\%$ of the figure obtained by adding twenty (20) gallons for the first person plus five (5) gallons for each additional person regularly occupying such premises, and multiplying the sum by the number of months during the heating year in which a ration for hot water is required: *Provided,* That the allowable ration for the operation of a space heater for such purpose shall be the figure obtained by multiplying ten (10) gallons by the number of months during the heating year in which a ration for hot water is required.

§1394.5270 *Rations for space heaters in premises other than private dwellings; special cases.* Notwithstanding the provisions of paragraph (c) of § 1394.5261:

(a) The allowable ration for heating residential premises other than a private dwelling by means of a space heater may, at the option of the applicant, be determined in accordance with subparagraph (3) or (4) of paragraph (a), whichever is applicable, and paragraphs (b) and (c), of § 1394.5256, where the certifications required by § 1394.5253 cannot, for good cause, be obtained.

§ 1394.2304 *Allowance of mileage.* * * *

(b) Upon the basis of the application and such other facts as the Board may require, the Board shall allow mileage for any of the purposes listed in § 1394.2303 (b) for which the applicant has applied, with respect to which the applicant has established the facts required by paragraph (a) hereof. In the absence of a ride-sharing arrangement the Board shall allow only that portion of the claimed mileage with respect to which the applicant has established the inadequacy of alternative means of transportation in accordance with paragraph (a) (2) (ii) of this section. The Board shall then allow the applicant an average occupational mileage per month required by the applicant, as set forth in § 1394.2305.

§ 1394.2305 *Issuance of supplemental rations (B ration books).* (a) Supplemental rations shall be issued to provide the total mileage allowed by the Board, in accordance with § 1394.2304 and with this section, for the unexpired pro rata weekly portions of the ration period for which the B ration book shall be valid.

(b) The Boards shall issue not more than one (1) B ration book to a person entitled to supplementary rations for use in a passenger automobile as follows:

(1) Each person shall state his weekly requirements of gasoline, computed on the basis of one (1) gallon of gasoline to twelve (12) miles of driving.

(2) The maximum number of coupons, computed on a weekly basis, which any person entitled to supplementary rations shall receive shall be not more than one (1) B ration book page, containing eight (8) coupons, of a value of one-half ($\frac{1}{2}$) gallon each.

(3) Each Board, in computing the requirements of an applicant for supplementary rations, shall use the value of one-half ($\frac{1}{2}$) gallon for each B coupon, regardless of the value which such B coupon may have for acquisition of gasoline at any time.

(4) The Boards shall remove a sufficient number of coupons from each page of each ration book issued hereunder, so that the person entitled thereto shall receive no more gasoline than allowed by the Board, as computed in accordance with the provisions of this section.

§ 1394.2306 *Preferred mileage.* * * *

(n) By any person whose activities are certified by the director of the Office of Price Administration for Puerto Rico to be essential to the prosecution of the war.

§ 1394.2307 *Issuance of preferred rations (C ration books).* (a) Preferred rations shall be issued to provide the total mileage allowed by the Board, in accordance with § 1394.2306, for the unexpired pro rata weekly portions of the ration period for which the C ration book shall be valid.

(b) The Board shall issue not more than one (1) C ration book to a person entitled to preferred mileage for use in passenger automobiles, as follows:

(1) Each person shall state his weekly requirements of gasoline, computed on the basis on one (1) gallon of gasoline to twelve (12) miles of driving.

---

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 5607, 6389, 6390, 7400, 6871, 7908, 8385, 8335, 9134.

(2) The maximum number of coupons, computed on a weekly basis, which any person entitled to preferred mileage shall receive shall be not more than one (1) C ration book page, containing eight (8) coupons, of a value of one and one-half (1½) gallons each.

(3) Each Board, in computing the requirements of an applicant for preferred mileage, shall use the value of one and one-half (1½) gallons for each C coupon, regardless of the value which such C coupon may have for acquisition of gasoline at any time.

(4) The Boards shall remove a sufficient number of coupons from each page of each ration book issued hereunder, so that the person entitled thereto shall receive no more gasoline than allowed by the Board, as computed in accordance with the provisions of this section.

§ 1394.2308 *Motorcycles (D ration books) issuance of supplementary and preferred mileage.* (a) A person entitled to the operation of a motorcycle shall receive sufficient D ration coupons:

(1) For occupational mileage, as defined in § 1394.2305, not to exceed 280 miles per month.

(2) For preferred mileage, as defined in § 1394.2306, not to exceed 280 miles per month.

(3) For the purpose of determining the gallonage necessary for such mileage, the Board shall conclusively presume that a motorcycle obtains thirty-five (35) miles per gallon.

§ 1394.2353 *Application for fleet rations.* (a) Application for fleet rations shall be made to a Board on or after July 22, 1942, on Form OPA PRR-4. An application may cover one or more vehicles and may be made by an agent. An applicant shall establish the average monthly mileage required for the use of each vehicle covered in the application in carrying on an occupation or occupations, or the average monthly mileage required for the use of each of a group of such vehicles used interchangeably for carrying on the same or a related occupation or occupations, for the periods for which the applicable ration books are issued.

§ 1394.2355 *Issuance of fleet rations.* Class B, C, and D ration books marked "FLEET" shall not be issued as fleet rations to provide the total mileage allowed by the Board in the same manner as such books are issued pursuant to § 1394.2305 for supplemental mileage, and § 1394.2307 for preferred mileage, and in the case of motorcycles, pursuant to § 1394.2308.

§ 1394.2601 *Value of coupons.* (a) Each gasoline coupon of the class hereinafter designated shall have the following value in gallons of gasoline:

Class	*Gallons*
A	½
B	½
C	1½
D	½
E	1½
R	5
S1	1
S2	1
Gallon Bulk	⅓
100 Gallon Bulk	33⅓

* * * * *

§ 1394.2655 *Restrictions on consumption of gasoline.* * * *

(c) After November 1, 1942, no new issue or renewal of any type of ration book, basic or otherwise, shall be issued to any person unless such person shall have consumed, or shall have otherwise disposed of, all gasoline in his possession prior to August 1, 1942. The Boards may require any person to explain under oath the disposition of such gasoline prior to the issuance of any ration book.

§ 1394.2752 *Presentation of license certificate.* * * *

(b) No gasoline ration shall be issued pursuant to the provisions of paragraph (a) of this section unless the license certificate to be exhibited shall be current and valid at the time of the issuance of such ration.

§ 1394.2851 *Restriction on transfers to consumers.* * * *

(i) * * *

(4) Nothing contained in this paragraph shall prevent the transfer of gasoline to holders of A ration books on or after November 1, 1942, or to the holders of B or C ration books on or after November 8, 1942.

§ 1394.2907 *Restrictions on transfers.* * * *

(c) * * *

(1) Nothing contained in this paragraph shall prevent the transfer of gasoline to holders of A ration books on or after November 1, 1942, or to the holders of B or C ration books on or after November 8, 1942.

§ 1394.2919 *Explanation by oil companies.* * * *

(b) *Explanations by dealers.* The director of the Office of Price Administration for Puerto Rico may at any time request any dealer to explain the discrepancy existing between the total of his inventory of gasoline on hand plus the number of evidences received by him in connection with the sale of gasoline and the total amount of gasoline plus the number of evidences which he should have on hand. Any failure or refusal to explain such discrepancies shall constitute prima facie evidence that such dealer has transferred gasoline without accepting evidences therefor.

§ 1394.3052 *Effective dates of amendments.* * * *

(i) Amendment No. 9 to Ration Order 5B (§§ 1394.2252, 1394.2301 (b), 1394.2304 (b), 1394.2305, 1394.2306 (n), 1394.2307, 1394.2308, 1394.2353, 1394.2355, 1394.2601 (a), 1394.2655 (c), 1394.2752 (b), 1394.2851 (i) (4), 1394.2907 (c) (1), 1394.2919 (b), 1394.3052 (i)) shall become effective at 6:00 P. PART 1499—COMMODITIES AND SERVICES

[Order 98 Under § 1499.18 (b) of GMPR]

DANTE CANDY CO., INC.

Order No. 98 under § 1499.18 (b) of the General Maximum Price Regulation—Docket No. GF3-2001.

For the reasons set forth in an opinion issued simultaneously herewith; *It is ordered:*

§ 1499.898 *Adjustment of maximum prices for bar candy sold by Dante Candy Company, Inc.* (a) The Dante Candy Company, Inc. of Chicago, Illinois, is hereby authorized to sell and deliver the following commodities at prices not higher than those set forth below:

(1) Boxes of the following, 100 count bars to the box: Doctors Orders, Challenger, Plum Good, and Vita Date Bars, at $2.20 per box, f. o. b. Chicago.

(2) Boxes of the following, 24 count bars to the box: Doctors Orders, Challenger, Plum Good, and Vita Date Bars, at 68¢ per box, full freight allowed to destination.

(b) The adjustment granted to the Dante Candy Company, Inc. is subject to the condition that purchasers from Dante Candy Company, Inc. shall in no event charge more for the candy bars at retail than their maximum prices as determined under paragraph (a) of § 1499.2 of the General Maximum Price Regulation or as adjusted under paragraph (a) of § 1499.18 of said regulation.

(c) All sellers are required to continue the same discounts, allowances and price differentials as were offered in March 1942: *Provided, however,* That sellers may change discounts, allowances, and price differentials if such change results in a lower price.

(d) Dante Candy Company, Inc., shall mail or cause to be mailed to all persons who purchase candy bars from it for resale, notices reading as follows:

(1) To all purchasers of the 100 count candy bars:

> The Office of Price Administration permitted us to raise our maximum prices for sales to you of Doctors Orders, Challenger, Plum Good, and Vita Date Bars, from $2.10 per case containing 100 count, to $2.20 per case containing 100 count. This amount represents only that part of cost increases which we were unable to absorb and it was granted with the understanding that wholesale and retail prices would not be raised. The OPA has not permitted you or any other seller to raise maximum prices for sales of Doctors Orders, Challenger, Plum Good, and Vita Date Bars. In order that we may continue to provide you with Doctors Orders, Challenger, Plum Good, and Vita Date Bars, it will be necessary for you to accept this reduction in your margin.

(2) To all purchasers of the 24 count candy bars:

> The Office of Price Administration permitted us to raise our maximum prices for sales to you of Doctors Orders, Challenger, Plum Good, and Vita Date Bars, from 66¢ per box containing 24 count, to 68¢ per box containing 24 count. This amount represents only that part of cost increases which we were unable to absorb and it was granted with the understanding that wholesale and retail prices would not be raised. The OPA has not permitted you or any other seller to raise maximum prices for sales of Doctors Orders, Challenger, Plum Good, and Vita Date Bars. In order that we may continue to provide you with Doctors Orders, Challenger, Plum Good, and Vita Date Bars, it will be necessary for you to accept this reduction in your margin.

(e) All prayers of the petition not granted herein are denied.

(f) This Order may be revoked or amended by the Price Administrator at any time.

(g) This Order No. 98 (§ 1499.898) is hereby incorporated as a section of Supplementary Regulation No. 14 which contains modifications of maximum prices established by § 1499.2.

(h) This Order No. 98 (§ 1499.898) shall become effective November 16, 1942.

(b) All discounts, trade and freight practices upon the sale by D. Maurer & Son Company, on the products referred to in paragraph (a) above in March, 1942, shall apply to the maximum prices set forth in paragraph (a).

(c) D. Maurer & Son Company, of Philadelphia, Pennsylvania, shall until November 30, 1942, send to each retailer purchasing the commodities specified in paragraph (a) above a copy of the following notice:

> The Office of Price Administration has permitted us to raise our maximum prices for the sale to you of the following commodities in the following amounts:
>
> Pompeian Olive Oil (3 oz. glass urn) from $1.99 per dozen to $2.21 per dozen.
>
> Williams Holder Top Shaving Stick from $2.66 per dozen to $3.37 per dozen.
>
> Williams Shaving Powder from $2.60 per dozen to $2.99 per dozen.
>
> Binky Bottle Caps from $9.00 per gross to $10.56 per gross.
>
> You or any other sellers are not permitted by such order to raise your maximum prices for the sale of such commodities. If, however, you feel that you are suffering substantial hardship and your maximum prices established for your most competitive sellers of such products, you may apply to the Office of Price Administration in Washington, D. C., under the provisions of § 1499.18 (a) of the General Maximum Price Regulation, prior to November 30, 1942.

(d) This Order No. 99 may be revoked or amended by the Price Administrator at any time.

(e) All prayers of the application not granted herein are denied.

(f) This Order No. 99 (§ 1499.899) is hereby incorporated as a section of Supplementary Regulation No. 14 which contains modifications of maximum prices established by Section 1499.2.

(g) This Order No. 99 (§ 1499.899) shall become effective November 16, 1942.

PART 1499—COMMODITIES AND SERVICES

[GMPR,[1] Amendment 34]

MIXED FEED AND FLOUR

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

In § 1499.20 paragraphs (f) and (v) are amended to read as set forth below:

§ 1499.20 *Definitions and explanations.* This General Maximum Price Regulation and the terms appearing therein, unless the context otherwise requires, shall be construed as follows:

* * * * *

(f) "Mixed feed" includes a mixture or blend of more than one feed ingredient for the purpose of feeding animals, except that

(1) Screenings as defined in the Official Publication of the Association of American Feed Control Officials Incorporated for 1942 shall be governed by this General Maximum Price Regulation and

(2) A mixture resulting from the blending or mixing of offals or by-products from a single vegetable, plant or other agricultural product shall be governed by this General Maximum Price Regulation.

* * * * *

(v) "Flour" means the flour produced from wheat, rye, buckwheat, rice, corn, oats, barley, soybeans and potatoes. Combinations of flours produced from the said commodities, and bleached, bromated, enriched, phosphated and self-rising flours shall be considered flour. Flour from wheat shall mean:

(1) Any product of the milling of wheat, other than durum wheat, whose ash content is not more than 1/20th of the protein calculated to a moisture-free basis plus .35 except that farina shall not be deemed to be flour from wheat.

(2) Any product of the milling of durum wheat, whose ash content calculated to a moisture-free basis, is not more than 1.5 per cent, except that semolina shall not be deemed to be a flour from wheat.

(3) Whole wheat flour.

(4) Whole durum wheat flour.

(5) Blends of the foregoing flours from wheat.

In determining whether the ash content of bleached, bromated, enriched, phosphated and self-rising flours complies with the above ash requirements, allowances shall be made for the increase in the ash content resulting from the addition of the bleaching, bromating, enriching, phosphating and self-rising ingredients.

§ 1499.23a *Effective dates of amendment.* * * *

([illegible]) Amendment No. 34 (§ 1499.20 (f) and (v)) to General Maximum Price Regulation shall become effective November 21, 1942.

[Order 101 Under § 1499.18 (b) of GMPR]

MILLER CHEMICAL CO.

Order No. 101 under § 1499.18 (b) of the General Maximum Price Regulation—Miller Chemical Company, Omaha, Nebraska—Docket No. GF3-536.

For the reasons set forth in an Opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1002 *Adjustment of maximum prices for sales of Anise Oil, U. S. P., by Miller Chemical Company.* (a) Miller Chemical Company, Omaha, Nebraska, may sell and deliver, and any person may buy and receive from Miller Chemical Company, anise oil, U. S. P., at a price not higher than $4.25 per pound.

(b) All discounts, allowances, and trade practices in effect during March 1942 with respect to sales of anise oil, U. S. P., by Miller Chemical Company shall remain in effect under this Order No. 101.

(c) At the time of the first delivery of anise oil, U. S. P., made to each purchaser at a price determined under this Order No. 101, Miller Chemical Company shall furnish each such purchaser with the following notice:

> The Office of Price Administration has permitted us to raise our maximum price for sales to you of anise oil, U. S. P., from $1.08 per pound to $4.25 per pound. This amount represents only that part of cost increases which we are unable to absorb, and it was granted with the understanding that other price increases would not be caused thereby. The Office of Price Administration has not permitted you or any other purchaser of this product from us to raise any maximum price by reason of our increased price to you.

(d) All prayers of the applicant not granted herein are denied.

(e) This Order No. 101 may be revoked or amended by the Price Administrator at any time.

TITLE 46—SHIPPING

Chapter II—Coast Guard: Inspection and Navigation

AMENDMENTS TO REGULATIONS; APPROVAL OF EQUIPMENT

By virtue of the authority vested in me by R. S. 4405, 4417, 4417a, 4426, 4438, 4440, 4488, 4491, as amended. 49 Stat. 1544 (46 U.S.C. 375, 391, 391a, 404, 224, 228, 481, 489, 367) and Executive Order No. 9083, dated February 28, 1942 (7 F.R. 1609), the following amendments to the inspection and navigation regulations and approval of miscellaneous items of equipment for the better security of life at sea are prescribed:

Subchapter O—Regulations Applicable to Certain Vessels and Shipping During Emergency

PART 153—BOATS, RAFTS, AND LIFESAVING APPLIANCES; REGULATIONS DURING EMERGENCY

Section 153.9 is amended by the addition of a new paragraph (b) reading as follows:

§ 153.9 *Construction of ring life buoys.*

* * *

(b) *Number of segments for cork or balsa wood ring life buoys.* Cork or balsa wood ring life buoys, if constructed of two layers, may consist of not more than 6 segments in one layer and not more than 12 segments in the other layer (Total: 18 segments). Cork or balsa wood ring life buoys may be constructed of 3 layers, with not more than 5 segments in each outside layer and not more than 8 segments in the center layer (Total: 18 segments). The joints shall, in all cases, be properly staggered and, with the exception of the number of segments permitted above, all other requirements for standard ring life buoys, including the strength test, steaming test, fitting and gluing of segments, dowel-pinning, etc., shall be complied with.

PART 155—LICENSED OFFICERS AND CERTIFICATED MEN; REGULATIONS DURING EMERGENCY

Part 155 is amended by the addition of a new § 155.11 reading as follows:

§ 155.11 *Inland mates of Great Lakes, steam or motor vessels.* The following provision is, during the emergency, applicable as alternative qualifying experience to that provided by §§ 36.5-2 and 78.33 of this chapter:

(a) Whenever any person presents himself for examination for license as mate of inland steamers, the Merchant Marine Inspector in Charge shall examine him as to his knowledge, experience, and skill in loading cargo and in handling and stowage of freight, his knowledge of the operation and handling of fire apparatus, the launching and handling of lifeboats, his knowledge of life preservers and the method of adjusting them, his ability to manage the crew and direct and advise the passengers in case of emergency, and his general familiarity with his duties in maintaining discipline and protecting the passengers, and if found qualified he shall grant him a license as such, but no such license shall be granted to any person who has not had at least 2 years' experience in the deck department of a steam vessel, sail vessel, motor vessel, or barge consort, 6 months of such service to have been in a steam or motor vessel.

Part 155 is further amended by the addition of a new § 155.20 reading as follows:

§ 155.20 *Inland mates of bays, sounds, and lakes other than the Great Lakes, steam or motor vessels.* The following provision is, during the emergency, applicable as alternative qualifying experience to that provided by §§ 36.6-2 and 96.32 of this chapter:

---

[1] 7 F.R. 5004, 5509, 5745, 7167, 7429, 8730, 9026.

(a) Whenever any person presents himself for examination for license as mate of inland steamers, the Merchant Marine Inspector in Charge shall examine him as to his knowledge, experience, and skill in loading cargo and in handling and storage of freight, his knowledge of the operation and handling of fire apparatus, the launching and handling of lifeboats, his knowledge of life preservers and the method of adjusting them, his ability to manage the crew and direct and advise the passengers in case of emergency, and his general familiarity with his duties in maintaining discipline and protecting the passengers, and if found qualified he shall grant him a license as such, but no such license shall be granted to any person who has not had at least 2 years' experience in the deck department of a steam vessel, sail vessel, motor vessel, or barge consort, 6 months of such service to have been in a steam or motor vessel.

Part 155 is finally amended by the addition of a new § 155.34 reading as follows:

§ 155.34 *Inland mates of rivers, steam or motor vessels.* The following provision is, during the emergency, applicable as alternative qualifying experience to that provided by §§ 36.7-2 and 115.31 of this chapter:

(a) Whenever any person presents himself for examination for license as mate of inland or river steamers the Merchant Marine Inspector in Charge shall examine him as to his knowledge, experience, and skill in loading cargo and in handling and stowage of freight, his knowledge of the operation and handling of fire apparatus, the launching and handling of lifeboats, his knowledge of life preservers and the method of adjusting them, his ability to manage the crew and direct and advise the passengers in case of emergency, and his general familiarity with his duties in maintaining discipline and protecting the passengers, and if found qualified he shall grant him a license as such, but no such license shall be granted to any person who has not had at least 2 years' experience in the deck department of a steam vessel, sail vessel, motor vessel, or barge consort, 6 months of such service to have been in a steam or motor vessel.

PART 156—INSPECTION AND CERTIFICATION

Part 156 is amended by the addition of a new § 156.3 reading as follows:

§ 156.3 *Electrical installation.* The following provisions are, during the emergency, applicable as alternative provisions to those contained in §§ 32.6-1 to 32.6-5, inclusive, 63.9, 79.9, 97.11, and 116.16 of this chapter:

(a) The type of electric wires and cables to be used in the various part of all vessels constructed after October 1, 1942 may be in accordance with "Acceptable Substitute Specifications for Shipboard Cable, Wires and Cables—Construction and Applications, Modification of A. I. E. E. Standards No. 45, For the Duration of the National Emergency, sections 18, 19, 20, and 21", dated September 14, 1942, copies of which are available on request to the Commandant. Coal Act of 1937 (the "Act"), having been duly filed on October 15, 1942, by Bituminous Coal Producers Board for District No. 4, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Clyde Rush and Grover Backus, individually and as co-partners doing business under the name of Rush and Backus (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder:

It is ordered, That a hearing in respect to the subject matter of such complaint be held on January 16, 1943, at 10 a. m. at a hearing room of the Bituminous Coal Division at the New Federal Building, Room 322, Columbus, Ohio.

It is further ordered, That W. A. Cuff or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to take evidence, and to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code Member and to all other parties herein and to all persons and entities having an interest in this proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code Member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code and the Code Member's right to an exemption from the taxes imposed by section 3520 (b) (1) of the Internal Revenue Code, or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Notice is also hereby given that any application, pursuant to § 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the Code Member of the complaint herein.

The matter concerned herewith is in regard to the complaint filed by said complainant alleging that Clyde Rush and Grover Backus, individually and as co-partners doing business under the name and style of Rush and Backus, a partnership, with principal offices in New Straitsville, Ohio, operating the Rush and Backus Mine, Mine Index No. 2631, located in Perry County, Ohio, District No. 4, has wilfully violated the Act, the Code and the rules and regulations thereunder by:

1. Selling and delivering coal produced at said mine to the Straitsville Brick Company, New Straitsville, Ohio, f. o. b. the mine for truck shipment as follows: (a) During the period May 1, 1941 to November 30, 1941, both dates inclusive, 1165 tons of 2″ x 0 nut, pea and slack coal (Size Group 7) at 90 cents per net ton; and (b) during the month of December 1941, 10 tons of 2″ x 0 nut, pea and slack coal (Size Group 7) at 90 cents per net ton, whereas the effective minimum price for said coal was $1.65 per net ton f. o. b. the mine, for truck shipment as set forth in the Temporary Supplement 7 of the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipment, resulting in violation of section 4 II (e) of the Act and Part II (e) of the Code; and

2. Failing to comply with the provisions of Orders Nos. 307 and 309, issued by the Division on December 11, 1940 and January 14, 1941, respectively, in that (a) the reports filed for each month from May 1941 to and including November 1941, covering sales of coal at said mine by truck or wagon to said Straitsville Brick Company, falsely stated the tonnage and prices, in that said reports showed sales of 2″ nut, pea and slack coal aggregating 688 tons and the price at $1.65 per ton f. o. b. the mine, whereas the tonnage was 1165 tons and the actual sales price was 90 cents per ton f. o. b. the mine; and (b) the reports filed for the month of December 1941, covering the sales by truck or wagon to Straitsville Brick Company, falsely stated that tonnage and price of said coal, in that the tonnage was shown to be 110 tons of 2″ x 0 nut, pea and slack coal and the price $1.65 per ton f. o. b. the mine, whereas said shipments consisted of 10 tons of 2″ x 0 nut, pea and slack coal and the actual sales price was 90 cents per ton f. o. b, the mine; resulting in violations of section III (b) of Order No. 307 and Order No. 309.

Dated: November 13, 1942.

ARKANSAS

DESIGNATION OF LOCALITIES IN COUNTY FOR LOANS

Designation of localities in county in which loans, pursuant to Title I of the Bankhead-Jones Farm Tenant Act, may be made.

In accordance with the rules and regulations promulgated by the Secretary of Agriculture on July 1, 1941, as extended by Supplement 2 of Secretary's Memorandum No. 867 issued as of July 1, 1942, loans made in the county mentioned herein, under Title I of the Bankhead-Jones Farm Tenant Act, may be made within the localities herein described and designated. The value of the average farm unit of thirty acres and more in each of these localities has been determined in accordance with the provisions of the said rules and regulations. A description of the localities and the determination of value for each follow:

REGION VI—ARKANSAS

HOT SPRING COUNTY

Locality I—Consisting of the townships of Brown Springs, Clear Creek, Fenter, Harrison, Lone Hill, Midway, Ouachita, and Prairie, $1,699.

Locality II—Consisting of the townships of Big Creek, Butterfield, Dover, Gifford, Magnet, and Saline, $1,646.

Locality III—Consisting of the townships of Alford, Antioch, Bismarck, DeRoche, Henderson, Montgomery, and Valley, $958.

The purchase price limit previously established for the county above-mentioned is hereby cancelled.

Approved: November 12, 1942.

LUGGAGE, LEATHER GOODS, BELTS AND WOMEN'S HANDBAG INDUSTRY

MINIMUM WAGE RATES

Notice of opportunity to show cause in the matter of the determination of the prevailing minimum wage in the luggage, leather goods, belts, and women's handbag industry.

Whereas, the prevailing minimum wage determination for the Luggage and Saddlery Industries, issued by the Acting Secretary of Labor on July 12, 1938, pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, sec. 35), as amended on September 26, 1939, provides that the minimum wage for employees engaged in the performance of contracts with agencies of the United States Government subject to the provisions of that Act, for the manufacture or supply of luggage, including mail satchels or pouches, and carrier's tie straps and leather pouches (consisting of a leather pouch or pocket of holster type with belt loop used for carrying pliers and knife), shall be 40 cents an hour for the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, Maryland, Delaware, Washington, Oregon, California, Idaho, Nevada, Arizona, Montana, Wyoming, Utah, Colorado, and New Mexico and 37½ cents an hour for the other twenty-six States and the District of Columbia; and

Whereas the Administrator of the Wage and Hour Division issued on July 1, 1942, pursuant to the Fair Labor Standards Act of 1938, a wage order effective July 27, 1942, providing that wages at the rate of not less than 40 cents an hour shall be paid by every employer to each of his employees who is engaged in commerce or in the production of goods for commerce in the Luggage, Leather Goods, and Women's Handbag Industry, and defining that industry as follows:

> (a) The manufacture from any material of luggage including, but not by way of limitation, trunks, suitcases, traveling bags, brief cases, sample cases; the manufacture of instrument cases covered with leather, imitation leather, or fabric including, but not by way of limitation, portable radio cases; the manufacture of small leather goods and like articles from any material except metal; the manufacture of women's, misses', and children's handbags, pocketbooks, purses, and mesh bags from any material except metal; but not the manufacture of bodies, panels, and frames from metal, wood, fiber, or paper board for any of the above articles.
>
> (b) The manufacture from leather, imitation leather, or fabric of cut stock and parts for any of the articles covered in paragraph (a) of this section;

and

Whereas the Luggage, Leather Goods, and Women's Handbag Industry, as so defined, includes within its scope substantially all the products covered by the prevailing minimum wage determination for the Luggage and Saddlery Industries, and it appears desirable, for the purpose of coordinating the administration of the Fair Labor Standards Act of 1938 and the Public Contracts Act, to adopt the definition contained in the Luggage, Leather Goods, and Women's Handbag Wage Order for the purposes of this wage determination; and

Whereas it appears desirable to extend the proposed wage determination to articles which are subject to the wage order of the Administrator of the Wage and Hour Division for the Belts Division of the Apparel Industry, effective July 15, 1940, establishing 40 cents an hour as the minimum wage to be paid to employees in the manufacture of men's, boys', women's, misses' and children's separate belts from leather, imitation leather, or other material or fabric who are engaged in commerce or in the production of goods for commerce; and

Whereas it appears that substantially all employees subject to the proposed wage determination for the Luggage, Leather Goods, Belts, and Women's Handbag Industry are engaged in commerce or in the production of goods for commerce, as that term is defined in the Fair Labor Standards Act of 1938, and that, consequently, the aforementioned wage orders of the Administrator for the Luggage, Leather Goods, and Women's Handbag Industry and for the Belts Division of the Apparel Industry have the effect of establishing a minimum wage of not less than 40 cents an hour in the Luggage, Leather Goods, Belts, and Women's Handbag Industry as defined in the proposed wage determination; and

Whereas it appears desirable for the purpose of coordinating the administration of the Fair Labor Standards Act of 1938 and the Public Contracts Act to provide that apprentices and learners may be employed under the proposed determination at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division (Regulations, Ti. 29, c. V, Parts 521 and 522, respectively).

Now, therefore, notice is hereby given to all interested parties of the opportunity to show cause on or before December 3, 1942, why the Secretary of Labor should not make a determination pursuant to the provisions of section 1 (b) of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, 35), that the prevailing minimum wage for persons employed in the Luggage, Leather Goods, Belts, and Women's Handbag Industry is not less than 40 cents an hour or $16 per week of 40 hours, arrived at either upon a time or piecework basis, provided that apprentices and learners may be employed in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938, and defining the Luggage, Leather Goods, Belts, and Women's Handbag Industry, for the purposes of this determination, as follows:

> (a) The manufacture from any material of luggage including, but not by way of limitation, trunks, suitcases, traveling bags, brief cases, sample cases; the manufacture of instrument cases covered wiith leather, imitation leather, or fabric including, but not by way of limitation, portable radio cases; the manufacture of small leather goods and like articles from any material except metal; the manufacture of women's, misses', and children's handbags, pocketbooks, purses, and mesh bags from any material except metal; but not the manufacture of bodies, panels, and frames from metal, wood, fiber, or paper board for any of the above articles.
>
> (b) The manufacture from leather, imitation leather, or fabric of cut stock and parts for any of the articles covered in paragraph (a) of this section.
>
> (c) The manufacture of men's, boys', women's, misses', and children's separate belts from leather, imitation leather, or other material or fabric.

All objections, protests, or any statements in opposition to or in support of the proposed amendments should be addressed to the Administrator, Division of Public Contracts, Department of Labor, Washington, D. C., and should be filed with the Administrator not later than December 3, 1942.

Dated: November 12, 1942.

SALTER MEAT COMPANY

ORDER GRANTING PETITION FOR ADJUSTMENT

Order No. 15 under Maximum Price Regulation No. 169—Beef and Veal Carcasses and Wholesale Cuts—Docket No. 3169-45.

On August 10, 1942, Salter Meat Company, 3049 East Vernon Avenue, Los Angeles, California, filed a petition for adjustment pursuant to § 1364.60 of Maximum Price Regulation No. 169, as amended. Due consideration has been given to the petition and an opinion in support of this Order No. 15 has been issued simultaneously herewith.

For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Control Act of 1942, as amended, and in accordance with Revised Procedural Regulation No. 1 issued by the Office of Price Administration; *It is hereby ordered:*

(a) Salter Meat Company may sell and deliver, agree, offer, solicit and attempt to sell and deliver steer, heifer, and cow carcasses cutter and canner grade at a price not in excess of 15¾ cents per pound and any person may buy and receive from the Salter Meat Company such steer, heifer, and cow carcasses at a price not in excess of 15¾ cents per pound.

[1] 7 F.R. 5893.

[1] 7 F.R. 3046, 3213, 3753.

(b) Salter Meat Company shall mail or cause to be mailed to all persons who purchase steer, heifer and cow carcasses, cutter and canner grade from it for resale a notice reading as follows:

> The Office of Price Administration by Order No. 15 effective November 16, 1942 pursuant to § 1364.60 of Maximum Price Regulation No. 169 has permitted us to raise our maximum price for sales to you of steer, heifer, and cow carcasses, cutter and canner grade, from 14¾ cents per pound to 15¾ cents per pound. This amount represents only that part of cost increases which we were unable to absorb and it was granted with the understanding that wholesale and retail prices would not be raised. The Office of Price Administration has not permitted you or any other seller to raise maximum prices for sales of steer, heifer, and cow carcasses, cutter and canner grade. In order that we may continue to provide you with steer, heifer, and cow carcasses cutter and canner grade it will be necessary for you to accept this reduction in your margin.

(c) All prayers of the petition not granted herein are denied.

(d) This Order No. 15 may be revoked or amended by the Price Administrator at any time.

(e) Unless the context otherwise requires, the definitions set forth in § 1364.62 of Maximum Price Regulation No. 169, as amended, shall apply to terms used herein.

(f) This Order No. 15 shall become effective November 16, 1942.

Issued this 14th day of November 1942.

LEON HENDERSON,
Administrator.

EDDIE'S SERVICE STATION

ORDER RESTRICTING TRANSACTIONS

Albert C. Hackett, doing business as Eddie's Service Station, 428 First Avenue, West Haven, Connecticut, hereinafter called respondent, was duly served with a notice of charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations. Pursuant to said notice, a hearing upon such charges was held in Hartford, Connecticut, on October 26, 1942. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been considered by the Deputy Administrator, It is hereby determined that:

(a) Respondent operates a filling station at 428 First Avenue, West Haven, Connecticut, known as Eddie's Service Station, at which station gasoline is regularly transferred to consumers.

(b) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, in that at divers times between July 22 and September 22, 1942, respondent sold and transferred gasoline to consumers in exchange for gasoline ration coupons Class A, No. 2.

Because of the great scarcity and critical importance of gasoline in Connecticut, violations of Ration Order No. 5A, Gasoline Rationing Regulations, have necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses, in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator that further violations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(c) During the period in which this Suspension Order shall be in effect,

(1) Respondent shall not sell, transfer or deliver any gasoline to any person.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline for resale.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondent for resale.

(d) Any terms used in this Suspension Order that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(e) This Suspension Order No. 160 shall become effective 12:01 A. M. November 18, 1942, and unless sooner terminated, shall expire 12:01 A. M. December 18, 1942.

(Pub. Law 421, 77th Cong.; Sec. 2 (a) of Pub. Law. 671, 76th Cong.; as amended by Pub. Law 89, 77th Cong. and by Pub. Law 507, 77th Cong.; E.O. No. 9125 (7 F.R. 2719); WPB Directive No. 1 (7 F.R. 562); Supplementary Directive No. 1H (7 F.R. 3478, 3877, 5216).)

MAPLE SERVICE STATION

ORDER RESTRICTING TRANSACTIONS

William V. Reidy, doing business as Maple Service Station, 118 Maple Avenue, Hartford, Connecticut, hereinafter called respondent, was duly served with a notice of charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations. Pursuant to said notice, a hearing upon such charges was held in Hartford, Connecticut, on October 26, 1942. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been considered by the Deputy Administrator, It is hereby determined that:

(a) Respondent operates a filling station at 118 Maple Avenue, Hartford, Connecticut, known as Maple Service Station, at which station gasoline is regularly transferred to consumers.

(b) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, in that at divers times between July 22 and September 18, 1942, respondent sold and transferred gasoline to consumers in exchange for gasoline ration coupons Class A, No. 2, and Class A, No. 3.

Because of the great scarcity and critical importance of gasoline in Connecticut, violations of Ration Order No. 5A, Gasoline Rationing Regulations, have necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses, in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator that further violations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(c) During the period in which this Suspension Order shall be in effect,

(1) Respondent shall not sell, transfer or deliver any gasoline to any person.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline for resale.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondent for resale.

(d) Any terms used in this Suspension Order that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(e) This Suspension Order No. 161 shall become effective 12:01 A. M. November 18, 1942, and unless sooner terminated, shall expire 12:01 A. M. December 18, 1942.

TREASURE ISLAND SERVICE STATION

ORDER RESTRICTING TRANSACTIONS

Raymond DeAngelo and Hillaire E. Mark, co-partners, doing business as Treasure Island Service Station, Fair and Olive Streets, New Haven, Connecticut, hereinafter called respondents, were duly served with a notice of charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations. Pursuant to said notice, a hearing upon such charges was held in Hartford, Connecticut, on October 27, 1942. There appeared a representative of the Office of Price Administration and respondents. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been considered by the Deputy Administrator, it is hereby determined that:

(a) Respondents operate a filling station at Fair and Olive Streets, New Haven, Connecticut, known as Treasure Island Service Station, at which station gasoline is regularly transferred to consumers.

(b) Respondents have violated Ration Order No. 5A, Gasoline Rationing Regulations, in that at divers times between July 22 and September 17, 1942, respondents sold and transferred gasoline to consumers in exchange for gasoline ration coupons Class A, No. 2.

Because of the great scarcity and critical importance of gasoline in Connecticut, violations of Ration Order No. 5A, Gasoline Rationing Regulations, have necessarily resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses, in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator that further violations by respondents are likely unless appropriate administrative action is taken.

It is therefore ordered:

(c) During the period in which this Suspension Order shall be in effect,

(1) Respondents shall not sell, transfer or delivery any gasoline to any person.

(2) Respondents shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline for resale.

(3) No person, firm or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondents for resale.

(d) Any terms used in this Suspension Order that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(e) This Suspension Order No. 162 shall become effective 12:01 A. M. November 18, 1942, and unless sooner terminated, shall expire 12:01 A. M. December 18, 1942.

[Suspension Order 155]

DUKE OIL COMPANY

ORDER RESTRICTING TRANSACTIONS

S. W. Duke, doing business as Duke Oil Company, Bremen, Georgia, herein called respondent, was duly served with a notice of specific charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing upon the charges was held on October 9, 1942, in Bremen, Georgia. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Deputy Administrator in Charge of Rationing, It is hereby determined that:

(a) Respondent is a dealer in gasoline within the meaning of Ration Order No. 5A, Gasoline Rationing Regulations, and operates a filling station at Bremen, Georgia.

(b) Respondent has violated § 1394.1502 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 25, 1942, at Bremen, Georgia, respondent transferred 16 gallons of gasoline to J. B. Warren, a consumer, without receiving in exchange therefor any gasoline ration coupon.

(c) Respondent has violated § 1394.1502 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 25, 1942, at Bremen, Georgia, respondent transferred 10 gallons of gasoline to W. F. Whitton, Jr., a consumer, without receiving in exchange therefor any gasoline ration coupon.

(d) Respondent has violated § 1394.1502 of Ration Order No. 5A, Gasoline Rationing Regulations, in that on August 25, 1942, at Bremen, Georgia, respondent transferred about 15 gallons of gasoline to a private consumer, F. E. Deaton, and into the fuel tank of a motor vehicle in exchange for gasoline ration coupons (Class S) from a coupon book that was not issued for and did not bear the identification of the vehicle into which the transfer was made.

(e) The foregoing transfers by respondent were not within the classes of transfers of gasoline permitted by the provisions of Ration Order No. 5A to be made without the exchange of gasoline ration coupons.

Because of the great scarcity and critical importance of gasoline in Georgia, the violations of the gasoline rationing regulations by respondent have resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Deputy Administrator in Charge of Rationing, that further violations of the gasoline rationing regulations by respondent are likely unless appropriate administrative action is taken.

It is therefore ordered:

(f) During the period in which this Suspension Order No. 155 shall be in effect:

(1) Respondent shall not sell, transfer, or deliver any gasoline to any person at or from his fiilling station in Bremen, Georgia.

(2) Respondent shall not accept any deliveries or transfers of or in any manner directly or indirectly receive from any source any gasoline at or for his filling station in Bremen, Georgia.

(3) No person, firm, or corporation shall deliver or in any manner directly or indirectly transfer any gasoline to respondent at or for his filling station in Bremen, Georgia.

(g) Any terms used in this Suspension Order No. 155 that are defined in Ration Order No. 5A, Gasoline Rationing Regulations, shall have the meaning therein given them.

(h) This Suspension Order No. 155 shall become effective 12:01 A. M., November 18, 1942, and unless sooner terminated shall expire 12:01 A. M., January 17, 1943.

[Order 10 Under MPR 169]

STANDARD PACKING COMPANY

ORDER GRANTING PETITION FOR ADJUSTMENT

Order No. 10 under Maximum Price Regulation No. 169—Beef and Veal Carcasses and Wholesale Cuts—Docket No. 3169-70.

On August 22, 1942, Standard Packing Company, 2400 East Vernon Avenue, Los Angeles, California, filed a petition for adjustment or exception pursuant to § 1364.60 of Maximum Price Regulation No. 169 as amended. Due consideration has been given to the petition and an opinion in support of this Order No. 10 has been issued simultaneously herewith, and has been filed with the Division of the Federal Register.

For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Revised Procedural Regulation No. 1 issued by the Office of Price Administration, *It is hereby ordered:*

(a) Standard Packing Company may sell and deliver and agree, offer, solicit, and attempt to sell and deliver beef carcasses of the grades hereinafter set forth and any person may buy and receive from the Standard Packing Company such beef carcasses at prices not in excess of those established as follows:

	Per pound
Beef carcasses—good grade	21½¢

(b) Standard Packing Company shall mail or cause to be mailed to all persons who purchase beef carcasses from it for sale at wholesale or retail a notice reading as follows:

> The Office of Price Administration, by Order No. 10, effective November 16, 1942, pursuant to § 1364.60 of the Maximum Price Regulation No. 169, has permitted us to raise our maximum price for sales to you of beef carcass good grade from 20½¢ per pound to 21½¢ per pound.
>
> This amount represents only that part of cost increase which we were unable to absorb and it was granted with the understanding that wholesale and retail prices would not be raised.
>
> The Office of Price Administration has not permitted you or any other seller to raise the maximum price for sale of carcass beef. In order that we may continue to provide you with carcass beef good grade it will be necessary for you to accept this reduction in your margin.

(c) All prayers of the petition not granted herein are denied.

(d) This Order No. 10 may be revoked or amended by the Price Administrator at any time. Unless the context otherwise requires, the definitions set forth in § 1364.62 of Maximum Price Regulation No. 169 shall apply to the terms used herein.

(e) This Order No. 10 shall become effective November 16, 1942.

Issued this 16th day of November 1942.

LEON HENDERSON,
Administrator.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 54-47]

JACKSONVILLE GAS COMPANY

ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of November, A. D. 1942.

This Commission, on May 28, 1942, having issued its order approving the plan, as modified, of Jacksonville Gas Company to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 (hereinafter called "the Plan"), subject to reservation of jurisdiction with respect to the proposed indenture, certificate of incorporation and similar documents pertaining to the company as should be prepared in connection with and prior to final consummation of the Plan, with respect to such matters as should require the further attention of the Commission in the proceeding under section 15 (f) of the Act, and with respect to such amendments or modifications, if any, of the Plan, as the District Court of the United States for the Southern District of Florida should refer to the Commission for consideration; and

Pursuant to said order, counsel for the Commission having made application on behalf of the Commission to the District Court of the United States for the Southern District of Florida to enforce and carry out the terms and provisions of the Plan; and

Upon due notice and after hearings duly held, the District Court of the United States for the Southern District of Florida having filed its order, approving the Plan as fair and equitable and appropriate to effectuate the provisions of section 11 of the Act, which order authorized and directed Jacksonville Gas Company, among other things, to do such acts as may be necessary or appropriate to carry out the terms and provisions of the Plan, including such acts as may be necessary to effect the organization of a new corporation under the laws of the State of Florida to be called "Jacksonville Gas Corporation," to cause Jacksonville Gas Corporation to execute, file and adopt a certificate of incorporation and by-laws subject to approval by the Commission and by the Court, to cause Jacksonville Gas Corporation to execute with The Florida National Bank of Jacksonville as Trustee a first mortgage and deed of trust subject to approval by the Commission and by the Court, to execute and file and cause Jacksonville Gas Corporation to execute and file subject to the approval of the Commission and of the Court, such documents as may be appropriate in connection with the consummation of the Plan, and to incur and pay or cause Jacksonville Gas Corporation to incur and pay taxes, charges, expenses, compensation and fees in connection with the consummation of the Plan in amounts not exceeding the sums estimated as part of the Plan, subject to obtaining approval of the Commission for all payments requiring such approval under the applicable rules and orders of the Commission; and

Jacksonville Gas Company having filed with the Commission Amendments No. 7, No. 8 and No. 9 to its Application, setting forth:

(1) A proposed Certificate of Incorporation and By-laws of Jacksonville Gas Corporation and a proposed First Mortgage and Deed of Trust from Jacksonville Gas Corporation to The Florida National Bank of Jacksonville as Trustee;

(2) Pro forma balance sheets of Jacksonville Gas Corporation as at December 31, 1941 and May 31, 1942;

(3) An outline of the mechanics of consummating the Plan, including certain modifications thereof with respect to the following matters: (a) the initial board of directors and the initial officers of Jacksonville Gas Corporation, (b) the reservation of 18 shares of the authorized and unissued common stock of Jacksonville Gas Corporation for issuance to such persons as may be entitled to receive all or part of the $18,159.50 principal amount of unissued income notes of Jacksonville Gas Company, (c) payment of cash to holders of income debentures and income notes of Jacksonville Gas Company, and to persons entitled to receive unissued income notes of Jacksonville Gas Company, in principal amounts less than $1,000 or in excess of even multiples of $1,000, at the rate of 1.5575¢ for each dollar of such fractional principal amounts, (d) the reduction in the number of shares of Jacksonville Gas Corporation's common stock to be issued and delivered and to be reserved for issuance, from 36,448 shares and 18 shares respectively, to the extent required by payment of fractional claims in cash, (e) increase of cash to be deposited with the exchange agent in an amount sufficient to pay fractional claims in cash, estimated not to exceed $3,000, and (f) the naming of a Stock Transfer Agent, a Stock Registrar and an Exchange Agent;

(4) A request that the Commission's order include certain recitals pursuant to the provisions of subdivision (f) of Section 1808 of the Internal Revenue Code;

(5) A request that the Commission approve the instruments referred to in said amendments and the provisions relative to the plan therein set forth;

(6) A request that the Commission reserve jurisdiction with respect to any increases in fees and expenses over and above those already approved as part of the Plan; and

(7) A request that the Commission make application to the District Court of the United States for the Southern District of Florida for an order approving and enforcing the modifications of the plan proposed in said amendments; and

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors that a hearing be held with respect to said matters and that said Amendments shall not be approved except pursuant to further order of this Commission:

It is ordered, That a hearing on such matters under the applicable provisions of the Act and the rules of the Commission thereunder be held on November 24, 1942 at 10 A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held.

It is further ordered, That Charles S. Lobingier, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings on such matters. The officer so designated to preside at such hearings is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act, and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said Amendments otherwise to be considered in these proceedings, particular attention will be directed at the hearings to the following matters and questions:

1. Whether the proposed First Mortgage and Deed of Trust, Certificate of Incorporation and By-laws are necessary or appropriate to carry out the terms and provisions of the Plan as approved by the Commission and by the United States District Court for the Southern District of Florida.
2. Whether the proposed pro forma balance sheets reflect the accounting entries required by the terms and provisions of the Plan.
3. Whether the mechanics of consummating the Plan, and the proposed modifications thereof, are necessary or appropriate to carry out the terms and provisions of the Plan.

By the Commission.

TRI-CITY UTILITIES COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 12th day of November 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, by Tri-City Utilities Company, a subsidiary of Associated Electric Company, a registered holding company; and

Notice is further given that any interested person may, not later than November 23, 1942, at 5:30 p. m. E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Tri-City Utilities Company proposes to sell for an aggregate base price of $195,000, in cash, all the properties (including materials and supplies) comprising its Ohio River electric division, to Meade County Rural Electric Cooperative Corporation and Green River Rural Electric Cooperative Corporation, in accordance with the terms and provisions of an agreement dated November 6, 1942. The utility assets herein proposed to be sold are located in the Counties of Breckinridge and Hancock, in the Commonwealth of Kentucky, and in the County of Perry, in the State of Indiana.

Tri-City Utilities Company has requested that the Commission issue its order permitting the declaration to become effective, or granting the application, on or before November 25, 1942.

By the Commission.

CINCINNATI GAS AND EECTRIC COMPANY, ET AL.

ORDER GRANTING APPLICATION AND DECLARATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 12th day of November, A. D. 1942.

In the Matter of Cincinnati Gas & Electric Company, Hamilton Service Company, Harrison Electric and Water Company, Loveland Light and Water Company, West Harrison Electric and Water Company, and Columbia Gas & Electric Corporation.

Columbia Gas & Electric Corporation, a registered holding company, and The Cincinnati Gas & Electric Company, The Hamilton Service Company, The Harrison Electric and Water Company, The Loveland Light and Water Company, and West Harrison Electric and Water Company, subsidiaries thereof, having filed appropriate joint applications and declarations, and amendments thereto, under sections 6 (b), 12, 9 (a), and 10 of the Public Utility Holding Company Act of 1935 and Rule U-43 promulgated thereunder, for approval of the merger of said The Hamilton Service Company, The Harrison Electric and Water Company and The Loveland Light and Water Company into said The Cincinnati Gas & Electric Company, with the latter company continuing as the surviving corporation, and also with respect to transactions incident thereto; and

Columbia Gas & Electric Corporation having filed an application under Instruction 8 (C) of the Uniform System of Accounts of Public Utility Holding Companies, promulgated under said Act, for approval of the accounting treatment of the additional investment it proposes to make in Cincinnati as a part of the merger program; and

Public hearings having been held on said applications and declarations, after appropriate notice, and the Commission having examined the record and made and filed its Findings based thereon;

It is ordered, That said applications and declarations, as amended, be and they hereby are approved and permitted to become effective, subject, however, to the terms and conditions prescribed by Rule U-24; and subject to the further condition that the express authorization or approval by the Indian Public Service Commission of the proposed transactions involved in the acquisition by West Harrison Electric and Water Company of the assets of The Harrison Electric and Water Company, located in the state of Indiana, be obtained and submitted to this Commission within sixty days from the date of this order:

Provided, That jurisdiction is reserved to take such action as may at any time be deemed appropriate with respect to the accounts of The Cincinnati Gas & Electric Company, the accounting treatment of the aggregate carrying value of the investment of Columbia Gas & Electric Corporation in the securities of The Cincinnati Gas & Electric Company, or the retainability of any of the properties of the companies involved in the merger in the holding company system.

THE GREATER NEW YORK BREWERY, INC.

ORDER FOR HEARING AND DESIGNATING OFFICER TO TAKE TESTIMONY

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 13th day of November, A. D. 1942.

In the Matter of proceeding under section 19(a)(2) of the Securities Exchange Act of 1934, as amended, to determine whether the registration of The Greater New York Brewery, Inc. Common Capital Stock, $1.00 Par Value, should be suspended or withdrawn.

I

It appearing to the Commission:

That The Greater New York Brewery, Inc., (formerly Fidelio Brewery, Inc.) a corporation organized under the laws of the State of New York, is the issuer of Common Capital Stock, $1.00 Par Value; and

That said The Greater New York Brewery, Inc. registered such security on the New York Curb Exchange, a national securities exchange, by filing with the Exchange and with the Commission on or about April 18, 1935 an application on Form 10, and on or about February 28, 1941 and March 17, 1941 applications on Form 8-A, pursuant to section 12(b) and (c) of the Securities Exchange Act of 1934, as amended, and Rule X-12B-1, as amended, promulgated by the Commission thereunder, registration pursuant to such applications having become effective on July 1, 1935 and April 18, 1941, respectively, and remaining in effect to and including the date hereof; and

It further appearing to the Commission:

That Rule X-13A-1, promulgated pursuant to section 13 of said Securities Exchange Act of 1934, as amended, did and does require that an annual report for each issuer of a security registered on a national securities exchange shall be filed on the appropriate form prescribed therefor; and

That Rule X-13A-2, promulgated pursuant to section 13 of the Securities Exchange Act of 1934, as amended, did and does prescribe Form 10-K as the annual report form to be used for the annual reports of all corporations except those for which another form is specified, and that no other form was or is specified for use by the said The Greater New York Brewery, Inc.; and

That said Rule X-13A-1 requires that said annual report be filed not more than 120 days after the close of each fiscal year or such other period as may be prescribed in the instruction book applicable to the particular form; that the Instruction Book for Form 10-K does not prescribe any period other than such 120 days; and that pursuant to said Rule X-13A-1 the annual report must be filed within such period unless the registrant files with the Commission a request for an extension of time to a specified date within six months after the close of the fiscal year; and

That said The Greater New York Brewery, Inc. has a fiscal year ending September 30; that the annual report for its fiscal year ended September 30, 1941 was due to be filed not later than January 28, 1942; that the time for filing was extended to March 31, 1942, the maximum extension permitted by Rule X-13A-1; that the annual report for the fiscal year ended September 30, 1941 was not filed either within such extended period or at any later date; and

II

The Commission having reasonable cause to believe that:

The said The Greater New York Brewery, Inc. has failed to comply with the provisions of Section 13 of the Securities Exchange Act of 1934, as amended, and Rules X-13A-1 and X-13A-2 promulgated thereunder, in that (1) it has failed to file its annual report for the year ended September 30, 1941 within the time prescribed for filing said report, and (2) it has failed to file such annual report at any later date; and

III

It being the opinion of the Commission that the hearing herein ordered to be held is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Securities Exchange Act of 1934, as amended;

It is ordered, pursuant to section 19 (a) (2) of said Act, that a public hearing be held to determine whether The Greater New York Brewery, Inc. has failed to comply with section 13 of the Securities Exchange Act of 1934, as amended, and the Rules, Regulations and Forms promulgated by the Commission thereunder, in the respects set forth above; and if so, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months or to withdraw the registration of the Common Capital Stock, $1.00 Par Value, of said The Greater New York Brewery, Inc. on said New York Curb Exchange;

It is further ordered, pursuant to the provisions of section 21 (b) of the Securities Exchange Act of 1934, as amended, that for the purpose of such hearing, Frederick T. Finnigan, an officer of the Commission, is hereby designated to administer oaths and affirmations, subpoena witnesses, compel their attendance, take testimony and require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law;

It is further ordered, That the taking of testimony in this hearing begin on the 24th day of November, 1942, at 10:00 A. M. Eastern War Time at the Regional Office of the Securities and Exchange Commission, 120 Broadway, New York, New York, and continue thereafter at such time and place as the officer hereinbefore designated may determine.

By the Commission.

Associated Electric Company et. al.

ORDER REVOKING PREVIOUS ORDER AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 13th day of November 1942.

In the matter of Associated Electric Company, Metropolitan Edison Company and Staten Island Edison Corporation.

Associated Electric Company, a registered holding company; Staten Island Edison Corporation, a subsidiary of New York State Electric & Gas Corporation and an indirect subsidiary of NY PA NJ Utilities Company, a registered holding company; and Metropolitan Edison Company, a subsidiary of NY PA NJ Utilities Company, having filed declarations pursuant to sections 12 (b), 12 (c), and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-42, U-43, and U-45 promulgated thereunder, in regard to the following transactions: Associated Electric Company proposes to acquire (a) $2,222,000 principal amount of its own 4½% bonds, due January 1, 1953, from Staten Island Edison Corporation for a cash consideration of $955,460, plus accrued interest (the consideration being determined upon the basis of 43% of principal amount), and (b) $3,602,000 principal amount of its own 4½% bonds, refunding series, due April 1, 1956, from Metropolitan Edison Company, for a cash consideration of $1,548,860, plus accrued interest (the consideration also being determined upon the basis of 43% of principal amount); and Staten Island Edison Corporation proposes to advance the sum of $1,050,000 to its subsidiary, Richmond Light and Railroad Company, to enable such company to have sufficient cash available to redeem, at the call price of 105, the entire outstanding issue of $1,000,000 principal amount of its First and Collateral Trust 4% 50-year Gold Bonds, due July 1, 1952; and

Such declarations having been filed on October 10, 1942, and a notice and amended notices of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission having, on November 10, 1942, issued an order permitting the declarations to become effective in regard to and limited to the acquisition by Associated Electric Company of $2,222,000 principal amount of its 4½% Bonds, due January 1, 1953, from Staten Island Edison Corporation for a cash consideration of $955,460, plus accrued interest, and to the advance by Staten Island Edison Corporation of the sum of $1,050,000 to Richmond Light and Railroad Company and having reserved jurisdiction therein in regard to the proposed sale by Metropolitan Edison Company of Associated Electric Company bonds; and

It appearing that the Public Service Commission of the State of New York had requested a hearing with respect to said declarations within the period specified in the amended notices and that the declarants have agreed that the record be reopened; and

It appearing to the Commission that the order, dated November 10, 1942, should be revoked and that a hearing should be held upon all said declarations;

It is ordered, That the order of the Commission, dated November 10, 1942, be, and hereby is, revoked and rescinded.

It is further ordered, That the record in the matter be reopened and that a hearing be held under the applicable provisions of the Public Utility Holding Company Act of 1935 and rules of the Commission thereunder, on December 2, 1942, at 10:00 a. m., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in the room designated on said day by the hearing room clerk in room 318.

It is further ordered, That Charles S. Lobingier or any other officer or officers of the Commission designated by it for that purpose shall preside at any such hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the generality of the foregoing and without limiting the scope of the proceedings as specified herein, particular attention will be directed at said hearing to the following matters and questions:

1. Whether terms and conditions are necessary to be imposed in the public interest and in the interest of the investors and consumers to insure compliance with the requirements of the Public Utility Holding Company Act of 1935, or any rules, regulations, or orders promulgated thereunder;

2. Generally, whether all actions proposed to be taken comply with the requirements of such Act and rules and regulations or orders promulgated thereunder.

Notice is hereby given of said hearing to the above-named declarants, and to all interested persons; said notice to be given to said declarants by registered mail, and to all other persons by publication in the Federal Register. It is requested that any person desiring to be heard in this proceeding shall file with the Secretary of this Commission on or before November 27, 1942, an appropriate request or application to be heard as provided by Rule XVII of the Commission's Rules of Practice.

By the Commisison.

[Cotton 1943-44, Amendment 1]

PART 722—COTTON

COTTON MARKETING QUOTAS, 1943–44 MARKETING YEAR

In order to clarify the language in paragraphs (e) and (f), and to correct two typographical errors in paragraph (h), those paragraphs of § 722.501 of the Cotton Marketing Quota Proclamation for the 1943–44 Marketing Year, issued by the Secretary of Agriculture on November 6, 1942,[1] are hereby amended to read as follows:

§ 722.501 *Findings and determinations.* * * *

(e) That the "probable exports of American cotton" during the marketing year beginning August 1, 1942, is larger than the exports of American cotton in 1941–42.

(f) That the "estimated carry-over" of American cotton as of August 1, 1943, is more than 11.1 million running bales.

* * * * *

(h) That the national allotment of cotton for the calendar year beginning on January 1, 1943, shall be 10,000,000 standard bales of 500 pounds gross weight, increased by that number of standard bales of 500 pounds gross weight equal to the production in the calendar year 1943 of that number of acres required to be allotted for 1943 under the terms of section 344 (e) of said Act.

Done at Washington, D. C., this 14th day of November 1942. Witness my hand and the seal of the Department of Agriculture.

Chapter V—Military Reservations and National Cemeteries

PART 57—SERVICE CLUBS, HOSTESSES, AND LIBRARIANS

LIBRARIAN AND HOSTESS UNIFORMS

Section 57.21[1] (e) (1) and (2) are added as follows:

§ 57.21 *Service uniform for hostesses and librarians; general.* * * *

(e) (1) The Army exchange at the various posts, camps, and stations will handle the orders for all uniforms for hostesses and librarians and will make service charges as specified in War Department instructions.

(2) The Army hostesses and librarians will have their measurements taken by tailors of their own choosing and furnish the Army exchange the size uniform and other necessary information in order that the exchange officer may place the order with the manufacturer. The finished garment will be shipped by the manufacturer to the exchange which will pay the manufacturer and collect for the various articles from the Army hostesses and librarians who will take such uniform to a tailor of their own choosing for any necessary alteration, unless the post tailor can accommodate and is able to perform the necessary alteration.

PART 803—GENERAL ORDERS

WAGE OR SALARY ADJUSTMENTS FOR STATE GOVERNMENTS

§ 803.12 *General Order No. 12.* A state or its political subdivision, or any agency or instrumentality thereof, which proposes to make an adjustment in salaries or wages not fixed by State statute which would otherwise require the prior approval of the National War Labor Board may make such adjustment on certification to the Board that the adjustment is necessary to correct maladjustments, or to correct inequalities or gross inequities, as defined in the Board's Statement of Wage Policy of November 6, 1942. A certificate by the official or agency authorizing the adjustment stating the nature and amount of such adjustment, and briefly setting forth the facts meeting the foregoing requirement, will be accepted by the Board as sufficient evidence of the propriety of the adjustment, subject to review by the Board. Modification by the Board of adjustments made by a governmental official or agency acting pursuant hereto shall not be retroactive. The certificate prescribed herein, together with four copies thereof, shall be filed promptly with the committee established by joint action of the National War Labor Board and the Commissioner of Internal Revenue, namely, the Joint Committee on Salaries and Wages, Room 5406, Department of Labor Building, Washington, D. C., which will forward the same to the Board or the Commissioner, as the case may require.

The certification procedure shall not apply to any adjustment which would raise salaries or wages beyond the prevailing level of compensation for similar services in the area or community. In exceptional cases where such an adjustment is sought, and in all cases where the agency seeks an adjustment other than by the certification procedure, application for approval shall be filed with the appropriate Regional Office of the National War Labor Board.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A–1603]

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of Springfield Coal Corporation, operator of Springfield No. 5 Mine, Mine Index No. 153, for approval of agreement to purchase 400 net tons of coal per day from F. R. Maurer and T. F. Price a co-partnership, doing business as Maurer and Price, operator of the Cornwall No. 6 (S), Mine Index No. 3705, and Cornwall No. 7 (D) Mine, Mine Index No. 3706, for changes in freight origin group numbers and shipping points for the coals of Mine Index Nos. 3705 and 3706, and for permission to mix the coals of these mines.

An original petition having been duly filed with this Division by the Springfield Coal Corporation, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the approval of an agreement attached thereto and requesting temporary and permanent relief to load and mix the coals produced by Mine Index Nos. 3705 and 3706 with the coals of Mine Index No. 153; and

It appearing that the proposed agreement attached to the original petition does not comply with the Marketing Rules and Regulations promulgated by the Division; it appearing, however, that a reasonable showing of necessity has been made for granting temporary relief in the manner hereinafter set forth; no petitions of intervention having been filed with this Division in the above-entitled matter; and the following action being deemed necessary in order to effectuate the purposes of the Act;

It is, therefore, ordered, That, pending final disposition of the above-entitled matter, temporary relief be, and the same hereby is, granted as follows: Commencing forthwith, § 321.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, which supplement is hereinafter set forth and hereby made a part hereof; and commencing forthwith the freight origin group numbers and shipping points appearing in the aforesaid Supplement R for the mines mentioned therein are effective in place of the freight origin group numbers and shipping points heretofore established for these mines and the mixing of the coals of Mine Index Nos. 3705 and 3706 with the coals of Mine Index No. 153 is hereby approved.

It is further ordered, That nothing in this order shall be construed as approval of the contract attached to the original petition inasmuch as the said contract does not comply with the Marketing Rules and Regulations promulgated by the Division.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter, and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless otherwise ordered.

Dated: November 3, 1942.

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER GRANTING RELIEF, ETC.

Order of consolidation and order granting temporary relief and conditionally providing for final relief in the matter of the petitions of District Board No. 1 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 1 and for a change in shipping points for the coals of certain mines in District No. 1.

Original petitions, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named parties, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 1, and for a change in shipping points for the coals of certain mines in District No. 1; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matters; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That the above-entitled matters are herein consolidated.

It is further ordered, That, pending final disposition of the above-entitled matters, temporary relief is granted as follows: Commencing forthwith, § 321.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I and R–II, and § 321.24 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof; and commencing forthwith, the shipping points and railroads appearing in the aforesaid Supplement R–II for the coals of Mine Index Nos. 745, 491, 2216, 1491 and 1407 shall be as therein shown instead of the shipping points and railroads heretofore applicable to these mines; and commencing forthwith, the shipping points appearing in Supplement R–II for the coals of Mine Index Nos. 2280 and 522 shall be as therein shown instead of the shipping points heretofore applicable for these mines.

It is further ordered, That pleadings in opposition to the original petitions in the above-entitled matters and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

A change in shipping point for the coals of the Moore Mine, Mine Index No. 1793, formerly operated in the name of Andrew Wallwork, has not been established for the reason that this mine is presently operated in the name of Ernest Moore.

Dated: November 4, 1942.

PART 1052—KITCHEN, HOUSEHOLD AND OTHER MISCELLANEOUS ARTICLES

[Supplementary Limitation Order L–30–d]

MISCELLANEOUS COOKING UTENSILS AND OTHER ARTICLES

§ 1052.5 *Supplementary Limitation Order L–30–d*—(a) *Definitions.* For the purposes of this order:

(1) "Preferred order" means a purchase order, contract or subcontract for delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration.

(2) "Miscellaneous cooking utensil" means any utensil containing more than 7½%, by weight, of metal, which is designed primarily for use in the preparation or cooking of food, whether for household, institutional commercial, governmental or any other purpose, including but not limited to, glass and ceramic flameware, but excluding any utensil the production of which is governed by Supplementary Limitation Orders L–30–b or L–30–c, or expressly exempted from the provisions of those orders when produced pursuant to preferred orders.

(3) "Kitchen tools" means articles containing more than 5%, by weight, of metal, commonly known as kitchen tools, including, but not limited to, can openers, jar openers, bottle openers, strainers, flour sifters, food whips, food mills, dippers, scoops, choppers, slicers, corers, mashers, shapers, beaters, graters, grinders, cutters, sieves, cake turners, basting spoons, cork screws and skewers, but excluding cutlery (which is governed by Limitation Order L–140), electrical appliances (which are governed by Limitation Order L–65), gas appliances and power-driven equipment.

(4) "Household storage articles" means articles containing more than 5%, by

weight, of metal, designed for the storage of food or household supplies, including but not limited to, canisters, spice sets, cake covers or safes, holders for salt, soap or cleanser cartons, step-on cans, lunch boxes, vacuum jugs and bottles, and window boxes for the storage of food, but excluding

(i) Pails, buckets and tubs;

(ii) Containers designed for the packing, shipment or delivery of materials or products of any kind, including but not limited to, cans as defined in Conservation Orders M–81 or M–136, glass containers or closures as defined in Limitation Order L–103, and drums as defined in Limitation Order L–197; and

(iii) Articles the production of which is governed by Supplementary Limitation Orders L–30–a, L–30–b or L–30–c, or expressly exempted from the provisions of those orders when produced pursuant to preferred orders.

(5) "Manufacturer" means any person engaged in the business of producing or assembling any miscellaneous cooking utensils, kitchen tools, household storage articles or any other products covered by this order, or any parts (including repair parts) for such utensils, kitchen tools, storage articles or products.

(6) "Put into process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(7) "Base period" means the twelve months ending June 30, 1941.

(8) "Black steel" means uncoated, polished or lacquered carbon steel. It does not include any steel which has a metal or vitreous-enameled coating.

(9) "Joining hardware" means nuts, screws, nails, bolts, clasps, rivets and other similar items of small hardware used for joining or other similar purposes.

(10) "Repair part" means any part for an article or product which is not produced for or used in a new article or product.

(b) *Prohibition on production of miscellaneous articles.* (1) No manufacturer shall process, fabricate, work on or assemble any iron, steel or other metal for use in the following kitchen, household and other miscellaneous articles (whether manufactured for household or for any other purpose): all closet accessories, including but not limited to, coat and garment hangers and hooks, tie racks, and boot and shoe-trees; all articles of fireplace equipment; towel bars and racks, tooth brush holders, soap dishes, soap savers, toilet and other paper holders, pot chains, fly swatters, sink drainers, dish drainers, cuspidors, spittoons, vegetable bins, curtain rods and fixtures, drapery attachments, clothes pins, candlesticks, carpet beaters, carpet sweepers, pot cover holders, picnic stoves, camp grids, cup frames and cake coolers, except for the minimum amount of iron and steel (not to exceed 5% of the weight of the article) contained in necessary joining hardware.

(2) Except as provided in paragraph (g), on and after November 23, 1942, no manufacturer shall process, fabricate, work on or assemble any iron, steel or other metal for use in the production of any of the following articles or parts (including repair parts) for such articles:

(i) Dish pans (except black steel dish pans produced pursuant to preferred orders), rinsing pans, pot scourers and other sink accessories (not included in subparagraph (1) of this paragraph (b)), funnels, dust pans, silent butlers, crumb sets, wash boards and clothes wringers, except for the minimum amount of iron and steel (not exceeding 5% of the weight of the article) contained in necessary joining hardware, and except for any such articles the production of which is governed by Supplementary Limitation Orders L–30–a or L–30–b, or expressly exempted from the provisions of those orders when produced pursuant to preferred orders; or

(ii) Concrete garbage receptacles containing more than 5%, by weight, of metal, exclusive of the weight of separate bases or blocks.

(c) *Restrictions on miscellaneous cooking utensils.* (1) Except as provided in paragraph (g), on and after November 23, 1942, no manufacturer shall process, fabricate, work on or assemble any iron, steel or other metal for use in the production of any miscellaneous cooking utensils containing 20% or more of metal, by weight, or parts for such utensils, except

(i) Black steel frying pans having a bottom diameter of from 8 to 12 inches, inclusive;

(ii) Black steel heavy-duty roast pans without covers, having a capacity of from 675 cubic inches to 2600 cubic inches, inclusive, and having two or three reinforcing straps and wired edges; and

(iii) Black steel or tinned utensils, including liquid and dry measures, (other than black steel frying pans or heavy-duty roast pans), or stamped bakery equipment, when such utensils or equipment are produced pursuant to preferred orders.

(2) No manufacturer shall put into process more iron and steel, by weight, in the production of

(i) Black steel frying pans

(*a*) During the period from November 10, 1942 to December 31, 1942, inclusive, than two times 50% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of black steel frying pans; or

(*b*) During the period of three months beginning January 1, 1943, and during each succeeding period of three months, than three times 50% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of black steel frying pans;

(ii) Black steel heavy-duty roast pans

(*a*) During the period from November 10, 1942 to December 31, 1942, inclusive, than two times 35% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of black steel heavy-duty roast pans; or

(*b*) During the period of three months beginning January 1, 1943, and during each succeeding period of three months, than three times 35% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of black steel heavy-duty roast pans; or

(iii) Miscellaneous cooking utensils containing more than 7½%, but less than 20%, of metal, by weight, and parts for such utensils (other than repair parts)

(*a*) During the period from November 10, 1942 to December 31, 1942, inclusive, than two times 100% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of such cooking utensils and parts (including repair parts); or

(*b*) During the period of three months beginning January 1, 1943, and during each succeeding period of three months, than three times 100% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of such cooking utensils and parts (including repair parts); or

(iv) Repair parts for miscellaneous cooking utensils containing more than 7½%, but less than 20%, of metal, by weight.

(*a*) During the period from November 10, 1942 to December 31, 1942, inclusive, than two times 5% of the monthly average amount of iron and steel, by weight, put into process by him during the base period in the production of such cooking utensils and parts for such utensils (including repair parts); or

(*b*) During the period of three months beginning January 1, 1943, and during each succeeding period of three months, than three times 5% of the monthly average amount of iron and steel, by weight, put into process by him during the base period in the production of such cooking utensils and parts for such utensils (including repair parts).

(d) *Restrictions on kitchen tools.* (1) Except as provided in paragraph (g), on and after November 23, 1942, no manufacturer shall process, fabricate, work on or assemble any iron, steel or other metal for use in the production of any kitchen tools, except

(i) The following kitchen tools:

Basting spoons, 14 to 21 inches, inclusive, in overall length.
Cake turners, 13 to 21 inches, inclusive, in overall length.
Can openers.
Egg beaters, rotary type, 10 inches or longer, including handle.
Food choppers and grinders.
Food mills.
Wire strainers.
Wire whips, commercial type, 12 inches or longer.

(ii) The following kitchen tools in fulfillment of preferred orders only:

Butter cutters.
Dippers.
French fry cutters.
Nutmeg graters.
Skimmers.
Sugar and flour scoops.
Vegetable graters.

(iii) Any other kitchen tool in fulfillment of preferred orders for use on board ship only.

(2) Except in fulfillment of preferred orders for use on board ship, no manufacturer shall put into process more iron and steel, by weight, in the production of

(i) Any kitchen tool listed in subparagraph (1) of this paragraph (d), and parts for such tool (other than repair parts)

(*a*) During the period from November 10, 1942 to December 31, 1942, inclusive, than two times 35% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of such kitchen tool and parts for such tool (including repair parts); or

(*b*) During the period of three months beginning January 1, 1943 and during each succeeding period of three months, than three times 35% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of such kitchen tool and parts for such tool (including repair parts); or

(ii) Repair parts for any kitchen tool

(*a*) During the period from November 10, 1942 to December 31, 1942, inclusive, than two times 5% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of such kitchen tool and parts for such tool (including repair parts); or

(*b*) During the period of three months beginning January 1, 1943, and during each succeeding period of three months, than three times 5% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of such kitchen tool or parts for such tool (including repair parts).

(e) *Restrictions on household storage articles.* (1) Except as provided in paragraph (g), on and after November 23, 1942, no manufacturer shall process, fabricate, work on or assemble any iron, steel or other metal for use in the production of any household storage articles, except vacuum bottles with a capacity of one quart or less and, pursuant to preferred orders, vacuum bottles and jugs with a capacity of more than one quart.

(2) No manufacturer shall put into process more iron and steel, by weight, in the production of vacuum bottles with a capacity of one quart or less

(i) During the period from November 10, 1942 to December 31, 1942, inclusive, than two times 50% of the average monthly amount of iron and steel by weight, put into process by him during the base period in the production of such vacuum bottles; or

(ii) During the period of three months beginning January 1, 1943, and during each succeeding period of three months, than three times 50% of the average monthly amount of iron and steel, by weight, put into process by him during the base period in the production of such vacuum bottles.

(f) *Restrictions on pails, buckets and tubs.* Except as provided in paragraph (g), on and after November 23, 1942, no manufacturer shall process, fabricate, work on or assemble any iron or steel for use in the production of any pails, buckets or tubs, except

(1) Pails or tubs designed expressly for use as packing or shipping containers;

(2) Pails or tubs which contain iron or steel only in hoops, bails, ears, handles and joining hardware, provided that the total weight of such iron and steel does not exceed 15% of the total weight of the pail or tub, and further provided that any such pail, or any such tub with a capacity of less than 15 gallons, does not have more than two hoops containing iron or steel;

(3) Dairy pails;

(4) Pails, buckets or tubs when made of black steel and produced pursuant to preferred orders; and

(5) Pails, buckets or tubs the production of which is governed by Supplementary Limitation Orders L–30–a or L–30–b, or expressly exempted from the provisions of those orders when produced pursuant to preferred orders.

(g) *Exceptions.* Notwithstanding the provisions of paragraphs (b) (2), (c) (1), (d) (1), (e) (1) and (f), a manufacturer may complete the fabrication and assembly of any article included in such paragraphs from iron or steel which, on November 17, 1942, had been cut, blanked or otherwise formed to size for such article by him or by any other person, provided that such article is completed on or before December 31, 1942, except for the application of a coating or finish or the attaching of handles, bails or ears, which may be done thereafter.

(h) *Applicability of other orders.* The provisions of this order shall supersede the provisions of Limitation Order L–30 in respect to all articles the production of which is governed by this order. In so far as any other order restricts the use of any material in the production of any articles to a greater extent than the limits imposed by this order, the restrictions of such other order shall govern unless otherwise specified therein.

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(j) *Appeal.* Any appeal from the provisions of this order should be made on Form PD–500, directed to the War Production Board, Consumers' Durable Goods Branch, Washington, D. C., Ref.: L–30–d.

(k) *Avoidance of excessive inventories.* No manufacturer shall accumulate for use in the manufacture of articles the production of which is governed by this order, inventories of raw materials, semiprocessed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production permitted by this order.

(l) *Records.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventories, production and sales.

(m) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(n) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(o) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(p) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers' Durable Goods Branch, Washington, D. C. Ref: L–30–d.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 3115—CONSTRUCTION MACHINERY AND EQUIPMENT SIMPLIFICATION AND CONSERVATION

[Limitation Order L–217]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used in the production of construction machinery and equipment and repair parts for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3115.1 *Limitation Order L–217*—(a) *Issuance of schedules for simplification of lines and conservation of materials.* The Director General for Operations may from time to time issue schedules to this order establishing conservation of materials and simplified practices with respect to types, sizes, forms, specifications or other qualifications for construction machinery and equipment or parts thereof. From and after the effective date of any such schedules, no such products or materials shall be produced, fabricated, processed or assembled except in conformity with the issued schedules and except as specifically permitted by any such schedules. Any schedule issued pursuant hereto may also contain any other restrictions concerning such materials and products that may be deemed necessary and appropriate, such as restrictions on the sale, puchase, transfer, delivery or uses thereof.

(b) *Applicability of priorities regulations.* This order and any schedules thereto and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(c) *Records.* All persons affected by this order, or any schedule issued pursuant hereto, shall keep and preserve for not less than two years accurate and complete records concerning orders, inventories, production, sales and deliveries.

(d) *Audit and inspection.* All records required to be kept by this order, shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(e) *Reports.* All persons affected by this order, or any schedule issued pursuant hereto, shall file such reports as may be required from time to time by the War Production Board.

(f) *Violations.* Any person who wilfully violates any provision of this order, or any schedule thereto, or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(g) *Appeal.* Any appeals from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(h) *Communications.* All reports to be filed and other communications concerning this order shall be addressed to War Production Board, Construction Machinery Branch, Washington, D. C., Ref: L-217.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 17th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 3115—CONSTRUCTION MACHINERY AND EQUIPMENT SIMPLIFICATION AND CONSERVATION

[Schedule I to Limitation Order L-217]

SCRAPERS

§ 3115.2 *Schedule I to Limitation Order L-217*—(a) *Definitions.* For the purpose of this Schedule I:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Producer" means any person engaged in the manufacture of scrapers.

(3) "Scraper" means any power drawn or self-propelled, self-loading construction machine commonly called a scraper used in the excavating, hauling and spreading of earth, rock and other similar substances.

(4) "Power control unit" means any hydraulic or cable controlled device powered by a tractor or similar unit and used for regulating the excavating, carrying and unloading of the scraper.

(5) "Prime mover" means a unit producing the necessary power for operating a scraper.

(6) "Repair part" means any part manufactured for use in the repair of scrapers.

(7) "Alloy steel" means all alloy steel castings, ingots, blooms, slabs, billets, forgings and all other semi-finished and finished rolled or drawn steels containing any one or more of the following elements in the following amounts:

(i) Manganese in excess of 1.65%.

(ii) Silicon in excess of 0.60%.

(iii) Copper in excess of 0.60%.

(iv) Aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, vanadium, zirconium, or any other alloying element in any amount specified or known to have been added to obtain a desired alloying effect.

(b) *Conservation of materials*—(1) *Restriction on the use of alloy steel.* (i) On and after November 17, 1942, no producer shall use or put into process any alloy steel except to produce scrapers appearing on production schedules already approved by the Director General for Operations, and then only until December 15, 1942 as provided in paragraph (b) (1) (ii) hereof.

(ii) On and after December 15, 1942, no producer shall use alloy steel in the manufacture or assembly of scrapers or repair parts except as provided in paragraph (b) (2) hereof.

(2) *Power control units, prime movers and anti-friction bearings.* The restrictions provided for in paragraphs (b) (1) (i) and (b) (1) (ii), hereof shall not apply to the manufacture or processing of power control units, prime movers and anti-friction bearings.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 17th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 932—CORK AND PRODUCTS AND MATERIALS OF WHICH CORK IS A COMPONENT

[Amendment 3 of General Preference Order M-8-a]

Section 932.2 *General Preference Order M-8-a* [1] is hereby amended by adding the following subparagraph (2) to paragraph (e) to-wit:

(2) Notwithstanding any general authorization for the processing or delivery of cork discs for beverage crowns granted in any monthly allocation schedule, except as specifically authorized by the Director General for Operations:

(i) No person not regularly engaged in the business of manufacturing and selling crowns with cork discs shall purchase or receive cork discs not in crown shells if his inventory, plus the amount to be acquired, is in excess of the number of cork discs not in crown shells he can and will insert or have inserted in crown shells during the 30-day period succeeding the date of proposed acquisition; and

(ii) No person shall sell or deliver cork discs not in crown shells to any person, other than one regularly engaged in the business of manufacturing and selling crowns with cork discs, unless the purchaser shall execute in duplicate Form PD-711, and deliver one copy to the seller with the purchase order. The seller shall retain such copy in his files for a period of two years.

PART 1047—PETROLEUM MATERIAL CONSERVATION

[Conservation Order M-68-c as Amended Nov. 17, 1942]

Section 1047.4 *Conservation Order M-68-c* is hereby amended to read as follows:

§ 1047.4 *Conservation Order M-68-c*—(a) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to the applicable provisions of any priorities regulation issued by the War Production Board, as amended from time to time.

(b) *Definitions.* (1) "Person" means any individual, partnership, association, business trust corporation, governmental corporation or agency or any organized group of persons, whether incorporated or not.

(2) "Marketing" means the operation of all facilities (other than petroleum terminal or terminal storage facilities or marine, rail, pipeline or truck facilities used to transport petroleum) for distributing or dispensing petroleum (excluding natural gas), including without limitation the operation of service stations, substations, bulk plants, warehouses, wholesale depots, or facilities operated by "consumer accounts".

(3) "Petroleum" means petroleum, petroleum products, and associated hydrocarbons including but not limited to natural gas.

(4) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(5) "Structure" means any building, physical construction or portion thereof, used in marketing, but not including equipment used therein.

(6) "Equipment" means dispensing pumps and storage tanks (including skid tanks) having a capacity of more than 65 gallons used in marketing.

(7) "Advertising material" means any material (other than non-metallic material) used for such display or advertising purposes as are incident to marketing.

(8) Subject to subparagraph (10), "maintenance" means the upkeep of a structure or equipment in a sound working condition with a minimum expenditure of material.

(9) Subject to subparagraph (10), "repair" means the restoration of a structure or equipment to a sound working condition when such structure or equipment has been rendered unsafe or unfit for further service by wear and tear, damage, destruction or failure of parts or similar causes.

(10) The terms "maintenance" and "repair" do not include any of the following:

(i) The replacement of an item or part thereof where such replacement is carried on the books as a fixed asset;

(ii) The use of material for the improvement of a structure or equipment through the replacement of material in the existing installation, unless the item or part thereof which is replaced is beyond economic repair or has been rendered unusable by fire or other hazard or natural cause;

(iii) The use of material for additions to or expansion of a structure or equipment;

(iv) The use of material for a purpose which could not properly be charged on the books to "maintenance", "repair", or the equivalent in the established method of bookkeeping.

(11) "Farm" means any plot of land at least 10 acres of which are used for agricultural purposes for profit.

(12) "Supplier" means any person, other than an ultimate consumer, supplying petroleum directly or indirectly.

(c) *Conservation of material used in marketing.* Subject to the exceptions in paragraph (d) hereof, no person shall construct, reconstruct, expand or remodel any structure or install equipment or advertising material, and no person shall construct, equip or locate any tank truck or trailer where such tank truck or trailer is used or is to be used to deliver petroleum into the fuel supply tanks of passenger motor vehicles. Subject to the exceptions in paragraph (d) hereof, no person shall deliver or otherwise supply, or cause to be delivered or otherwise supplied, any material which he knows, or has reason to believe, is intended for such uses.

(d) *Exceptions.* The provisions of paragraph (c) hereof, shall not apply in the following instances:

(1) To any case where material is to be used by a person for the maintenance or repair of any structure or equipment.

(2) To any case where actual physical work of construction, reconstruction, expansion, or remodeling of any structure or the installation of equipment or advertising material had commenced prior to January 14, 1942: *Provided,* That such work of construction, reconstruction, expansion, remodeling, or installation must then have been scheduled for completion and be actually completed on or before May 15, 1942.

(3) To any case where a structure or equipment is to be used exclusively for the official requirements of the armed forces of the United States.

(4) To any case where advertising material which was completely fabricated, but not necessarily assembled, on or before March 30, 1942, is to be installed.

(5) To any case where there occurs a transfer of title to or rights in any structure or equipment, which transfer does not involve the construction, reconstruction, expansion, or remodeling of such structure or the installation of equipment.

(6) To any case where equipment is to be installed as a replacement of equipment the repair of which cannot be effected on the premises: *Provided,* That: (i) in the case of storage tanks having a capacity of more than 65 gallons, the capacity of the tank which is to be installed does not exceed the capacity of the tank which is to be replaced; (ii) in the case of dispensing pumps, the pump which is to be installed is of the same type and design as the pump which is to be replaced.

(7) To any case (i) where any used dispensing pump is to be installed as a replacement of a dispensing pump which was manufactured not less than nine years prior to the date of such installation and which is beyond economic repair; (ii) where any dispensing pump, which was not removed from the stock of the manufacturer of such pump subsequent to November 1, 1942, is to be installed as a "drum" or "barrel" pump as these terms are known to the trade; (iii) where any used dispensing pump is to be installed at any location from which such dispensing pump had been previously removed for safekeeping or is to be installed as a replacement of a pump of the same type and design which had been removed from such location for safekeeping: *Provided,* That any person installing a dispensing pump pursuant to this subparagraph shall keep a record showing the date and location of the removal, the type and design of the pump removed, the date of the new installation and the type and design of the newly installed pump.

(8) To any case where equipment is to be installed to distribute petroleum to machinery or vehicles used directly in physical construction work on any project having a project rating higher than A-2: *Provided,* That such equipment shall be withdrawn from the location of the project upon the completion thereof and shall thereafter be subject to the provisions of this order.

(9) To any case where equipment is to be installed (i) to contain, distribute or dispense fuel oil classified as grade No. 1, 2, 3, 4, 5 or 6 (including Bunker "C" fuel oil, kerosene, range oil, or gas oils) to stationary consuming facilities: *Provided,* That such equipment is not installed at any structure for use in carrying out marketing functions regularly performed by a service station, substation, bulk plant, warehouse, or wholesale depot; or (ii) to contain, distribute or dispense butane, propane, propylene, butene or any combination or dilution thereof commonly known as liquefied petroleum gas.

(10) To any case where used equipment which was completely fabricated on or before January 14, 1942 is to be installed on a farm and is used exclusively to dispense petroleum to machinery or vehicles used directly in operations on such farm: *Provided,* (i) That no supplier shall have any interest, legal or equitable, in such equipment and that no restrictions, other than those required by law, are imposed directly or indirectly on the use of such equipment by oral or written contract, agreement, understanding or by any means or device whatsoever whereby the use of such equipment is limited to the dispensing of petroleum of any supplier or suppliers; and (ii) That any person for whom such equipment is installed shall return any drums (of not less than 42 gallons capacity used for containing petroleum on such farm) owned by a supplier to such supplier and shall offer any other drums (of not less than 42 gallons capacity used for containing petroleum on such farm) for sale to suppliers at a price not exceeding the maximum price prescribed for such drums by the Office of Price Administration.

(11) To any case where the Director General for Operations has determined that the construction, reconstruction, expansion or remodeling of any structure, the installation of equipment or advertising material, or the equipping or locating of any tank truck or trailer is necessary and appropriate in the public interest and to promote the war effort. Application for such a determination shall be made by letter and filed with the District Director of Marketing, Office of Petroleum Coordinator for War at:

(i) 122 East 42nd Street, New York, New York, if the material is to be used in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, or Florida, or the District of Columbia.

(ii) Suite 1336, 120 South LaSalle Street, Chicago, Illinois, if the material is to be used in the States of Ohio, Kentucky, Tennessee, Indiana, Michigan, Illinois, Wisconsin, Minnesota, Iowa, Missouri, Oklahoma, Kansas, Nebraska, South Dakota, or North Dakota.

(iii) 245 Mellie Esperson Building, Houston, Texas, if the material is to be used in the States of Alabama, Mississippi, Louisiana, Arkansas, Texas, or New Mexico.

(iv) 320 First National Bank Building, Denver, Colorado, if the material is to be used in the States of Montana, Wyoming, Colorado, Utah or Idaho.

---

[1] 6 F.R. 5007, 5290; 7 F.R. 2344, 4156.

(v) 855 Subway Terminal Building, Los Angeles, California, if the material is to be used in the States of Arizona, California, Nevada, Oregon, or Washington, or the Territories of Alaska or Hawaii.

Information to be submitted in such application shall be in accordance with OPC Form PD–215 (Revised), issued by the Office of Petroleum Coordinator for War.

(e) *Required certification.* Any person, acquiring any material for use in the construction, reconstruction, expansion, or remodeling of any structure or any equipment or advertising material for installation purposes, shall endorse on all copies of each purchase order or contract for such material which are placed with any person, a statement in the following form signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose:

> The material which is ordered in this purchase order (or contract) is to be used in conformity with the provisions of Conservation Order No. M–68–c, as amended, with the terms of which Order the undersigned is familiar.
>
> ------------------
> Name of person
>
> By ------------------
> Signature of duly authorized official

Such endorsement shall constitute a representation to the War Production Board and the person with whom the purchase order or contract is placed that the material obtained under such purchase order or contract will be used in accordance with the provisions of this order. Such person shall be entitled to rely on such representation unless he knows or has reason to believe it to be false. No person shall, in the absence of such endorsement, deliver or otherwise supply, or cause to be delivered or otherwise supplied, any material which he knows, or has reason to believe, is intended for uses restricted by paragraph (c) of this order.

(f) *Violations.* Any person who wilfully violates any provision of this order or who wilfully furnishes false information to any Department or agency of the United States in connection with this order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(g) *Revocation or amendment.* This order may be revoked or amended at any time as to any person. In the event of revocation, deliveries shall be made in accordance with the provisions of any applicable preference rating order without further restrictions, unless such deliveries have been specifically restricted.

(h) The provisions of this order shall be applicable to deliveries of material by any person located in the United States, its territories and possessions to any other person located in the United States, its territories and possessions, but not elsewhere. The provisions of this paragraph supersede Interpretation No. 1 of this order, issued February 7, 1942.

PART 3130—MINERAL OIL POLYMERS

[General Preference Order M–258]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of mineral oil polymers for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3130.1 *General Preference Order M–258*—(a) *Definitions.* (1) "Mineral oil polymers" means the resinous product produced by the polymerization of mixtures of unsaturated hydrocarbons (either the solid resin or solvent extended product) and does not include polystyrene, polyisobutylene, polyethylene, butadiene, or the copolymers of such materials.

(2) "Producer" means any person who produces or refines mineral oil polymers, and includes any person who has mineral oil polymers produced for him pursuant to toll agreement.

(3) "Distributor" means any purchaser of mineral oil polymers from any person for purpose of resale as mineral oil polymers.

(b) *Restrictions on deliveries and use.* (1) Subject to paragraph (c) hereof, no producer or distributor shall deliver or use mineral oil polymers, and no person shall accept delivery of mineral oil polymers from a producer or distributor, except as specifically authorized or directed by the Director General for Operations.

(2) Authorizations or directions with respect to deliveries to be made or accepted in each month, beginning with December, 1942, will so far as practicable be issued by the Director General for Operations prior to the commencement of such month, but the Director General for Operations may at any time (including the period prior to December 1, 1942), at his discretion and notwithstanding the provisions of paragraph (c) hereof, issue directions with respect to deliveries to be made or accepted, or with respect to the use or uses which may or may not be made of material to be delivered or then on hand.

(3) Each person specifically authorized to accept delivery of mineral oil polymers shall use such material for the purpose authorized, and only for such purpose, except as otherwise specifically directed.

(4) Producers who prepare oil products from mineral oil polymers shall be considered users and must receive authorization for such use.

(c) *Small order exemption.* No specific authorization shall be required for:

(1) Acceptance of delivery by any person in any one calendar month of 50 pounds or less of mineral oil polymers in the aggregate; provided that such person has not been specifically authorized to accept delivery of any quantity of such material during such month;

(2) The delivery by any producer or distributor to any person who shall certify to him in writing that he is entitled pursuant to paragraph (c) hereof to accept delivery;

(3) The use by any producer in any calendar month of 50 pounds or less of mineral oil polymers in the aggregate.

(d) *Applications and reports.* (1) Each person seeking authorization to accept delivery of mineral oil polymers during any calendar month, beginning with December, 1942 (except as provided in paragraph (c) hereof), whether for his own consumption or resale, shall file application therefor on or before the 15th day of the month preceding the month for which authorization for delivery is requested. Applications by producers for authorization to use shall be filed in the same manner. Where delivery or use is to be in November, 1942, such application shall be filed as many days as possible in advance of the intended acceptance of delivery or use. In any case, such application shall be made on Form PD–600, in the manner prescribed therein, subject to the following special instructions:

(i) Copies of Form PD–600 may be obtained at local field offices of the War Production Board.

(ii) Five copies shall be prepared, of which one shall be forwarded to supplier, three forwarded to the War Production Board, Chemicals Branch, Washington, D. C., Ref: M–258, and the fifth retained for your files.

(iii) In the heading, under name of chemical, specify mineral oil polymers; under WPB Order No., specify M–258; under unit of measure, specify pounds; under name of your company, specify name and mailing address; and specify the month and year for which authorization for acceptance of delivery is sought.

(iv) In Columns 1, 11 and 19, specify iodine number and percentage of solids.

(v) In Columns 3, 20 and 22, specify your primary product in terms of the following:

Core-oil
Insulation material
Plastic base
Floor covering
Fibre board impregnant
Protective coatings (specify)
Resale (as mineral oil polymers)
Others (specify)

(vi) In Column 4, specify ultimate use of product (for example, if the "primary product" called for by Columns 3, 20 and 22 is "core oil", the "ultimate use of product" might be "aircraft engine cylinders"), and also specify in each case whether your customer is Army, Navy, other government agency, Lend-Lease, or commercial customer.

(vii) Remarks in Column 10 may, if necessary, be extended on the reverse side of the sheet. Include in remarks quantity of mineral oil polymers used in manufacture for preparation of primary products in corresponding period of year 1941. If requirements have increased appreciably, state reasons.

(2) Each producer or distributor seeking authorization to make delivery of mineral oil polymers during any calendar month beginning with December, 1942, shall file application on or before the 20th day of the month preceding the month for which authorization is requested. Such application shall be made on Form PD–601, in the manner prescribed therein, subject to the following special instructions:

(i) Copies of Form PD–601 may be obtained at local field offices of the War Production Board.

(ii) Prepare four copies and forward three to the War Production Board, Chemicals Branch, Washington, D. C., Ref: M–258, retaining the fourth copy for your files.

(iii) Producers or distributors who have filed application on Form PD–600, specifying themselves as their suppliers, shall list their own names as customers on Form PD–601, and shall list their requests for allocation in the manner prescribed for other customers.

(iv) In the heading, under name of chemical, specify mineral oil polymers; under WPB Order No., specify M–258; under name of company, state your name and mailing address; under unit of measure, specify pounds; and state the month and year during which deliveries covered by the application are to be made.

(v) In Columns 3 and 8, specify iodine number and percentage of solids.

(vi) Column 5 may, at your discretion, be left blank.

(vii) Names of customers to whom small order deliveries are to be made during the next month pursuant to paragraph (c) of this order need not be given, but insert in Column 1 "Total small order deliveries (estimated)" and in Column 4, the estimated quantity.

(viii) If it is necessary to use more than one sheet to list customers, number each sheet in order and show grand totals for all sheets on the last sheet, which is the only one that need be certified.

(3) On or before November 30, 1942, each person who as of November 1, 1942 owned 500 pounds or more of mineral oil polymers shall report the amount of each grade of mineral oil polymers owned on such date by letter addressed to the War Production Board, Chemicals Branch, Washington, D. C., Ref: M–258.

(4) The Director General for Operations may require each person affected by this order to file such other reports as may be prescribed, and may issue other and further directions to any such person with respect to preparing and filing Forms PD–600 and PD–601.

(e) *Notification of customers.* Each supplier shall notify his regular customers, as soon as possible, of the requirements of this order, but failure to receive such notice shall not excuse any person from complying with the terms hereof.

(f) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of War Production Board priorities regulations, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Branch, Washington, D. C. Ref: M–258.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1157—CONSTRUCTION MACHINERY AND EQUIPMENT

[Amendment 1 to Limitation Order L–192]

Section 1157.10 *Limitation Order L–192*[2] is hereby amended in the following particulars:

1. Paragraph (a) is amended to read as follows:

> This order, as of November 30, 1942, supersedes Limitation Order Nos. L–82[3] and L–82–a.[4] Notwithstanding the revocation of Orders L–82 and L–82–a issued November 7, 1942, every person subject to the terms thereof immediately prior to such date shall abide by the terms of such orders until November 30, 1942, as though their text were fully incorporated in this order. All releases on equipment granted by the Director General for Operations pursuant to Limitation Orders Nos. L–82 and L–82–a not shipped by November 30, 1942, shall be deemed cancelled as of that date.

2. Paragraph (e) (1) is amended by striking out the date "November 15, 1942" and inserting in lieu thereof "November 30, 1942" and by changing the letter "(g)" and inserting in lieu thereof the letter "(f)".

3. Paragraph (e) (2) is amended by striking out the date "November 15, 1942" and inserting in lieu thereof "November 30, 1942".

4. Paragraph (e) (4) is amended to read as follows:

> On and after November 30, 1942, no producer shall put into process or assemble any materials in the manufacture of any equipment listed in Schedule C, except to fill an order placed by the Army, Navy, Maritime Commission, War Shipping Administration or Lend-Lease Government or for the use by a prime contractor on a construction project for any of the foregoing, and then only if authorized by the Director General for Operations on Form PD–556.

5. Paragraph (f) is amended by striking out the date "November 15, 1942" and inserting in lieu thereof "November 25, 1942".

6. Paragraph (g) is amended by striking out "Producers shall on the 15th day of each month" and inserting in lieu thereof "On or before November 25, 1942 and on or before the 15th day of each succeeding calendar month every producer shall".

7. Paragraph (h) is amended by striking out the date "November 15, 1942" and inserting in lieu thereof "November 30, 1942".

8. Paragraph (h) (2) (i) is amended by striking out the date "November 15, 1942" and inserting in lieu thereof "November 25, 1942".

9. Paragraph (h) (2) (ii) is amended by striking out the date "November 15, 1942" and inserting in lieu thereof "November 30, 1942".

10. Paragraph (i) (1) is amended by striking out the date "November 7, 1942" and inserting in lieu thereof "November 30, 1942".

11. Paragraph (i) (2) is amended to read as follows:

> All persons except a Government Corporation, the Army, Navy, Maritime Commission, War Shipping Administration or Lend-Lease Government, thirty days prior to the sale, lease or use on any other project of such equipment, shall complete, sign and return Form WPB–1159 to the Used Construction Machinery Regional Specialist in the War Production Board regional office in the region in which such equipment is located.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rationing Order 3,[1] Amendment 25]

SUGAR RATIONING REGULATIONS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Paragraph (a) of § 1407.267 is amended to read as follows:

Deposits

§ 1407.267 *Deposits.* (a) Stamps surrendered by a consumer to a depositor and received by a component establishment served or required to be served by an account shall be deposited in such account within ten (10) days after the expiration of the ration period assigned to such stamps by Schedule C of § 1407.243. Stamps surrendered by a registering unit to a depositor and received by a component establishment served or required to be served by an account, shall be deposited within ten (10) days after receipt by the depositor of such stamps. A certificate issued to a depositor by a listed board shall be deposited in an account of such depositor with sixty (60) days of the valid date of the certificate. A certificate issued in the name of a depositor by a person other than a listed board, and received by a component establishment served or required to be served by an account, shall be deposited in such account within sixty (60) days after the valid date of the certificate. A certificate surrendered to a depositor and received by a component establishment served or required to be served by an account shall be deposited in such account within sixty (60) days after the valid date of the certificate or thirty (30) days after the date of the last endorsement on the certificate whichever is later. (Name of line to be inserted as required)

B/L No. ------------------

RECEIVED on board from the shipper hereinafter named the goods, or packages said to contain goods, hereinafter mentioned in apparent good order and condition unless otherwise indicated in this bill of lading, to be transported to the port of discharge and there to be delivered or transshipped on the terms hereinafter stated. In every contingency whatsoever and even in case of deviation or of unseaworthiness of the ship at time of loading or at any subsequent time, the rights and obligations, whatsoever they may be, of each and every person having any interest or duty whatsoever in respect of the receipt, care, custody, carriage, delivery or transshipment of the goods whether as shipper, consignee, holder or endorsee of the bill of lading, receiver or owner of the goods, master of the ship, carrier, shipowner, demise charterer, time charterer, operator, agent, bailee, warehouseman, forwarder, or otherwise howsoever, shall be subject to and governed by the terms of the Carrier's regular Bill of Lading, which shall be deemed to be incorporated herein, including any amendments thereto or special provisions thereof which may be in effect at the time the goods are received for shipment and applicable to the intended voyage. Copies of such Bill of Lading may be obtained on application to the Agent or the Master at the port of shipment or port of discharge or to the Administrator, War Shipping Administration, Washington. This shipment shall have effect subject to the provisions of the Carriage of Goods by Sea Act of the United States, approved April 16, 1936, which shall be deemed to be incorporated herein and nothing herein contained shall be deemed a surrender by the carrier of any of its rights or immunities or an increase of any of its responsibilities or liabilities under said Act. The provisions stated in said Act shall (except as may be otherwise specifically provided in the bill of lading referred to above) govern before the goods are loaded on and after they are discharged from the ship and throughout the entire time the goods are in the custody of the carrier. Nothing herein contained, whether by express statement, reference, implication or otherwise, shall be deemed a surrender of any rights or immunities or an increase of any responsibilities or liabilities which the ship, her owner, charterer, operator, agent or master or any carrier, bailee, warehouseman, or forwarder of the goods or the agent of any of them would have in the absence of this bill of lading. None of the terms of this bill of lading shall be deemed to have been waived by any person unless by express waiver signed by such person, or his duly authorized agent.

IN ACCEPTING THIS BILL OF LADING, the shipper, consignee, pledgee, holder or endorsee of this bill of lading, receiver, owner of the goods and each of them agree that all freight engagements, dock receipts or other agreements whatsoever in respect of the shipment of the goods are superseded by this bill of lading, and agree to be bound by all its terms whether written, printed or stamped on the front or back thereof or incorporated by reference therein, any local customs or privileges to the contrary notwithstanding.

If requested, one signed bill of lading duly endorsed must be surrendered to the agent of the ship at the port of discharge in exchange for delivery order.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-341]

JOE AND WALTER SOPINSKI

NOTICE OF AND ORDER FOR HEARING

In the matter of Joe Sopinski and Walter Sopinski, individually and as copartners, doing business under the name and style of Joe and Walter Sopinski, Code Member.

A complaint dated October 12, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on October 15, 1942, by Bituminous Coal Producers Board for District No. 4, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Joe Sopinski and Walter Sopinski, individually and as copartners, doing business under the name and style of Joe and Walter Sopinski, (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder:

It is ordered, That a hearing in respect to the subject matter of such complaint be held on January 19, 1943, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Post Office Building, Coshocton, Ohio.

It is further ordered, That W. A. Cuff or any other officer or officers of the

Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to take evidence, and to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code Member and to all other parties herein and to all persons and entities having an interest in this proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code Member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code and the Code Member's right to an exemption from the taxes imposed by section 3520 (b) (1) of the Internal Revenue Code, or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Notice is also hereby given that any application, pursuant to § 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the Code Member of the complaint herein.

The matter concerned herewith is in regard to the complaint filed by said complainant alleging that Joe Sopinski and Walter Sopinski, individually and as co-partners, doing business under the name and style of Joe and Walter Sopinski, Code Member, whose address is 330 McCrea Avenue, Dennison, Ohio, operating the White Oak Mine, Mine Index No. 1826, located in Tuscarawas County, Ohio, District No. 4, has violated section 4 II (e) of the Act and Part II (e) of the Code promulgated thereunder by selling and delivering (a) during the period January 1, 1941 to December 31, 1941, both dates inclusive, to various purchasers approximately 1 331 net tons of ¾'' lump coal (Size Group 5) produced at said mine at $2.25 per net ton f. o. b. said mine, whereas the effective minimum price was $2.35 per net ton f. o. b. said mine as established in the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipment, and (b) during the period February 1, 1942 to March 31, 1942, both dates inclusive, to one Delmar Baer of Tuscarawas, Ohio, approximately 389.65 net tons of 1'' slack coal (Size Group 7) produced at said mine at $1.80 per net ton f. o. b. said mine for truck shipment, whereas the effective minimum price was $1.90 per net ton f. o. b. said mine as established in said schedule.

BLAKE MINE COMPANY

NOTICE OF AND ORDER FOR HEARING

In the matter of Jasper Blake, Wendell Blake and George Blake, individually and as co-partners doing business under the name and style of Blake Mine Company, Code Member.

A complaint dated October 12, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on October 15, 1942, by Bituminous Coal Producers Board for District No. 4, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Jasper Blake, Wendell Blake and George Blake, individually and as co-partners doing business under the name and style of Blake Mine Company, (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder:

It is ordered, That a hearing in respect to the subject of such complaint be held on January 19, 1943, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Post Office Building, Coshocton, Ohio.

It is further ordered, That W. A. Cuff or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, to take evidence, and to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code Member and to all other parties herein and to all persons and entities having an interest in this proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code Member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code Member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code Member in the Code and the Code Member's right to an exemption from the taxes imposed by section 3520 (b) (1) of the Internal Revenue Code, or directing the Code Member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Notice is also hereby given that any application, pursuant to § 301.132 of the Rules of Practice and Procedure before the Division for the disposition of this proceeding without formal hearing, must be filed not later than fifteen (15) days after receipt by the Code Member of the complaint herein.

The matter concerned herewith is in regard to the complaint filed by said complainant alleging that Jasper Blake, Wendell Blake and George Blake, individually and as co-partners, doing business under the name and style of Blake Mine Company, a Code Member of Newcomerstown, Ohio, operating the Ohio Black Diamond Mine, Mine Index No. 2811, located in Tuscarawas County, Ohio, District No. 4, has wilfully violated the Act, the Code, and rules and regulations thereunder by selling and delivering coal produced at said mine as follows:

1. During the period March 19, 1941, to March 30, 1941, both dates inclusive, approximately 126.23 net tons of 1¼'' lump coal and 304.175 net tons of mine

run coal to the Belden Brick Company of Canton, Ohio, and approximately 81.70 net tons of 1¼'' lump coal to the Reeves Steel and Manufacturing Company of Dover, Ohio, whereas prices temporary or final had not been established by the Division for the sale of said coal, resulting in violations of the order in General Docket No. 19 dated October 9, 1940; and

2. During the period April 16, 1941, to October 31, 1941, both dates inclusive, to the Port Washington, Ohio, plant of the Belden Brick Company, a distance of 13.9 miles from said mine, approximately 215.20 net tons of 1¼'' lump coal at a truck delivered price of $2.57 per net ton, and 288.30 net tons of 1¼%'' slack coal at truck delivered prices of $1.90 and $2.00 per net ton; and to the Canton, Ohio, plant of the Belden Brick Company, a distance of 58 miles from said mine, approximately 1,680.66 net tons of mine run coal at a truck delivered price of $3.00 per net ton; and to the Dover, Ohio, plant of the Reeves Steel and Manufacturing Company, a distance of 29 miles from said mine, approximately 1,428.54 net tons of 1¼'' slack coal at a truck delivered price of $2.00 per net ton; whereas the effective minimum prices were $1.90 per net ton for 1¼'' slack coal, $2.35 per net ton for 1¼'' lump coal and $2.20 per net ton for mine run coal, f. o. b. the mine, as contained in the order in Docket No. A-754, dated April 7, 1941, and made a part of the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipment, to which minimum prices the code member failed to add amounts at least equal to the actual handling or incidental charges from the transportation facilities at said mine to said points of deliveries, resulting in violations of section 4 II (e) and (g) of the Act and Part II (e) and (g) of the Code; and

3. During the months of January, February and March 1941, to various purchasers by truck or wagon and filing with the Division copies of truck tickets, sales slips and invoices of said sales and falsely stating therein the total amount charged for said coal, contrary to the requirements of section III (b) of Order No. 307 of the Division, dated December 11, 1940, resulting in violations of Order of the Division No. 309 dated January 14, 1941 issued pursuant to said Order No. 307 and section 4 II (a) of the Act and Part II (a) of the Code.

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wages lower than the minimum rate applicable under section 6 of the Act are issued under section 14 thereof and § 522.5 (b) of the regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective November 16, 1942.

The employment of learners under these certificates is limited to the terms and conditions as designated opposite the employer's name. These certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the regulations and as indicated on the certificate. Any person aggrieved by the issuance of these certificates may seek a review or reconsideration thereof.

[Vesting Order 181]

ASSETS OF OSAKA SYOSEN KAISYA

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding that the property described as follows:

> All property of any nature whatsoever situated in the United States and owned or controlled by, payable or deliverable to, or held on behalf of or on account of or owing to, Osaka Syosen Kaisya, a Japanese corporation, Osaka, Japan, including, but not limited to, all of the assets of its New York branch, which corporation is a business enterprise within the United States,

is property of nationals, and said business enterprise is a national, of a designated enemy country (Japan), and determining that to the extent that any or all of such nationals are persons not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan), and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C. on September 28, 1942.

ASSETS OF ASSICURAZIONI GENERALI DI TRIESTE E VENEZIA

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

(a) That the property described as follows:

All property of any nature whatsoever situated in the United States and owned or controlled by, payable or deliverable to, or held on behalf of or on account of or owing to, Assicurazioni Generali di Trieste e Venezia, an Italian corporation, Trieste, Italy, including but not limited to all property of its United States branch known as The

General Insurance Company, Ltd., of Trieste and Venice, New York, New York, and all the property hereinafter described in paragraph (b),

is property of such corporation which is a business enterprise within the United States and which is a national of a designated enemy country (Italy); and

(b) That the property described as follows:

All property of any nature whatsoever which is being administered by Louis H. Pink, Superintendent of Insurance of the State of New York, as liquidator of such United States branch of said corporation, including but not limited to all right, title and interest of said liquidator in and to all securities of a par value of $100,000 deposited (as a statutory deposit pursuant to the Ohio General Code) with and held by the Superintendent of Insurance of the State of Ohio,

is property which is in the process of administration by a person (namely, the aforesaid Superintendent of Insurance of the State of New York) acting under judicial supervision (namely, that of the Supreme Court of the State of New York), and which is payable or deliverable to, or claimed by, a national of a designated enemy country (Italy);

and determining that to the extent that such national is a person not within a designated enemy country the national interest of the United States requires that such person be treated as a national of the aforesaid designated enemy country (Italy), and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests in the Alien Property Custodian all of the aforesaid property except the cash held by said liquidator in a reserve fund to be used for the payment of (1) claims of domestic creditors of such United States branch of said corporation which have been allowed and approved but not paid by said liquidator, (2) claims of domestic creditors of such United States branch of said corporation which are being held in suspense by said liquidator, and (3) liquidation expenses of said liquidator, such property hereby vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The property vested hereby and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such vested property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. ESTATE OF LEO BECKER, DECEASED

In re: estate of Leo Becker, deceased—File D-28-1530; E. T. sec. 168.

Under the authority of the Trading with the Enemy Act as amended, Executive Order 9095 as amended, and pursuant to law, the Alien Property Custodian after investigation, finding that:

(1) The property and interests hereinafter described are property which is in the process of administration by Mae Winslow, Executrix, under the supervision of the Probate Court of Cook County, Illinois;

(2) Such property and interests are payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals:	*Last known address*
Julius Piekarski	Berlin, Germany.
Ella Bladau	Essen, Germany.
Martha Schwartz	Essen, Germany.
Carl Piekarski	Rostock, Germany.
Barnhardt Piekarski	Rostock, Germany.

And determining that:

(3) If such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order as Act or otherwise, and deeming it necessary in the national interest, now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest, and claim of any kind or character whatsoever of Julius Piekarski, Ella Bladau, Martha Schwartz, Carl Piekarski and Barnhardt Piekarski in and to the Estate of Leo Becker, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and interests and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property and interests or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

4.762% OF THE CAPITAL STOCK OF SAINT-DENIS, KUHLMANN, SAINT-CLAIR DYESTUFF CORPORATION

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding that the property described as follows:

One share of $500 par value common capital stock of Saint-Denis, Kuhlmann, Saint-Clair Dyestuff Corporation, a New York corporation, New York, New York, which is a business enterprise within the United States, which share is registered in the name of H. Peter Rossiger, Long Island, New York and represents 4.762% of the 21 shares of outstanding stock of said business enterprise, of which 20 shares, or 95.238%, were vested by the undersigned pursuant to Vesting Order Number 167 issued by him under date of September 24, 1942,

is property of a national of a designated enemy country (Germany), and represents an interest in and is evidence of ownership of said business enterprise which is a national of the same designated enemy country, and determining that to the extent that any or all of such nationals are persons not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country, and having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise, and deeming it necessary in the national interest, hereby vests such property in the Alien Property Custodian, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national," "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C., on November 13, 1942.

CERTAIN INDEBTEDNESS OWING BY BYK, INC.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

(a) Finding that Byk-Guldenwerke Chemische Fabrik, A. G., Dresdner Bank and Reichs-Kredit Gesellschaft, A. G., the last known address of each of which was represented to the undersigned as being Berlin, Germany, and which therefore are nationals of a designated enemy country (Germany), were (prior to the vesting of such shares by the undersigned pursuant to Vesting Order Number 34 issued under date of June 30, 1942) the owners of 10 shares of the capital stock of Byk, Inc., a Delaware corporation, New York, New York, which is a business enterprise within the United States, and which 10 shares constitute all of the outstanding capital stock of said business enterprise and represent ownership thereof, and therefore determining that such business enterprise is a national of the aforesaid designated enemy country (Germany);

(b) Finding that all right, title, interest and claim of any name or nature whatsoever of Byk-Guldenwerke Chemische Fabrik, A. G., in and to all indebtedness, contingent or otherwise, and whether or not matured, owing to it by said Byk, Inc., including but not limited to all security rights in and to any and all collateral for any or all of such indebtedness and the right to sue for and collect such indebtedness, is an interest in the aforesaid business enterprise held by a national of an enemy country, and also is property within the United States owned or controlled by a national of a designated enemy country (Germany);

(c) Determining that to the extent that such nationals are persons not within a designated enemy country the national interest of the United States requires that such persons be treated as nationals of the aforesaid designated enemy country (Germany);

(d) Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

(e) Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the indebtedness described in paragraph (b), to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of said Executive Order.

Executed at Washington, D. C., on November 13, 1942.

plete, over the enemies of the United States:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, acting under and by virtue of the authority vested in me by the Selective Training and Service Act of 1940, as amended, do proclaim the following:

1. The registration of male citizens of the United States and other male persons, who shall have attained the eighteenth anniversary of the day of their birth during the periods indicated below, shall take place in the United States and the Territories of Alaska and Hawaii, and in Puerto Rico, between the hours of 9:00 a. m. and 5:00 p. m. on the days hereinafter designated for their registration, as follows:

(a) Those who were born on or after July 1, 1924, but not after August 31, 1924, shall be registered on any day during the week commencing Friday, December 11, 1942, and ending Thursday, December 17, 1942;

(b) Those who were born on or after September 1, 1924, but not after October 31, 1924, shall be registered on any day during the week commencing Friday, December 18, 1942, and ending Thursday, December 24, 1942;

(c) Those who were born on or after November 1, 1924, but not after December 31, 1924, shall be registered on any day during the period commencing Saturday, December 26, 1942, and ending Thursday, December 31, 1942;

(d) During the continuance of the present war, those who were born on or after January 1, 1925, shall be registered on the day they attain the eighteenth anniversary of the day of their birth; provided, that if such anniversary falls on a Sunday or a legal holiday, their registration shall take place on the day following that is not a Sunday or a legal holiday.

2. (a) Every male citizen of the United States, and every other male person residing in the continental United States or in the Territory of Alaska or in the Territory of Hawaii or in Puerto Rico, other than persons excepted by Section 5 (a) of the Selective Training and Service Act of 1940, as amended, or by Section 208 of the Coast Guard Auxiliary and Reserve Act of 1941, is required to and shall during the time or on the day fixed herein for his registration present himself for and submit to registration before a duly designated registration official or selective service local board having jurisdiction in the area in which he has his permanent home or in which he may happen to be during that time or on that day if such male citizen or other male person has not heretofore been registered under the Selective Training and Service Act of 1940, as amended, and the regulations prescribed thereunder.

(b) The duty of any person to present himself for and submit to registration in accordance with any previous proclamation issued under said Act shall not be affected by this proclamation.

(c) A person subject to registration may be registered after the time or day fixed for his registration in case he is prevented from registering during that time or on that day by circumstances beyond his control. If he is unable to present himself for and submit to registration during the time or on the day fixed for his registration, he shall do so as soon as possible after the cause for such inability ceases to exist.

3. The registration under this proclamation shall be in accordance with the Selective Service Regulations governing registration. Every person subject to registration is required to familiarize himself with such regulations and to comply therewith.

4. I call upon the Governor of each of the several States and the Territories of Alaska and Hawaii, and of Puerto Rico, and the Board of Commissioners of the District of Columbia, and all officers and agents of the United States and all officers and agents of the several States, Territories, Puerto Rico, and the District of Columbia, and political subdivisions thereof, and all local boards and agents thereof appointed under the provisions of the Selective Training and Service Act of 1940, as amended, or the Selective Service Regulations prescribed thereunder, to do and perform all acts and services necessary to accomplish effective and complete registration.

5. In order that there may be full cooperation in carrying into effect the purposes of the Selective Training and Service Act of 1940, as amended, I urge all employers and Government agencies of all kinds—Federal, State, territorial, and local—to give those under their charge sufficient time in which to fulfill the obligations of registration incumbent upon them under the said Act and this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 17th day of November in the year of our Lord nineteen hundred and [SEAL] forty-two, and of the Independence of the United States of America the one hundred and sixty-seventh.

PROCLAMATION 2573

ESTABLISHING THE SAN DIEGO MARITIME CONTROL AREA AND PRESCRIBING REGULATIONS FOR THE CONTROL THEREOF

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the United States is now at war, and the establishment of the maritime control area hereinafter described is necessary in the interests of national defense:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, by virtue of the authority vested in me as President of the United States, and as Commander in Chief of the Army and Navy of the United States, and in accordance with the principle of self-defense of the Law of Nations, do hereby establish and proclaim the following-described area as a Maritime Control Area, and prescribe the following regulations for the control thereof:

SAN DIEGO MARITIME CONTROL AREA

That sea area lying within the following boundaries:

From Point La Jolla, California, on a line approximately 249° true to a point Latitude 32°45′ North, Longitude 117°35′ West;

thence along a line approximately 160° true to a point Latitude 32°32′ North, Longitude 117°29′20″ West;

thence Easterly to the United States-Mexico border.

REGULATIONS FOR THE CONTROL OF THE SAN DIEGO MARITIME CONTROL AREA

1. No vessel not proceeding under United States naval or other United States authorized supervision shall enter or navigate the waters of the said Maritime Control Area except during daylight, when good visibility conditions prevail, and then only after specific permission has been obtained. Advance arrangements for entry into or navigation through or within the said Area must be made, preferably by application at a United States Naval District Headquarters in advance of sailing, or by radio or visual communication on approaching the seaward limits of the Area. If radio telegraphy is used, the call "NQO" shall be made on a frequency of 500 kcs, and permission to enter the port requested. The name of the vessel, purpose of entry, and name of master must be given in the request. If visual communications are used, the procedure shall be essentially the same.

2. Even though permission has been obtained, it is incumbent upon a vessel entering the said Area to obey any further instructions received from the United States Navy, or other United States authority.

3. A vessel may expect supervision of its movements within the said Area, either through surface craft or aircraft. Such controlling surface craft and aircraft shall be identified by a prominent display of the Union Jack.

4. These regulations may be supplemented by regulations of the local United States naval authority as necessary to meet local circumstances and conditions.

5. Should any vessel or person within the said Area disregard these regulations, or regulations issued pursuant hereto, or fail to obey an order of the United States naval authority, or perform any act threatening the efficiency of mine or other defenses, or take any action therein inimical to the defense of the United States, such vessel or person may be subjected to the force necessary to require compliance, and may be liable to detention or arrest, or penalties or forfeiture, in accordance with law.

The Secretary of the Navy is charged with the enforcement of these regulations.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 17th day of November in the year of our Lord nineteen hundred and [SEAL] forty-two, and of the Independence of the United States of America the one hundred and sixty-seventh.

PART 503—GENERAL ORDERS

REPORTING OF UNFILED PATENT APPLICATIONS AND DISCLOSURES OF ENEMY NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned hereby issues the following regulation:

§ 503.12 *General Order No. 12.* (a) It is ordered that every person in the United States who has custody, control or possession of any models, blueprints, drawings, sketches, correspondence, memoranda of invention, reports or other written information received in the United States on or after January 1, 1939, and prior to the date of this order, for the purpose of preparing an application for United States Letters Patent which has not been filed in the United States Patent Office for an invention or inventions disclosed in any of the above-mentioned models or papers, and in which the consignor or the inventor or any of them is an enemy national; and that every person in the United States who has custody, control or possession of any documents constituting an unfiled application for U. S. Letters Patent, whether complete or not, received or substantially prepared in the United States on or after January 1, 1939, and prior to the date of this order, and in which the consignor or the inventor or any of them is an enemy national shall, on or before December 31, 1942, either

(1) Report the same to the Alien Property Custodian giving an enumeration of the above-mentioned models, papers or documents sufficient to identify the same, including the name, residence and nationality of the inventor, the date of execution of any papers or documents, the title of the invention and its field of use, the number and name of any corresponding foreign patent or application if known to the reporter, and the name and nationality of the person or organization from whom the papers were received (if received from an attorney, state for whom he is acting); or

(2) File such application in the United States Patent Office upon the terms and conditions set forth in Regulation 2 under Alien Property Custodian General Order No. 11; or

(3) Submit such models, papers or documents to the Alien Property Custodian.

(b) It is ordered that every person in the United States receiving, directly or indirectly, from an enemy national on or after the date of this order an application for United States Letters Patent or Trademark Registration or any models, blueprints, drawings, sketches, correspondence, memoranda of invention, reports, or other written information for the purpose of preparing an application for United States Letters Patent, shall within thirty days of the receipt thereof, or within such further time as may be allowed by the Alien Property Custodian, submit such models, papers or documents to the Alien Property Custodian.

(c) If a report is filed or models, papers or documents submitted under paragraph (a), (1) or (3) or paragraph (b) hereof and any claim of right with respect to such models, papers or documents is asserted by the reporter or is known to the reporter to exist on the part of any person other than the inventor, such claim shall be set forth and the basis for such claim of right briefly explained.

(d) It is ordered that any person presenting for recording in the United States Patent Office any instrument which constitutes an assignment, grant, encumbrance, license or other agreement of, under or with respect to any invention, or any patent, trademark, or application therefor issued by, or filed in or intended to be filed in the United States Patent Office, if:

(1) Such instrument was executed prior to the effective date of Executive Order No. 8389, as amended, and

(2) Any of the parties to such instrument is a national of a foreign country designated in section 3 of Executive Order No. 8389, as amended, and not within the categories of Regulation No. 1 under General Order No. 11,

shall file with such instrument a report on Form APC-14P for patents or APC-14T for trademarks, setting forth under oath the information called for therein.

(e) The term "enemy national" shall have the meaning defined in Treasury General Ruling No. 11, under Executive Order No. 8389, as amended.

(f) The terms "foreign country" and "national" shall have the meanings defined in sections 5D and 5E, respectively, of Executive Order No. 8389, as amended.

PART 503—GENERAL ORDERS

PROHIBITING CERTAIN TRANSACTIONS RESPECTING INTEREST IN WORKS SUBJECT TO COPYRIGHT

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned hereby issues the following regulation:

§ 503.13 *General Order No. 13.* (a) The following transactions are hereby prohibited, except as authorized by the Alien Property Custodian by means of regulations, rulings, instructions, orders, licenses, or otherwise, if such transactions are by, or on behalf of, or pursuant to the direction of, or are entered into with any foreign country designated in section 3 of Executive Order No. 8389, as amended, or any national thereof:

(1) The execution of, or the recording of, any application for copyright or renewal thereof under the copyright laws of the United States;

(2) The execution of, or the recording of, any assignment, grant, encumbrance, license or other agreement with respect to any interest in any work subject to copyright in the United States.

(b) For the purposes of this order:

(1) The term "foreign country" shall have the meaning defined in section 5D of Executive Order No. 8389, as amended;

(2) The term "national" shall have the meaning defined in section 5E of Executive Order No. 8389, as amended;

(3) "Interest" in a work subject to copyright shall mean ownership, part ownership, or claim of ownership, in whole or in part, of any subsisting copyright or claim of copyright, and any right, license, privilege or property in or to or with respect to such work; and any right, title or interest in, to or under any contract or other instrument, and any royalty, share of profits, license fees, or other emolument or compensation reserved with respect thereto. Such interest shall also include but not by way of limitation, any interest as hereinbefore described which is held or claimed as trustee, agent, representative or nominal proprietor.

(40 Stat. 411; 55 Stat. 839; E.O. 9193, 7 F.R. 5205)

Executed at Washington, D. C., on November 17, 1942.

PART 504—REGULATIONS ISSUED UNDER GENERAL ORDER NO. 11

EXEMPTING CERTAIN PERSONS FROM THE PROHIBITIONS OF GENERAL ORDER NO. 11

§ 504.1 *Regulation No. 1 under General Order No. 11.* Any person within the following categories shall be regarded, for the purposes of General Order No. 11, as a person within the United States who is not a national of any foreign country designated in section 3 of Executive Order No. 8389, as amended, except as such person shall be specifically excluded by the Alien Property Custodian from the effect of this regulation:

(a) Any individual who was a resident of the United States on December 7, 1941 and who is a national of a foreign country designated in section 3 of Executive Order No. 8389, as amended, solely by reason of the fact that such individual has been domiciled in, or a subject, citizen or resident of a foreign country designated in section 3 of Executive Order No. 8389, as amended, at any time on or since the effective date of that order.

(b) Any partnership, association, corporation or other organization which is a national of a foreign country designated in section 3 of Executive Order No. 8389, as amended, solely by reason of the interest therein of a person or persons described in paragraph (a) hereof.

(40 Stat. 411; 55 Stat. 839; E.O. 9193, 7 F.R. 5205)

Executed at Washington, D. C., on November 17, 1942.

PART 504—REGULATIONS ISSUED UNDER GENERAL ORDER NO. 11

LICENSING TRANSACTIONS INVOLVING PATENTS AND TRADEMARKS

§ 504.2 *Regulation No. 2 under General Order No. 11.* (a) A general license is hereby granted authorizing the following transactions:

(1) The filing in the United States Patent Office of applications for Letters Patent and for Trademark Registration (except such applications received directly or indirectly from enemy nationals on or after the date of this regulation), and the prosecution of such applications, in which a designated foreign country or a national thereof has on or since the effective date of Executive Order No. 8389, as amended, had any interest, and the receipt of Letters Patent or Trademark Registration certificate granted pursuant to any such applications: *Provided:*

(i) That the person filing or prosecuting any such application, or acting as attorney or agent in connection therewith, shall attach to the application or to the first paper filed therein after the date of this regulation a report on Form APC-13P for patents or APC-13T for trademarks, setting forth under oath, the information called for therein; and

(ii) That such filing or prosecution involves no communication, direct or indirect, to an enemy national.

(2) (i) The execution and recording in the United States Patent Office of any instrument recordable therein which affects title to or grants any interest in, including licenses under, any United States Letters Patent, Trademark Registration, or application therefor, in which a designated foreign country or a national thereof has on or since the effective date of Executive Order No. 8389, as amended, had any interest, *Provided:*

(a) That such instrument be recorded in the United States Patent Office within ninety days of the date of execution thereof, or within such further time as may be allowed by the Alien Property Custodian;

(b) That the person presenting such instrument for recording shall attach thereto and record therewith a copy of Form APC-15, and shall file therewith a report on Form APC-14P for patents or APC-14T for trademarks, setting forth under oath the information called for therein; and

(c) That the transaction involves no trade or communication with an enemy national nor is carried out as the result of such trade or communication.

(ii) The authorizations of paragraph (a) (2) (i) are further subject to the condition that such instrument may be set aside by the Alien Property Custodian upon notice mailed to the person recording the instrument at the address given on the form filed with the instrument and the patents, trademarks, applications, or rights thereunder so transferred may be vested by the Alien Property Custodian at any time within a period of three years from the date of recording, except that the Alien Property Custodian may in his discretion reduce such period of time with respect to any such instrument after the recording thereof.

(3) The recording of instruments executed on or since the effective date of Executive Order No. 8389, as amended, and before the date of this regulation, under the terms and conditions set forth in paragraph (a) (2) within ninety days from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

(b) Applications, Letters Patent and Trademark Registrations, filed or prosecuted under paragraph (a) (1) will be subject to the power of the Alien Property Custodian to take such action as he deems necessary in the national interest, including, but not limited to, the power to direct, manage, supervise, control or vest, with respect thereto.

(c) This general license does not authorize:

(1) Any transactions not specifically enumerated herein, such transactions being permitted only upon specific authorization from the Alien Property Custodian; or

(2) The receipt of any funds or credits with respect to the transactions licensed herein except as such receipt may be permitted by the Treasury Department; or

(3) The payment of any funds or credits to any party to an instrument recorded hereunder with respect to the property affected by such instrument as long as such instrument is subject to being set aside in accordance with the conditions of paragraph (a) (2) (ii) hereof, except into a special account from which withdrawals can be made only upon the approval of the Alien Property Custodian; or

(4) The filing of applications for Letters Patent or Trademark Registrations received from an enemy national after the effective date of this regulation, such applications being governed by General Order No. 12.

(d) Attention is directed to Treasury General License No. 72, as amended.

(e) Nothing contained in this regulation shall be deemed to limit the authority of the Office of Censorship to cause to be censored in its absolute discretion, any communications by mail, cable, radio, or other means of transmission, passing between the United States and any foreign country.

(f) The term "designated foreign country" shall mean foreign country designated in section 3 of Executive Order No. 8389, as amended; and the terms "person" and "national" shall have the meanings defined in sections 5C and 5E, respectively, of such order.

(g) The terms "enemy national" and "trade or communication with an enemy national" shall have the meanings defined in Treasury General Ruling No. 11 under Executive Order No. 8389, as amended.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs

[T.D. 50763]

PART 27—REGULATIONS UNDER TRADING WITH THE ENEMY ACT

COMMUNICATIONS OUTSIDE THE MAILS[1]

Modification of procedure for administering the duties imposed upon the Secretary of the Treasury by Articles XI and XIII of Executive Order No. 2729–A, dated October 12, 1917, under the Trading with the enemy Act, Act of October 6, 1917.

T.D. 50536 (6 F.R. 6807), dated December 24, 1941, is hereby modified as follows:

Amend subparagraph (2) to read as follows:

(2) I hereby designate the Bureau of Customs in the Department of the Treasury to administer and to issue licenses (except licenses to send, take, or transmit out of the United States any letter, writing, or tangible form of communication intended for or to be delivered, directly or indirectly, to an enemy or ally of enemy) in respect of the authority vested in the Secretary of the Treasury under Article XI of said Executive Order relative to sending, or taking out of, or bringing into, or attempting to send, take out of, or bring into, the United States (except land or water within the jurisdiction of the United States or occupied by the military or naval forces thereof but in which the Bureau of Customs in the Department of the Treasury does not exercise jurisdiction) any letter or other writing or tangible form of communication except in the regular course of the mail.

Add two new subparagraphs numbered (3) and (4) to read as follows:

(3) I hereby designate the Governor of the Panama Canal to act as the agency of the Secretary of the Treasury to administer and to issue licenses (except licenses to send, take, or transmit out of the United States any letter, writing or tangible form of communication intended for or to be delivered, directly or indirectly, to an enemy or ally of enemy) in respect of the authority vested in the Secretary of the Treasury under Article XI of said Executive Order relative to sending, or taking out of, or bringing into, or attempting to send, take out of, or bring into, the Canal Zone any letter or other writing or tangible form of communication except in the regular course of the mail. The authority conferred by this subparagraph (3) may, in the discretion of the Governor of the Panama Canal and by his direction, be exercised also by and through any official or officials of the Canal Zone designated by the Governor of the Panama Canal for that purpose, and the Governor of the Panama Canal may from time to time revoke any designation previously made by him and make any new designation.

(4) Except as otherwise specifically limited herein, the words "United States" whenever used herein in a geographical sense shall mean "United States" as those words are defined by section 2 of the Trading with the enemy Act, approved October 6, 1917.

HERBERT E. GASTON,
Acting Secretary of the Treasury.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter E—Administrative Provisions Common to Various Taxes

[T.D. 5181]

PART 471—ACCEPTANCE OF TREASURY NOTES IN PAYMENT OF INCOME, ESTATE, AND GIFT TAXES

REGULATIONS GOVERNING ACCEPTANCE OF TREASURY NOTES

Regulations governing the acceptance of Treasury Notes of Tax Series A–1943, B–1943, A–1944, B–1944, A–1945, and Tax Series C in payment of income (including excess-profits), estate, and gift taxes.

§ 471.1 *Acceptance of Treasury notes of Tax Series A–1943, B–1943, A–1944, B–1944, A–1945 and Tax Series C, in payment of income (including excess-profits), estate and gift taxes.* Notes of the United States designated as Treasury Notes of Tax Series A–1943, B–1943, A–1944, B–1944, A–1945, and Treasury Notes of Tax Series C may be accepted in payment of income taxes (current and back personal and corporation taxes, and excess-profits taxes) and estate and gift taxes (current and back), at par and interest accrued to the month, inclusive, in which presented (but no accrual beyond the maturity date). Collectors of internal revenue are authorized and directed to accept the notes during and after the second calendar month after the month of purchase (as shown by the issuing agent's dating stamp on each note). For example, a note of Tax Series A–1945 purchased in September 1942 may be accepted in November 1942 but such a note purchased in October 1942 may not be accepted until December 1942. The notes may be accepted only in payment of income (including excess-profits), estate, and gift taxes (current and back) due from the original purchaser thereof or his estate. The notes shall be in the name of the taxpayer (individual, corporation, or other entity) and may be presented for tax payment by only the taxpayer, his agent, or his estate. There is no limit upon the amount of notes of Tax Series B–1943, Tax Series B–1944, or Tax Series C, which may be accepted in payment of income (including excess-profits), estate, or gift taxes. However, not more than $5,000 in principal amount of notes of Tax Series A–1943, or of Tax Series A–1944, or of Tax Series A–1945, or of any of them in combination, plus the amount of the accrued interest thereon, may be accepted on account of any one taxpayer's liability for income taxes (including excess-profits taxes), or gift taxes, for any taxable year or on account of any one taxpayer's liability for estate tax; but in the case of the income tax this limitation shall apply separately to husband and wife on a joint return and also to an owner before death and to his estate for the balance of the same year. For example, A is liable for income taxes for the calendar year 1942 in the amount of $24,000 and for gift taxes for the calendar year 1942 in the amount of $7,000. In March 1943, A presents two notes of Tax Series A–1945 purchased in October 1942 in principal amount of $5,000 each in payment of 1942 income and gift taxes. The notes may be accepted on account of A's liability for both the income and gift taxes, provided one note be applied to the income tax and the other to the gift tax.

Notes of Tax Series B–1943, Tax Series B–1944, or Tax Series C, inscribed in the name of a taxpayer, may be accepted in payment of income tax withheld at the source by such taxpayer, and such notes inscribed in the name of a taxpayer may be accepted in payment of transferee liability assessed against such taxpayer for income (including excess-profits), estate or gift taxes; but notes of Tax Series A–1943, Tax Series A–1944, or Tax Series A–1945 shall not be accepted in payment of income tax withheld at the source or of transferee liability.

Collectors of internal revenue shall not in any case allow credit to a taxpayer on account of notes, or accept notes, for an amount greater than their principal amount plus accrued interest, nor shall notes be accepted in an amount (including accrued interest) greater than the unpaid liability of the taxpayer. The notes shall be forwarded to the collector of internal revenue with whom the tax return is filed, at the risk and expense of the taxpayer, and, for the taxpayer's protection, should be forwarded by registered mail, if not presented in person. (Secs. 3657 and 3791 of the Internal Revenue Code (53 Stat. 447, 467, 26 U.S.C. 1940 ed., 3657, 3791) and sec. 18 of the Second Liberty Bond Act of 1917, as amended (40 Stat. 1309, 31 U.S.C. 1940 ed., 753))

§ 471.2 *Procedure with respect to Treasury Notes of Tax Series A–1943, B–1943, A–1944, B–1944, A–1945 and Tax Series C.* Deposits of Treasury Notes of Tax Series A–1943, B–1943, A–1944, B–1944, A–1945, and Treasury Notes of Tax Series C, received in payment of taxes shall be made by the collector of internal revenue in a Federal Reserve Bank or a branch Federal Reserve Bank. Prior to deposit the collector of internal revenue will certify on the reverse side of the notes that they were received in payment of income (including excess-profits), estate, or gift tax, as the case may be, and will show in the endorsement stamp the date of deposit. (Secs. 3657 and 3791 of the Internal Revenue Code (53 Stat. 447, 467, 26 U.S.C. 1940 ed., 3657, 3791) and sec. 18 of the Second Liberty Bond Act of 1917, as amended (40 Stat. 1309, 31 U.S.C. 1940 ed., 753).)

§ 471.3 *Prior Treasury decision superseded.* Treasury Decision 5109 is hereby superseded. (Secs. 3657 and 3791 of the Internal Revenue Code (53 Stat. 447, 467, 26 U.S.C. 1940 ed., 3657, 3791) and sec. 18 of the Second Liberty Bond Act of 1917, as amended (40 Stat. 1309, 31 U.S.C. 1940 ed., 753))

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1684]

PART 323—MINIMUM PRICE SCHEDULE, DISTRICT NO. 3

ORDER GRANTING RELIEF, ETC.

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 3 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 3.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 3; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 323.6 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 323.8 (*Special prices*—(b) *Railroad fuel prices for all movements except via lakes*) is amended by adding thereto Supplement R–II, § 323.8 (*Special prices*—(c) *Railroad fuel prices for movement via all lakes—all ports*) is amended by adding thereto Supplement R–III, § 323.7 (*General prices*) is amended by adding thereto Supplements R–IV and R–V, and § 323.23 (*General prices*) is amended by adding thereto Supplement T, ~~which supplements are~~ hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

The price classifications and minimum prices set forth in the schedules attached are based upon the price classifications and minimum prices in effect on October 1, 1942, for comparable and analogous coals and already reflect the changes, if any, made in minimum prices by the Acting Director's order of August 28, 1942, 7 F.R. 6943, in General Docket No. 21. Except as otherwise stated herein, the minimum prices in the attached schedules do not differ, except in this regard, from the minimum prices proposed by petitioner.

Dated: November 7, 1942.

[SEAL] DAN H. WHEELER,
Director.

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 3

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 323, Minimum Price Schedule for District No. 3 and supplements thereto.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices

PART 131—GENERAL LICENSES UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

[General License No. 72 as Amended]

NOVEMBER 17, 1942.

General License No. 72, as amended, under Executive Order No. 8389, as amended, Executive Order No. 9193, sections 3 (a) and 5 (b) of the Trading with the Enemy Act, as amended by the First War Powers Act, 1941, relating to Foreign Funds Control.[1]

General License No. 72, as amended, is hereby amended to read as follows:

§ 131.72 *General License No. 72.* (a) A general license is hereby granted authorizing the following transactions, in which a blocked country or any national thereof has, on or since the effective date of the order, had an interest:

(1) The filing and prosecution in the United States Patent Office of applications for letters patent for inventions and designs and for the registration of trademarks and the receipt of letters patent and trademark registration certificates issued pursuant to any such application;

(2) The securing and registration of United States copyrights and the registration of claims to United States copyrights in prints and labels and the receipt of copyright certificates therefor;

(3) The payment from blocked accounts or otherwise, except from accounts in which an enemy national has an interest, of fees currently due to the United States Government in connection with any transactions authorized herein;

(4) The payment from blocked accounts or otherwise, except from accounts in which an enemy national has an interest, of the reasonable and customary fees and charges currently due to attorneys or representatives within the United States in connection with the transactions referred to in subparagraphs (1), (2), and (3) of this paragraph, provided that such payment shall not exceed

(i) $100 for the preparation, filing, and prosecution of any application for letters patent; or

(ii) $50 for the preparation, filing, and prosecution of any application for a trademark registration; or

(iii) $25 for the securing and registration of any copyright; or

(iv) $35 for the preparation and filing of any amendment to a pending application for letters patent or for a trademark registration; and

(5) The execution of, or the recording of, any assignment, grant, encumbrance, license, or other agreement or arrangement of, under, or with respect to, any United States patent, trademark, or copyright, or application therefor.

(b) Notwithstanding the provisions of General Ruling No. 11, the transactions specified in paragraph (a) hereof may be effected even though they involve a communication from an enemy national after March 18, 1942. No other transaction which, directly or indirectly, involves any trade or communication with an enemy national is authorized by this general license.

(c) Attention is directed to Public Circular No. 5, as amended November 17, 1942, issued by the Treasury Department, and to General Order No. 11[2] issued by the Alien Property Custodian on November 17, 1942.

(ii) $25 for the preparation and filing of any amendment to a pending application for a blocked foreign patent, trademark, or copyright; or

(iii) $10 for services in connection with the payment of any government tax or annuity or effecting a constructive working of any blocked foreign patent, trademark, or copyright.

(b) Payments effected pursuant to the terms of subparagraphs (3) and (4) of paragraph (a) hereof may not be made from any blocked account. Such payments shall be made in the manner and under the conditions specified in paragraph (b) of General License No. 33, as amended.

(c) With respect to each payment authorized by subparagraphs (3) and (4) of paragraph (a) hereof, reports on Form TFR–132 shall be executed and filed in the manner and form and under the conditions prescribed in General License No. 32, as amended, except that Item No. 6 of such form shall be left blank, and the purpose for which the payment is made shall be indicated on the reverse side of such form.

(d) As used herein the term "blocked foreign patent, trademark, or copyright" shall mean any patent, petty patent, design patent, trademark or copyright issued by any foreign country, in which a blocked country or national thereof has an interest, including any patent, petty patent, design patent, trademark, or copyright issued by a blocked country: *Provided,* That the term "blocked foreign patent, trademark or copyright" shall not be deemed to include any patent, petty patent, design patent, trademark, or copyright in which an enemy national has an interest.

PART 131—GENERAL LICENSES UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO.

[Public Circular No. 5 as Amended]

NOVEMBER 17, 1942.

Public Circular No. 5, as amended under Executive Order No. 8389, as amended, Executive Order No. 9193, sections 3 (a) and 5 (b) of the Trading with the enemy Act, as amended by the First War Powers Act, 1941, relating to Foreign Funds Control.[1]

Public Circular No. 5 is hereby amended to read as follows:

(1) Reference is made to General Licenses Nos. 72 and 72A issued by the Treasury Department, and to General Orders Nos. 11, 12 and 13, and the regulations issued thereunder, issued by the Alien Property Custodian.

(2) Pursuant to section 2 (d) of Executive Order No. 9095, as amended July 6, 1942, the Alien Property Custodian has assumed full power and authority over the filing and prosecution of applications for United States patents, trademarks and copyrights, and transfers and other dealings with respect thereto, in which a blocked country or national thereof has, on or since the effective date of Executive Order No. 8389, as amended, had an interest. This action was taken through the issuance by the Alien Property Custodian of General Orders Nos. 11, 12 and 13 and regulations thereunder. At the same time, the Treasury Department amended General License No. 72 so that, to the extent that the Alien Property Custodian has assumed jurisdiction, the Treasury Department relinquishes it under Executive Order No. 8389, as amended.

(3) In addition, General License No. 72 has been amended to authorize the payment of fees to the United States Government and, with limitations, the customary fees and charges of attorneys in the United States arising in connection with the filing and prosecution in the United States of patent, trademark and copyright applications. Payment is not permitted from an account in which an enemy national has an interest. These provisions will facilitate the administration of General Orders Nos. 11, 12 and 13 and regulations issued thereunder by the Alien Property Custodian.

(4) It is to be noted, in connection with General License No. 72, that transactions relating to United States patents, trademarks and copyrights, which involve communication from an enemy national have been authorized notwithstanding General Ruling No. 11. This action was taken by the Treasury Department at the request of the Alien Property Custodian.

(5) Jurisdiction over patents, trademarks or copyrights in which a blocked interest exists and which are issued by any foreign country remains in the Treasury Department and dealings therein are subject to Executive Order No. 8389, as amended.

(6) General License No. 72A authorizes transactions relating to the filing and prosecution of applications for patents, trademarks or copyrights in any foreign country, the receipt of documents issued in connection therewith, the payment of fees currently due to the government of any foreign country not within enemy territory, and, within limitations, the payment of reasonable and customary attorneys' fees, in which a blocked country or national, except an enemy national, has an interest.

(7) General License No. 72A does not authorize any transaction involving trade or communication with an enemy national and the Treasury Department will continue to observe its general policy of denying applications to effect such transactions.

(8) Public Circular No. 5A is hereby revoked.

[SEAL] RANDOLPH PAUL,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Director General for Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S–144]

CHROME IRON AND STEEL COMPANY

Harry G. Fingerote, doing business as the Chrome Iron and Steel Company, Philadelphia, Pennsylvania, is an individual engaged in the scrap metals, demolition, and steel warehouse business. For the second and third quarters of 1942, he established a quota under Supplementary Order No. M–21–b with respect to iron and steel products listed in Schedule A thereof. Notwithstanding, during the second and third quarters of 1942 he accepted delivery of plate ends and rejects substantially in excess of his established quota.

The acceptance by Harry G. Fingerote of iron and steel products in excess of quotas established for the second and third quarters of 1942 constituted wilful violations of Supplementary Order No. M–21–b, which have hampered and impeded the war effort of the United States. In view of the foregoing facts: *It is hereby ordered:*

§ 1010.144 *Suspension Order No. S–144.* (a) During the calendar quarter beginning January 1, 1943, and ending

---

[1] Sec. 5 (b), 40 Stat. 415 and 966; sec. 2, 48 Stat. 1; 54 Stat. 179; Pub. No. 354, 77th Cong., 55 Stat. 838; E.O. 8389, Apr. 10, 1940, as amended by E.O. 8785, June 14, 1941; E.O. 8832, July 26, 1941; E.O. 8963, Dec. 9, 1941, and E.O. 8998, Dec. 26, 1941; E.O. 9193, July 6, 1942; Regulations, Apr. 10, 1940, as amended June 14, 1941, and July 26, 1941.

March 31, 1943, Harry G. Fingerote, individually or doing business as the Chrome Iron and Steel Company, Philadelphia, Pennsylvania, his succesors and assigns, shall not accept delivery of any Schedule A steel products as the same are defined in Supplementary Order No. M–21–b; and during the same quarter nó steel mill or warehouse shall deliver to Harry G. Fingerote, individually or doing business as the Chrome Iron and Steel Company, his successors or assigns, any Schedule A steel products.

(b) During the calendar quarter beginning April 1, 1943 and ending June 30, 1943, the amount of Schedule A steel products which Harry G. Fingerote, individually or doing business as the Chrome Iron and Steel Company, would be entitled to receive under the quota established by the provisions of Supplementary Order No. M–21–b, as amended, will be reduced by 50% for that quarter, and Harry G. Fingerote, individually or doing business as the Chrome Iron and Steel Company, his successors and assigns, shall not accept deliveries of more than 50% of his quota of Schedule A steel products unless specifically authorized by the Director General for Operations.

(c) Nothing contained in this order shall be deemed to relieve Harry G. Fingerote, individually or doing business as the Chrome Iron and Steel Company, from any restriction, prohibition, or provision contained in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on January 1, 1943, and shall expire June 30, 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–145]

AERO-CRAFT COMPANY

Alex R. Tigerman and Mrs. Alex R. Tigerman, doing business as Aero-Craft Company, 5254 North Broadway, Chicago, Illinois, are engaged in the manufacture, fabrication, and assembly of coin-operated airplane amusement machines containing, among other materials, copper and copper base alloy. During the period from February 1, 1942, to September 1, 1942, Aero-Craft Company manufactured, fabricated and assembled approximately 64 coin-operated airplane amusement devices containing copper and copper base alloy.

During the period from February 1, 1942 to March 16, 1942, the manufacture, fabrication and assembly of such machines was limited to 25 per cent of the monthly average of such type equipment produced by said company during the twelve months ending June 30, 1941. This company did not produce any such machines during the twelve months period ending June 30, 1941, and therefore, the manufacture, assembly and fabrication of such machines by this company during the period February 1 to March 16, 1942 constituted a wilful violation of Limitation Order L–21 and L–21–a. During the period from March 16, 1942 to May 1, 1942 the use of copper in the manufacture of such machines was prohibited, and after May 1, 1942 the manufacture, fabrication and assembly of such machines was prohibited entirely. The use of copper in the manufacture of these machines after March 16, 1942, and the manufacture, fabrication and assembly of said machines after May 1, 1942, constituted a violation of Limitation Order L–21–a.

The foregoing violations of War Production Board orders have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing facts: *It is hereby ordered,* That:

§ 1010.145 *Suspension Order No. S–145.* (a) Neither Alex R. Tigerman, Mrs. Alex R. Tigerman, nor Aero-Craft Company, their successors and assigns, shall, subsequent to the effective date of this order, deliver, transfer or in any manner dispose of any or all coin-operated amusement machines now owned by them, except for the purpose of delivering the same to storage for their own account.

(b) For a period of six months subsequent to the effective date of this order, deliveries of material to Alex R. Tigerman, Mrs. Alex R. Tigerman and Aero-Craft Company, their successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of the Industry Operations or the Director General for Operations.

(c) For a period of six months subsequent to the effective date of this order, no allocation shall be made to Alex R. Tigerman, Mrs. Alex R. Tigerman, or Aero-Craft Company, their successors or assigns, of any material the supply or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as specifically authorized by the Director General for Operations.

(d) Neither Alex R. Tigerman, Mrs. Alex R. Tigerman, nor Aero-Craft Company shall, subsequent to the effective date of this order, sell, transfer, assign, use, process, fabricate, or in any wise change the form or dispose of any or all of the materials now owned by them, which were purchased or obtained for the purpose of incorporating the same into coin-operated amusement machines, except as specifically authorized by the Director General for Operations. The provisions of this paragraph shall not apply to the removal of said materials to a place of storage for their account.

(e) Nothing contained in this order shall be deemed to relieve Alex R. Tigerman, Mrs. Alex R. Tigerman and Aero-Craft Company from any restriction, prohibition, or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, whether now in force or hereafter issued, except in so far as the same may be inconsistent with the provisions hereof.

(f) This order shall take effect on November 20, 1942.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 17th day of November 1942.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–146]

N. L. TRAUB AND WASHINGTON LANE CORPORATION

N. L. Traub is engaged in the construction and development of residential housing accommodations with offices at 6701 North Broad Street, Philadelphia, Pennsylvania.

The Washington Lane Corporation is a corporation wholly owned by said N. L. Traub, its president, and is engaged in the construction of a large defense housing project at Washington Lane and Morton Street, Germantown, Philadelphia, Pennsylvania, of which it is the owner.

Subsequent to June 22, 1942, N. L. Traub and the Washington Lane Corporation, working in concert and in conjunction with each other accepted delivery of, and installed in and connected to various houses in the defense housing project mentioned in the preceding paragraph hereof, approximately 4,800 pounds of copper or copper base alloy tubing for plumbing and heating purposes, notwithstanding the fact that they had actual knowledge that such acts were prohibited by the provisions of Supplementary Order M–9–c–4. The aforesaid acts, therefore, constituted wilful violations of Supplementary Order M–9–c–4.

These violations have impeded and hampered the war effort of the United States by diverting scarce material to uses not authorized by the War Production Board. In view of the foregoing facts: *It is hereby ordered:*

§ 1010.146 *Suspension Order No. S–146.* (a) N. L. Traub and the Washington Lane Corporation, their successors and assigns, shall not, subsequent to the effective date of this order, sell, transfer, assign, use, process, fabricate, or otherwise change the form or dispose of the copper tubing and copper base alloy products now owned by either or both of them, or in their possession, except upon the specific direction of the Director General for Operations. The provisions of this paragraph (a) do not apply to the removal of said materials to a place of storage for their account.

(b) For a period of eight months from the effective date of this order deliveries of materials to N. L. Traub and the Washington Lane Corporation, his or its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating, certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as hereafter specifically authorized by the Director General for Operations. The provisions of this paragraph (b) shall not be applicable to deliveries of materials for completion of the housing project at Washington Lane and Morton Street, Germantown, Philadelphia, Pennsylvania, to which preference ratings are extended under Preference Rating Order P–55, Serial No. 77–034–000–496–531–Philadelphia or any other preference rating certificate.

(c) For a period of eight months from the effective date of this order, no allocation shall be made to N. L. Taub or the Washington Lane Corporation, his and its successors and assigns, of any material, the supply, or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as hereafter specifically authorized by the Director General for Operations.

(d) Nothing contained in this order shall be deemed to relieve N. L. Traub or the Washington Lane Corporation from any restrictions, prohibition or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, whether now in force or hereafter issued, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect upon November 19, 1942, and shall terminate on July 19, 1943, after which latter date it shall be of no further force and effect.

(P. D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 17th day of November 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–147]

ROBERT M. MORFORD

Robert M. Morford, 7500 Walnut Lane, Philadelphia, Pennsylvania, is an individual engaged in plumbing contracting. Subsequent to July 22, 1942, Robert M. Morford delivered to, installed in and connected to various houses in the defense housing project at Washington Lane and Morton Street, Germantown, Philadelphia, Pennsylvania, approximately 4,800 pounds of copper or copper base alloy tubing for plumbing and heating purposes, notwithstanding the fact that he had actual knowledge that such act was prohibited by the provisions of Supplementary Order M–9–c–4. The aforesaid act therefore constituted a wilful violation of Supplementary Order M–9–c–4.

This violation has impeded and hampered the war effort of the United States by diverting scarce material to uses not authorized by the War Production Board. In view of the foregoing facts: *It is hereby ordered:*

§ 1010.147 *Suspension Order No. S–147.* (a) Robert M. Morford shall not, subsequent to the effective date of this order, sell, transfer, assign, use, process, fabricate, or otherwise change the form or dispose of the copper tubing and copper base alloy products now owned by him, or in his possession, except upon the specific direction of the Director General for Operations. The provisions of this paragraph (a) do not apply to the removal of said material to a place of storage for his own account.

(b) For a period of eight months from the effective date of this order deliveries of material to Robert M. Morford, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the Director of Industry Operations or the Director General for Operations, except as hereafter specifically authorized by the Director General for Operations. The provisions of this paragraph (b) shall not apply to deliveries of materials for completion of the housing project at Washington Lane and Morton Street, Germantown, Philadelphia, Pennsylvania, to which preference ratings are extended under P–55, Serial No. 77–034–000–496–531–Philadelphia or any other preference rating certificate.

(c) For a period of eight months from the effective date of this order, no allocation shall be made to Robert M. Morford, of any material, the supply, or distribution of which is governed by any order of the Director of Industry Operations or the Director General for Operations, except as hereafter specifically authorized by the Director General for Operations.

(d) Nothing contained in this order shall be deemed to relieve Robert M. Morford from any restrictions, prohibition or provision contained in any order or regulation of the Director of Industry Operations or the Director General for Operations, whether now in force or hereafter issued, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect upon November 19, 1942, and shall terminate on July 19, 1943, after which latter date it shall be of no further force and effect.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 17th day of November, 1942.

ERNEST KANZLER,
Director General for Operations.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–149]

RAY OIL BURNER COMPANY

Ray Oil Burner Company, of San Francisco, California, is a corporation engaged in the manufacture of oil burners. Under Limitation Order L–74, the company was permitted to produce only 365 Class B Oil Burners during the months of April and May, 1942. Despite this limitation, the company produced 865 Class B Oil Burners during that period. Furthermore, during the month of June, 1942, the company produced 333 Class B Oil Burners, although the manufacture of all of such oil burners during such period was prohibited by Limitation Order L–74.

These violations of Limitation Order L–74 were wilful, and hampered and impeded the war effort of the United States by diverting scarce materials to uses unauthorized by the War Production Board. In view of the foregoing facts: *It is hereby ordered,* That:

§ 1010.149 *Suspension Order No. S–149.* (a) Ray Oil Burner Company, its successors and assigns, shall not produce, fabricate or assemble any Class A Oil Burners, as the same are defined in Limitation Order No. L–74, as amended, to fill any order which bears a preference rating of A–10 or better, except as specifically authorized by the Regional Compliance Chief of the San Francisco Regional Office of the War Production Board.

(b) Ray Oil Burner Company, its successors and assigns, shall not produce, fabricate or assemble any Class B Oil Burners, as the same are defined in Limitation Order No. L–74, as amended, except as specifically authorized by the Director General for Operations: *Provided, however,* That this paragraph shall not prohibit the production, fabrication or assembling of any Class B Oil Burner which Ray Oil Burner Company has heretofore been authorized by the Director General for Operations to produce, fabricate or assemble.

(c) Nothing contained in this order shall be deemed to relieve Ray Oil Burner Company from any other restriction, prohibition or provision contained in Limitation Order No. L–74, or from any restriction, prohibition or provision in any other order or regulation of the Director of Industry Operations or the Director General for Operations, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on December 2, 1942, and shall expire on March 2, 1943.

(P.D. Reg. 1, as amended 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 17th day of November 1942.

PART 933—COPPER

[Amendment 1 to Supplementary Conservation Order M-9-c-4 As Amended Oct. 27, 1942]

Section 933.15 *Supplementary Conservation Order M-9-c-4*[1] is hereby amended in the following respects: Subparagraph (9) of paragraph (a) is hereby amended to be and read as follows:

(9) "To install in or connect to a structure or system" means to attach or build material to or into a building or other structure or to or into a cooling tower or water tower, water supply or water distribution system or installation; but does not mean to attach or build material to or into a machine such as a heater, refrigerator or other device (except a cooling tower or water tower) which itself has been or may be attached to or built into the structure or to or into an industrial processing system.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 18th day of November 1942.

PART 962—IRON AND STEEL

[Supplementary Order M-21-d, as amended Nov. 18, 1942]

CORROSION AND HEAT RESISTANT CHROME STEEL

Section 962.5 *Supplementary Order M-21-d*[2] is hereby amended to read as follows:

§ 962.5 *Supplementary Order M-21-d*—(a) *Restrictions on deliveries, use, etc.* Except pursuant to specific authorization or direction of the Director General for Operations, no person shall consume, use, process, fabricate, or deliver corrosion or heat resistant alloy iron or alloy steel containing 4 per cent or more of chromium except in accordance with the following:

(1) The above prohibition shall not apply to material to be delivered by the holder on a preference rating of AA-5 or higher, or to material acquired on a preference rating of AA-5 or higher.

(2) The above prohibition shall not apply to material acquired prior to November 18, 1942 on a preference rating of A-1-k or higher.

(3) The above prohibition shall not apply to fully fabricated articles. It shall apply to raw steel stock in the form received, or cut to size for further processing or fabrication.

(b) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(c) *Appeal.* Any appeal fom the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(d) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Iron and Steel Branch, Washington, D. C. Ref.: M-21-d.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

PART 1053—FATS AND OILS

[Interpretation 1 of General Preference Order M-71, As Amended Sept. 22, 1942]

The following official interpretation is hereby issued by the Director General for Operations with respect to § 1053.1, General Preference Order M-71, as amended September 22, 1942:[1]

> The term "principal ingredient" used in paragraph (a) (4) (vi) of the order means the largest single ingredient by weight, subject to the qualification that shortening, mayonnaise and salad dressing (edible products specifically listed in Schedule A annexed to said order) are to be considered products of which a fat or oil is the principal ingredient regardless of the fat or oil composition thereof in the particular case.

(P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 18th day of November 1942.

PART 1178—FISHING TACKLE

[General Limitation Order L-92, as amended Nov. 18, 1942]

§ 1178.1 *General Limitation Order L-92*—(a) *Definitions.* For the purposes of this order:

(1) "Fishing tackle product" means any manufactured product designed primarily for use in non-commercial fishing, including, but not limited to, the following: rods, rod fittings, and rod accessories; reels, reel equipment and reel accessories; lines, leaders, sinkers, swivels, fish hooks, bait boxes, tackle boxes, fly boxes, creels artificial lures, baits and flies.

(2) "Repair and replacement part" means any part for a fishing tackle product which is not produced for or used in a new fishing tackle product.

(3) "Manufacturer" means any person engaged in the business of producing any fishing tackle product or any parts therefor, including repair and replacement parts.

(4) "Critical material" means plastics, cork and any metal other than iron and steel.

(b) *General restrictions.* (1) Except as provided in subparagraph (2) of this paragraph (b), no manufacturer shall process, fabricate, work on, assemble or repair any fishing tackle product or part therefor, including repair and replacement parts, containing any critical material or iron and steel.

(2) Notwithstanding the provisions of subparagraph (1) of this paragraph (b), a manufacturer may:

(i) Produce fish hooks containing iron or steel, *Provided*, That during the period of three months beginning October 1, 1942, and during each succeeding period of three months, he does not produce for non-commercial fishing purposes more than 12½% of the number of fish hooks produced by him for such purposes in the year 1941;

(ii) Convert fish hooks containing iron or steel into lures, baits or flies, *Provided*, That no critical material and no iron or steel (other than that contained in the fish hooks) is contained in such lures, baits or flies;

(iii) Use in the repair of fishing tackle products any repair and replacement parts which were fully fabricated on or before November 18, 1942; and

(iv) Use in the repair of fishing tackle products and in the production of repair and replacement parts any iron and steel which, on or before November 18, 1942 was:

(*a*) In his inventory or in the inventory of another manufacturer, and

[1] 7 F.R. 7485, 8692.

(*b*) So fabricated or processed that it could not be used for any purpose except in fishing tackle products.

(3) None of the provisions of this order shall be deemed to limit in any way the production or repair of products designed primarily for use in the commercial fishing industry, or of parts, including repair and replacement parts for such products.

(c) *Inventory restrictions.* (1) No manufacturer shall receive, or accept delivery of, for use in the production or repair of fishing tackle products or of parts therefor, including repair and replacement parts, any critical material or iron and steel, except material and parts in the form which he may use in the repair of fishing tackle products and in the production of repair and replacement parts under subdivisions (iii) and (iv) of paragraph (b) (2).

(2) A manufacturer may sell materials in his inventory only in accordance with the provisions of Priorities Regulation 13 (Part 944) and all other applicable Orders and Regulations, except that he may sell to another manufacturer materials and parts which such other manufacturer may use in the repair of fishing tackle products and in the production of repair and replacement parts under subdivisions (iii) and (iv) of paragraph (b) (2), and any such sale shall be deemed a sale expressly permitted within the terms of paragraph (c) (3) of Priorities Regulation 13.

(d) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this order applies shall file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(h) *Appeal.* Any appeal from the provisions of this order must be made on Form PD-500 and must be filed with the field office of the War Production Board of the district in which is located the plant to which the appeal relates.

(i) *Applicability of other orders.* In so far as any other order heretofore or hereafter issued by the Director of Priorities, the Director of Industry Operations or the Director General for Operations limits the use of any material in the production or repair of fishing tackle products or parts therefor, including repair and replacement parts, to a greater extent than the limits imposed by this order, the restrictions in such other order shall govern unless otherwise specified therein.

(j) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Washington, D. C., Consumers' Durable Goods Branch, Ref: L-92.

Chapter XI—Office of Price Administration

PART 1334—SUGAR, CONFECTIONERY AND SOFT DRINKS

[Order 2 Under RPS 16[2]]

J. D. AND A. B. SPRECKELS CO.

Order No. 2 Under Revised Price Schedule No. 16—Raw Cane Sugar.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1334.102 *Granting approval under § 1334.9 (a) (6).* (a) J. D. & A. B. Spreckels Company (doing business as to one of its departments under the name and style of "Western Sugar Refinery"), a corporation organized and existing under the laws of the State of California and with its principal place of business in the City and County of San Francisco, California, as buyer, and the following named plantation companies engaged in the business of growing sugar cane and producing raw sugar therefrom in the Territory of Hawaii, as sellers, may employ the method of averaging prices for such raw sugar specified in the respective contracts between said buyer and said sellers as of January 1, 1943 (copies of which have been submitted to the Office of Price Administration) for the "contract year" January 1, 1943 to December 31, 1943. The seller plantation companies follow:

Hilo Sugar Company, Honolulu, T. H., a corporation organized and existing under the laws of the Territory of Hawaii.

Hakalau Plantation Company, 2 Pine Street, San Francisco, California, a corporation organized and existing under the laws of the State of California.

Hutchinson Sugar Plantation Company, 2 Pine Street, San Francisco, California, a corporation organized and existing under the laws of the State of California.

Kilauea Sugar Plantation Company, 2 Pine Street, San Francisco, California, a corporation organized and existing under the laws of the State of California.

Kaeleku Sugar Company, Limited, Honolulu, T. H., a corporation organized and existing under the laws of the Territory of Hawaii.

Gay and Robinson, Makaweli, Kauai, T. H., a co-partnership consisting of Mrs. Alice Robinson, Sinclair Robinson, Alymer F. Robinson, Selwyn A. Robinson, Eleanor Robinson, and Lester B. Robinson.

Wailea Milling Company, Ltd., Honolulu, T. H., a corporation organized and existing under the laws of the Territory of Hawaii.

Olokele Sugar Company, Limited, Kauai, T. H., a corporation organized and existing under the laws of the Territory of Hawaii.

Paauhau Sugar Plantation Company, 2 Pine Street, San Francisco, California, a corporation organized and existing under the laws of the State of California.

(b) The following deductions specified in Article 9 of each of said contracts are approved.

First: A deduction of twenty hundredths (.20) of one cent per pound delivered net weight before conversion on all sugars polarizing ninety-three degrees (93°) or more, if sugars are delivered in bags; or

Second: A deduction of twenty-six hundred and twenty-five ten thousandths (.2625) of one cent per pound delivered net weight before conversion on all sugars polarizing ninety-three degrees (93°) or more, if sugars are delivered in bulk; and

Third: An additional deduction of one-half (.5) of one per cent of the applicable average market price per pound;

Fourth: An additional deduction in respect of sugar delivered at the port of San Francisco of one-tenth (1/10) of one cent per pound delivered net weight before conversion on all sugars damaged by salt water;

Fifth: An additional deduction in respect of sugars delivered at the port of San Francisco of one-tenth (1/10) of one cent per pound delivered net weight before conversion on all sugars damaged by fresh water or affected by sweat, provided such damaged sugar shows deterioration of two degrees (2°) or more from the average polarization of the sound sugar of the same Mark or the same bulk shipment as the case may be;

PART 1346—BUILDING MATERIALS

[MPR 272]

CAST-IRON BOILERS AND CAST-IRON RADIATION

In the judgment of the Price Administrator the prices of cast-iron boilers and cast-iron radiation have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. The Price Administrator has ascertained and given due consideration to the prices of cast-iron boilers and cast-iron radiation prevailing between October 1 and 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry who will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with Revised Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 272 is hereby issued.

Sec.
1346.251 Purpose of this regulation.
1346.252 General Maximum Price Regulation and Maximum Price Regulation No. 188, superseded.
1346.253 Prohibitions.
1346.254 Less than maximum prices.

1346.265 Geographical applicability.
1346.266 Revised Maximum Export Price Regulation applicable.
1346.267 Effective date.
1346.268 Appendix A: Maximum prices for cast-iron boilers and cast-iron radiation.

AUTHORITY: §§ 1346.251 to 1346.268, inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

§ 1346.251 *Purpose of this regulation.* (a) It is the purpose of this Maximum Price Regulation No. 272 to establish maximum prices for sales and deliveries of cast-iron boilers and cast-iron radiation. The maximum prices for sales and deliveries covered by this Maximum Price Regulation No. 272 are set forth in Appendix A (§ 1346.268).

(b) In those cases in which the seller furnishes such articles and, in consideration for the total price paid by the purchaser, also performs the service of connecting the cast-iron boiler or cast-iron radiation to the heating system, the sales and deliveries are not covered by this Maximum Price Regulation No. 272, but are covered by Maximum Price Regulation No. 251.

§ 1346.252 *General Maximum Price Regulation and Maximum Price Regulation No. 188, superseded.* The provisions of the General Maximum Price Regulation and Maximum Price Regulation No. 188 are superseded by this Maximum Price Regulation No. 272 with respect to sales or deliveries of cast-iron boilers and cast-iron radiation for which maximum prices are in effect pursuant to this Maximum Price Regulation No. 272: *Provided,* That the provisions of Maximum Price Regulation No. 188 shall be applicable in the manner indicated in § 1346.268 (a) (5) of this Maximum Price Regulation No. 272.

§ 1346.253 *Prohibition against sales of cast-iron boilers or cast-iron radiation at higher than maximum prices.* (a) On and after November 23, 1942, regardless of any contract, lease, or other obligation:

(1) No person shall sell or deliver any cast-iron boilers or cast-iron radiation at a price higher than the maximum price permitted by this Maximum Price Regulation No. 272.

(2) No person in the course of trade or business shall buy or receive any cast-iron boilers or cast-iron radiation at a price higher than that permitted by this Maximum Price Regulation No. 272.

(3) No person shall agree, offer, solicit, or attempt to do any of the acts prohibited in subparagraphs (1) and (2) of this paragraph (a).

(b) No war procurement agency, nor any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this Maximum Price Regulation No. 272 or the Emergency Price Control Act of 1942.

§ 1346.254 *Less than maximum prices.* Lower prices than those set forth in § 1346.268 may be charged, demanded, paid, or offered.

§ 1346.255 *Federal and State taxes.* As to any tax upon, or incidental to, the sale or delivery of cast-iron boilers or cast-iron radiation, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, if the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1346.256 *Adjustable pricing.* Any person may offer or agree to adjust prices to or at prices not in excess of the maximum prices in effect at the time of delivery.

[1] 7 F.R. 8961.

§ 1346.257 *Evasion.* The provisions of this Maximum Price Regulation No. 272 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to cast-iron boilers or cast-iron radiation, alone, together, or in conjunction with any other commodity, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1346.258 *Notification of purchaser of existence of regulation.* Every person making sales subject to this Maximum Price Regulation No. 272 shall, before entering into a contract or making a sale, notify the purchaser of the existence of this Maximum Price Regulation No. 272, and, upon request of the purchaser, make available a copy of this Maximum Price Regulation No. 272 at the seller's principal place of business and at every branch office for examination by the purchaser.

§ 1346.259 *Filing of price lists by manufacturers.* On or before December 10, 1942, every manufacturer of cast-iron boilers and/or cast-iron radiation shall file with the Office of Price Administration, Washington, D. C., one hundred (100) copies of its price sheets issued on the date set forth in paragraph (e) of Appendix A (§ 1346.268), together with a certificate to the effect that such price sheets are true copies of the price sheets issued on the date in question.

§ 1346.260 *Records and reports.* (a) On and after November 23, 1942, every person making purchases or sales of cast-iron boilers or cast-iron radiation in the course of trade shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect complete and accurate records and copies of invoices of each such purchase or sale, showing the date thereof, the name and address of the buyer and seller, the price paid or received, the freight or surcharge paid or received, the quantity of each type and size of cast-iron boiler and any cast-iron radiation purchased or sold, and the manufacturer's name and plate number for each boiler purchased or sold.

(b) Persons affected by this Maximum Price Regulation No. 272 shall submit such reports to the Office of Price Administration as it may from time to time require.

§ 1346.261 *Licensing.* The provisions of Supplementary Order No. 18 (§ 1305.22), Licensing Persons Selling Lumber, Lumber Products or Building Materials, are applicable to every person (except manufacturers) making sales of cast-iron boilers and cast-iron radiation for which maximum prices are established by this regulation.

§ 1346.262 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 272 are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and license suspension proceedings provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 272, or any price schedule, regulation, or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation are urged to communicate with the nearest state, district, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1346.263 *Petitions for amendment or adjustment*—(a) *Government contracts or subcontracts.* Any person who has entered into or proposes to enter into a Government contract or a subcontract under any such contract, who believes that the maximum price impedes or threatens to impede production of cast-iron radiation or cast-iron boilers which are essential to the war program and which are or will be the subject of such contract or subcontract, may file an application for adjustment of the maximum prices established by this Maximum Price Regulation No. 272, in accordance with Procedural Regulation No. 6 [2] issued by the Office of Price Administration.

(b) *Petitions for amendment.* Any person seeking an amendment of this Maximum Price Regulation No. 272 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1346.264 *Definitions.* (a) When used in this Maximum Price Regulation No. 272, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Manufacturer" means any person engaged in the fabrication or production of cast-iron boilers and/or cast-iron radiation. Except for the purposes of the records' requirements of § 1346.260, the term includes, without restricting the generality of the foregoing, any manufacturer's representative, factory commission, salesman, or other manufacturer's agent.

(3) "Jobber" means any person, other than a manufacturer, who purchases cast-iron boilers and/or cast-iron radiation for purposes of resale other than on an installed basis.

(4) "Installed basis," when used in reference to a sale or delivery, means a transaction in which the seller furnishes a cast-iron boiler and/or cast-iron radiation and in consideration of the total price paid by the purchaser, performs the service of connecting the cast-iron boiler and/or cast-iron radiation to the heating system.

(5) "Manufacturer's warehouse" means a warehouse situated at a point other than the location of a foundry operated by the manufacturer where a stock of cast-iron boilers or cast-iron radiation delivered from the owner's foundry is normally maintained for sale and delivery to jobbers or others.

(6) "Cast-iron radiation" means a tubular or hollow device constructed of cast iron which, by means of internal circulation of high temperature vapor or liquid, emits heat from its external surface by means of conduction, radiation, and convection. The term includes, without limiting the generality of the foregoing, radiators (whether a unit or a combination of sections), and radiator sections, and all of the items set forth in Appendix A (§ 1346.268 (d)).

(7) "Cast-iron boiler" means any closed cast-iron pressure vessel designed to burn solid or liquid fuels for the purpose of generating steam or hot water for use in a heating system, whether actually so used or not. Without limiting the foregoing, the term includes jackets, grate bars, boiler trim, and other attachments or accessories commonly sold with the boiler as a unit, but does not include parts of boilers sold as repair parts, or oil burners and automatic controls, or stokers and automatic controls, sold as a part of a unit.

(8) "Government contract" means any contract with the United States or any agency thereof or with the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States" or with any agency of any such Government.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1346.265 *Geographical applicability.* The provisions of this Maximum Price Regulation No. 272 shall be applicable to the 48 states of the United States and the District of Columbia.

§ 1346.266 *Revised Maximum Export Price Regulation applicable.*[3] The maximum price at which a person may export any cast-iron boiler or cast-iron radiation shall be determined in accordance with the provisions of the Revised Maximum Export Price Regulation issued by the Office of Price Administration.

§ 1346.267 *Effective date.* Maximum Price Regulation No. 272 (§§ 1346.251 to 1346.268, inclusive) shall become effective November 23, 1942.

§ 1346.268 *Appendix A: Maximum prices for cast-iron boilers and cast-iron radiation*—(a) *Sales by or purchases from manufacturers*—(1) *Functional discounts.* The maximum prices for sales by manufacturers or purchases from them shall be ascertained by applying the following discounts to the sheet prices set forth or referred to in paragraphs (d) and (e) below:

Sales by manufacturers:		
(i) To jobbers or manufacturers.	20% and 5%	15% and 5%.
(ii) To others	Sheet prices	Sheet prices.

There are some exceptions to these discounts with respect to certain manufacturers. These exceptions are set forth in paragraph (e) (2), below.

(2) *Transportation provisions.* The maximum prices for sales by manufacturers, calculated in accordance with subparagraph (1), above, are prices at the point of delivery, except as provided in subdivision (i), (ii), and (iii) of this subparagraph (2). If shipment is by rail, water, or by rail and water, the point of delivery is the railroad siding or unloading dock nearest the point designated by the purchaser. In case of shipment by common or contract motor carrier, the point of delivery is the point designated by the purchaser. If the purchaser picks up his purchase at the manufacturer's warehouse, the warehouse platform shall be the point of delivery.

(i) When shipments of 200 pounds or more are made by manufacturers from the point of manufacture, the maximum price, calculated in accordance with subparagraph (1), above, shall include freight charges actually incurred by the manufacturer at not more than the minimum railroad carload rate of freight, regardless of the type of carrier actually employed. Freight charges on a shipment in excess of the charges which would have been incurred at the minimum railroad carload rate of freight may be added to the maximum prices calculated in accordance with subparagraph (1), above, if the manufacturer shows such additional charges as a separate item on the invoice.

(ii) When shipments of less than 200 pounds are made by manufacturers from the point of manufacture, the maximum price, calculated in accordance with subparagraph (1), above, is the price f. o. b. the point of manufacture.

(iii) When shipments are made from or deliveries are made at the manufacturers' warehouses located at the points designated below, the maximum price, calculated in accordance with subparagraph (1), above, may be increased by the applicable surcharge set forth below: *Provided, however,* That if it was the practice of the seller, on October 1, 1941, to make free delivery from the warehouse within a definite area, the seller shall deliver in that area without charge. No surcharges other than those designated may be made for shipments from or deliveries at any manufacturers' warehouses; nor may such surcharges be made unless they are shown on the invoice as a separate item.

(3) *Unlisted items.* The maximum price for any model or type of cast-iron boiler sold or offered for sale by a manufacturer prior to August 1, 1942, which is not listed in the sheet prices set forth or referred to in paragraph (e) of this section, shall be an amount not more than 95% of the net price which was charged or which would have been charged by the manufacturer on a sale made on February 18, 1942, to the same purchaser or class of purchaser for like quantities, types, and sizes of cast-iron boilers.

(i) *Reporting.* Every manufacturer shall, prior to November 30, 1942, file with the Office of Price Administration, Washington, D. C., a list of all models or types of cast-iron boilers not set forth or referred to in paragraph (e) of this section, which he has sold or offered for sale during the year prior to August 1, 1942, together with a complete description of such articles, including their performance, their maximum selling prices as determined above, and the names of all purchasers of each such model, and the name or designation given to such models by each re-seller.

(4) *Services, cash and quantity discounts.* The maximum prices for sales by manufacturers or purchasers from them shall include at least the same rendition of services and at least the same extension of quantity and cash discounts as were or would have been rendered or extended by the seller on comparable sales to a purchaser of the same class on October 1, 1941.

(5) *New models or types.* The maximum sheet price for any model or type of cast-iron boiler or cast-iron radiation first offered for sale subsequent to August 1, 1942, and for which no sheet price is established by this Maximum Price Regulation No. 272, shall be determined in accordance with the provisions of § 1499.154 of Maximum Price Regulation No. 188.[4]

(b) *Sales by or purchases from jobbers*—(1) *Listed items.* The maximum prices for sales by jobbers or purchases from them shall be the sheet prices set forth or referred to in paragraphs (d) and (e) of this section: *Provided,* That the maximum prices for sales by jobbers of cast-iron boilers produced by Pierce-Butler Radiator Company shall be sheet prices less a discount of 38%: *And provided further,* That the maximum prices for sales by jobbers of cast-iron boilers produced by Freed Heater and Manufacturing Company shall be the sheet prices plus 5%.

(2) *Unlisted items.* The maximum prices for sales by jobbers or purchases from them of any model or type of cast-iron boiler, which is not set forth or referred to in paragraph (e) of this section, shall be 95% of the highest sheet price published by the jobber during February 1942, or, if the jobber had no published sheet price for any model or type of cast-iron boiler which is not set forth or referred to in paragraph (e) of this section, shall be the cost of such cast-iron boiler to the jobber plus a percentage mark-up on the cost not in excess of the percentage mark-up over cost, similarly calculated, which the jobber received on the greatest portion of his sales of cast-iron boilers during February 1942.

(3) *Delivery charges.* All sales from the warehouses of jobbers may be made f. o. b. warehouse: *Provided, however,* That if it was the practice of the seller on October 1, 1941, to make free delivery within a definite area, the seller shall deliver in that area without charge.

(4) *Services, cash and quantity discounts.* The maximum prices for sales by jobbers shall include at least the same absorption of transportation costs, and other charges, at least the same rendition of services, and at least the same extension of quantity and cash discounts as were or would have been absorbed, rendered, or extended by the seller on comparable sales to a purchaser of the same class on October 1, 1941.

(c) *Sales to all other persons*—(1) *Listed items.* Without limiting or altering the foregoing, no person shall sell cast-iron boilers or cast-iron radiation to any other person at prices higher than the sheets prices set forth or referred to in paragraphs (d) and (e) of this section, except on an installed basis.

(2) *Unlisted items.* Without limiting or altering the foregoing, no person shall sell any cast-iron boilers or cast-iron radiation not listed or referred to in paragraphs (d) and (e) of this section to any other person at prices higher than the cost of such cast-iron boiler or cast-iron radiation to the person, plus a percentage mark-up on the cost not more than the percentage mark-up over cost, similarly calculated, which the person received on the greatest portion of his sales of cast-iron boilers or cast-iron radiation during February 1942.

(d) *Sheet prices for cast-iron radiators*—(1) *Direct cast-iron radiation:*

(i) *Large tube:*

PART 1376—FLUORITE

[MPR 126,[1] as Amended]

FLUORSPAR

In the judgment of the Price Administrator it is necessary and proper in so far as practicable, to establish a uniform system of determining maximum prices for metallurgical and acid grades of fluorspar.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.* In the judgment of the Price Administrator the maximum prices established by this Maximum Price Regulation No. 126, as amended, are and will be generally fair and equitable, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. So far as practicable, the Price Administrator had advised and consulted with members of the industry which will be affected by this regulation.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and in accordance with Revised Procedural Regulation No. 1[2] issued by the Office of Price Administration, it is hereby directed that:

Sections 1376.1 to 1376.15 inclusive, of Maximum Price Regulation No. 126 are renumbered and amended to read as set forth herein:

Sec.

1376.1 Maximum prices for fluorspar.
1376.2 Less than maximum prices.
1376.3 Adjustable pricing.
1376.4 Evasion.
1376.5 Records and reports.
1376.6 Enforcement.
1376.7 Applications for adjustment and petitions for amendment.
1376.8 Definitions.
1376.9 Discount and credit provisions.
1376.10 Transportation costs.
1376.11 Export sales.
1376.12 Agreements with Office of Price Administration.
1376.13 Idle or frozen materials.
1376.14 Effective date.

AUTHORITY: §§ 1376.1 to 1376.14 inclusive, issued under Pub. Laws 421 and 729, 77th Cong.; and E.O. 9250, 7 F.R. 7871.

§ 1376.1 *Maximum prices for fluorspar.* On and after November 1, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver any commercial grade of fluorspar, and no person shall buy or receive any commercial grade of fluorspar in the course of trade or business, at a price higher than the following, and no person shall agree, offer, solicit or attempt to do any of the foregoing prohibited acts:

(a) *Metallurgical grade.* (1) The maximum price f. o. b. a consumer's plant on any shipment shall be the price for the effective CaF_2 content as listed in the following table, plus either (i) railroad freight on such shipment from the producer's shipping point to the consumer's plant, or (ii) railroad freight on such a shipment from Rosiclare, Illinois, to the consumer's plant, whichever is lower.

Effective CaF_2 content	*Base price per short ton*
70% or more	$28.00
65% but less than 70%	27.00
60% but less than 65%	26.00
Less than 60%	25.00

(2) The maximum price f. o. b. a producer's railroad or waterway shipping point shall be his maximum delivered price as determined under subparagraph (1) less freight from such shipping point to the consumer's plant.

(3) The effective CaF_2 content shall be determined by deducting 2½ times the SiO_2 content from the CaF_2 content (Example: The effective CaF_2 content of fluorspar with the specifications of 85% CaF_2 and 5% SiO_2 is determined as follows: 85—2½×5=72½).

(4) Examples: The maximum price per ton f. o. b. shipping point at Marion, Kentucky, on a carload sale of metallurgical grade fluorspar with an 84% CaF_2 and 5% SiO_2 content to a consumer at Pittsburgh would be $28.00. This price is obtained by first calculating the effective CaF_2 content which is 84−2½×5, or 71½%, for which the above table establishes a maximum base price of $28.00. Next, to this should be added the lower of the railroad freights from Marion to Pittsburgh and from Rosiclare to Pittsburgh respectively. Since these are both $6.13, the delivered price is $28.00 plus $6.13, or $34.13. To obtain the f. o. b. shipping point price, the freight of $6.13 from Marion to Pittsburgh is deducted from the delivered price of $34.13 which results in a maximum f. o. b. shipping point price of $28.00.

If this shipment were made from Salida, Colorado, to Pittsburgh, the maximum price f. o. b. the buyer's plant would be $34.13, since the freight of $6.13 from Rosiclare to Pittsburgh is less than the freight of $11.89 from Salida to Pittsburgh. The maximum price f. o. b. the seller's shipping point would be $22.24; that is, $34.13 minus $11.89.

Similarly, if the shipment were made from Salida to Longview, Washington, the maximum delivered price would be $39.60, representing $28.00 plus freight of $11.60 from Salida to Longview, which is less than the freight of $20.00 from Rosiclare to Longview. The maximum price f. o. b. the seller's shipping point would be $28.00; that is, $39.60 minus $11.60.

(b) *Acid grade fluorspar produced outside the Illinois-Kentucky fluorspar district.* (1) The maximum price f. o. b. a consumer's plant for any shipment of acid grade fluorspar with a minimum of 97½% CaF_2 and a maximum of 1½% SiO_2 shall be $32.00 per ton, plus either (i) railroad freight on such shipment from the seller's shipping point to the consumer's plant or (ii) railroad freight on such a shipment from Rosiclare, Illinois, to the consumer's plant, whichever is lower.

(2) The maximum price f. o. b. a producer's railroad or waterway shipping point for such acid grade fluorspar shall be his maximum delivered price as determined under subparagraph (1) less freight from such shipping point to the consumer's plant.

(3) Customary premiums allowed by the buyer for higher CaF_2 or lower SiO_2 content, and customary penalties imposed by the buyer for lower CaF_2 or higher SiO_2 content may be applied to such maximum prices: *Provided,* That each seller shall file with the Office of Price Administration all such premiums and penalties to which he is subject within 30 days of the effective date of these amendments and thereafter within 10 days after he becomes subject to any different premiums or penalties.

(c) *Acid grade fluorspar produced in the Illinois-Kentucky fluorspar district and all Ceramic grade fluorspar.* (1) The maximum price shall be the highest price which the seller had in effect for that grade of fluorspar on January 2, 1942, f. o. b. the railroad or waterway shipping point from which such seller customarily ships from the mine or mill from which the sale or delivery is made: *Provided, however,* That if such January 2, 1942, price was on a basis other than f. o. b. such shipping point, such price shall be adjusted in such manner by the addition or deduction of shipping costs as to be converted into a price f. o. b. such shipping point; or

(2) The maximum price shall be the maximum price heretofore established by the Office of Price Administration in accordance with § 1376.1 (c) (3) (formerly § 1376.1 (a) (3)) of this Maximum Price Regulation No. 126, as amended or

(3) If the seller claims that a maximum price cannot be determined under (1) and (2) of this paragraph, then the maximum price shall be a price determined by the Office of Price Administration to be in line with the level of maximum prices established by this section. This price will be determined by said Office upon written application to the Office of Price Administration, Washington, D. C., by any seller, setting forth the location of his mine or mill from which the fluorspar is to be shipped, and the grade or grades of fluorspar for which prices are desired. In making the determination, consideration will be given to the geographical location of the mine or mill, and to freight differentials between that location and the location of other mines or mills, in shipments to points at which fluorspar is consumed.

(d) *Packing charges and L. C. L. handling charges.* Each seller may add to the maximum prices established above his customary charges for fluorspar when packed in bags, or otherwise specially packaged, or when shipped in less than carload lots: *Provided,* That he shall file such customary charges with the Office of Price Administration, Washington, D. C., on or before December 1, 1942.

§ 1376.2 *Less than maximum prices.* Lower prices than those set forth in § 1376.1 may be charged, demanded, paid or offered.

§ 1376.3 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1376.4 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 126, as amended shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to fluorspar, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1376.5 *Records and reports.* (a) Every person making sales or deliveries of fluorspar, and every person making purchases or accepting delivery of fluorspar in the course of trade or business, shall keep for inspection by the Office of Price Administration for so long a period as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of each such sale, purchase, or delivery showing the date thereof, the name of the purchaser or seller, the quantity and grade of fluorspar sold, purchased, or delivered, and the price received or paid therefor.

(b) Such persons shall submit such reports to the Office of Price Administration, and keep such other records in addition to or in place of the records required in paragraph (a) of this section, as the Office of Price Administration may from time to time require.

§ 1376.6 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 126 as amended are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 126 as amended, or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1376.7 *Applications for adjustment and petitions for amendment*—(a) *Applications for adjustment.* Whenever it appears that a producer of metallurgical or acid grade fluorspar is unable to maintain or expand his production at his maximum price or prices, the Office of Price Administration may, either on application for adjustment in accordance with the provisions of Revised Procedural Regulation No. 1 or on its own motion, adjust his maximum price by an amount necessary to insure the maintenance or expansion of such production upon a reasonable operating margin. In determining such margin, consideration will be given to such factors as:

(1) Revenue from sales of metallurgical or acid grades of fluorspar and from all other sources, and

(2) Mining, development, milling, and transportation costs, administrative and sales expenses, depreciation and depletion charges, taxes (excluding Federal and State income taxes), and capital investment.

Before filing an application for adjustment, it is suggested that each applicant obtain from the Office of Price Administration, Washington, D. C., a statement of the specific information that will be necessary in order that his application may receive prompt action.

(b) *Petitions for amendment.* Any person seeking amendment of any provision of this Maximum Price Regulation No. 126 as amended may file a petition for an amendment in accordance with the provisions of Revised Procedural Regulation No. 1[1] issued by the Office of Price Administration.

§ 1376.8 *Definitions.* (a) Unless the context otherwise requires, when used in this Maximum Price Regulation No. 126, as amended, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Producer" includes persons who mine, or otherwise remove fluorspar from the place where it is naturally found, and persons who purchase fluorspar, mill the same, and resell it.

(3) A price "in effect" as referred to in §§ 1376.1 and 1376.3 hereof means the price at which the product in question was sold, or under contract to be sold, or at which a bona fide offer to sell the product was made to any individual, or individuals, or the public by means of price lists, discount lists, or any other customary method of making offers.

(4) "Fluorspar" includes only commercial grades of fluorspar and shall not include any extremely fine grades sometimes referred to as the "optical grades."

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 as amended shall apply to other terms used herein.

§ 1376.9 *Discount and credit provisions.* In determining the maximum price as provided in § 1376.1, "maximum price" shall be construed to mean "net price", i. e. subject to all discounts for cash payments and other credit provisions applicable to January 2, 1942. Such discounts and credit provisions may be altered or abolished if the purchaser is not thereby compelled to pay more than such maximum price.

[1] 7 F.R. 8961.

§ 1376.10 *Transportation costs.* Maximum prices fixed in § 1376.1 (c) hereof, are on the basis of f. o. b. the railroad or waterway shipping point from which the producer customarily ships from the mine or mill from which the sale is made. Sales may be made upon a different delivery basis, in which case an appropriate adjustment (upward or downward, as the case may be) of the maximum prices herein authorized shall be made. The amount of the adjustment shall be the cost of the transportation and delivery, as to which the adjustment is being made, by the most economical and practicable medium.

§ 1376.11 *Export sales.* Export sales of fluorspar shall be subject to the provisions of the Revised Maximum Export Price Regulation[3] issued by the Office of Price Administration.

§ 1376.12 *Agreements with Office of Price Administration.* This Maximum Price Regulation No. 126, as amended, supersedes any agreements previously made and any orders or regulations previously issued by the Office of Price Administration with regard to fluorspar prices.

§ 1376.13 *Idle or frozen materials.* The maximum price at which any person may sell or deliver idle or frozen fluorspar shall be determined in accordance with the provisions of Maximum Price Regulation No. 204[4] on Idle or Frozen Materials Sold Under Priorities Regulation No. 13.

§ 1376.14 *Effective date.* This Maximum Price Regulation No. 126, as amended, (§§ 1376.1 to 1376.14, inclusive) shall become effective November 23, 1942.

Issued this 17th day of November 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Ration Order 11,[1] Amendment 5]

FUEL OIL RATIONING REGULATIONS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The phrase "heating contractor," is inserted between the word "qualified" and the word "plumber" in paragraph (b) of § 1394.5260, paragraph (b) of § 1394.5302, and paragraph (d) of § 1394.5459; the word "contractor," is inserted between the words "engineer" and "architect" in paragraph (b) § 1394.5260; a new paragraph (c) is added to § 1394.5701; the title to § 1394.5723 is corrected to read "Exchange of Coupons, Other Evidences, and Delivery Receipts"; in paragraph (a) of § 1394.5731 the words "* * * commencing with the twenty-fifth day of November, 1942. * * *" are deleted, and a new paragraph (c) is added to said section; and a new paragraph (e) is added to § 1394.5902; as set forth below:

REPLENISHMENT AND AUDIT

Registration

§ 1394.5701 *Registration of suppliers and dealers.* * * *

(c) Dealers and suppliers who commingle fuel oil in stationary storage facilities shall be registered in accordance with the following provisions:

(1) Such dealers and suppliers shall apply for registration of such facilities with a board (on Form OPA R-1116, in duplicate) jointly and on the same application.

(2) Such dealers or suppliers shall furnish, together with such other information as may be required by such form, their names and addresses, the total fuel oil capacity of such facilities, and their total combined inventory of fuel oil on hand in such facilities as of 12:01 a. m. on October 1, 1942.

(3) Dealers or secondary suppliers shall designate a person who may receive inventory coupons on their behalf. The board shall, at the time of granting such application for registration, issue inventory coupons in the amount of the difference between the total registered fuel oil storage capacity and their total amount of fuel oil on hand at the facility so registered.

(4) Each dealer and supplier shall (in addition to any records required to be kept pursuant to Ration Order No. 11) keep a record showing the date and amount of each delivery into such facilities to him, and each withdrawal therefrom by him.

(5) Where each dealer or supplier is entitled to use a fixed portion of the capacity of such facilities, and the sum of such portions does not exceed the total capacity of such facilities, such dealer and supplier shall not register in accordance with this paragraph but shall register his portion as a separate establishment, in accordance with paragraph (a) or (b) of this section, as the case may be.

(6) No primary supplier may commingle fuel oil in, or register with respect to, stationary storage facilities registered or required to be registered, by a dealer or secondary supplier.

(7) Dealers and suppliers who commingle fuel oil pursuant to Directive No. 59 of the Office of the Petroleum Coordinator for War shall not register in accordance with this paragraph but shall register in accordance with paragraphs (a) and (b) of this section.

(8) Upon receipt of an application for registration pursuant to this paragraph, the Board shall immediately forward a copy of such application to the Control and Audit Unit, Fuel Oil Rationing Branch, Office of Price Administration, Washington, D. C. Registration certificates shall be issued in accordance with § 1394.5704.

Records, Audits and Inspections

§ 1394.5731 *Reports by primary suppliers.* * * *

(c) Notwithstanding the provisions of paragraph (a) of this section, the time within which reports for the month of October, 1942, shall be forwarded, pursuant to such paragraph, is extended to midnight of December 10, 1942.

Effective Date

§ 1394.5902 *Effective date of corrections and amendments.* * * *

(e) Amendment No. 5 (§§ 1394.5260 (b), 1394.5302 (b), 1394.5459 (d), 1394.5701 (c), 1394.5723, 1394.5731 (a) and (b)) to Ration Order No. 11 shall become effective on November 23, 1942.

(4) *Explanation of above tables*—(i) *Gauges.* (*a*) "Gauges" are based upon use of the full needle bar within a tolerance of four needles, in accordance with accepted trade practice.

(*b*) "48 gauge or lower" includes all gauges which are lower than 51 gauge.

(*c*) "51 and 54 gauge" include 51 gauge and gauges which are higher than 51 gauge but lower than 57 gauge.

(ii) *Yarn composition.* These tables of prices apply only to nylon hosiery made of continuous filament nylon yarn.

(iii) *"All nylon" and "nylon leg".* (*a*) "All nylon" means hosiery knitted entirely of nylon yarn.

(*b*) "Nylon leg" means hosiery in which the leg is knitted entirely of nylon whereas some other portion of the stocking is made of other material.

(iv) *Sizes, lengths and dimensions.* Maximum prices for all lengths and dimensions including "out-sizes" and "proportioned" hosiery of each classification are the same.

(v) *"Lace", "non-run", "mesh" and other special constructions,* are included in these tables, and the maximum prices are the same for these constructions, as for other constructions in each classification.

(b) *Nylon hosiery made of combination, spun or blended nylon yarns*—(1) *Sales at retail.* The maximum price for which any nylon hosiery made of combination, spun or blended nylon yarns may be sold, delivered, or offered for sale at retail shall be the maximum price determined in accordance with the provisions of § 1499.2 of the General Maximum Price Regulation,[2] or the price per pair set forth in Table No. 4, whichever is lower.

TABLE NO. 4

PART 1499—COMMODITIES AND SERVICES

[Order 140 Under § 1499.3 (b) of GMPR]

RIGO MANUFACTURING COMPANY

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:*

§ 1499.1156 *Authorization of a maximum price for sales of "Sher-Van" Brand Imitation Flavors in 2 ounce and 4 ounce bottles manufactured by the Rigo Manufacturing Company, Nashville, Tennessee.* (a) On and after November 18, 1942, the maximum selling prices for "Sher-Van" Brand Imitation Flavors for sale by the Rigo Manufacturing Company, having its principal place of business in Nashville, Tennessee, shall be:

2 ounce bottles—all flavors—$9.63 per gross.

4 ounce bottles—all flavors—$16.79 per gross.

The above prices shall include all transportation charges to buyers customary station of destination.

(b) The same discounts, allowances, and price differentials applying to sales of "Big 4" and "Big 8" brand Imitation Flavors also sold by Rigo Manufacturing Company shall apply to the sale of "Sher-Van" Brand Imitation Flavors sold by Rigo Manufacturing Company.

(c) Sellers at wholesale shall use as their maximum delivered selling prices, the same prices authorized for the Rigo Manufacturing Company, it having been determined that allowances, discounts and price differentials applicable to sellers at wholesale permit a satisfactory and customary profit margin for such sellers at wholesale. No drayage, local trucking, loading or unloading shall be added to the maximum delivered selling prices established for wholesalers. Sellers at wholesale shall apply the same discounts, allowances, and price differentials to sales of "Sher-Van" Brand Imitation Flavors as are applicable to sales of "Big 4" or "Big 8" Brand Imitation Flavors, or the most comparable commodity thereto.

(d) Sellers at retail shall determine their maximum delivered selling prices per bottle for "Sher-Van" Brand Imitation Flavors by adding to their net cost per gross for each size a maximum profit margin of 35% to this net cost and dividing the figure so obtained by 144. If the per bottle selling price so determined results in a fraction of one cent, the price shall be increased to the next highest

cent if the fraction is one-half cent or more, and the price shall be decreased to the next lower cent if the fraction is less than one-half cent. Maximum delivered selling prices at retail shall not exceed the following:

2 ounce size	.09¢ per bottle.
4 ounce size	.16¢ per bottle.

"Net cost" to a retailer shall mean the invoice price paid for a purchase of a customary quantity of this type of commodity from the customary supplier and by the customary mode of transportation if any, less all discounts and allowances allowed except the discount for prompt payment. No charge for local drayage, hauling, loading or unloading shall be included in "net cost".

(e) Rigo Manufacturing Company shall, before or at the time of the first delivery to each buyer, supply a written statement to each buyer of "Sher-Van" Brand Imitation Flavors from it for resale as follows:

> The Office of Price Administration by Order No. 140 effective November 18, 1942, pursuant to Section 3 of the General Maximum Price Regulation has authorized us to charge the following prices for "Sher-Van" Brand Imitation Flavors:
>
> | | Per gross |
> |---|---|
> | 2 ounce bottles, all flavors | $9.63 |
> | 4 ounce bottles, all flavors | 16.79 |
>
> subject to all discounts, allowances, price differentials and trade practices which we had in effect during March 1942 with respect to sales of "Big 4" and "Big 8" Brand Imitation Flavors.
>
> To establish your maximum delivered selling prices per bottle for "Sher-Van" Brand Imitation Flavors you are permitted to add to your "net cost" per gross for each size a maximum profit margin of 35% of this net cost for each size and dividing the resulting figure by 144. "Net cost" per gross shall be the invoice price paid less all discounts and allowances for prompt payment. No charges for drayage, loading, or unloading shall be included in determining "net cost". When maximum delivered selling prices determined by this computation result in fractions of one cent, the selling price may be increased to the next highest cent if the fraction is one-half cent or more and shall be decreased to the next lower cent if the fraction is less than one-half cent: *Provided*, That in no event shall the retail price exceed 9¢ per bottle for the two ounce size and 16¢ per bottle for the four ounce size.
>
> You are required to keep this notice for examination.

(f) The identical notice as specified, in paragraph (e) shall be placed by Rigo Manufacturing Company in or on the smallest packing and sales unit of each size of "Sher-Van" Brand Imitation Flavors for a period of three months after the initial offering of the commodity.

(g) This Order No. 140 may be revoked or amended by the Price Administrator at any time.

(h) This Order No. 140, § 1499.1156 shall become effective as of November 18, 1942.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)

Issued this 17th day of November 1942.

PART 1499—COMMODITIES AND SERVICES

[Order 142 Under § 1499.3 (b) of GMPR]

KITS, INC.

On October 2, 1942, Kits, Inc., of Miamisburg, Ohio, filed application with the Office of Price Administration seeking specific authorization pursuant to § 1499.3 (b) of the General Maximum Price Regulation to determine maximum prices for "Pak-it-Kit" and for instructions as to the method to be used in determining such prices. Due consideration has been given to the application and an opinion in support of this order has been issued simultaneously herewith and has been filed with the Division of the Federal Register.* For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and in accordance with § 1499.3 (b) of the General Maximum Price Regulation issued by the Office of Price Administration, *It is hereby ordered:*

§ 1499.1158 *Authorization for Kits, Incorporated, to determine maximum prices for "Pak-it-Kit".* (a) The maximum price which may be charged for "Pak-it-Kit" by Kits, Inc., hereinafter called the "manufacturer", shall be determined in accordance with the following instructions:

(1) The cost of raw materials shall be computed at a rate not in excess of the maximum price for each of the component parts, as established by the Office of Price Administration, or the actual acquisition cost, whichever is lower.

(2) All charges for hand or machine operations involved in the manufacture, collation, or other assembly of the product shall be computed at a rate not to exceed the hourly rate at which such hand or machine operations were computed during the month of March 1942, and the time allowance, or the resulting piece rates, for the operations shall not be in excess of those estimated or used during the month of March 1942.

(3) The percentage margin, or difference between total manufacturing costs and selling price, f. o. b. manufacturer's plant, shall not exceed that percentage margin used in determining a selling price for that item, sold by the manufacturer during March 1942 which most closely resembled the "Pak-it-Kit" in manufacturing cost, quantities of raw materials per unit, converting operations required and quantity of production.

(i) The manufacturer shall continue to grant its customary discounts, differentials and allowances to the different classes of purchasers in accordance with its accepted practice.

(ii) If the manufacturer's customary practice during March 1942 was to sell on a delivered price basis, such practice shall be continued.

(b) Within ten days after a maximum price has been determined in accordance with this order, Kits, Inc. shall report to the Office of Price Administration, Washington, D. C., the maximum price as computed by it. The report shall set forth in detail the computation of direct costs and of the maximum price.

(c) Any selling price determined under this order shall be subject to adjustment at any time by the Office of Price Administration.

(d) This Order No. 142 may be revoked or amended by the Office of Price Administration at any time.

(e) This Order No. 142 (§ 1499.1158) shall become effective November 19, 1942.

TITLE 46—SHIPPING

Chapter I—Bureau of Customs

[T. D. 50766]

Subchapter A—Documentation, Entrance, and Clearance of Vessels, Etc.

WAIVER OF CERTAIN SECTIONS OF THE TARIFF ACT OF 1930, AS AMENDED

MANIFESTS COVERING RESIDUE CARGO FOR FOREIGN PORTS

NOVEMBER 16, 1942.

Sections 434 and 435 of the Tariff Act of 1930, as amended, waived to extent necessary to permit filing a pro forma manifest covering residue cargo destined for foreign ports under certain conditions.

By virtue of the authority vested in me by section 501 of the Second War Powers Act, 1942 (Public Law 507, 77th Congress), I hereby waive compliance with the provisions of sections 434 and 435 of the Tariff Act of 1930, as amended (19 U.S.C. 1434, 1435), to the extent necessary to permit the master of an American or foreign vessel to make entry of such vessel without producing and depositing with the collector of customs a manifest in the form prescribed by section 431, Tariff Act of 1930 (19 U.S.C. 1431), and without making oath that the manifest was made out in that form, if all the following conditions exist:

(a) The vessel, while at sea, was ordered to a port in the United States by a duly authorized representative of the government of one of the United Nations;

(b) The voyage from which the vessel was diverted was intended to be from a foreign port or place directly to another foreign port or place;

(c) No cargo or passengers are landed or discharged from the vessel in the port of arrival in the United States; and

(d) The master produces and deposits with the collector within the time prescribed by sections 434 and 435 of the Tariff Act of 1930, as amended, a manifest which contains the particulars required by the second subdivision of section 431 of the Tariff Act of 1930, together with an account of the quantity and general description of all the cargo on board and its ultimate destination.

I deem that such action is necessary in the conduct of the war.

[Public Land Order 56]

ARIZONA

WITHDRAWING PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT AS AN AERIAL GUNNERY AND BOMBING RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9146 of April 24, 1942, and to section 1 of the act of June 28, 1934, as amended, c. 865, 48 Stat. 1269 (U.S.C., title 43, sec. 315), and also to section 3 of the act of June 17, 1902, c. 1093, 32 Stat. 388 (U.S.C., title 43, sec. 416), it is ordered as follows:

Subject to valid existing rights, the public lands in the following-described areas are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral leasing laws, and reserved for the use of the War Department as an aerial gunnery and bombing range:

GILA AND SALT RIVER MERIDIAN

Tps. 13 to 16 S., R. 11 W., unsurveyed.
Tps. 10 to 15 S., R. 12 W., partly unsurveyed.
Tps. 10 to 15 S., R. 13 W., partly unsurveyed.
Tps. 10 to 15 S., R. 14 W., partly unsurveyed.
Tps. 10 to 14 S., R. 15 W., partly unsurveyed.
Tps. 10 to 14 S., R. 16 W., partly unsurveyed.
Tps. 10 to 14 S., R. 17 W., partly unsurveyed.
Tps. 10 to 13 S., R. 18 W., partly unsurveyed.
Tps. 10 to 13 S., R. 19 W., unsurveyed.
Tps. 11 to 13 S., R. 20 W., unsurveyed.

The areas described aggregate approximately 949,000 acres.

This order shall be subject to the reservation made by the Proclamation of May 27, 1907, reserving all public lands within 60 feet of the international boundary between the United States and the Republic of Mexico, so far as such Proclamation affects any of the above-described lands.

This order shall take precedence over, but shall not rescind or revoke (1) the temporary withdrawal for classification and other purposes made by Executive Order No. 6910 of November 26, 1934, as amended, (2) the withdrawal made by Executive Order No. 8038 of January 25, 1939, establishing the Cabeza Prieta Game Range, (3) the order of the Secretary of the Interior of March 14, 1929, withdrawing certain lands for reclamation purposes, and (4) the order of the Secretary of the Interior of July 14, 1938, establishing Arizona Grazing District No. 3, so far as such orders affect any of the above-described lands. After the present national emergency has been officially terminated, this order, so far as it affects lands heretofore withdrawn for reclamation purposes, shall be ineffective upon notice to the War Department by the Secretary of the Interior that such lands are needed for reclamation purposes; and it is intended that all of the above-described lands shall be returned to the administration of the Department of the Interior, when they are no longer needed for the purpose for which they are reserved.

The Commanding Officer, Yuma Aerial Gunnery Range, will, after consultation with the local representatives of the Fish and Wildlife Service, Department of the Interior, designate at least two days each month on which there will be no firing affecting the lands in Tps. 13 to 16 S., R. 11 W., Tps. 12 to 15 S., Rs. 12 to 14 W., and Tps. 12 to 14 S., Rs. 15 and 16 W., to enable the field personnel of the Fish and Wildlife Service to carry out normal patrol and maintenance activities.

On the lands in Tps. 13 to 16 S., R. 11 W., Tps. 12 to 15 S., Rs. 12 to 14 W., and Tps. 12 to 14 S., Rs. 15 and 16 W., bombing shall be confined by the War Department to the valley floors, and shall not be permitted in the mountain areas, which are the important mountain sheep habitats, nor within a one-mile radius of all water holes, springs, wells, or tanks, including the Tule Well, Cabeza Prieta Tanks, and the Tinajas Altas Tanks.

vehicles and in eliminating so far as feasible the movemnet of empty or partially laden vehicles, and upon such terms between the carriers as they may agree upon, or, in the event of their disagreement, as the Office of Defense Transportation shall find to be just and reasonable.

2. The lawfully published and effective rates, rules and regulations of the carrier issuing the bill of lading shall govern in such collection and delivery service.

3. The records of the carriers in respect of such collection and delivery service shall be available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

4. The provisions of this order shall not be so construed or applied as to require or permit either carrier to perform any transportation service, the perfomance of which by it is not authorized or sanctioned by law, or to render any service beyond its transportation capacity, or to alter its legal liability to any shipper.

5. Each of the carriers shall file forthwith with the appropriate regulatory body or bodies having jurisdiction over the operations affected by this order, and publish in accordance with law, and continue in effect until further order, tariffs or appropriate supplements to filed tariffs, setting forth any changes in fares, charges, operations, rules, regulations and practices of the carrier which may be necessary to accord with the provisions of this order, together with a copy of this order; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on one day's notice.

6. Communications concerning this order should be addressed to the Division of Motor Transport, Office of Defense Transportation, Washington, D. C., and should refer to "Supplementary Order ODT 3 Revised—4."

This order shall become effective on the 1st day of December 1942, and shall remain in full force and effect until further order of the Office of Defense Transportation.

Issued at Washington, D. C., this 18th day of November 1942.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 30-166]

JOSEPH B. ELY, ET AL.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 16th day of November, 1942.

In the matter of Joseph B. Ely, C. Brooks Stevens and Henry G. Wells, as trustees under a trust agreement dated January 31, 1939.

Notice is hereby given that an application has been filed by Joseph B. Ely, C. Brooks Stevens and Henry G. Wells, as Trustees under a Trust Agreement dated January 31, 1939, a registered holding company, pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935 for an order of this Commission declaring that said Trustees have ceased to be a holding company.

Applicants allege that they no longer directly or indirectly own, control or hold with power to vote, ten percentum or more of the outstanding voting securities of a public utility company or public utility holding company, as defined in said Act. All interested persons are referred to said application, which is on file in the offices of this Commission for a statement of the facts upon which said Trustees rely as the basis for the order requested.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matter, and that said application shall not be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matter, under the applicable provisions of said Act and the rules and regulations of the Commission, be held on November 24, 1942, at 9:45 A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on that day by the hearing room clerk in Room 318;

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commisison's Rules of Practice;

It is further ordered, That any person desiring to be heard in connection with the proceedings, or proposing to intervene herein, shall file with the Secretary of the Commission on or before November 20, 1942, his request or application therefor, as provided by Rule XVII of the Rules of Practice of this Commission.

By the Commission.

NY PA NJ UTILITIES CO. AND ASSOCIATED UTILITIES CORP.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 14th day of November 1942.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by NY PA NJ Utilities Company, a registered holding company, and Associated Utilities Corporation, a registered holding company, both of said companies being subsidiaries of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, a registered holding company. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

NY PA NJ Utilities Company proposes to acquire from Associated Utilities Corporation $1,000,000 principal amount of The Mohawk Valley Company 6% Consolidated Refunding Gold Bonds, due 1961, for a cash consideration of 100% of the face amount thereof, plus accrued interest thereon at the date of closing. Said bonds were issued by The Mohawk Valley Company, which company was consolidated with certain other companies to form the Metropolitan Edison Corporation, and the name of the latter company was changed to NY PA NJ Utilities Company.

Associated Utilities Corporation proposes to pay $1,000,000 to the Trustees of Associated Gas and Electric Corporation as a payment on account of principal on the convertible obligations due March 1, 1963, of Associated Utilities Corporation held by the Trustees of Associated Gas and Electric Corporation.

The $1,000,000 to be received by the Trustees of Associated Gas and Electric Corporation is to be used to pay to Guaranty Trust Company of New York, an installment due December 18, 1942, of $1,000,000 of the principal amount of the $5,000,000 Trustee's Certificates of the Trustees dated December 18, 1941, held by Guaranty Trust Company of New York.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters, that said declarations shall not become effective, nor said applications be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on December 8, 1942, at 10:00 a. m., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pa. On such day the hearing room clerk in room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why such declarations or applications (or both) shall become effective or shall be granted.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The offices so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the said Act, and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said declarations or applications (or both) otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the consideration to be paid by NY PA NJ Utilities Company and to be received by Associated Utilities Corporation, with respect to The Mohawk Valley Company bonds, is fair and reasonable.
2. Whether the assets of Associated Utilities Corporation after the sale by it of $1,000,000 principal amount of The Mohawk Valley Company bonds will be sufficient to satisfy contingent claims against the assets of Associated Utilities Corporation.
3. Whether terms and conditions are necessary to be imposed to insure compliance with the requirements of the Public Utility Holding Company Act of 1935, or any rules, regulations, or orders promulgated thereunder;
4. Generally, whether all actions proposed to be taken comply with the requirements of such Act and rules and regulations or orders promulgated thereunder.

Notice is hereby given of said hearing to the above-named declarants and applicants, and to all interested persons; said notice to be given to said declarants and applicants by registered mail, and to all other persons by publication in the FEDERAL REGISTER. It is requested that any person desiring to be heard in this proceeding shall file with the Secretary of this Commission on or before December 3, 1942, an appropriate request or application to be heard as provided by Rule XVII of the Commission's Rules of Practice.

By the Commission.

UNITED GAS CORP., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 14th day of November, A. D. 1942.

In the matter of United Gas Corporation, Houston Gas Securities Company, United Gas Pipe Line Company and Union Producing Company.

Notice is hereby given that a joint declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by United Gas Corporation ("United"), Houston Gas Securities Company ("Houston Gas"), United Gas Pipe Line Company ("Pipe Line") and Union Producing Company ("Union"). The applicants and declarants have designated sections 9 (a) and 12 (c) of the Act and Rule U-42 of the rules and regulations promulgated thereunder as applicable to the transactions proposed. All interested persons are referred to said document, which is on file in the office of this Commission for a statement of such proposed transactions which are summarized as follows:

A. United proposes to redeem at face amount plus accrued interest $3,800,000 principal amount of Twenty Year 6% Gold Debentures, due March 1, 1952, (issued by United Gas Public Service Company, and later assumed upon the merger of United Gas Public Service Company into United), owned by Houston Gas, a wholly owned subsidiary of United. All such debentures acquired will be cancelled. The funds to be applied toward said proposed redemption are to be obtained by United:

(1) By redemption at face amount plus accrued interest by Pipe Line, a wholly owned subsidiary of United, of $1,000,000 principal amount of 6% Debentures due March 1, 1952 (part of a total issue of $23,000,000 all of which are owned by United).

(2) By redemption at face amount plus accrued interest by Union, a wholly owned subsidiary of United, of $3,000,000 principal amount of its 6% Debentures due March 1, 1952 (part of a total issue of $40,000,000 all of which are owned by United).

B. Houston Gas proposes to use the funds received by it as a result of the redemption of the debentures above described together with other moneys in its treasury for the purpose of redeeming $3,900,000 principal amount of its 5% Collateral Trust Gold Bonds due March 1, 1952, $440,000 principal amount of which are owned by Electric Bond and Share Company ("Bond and Share"), a registered parent holding company of United and its subsidiaries. Houston Gas is then to be merged into United. As a result of such merger United will acquire all of the remaining net assets of Houston Gas, consisting of cash and obligations of United, which obligations will be cancelled.

It appearing to the Commission that it is appropriate and in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said declaration shall not become effective nor said application be granted except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on November 21, 1942 at 10:00 A. M., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on such date by the Hearing Room Clerk. At such hearing, cause shall be shown why such declaration or application (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above-named declarants and applicants and to all interested persons, said notice to be given to said declarants and applicants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That any person desiring to be heard in connection with the proceeding or proposing to intervene herein shall file with the Secretary of the Commission on or before November 19, 1942 his request or application therefor as provided by Rule XVII of the Rules of Practice of this Commission.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing above mentioned. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of the issues presented by said declaration or application (or both) otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the proposed transactions will impair the financial integrity or working capital of United or its subsidiaries or will result in the circumvention of the provisions of the Act or the rules, regulations or orders thereunder.

(2) Whether in particular the proposed redemption by Houston Gas insofar as it concerns the bonds held by Bond and Share will result in the circumvention of any of the provisions of the Act or the rules, regulations or orders thereunder in view of the pendency of a prior proceeding involving the status and the extent of the claims of Bond and Share against United and its subsidiaries.

(3) Whether it is necessary or appropriate in the public interest or the interest of investors or consumers to impose terms and conditions to safeguard the financial integrity or working capital of United or any of its subsidiaries or to prevent the circumvention of the provisions of the Act or the rules, regulations or orders thereunder.

By the Commission.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Administration

[O-65]

PART 965—MILK IN THE CINCINNATI, OHIO, MARKETING AREA

ORDER REGULATING THE HANDLING OF MILK IN THE CINCINNATI, OHIO, MARKETING AREA

It is provided in Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of certain agricultural commodities (including milk and its products) as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

Sec.
965.1 Findings.
965.2 Order relative to handling.
965.3 Definitions.
965.4 Market administrator.
965.5 Reports of handlers.
965.6 Classification of milk.
965.7 Class prices.
965.8 Computation and announcement of uniform prices.
965.9 Payment for milk.
965.10 Payments from producer-settlement fund.
965.11 Expenses of administration.
965.12 Marketing services.
965.13 Effective time, suspension, or termination of order.

AUTHORITY: §§ 965.1 to 965.13 inclusive, issued under 48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U.S.C. 601 et seq.

§ 965.1 *Findings and determinations*—(a) *Findings upon the basis of hearing record.* Pursuant to the act and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR 900.1 to 900.17; 6 F.R. 6570; 7 F.R. 3350), a public hearing was held upon a proposed marketing agreement and order regulating the handling of milk in the Cincinnati, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The issuance of this order and all of the terms and conditions hereof will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the Cincinnati, Ohio, marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to sections 2 and 8 (e) of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in this order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) All milk sold or disposed of by handlers under this order is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk or its products; and

(4) This order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* (1) It is hereby found and proclaimed that, in connection with the execution of a marketing agreement and the issuance of an order regulating the handling of milk in the Cincinnati, Ohio, marketing area, the purchasing power of such milk during the pre-war period, August 1909–July 1914, cannot be satisfactorily determined from available statistics of the Department of Agriculture, but that the purchasing power of such milk can be satisfactorily determined from available statistics of the Department of Agriculture for the post-war period, August 1919–July 1929; and the post-war period, August 1919–July 1929, is the base period to be used in connection with any such marketing agreement and this order in determining the purchasing power of such milk.

(2) It is hereby found that the necessary expenses of the market administrator, during any 12-month period of time, for the maintenance and functioning of such agency, will amount to approximately $45,000; and the prorata share of such expenses to be paid by each handler is hereby approved in the maximum amount of 2 cents per hundredweight on all milk received from producers, or an association of producers, or produced by them during each delivery period.

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order) of at least 50 percent of the volume of milk covered by this order, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the Cincinnati, Ohio, marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the Cincinnati, Ohio, marketing area; and

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of the approval of the order and who, during the determined representative period, were engaged in the production of milk for sale in the said marketing area.

§ 965.2 *Order relative to handling.* From and after the effective date hereof, the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of this order.

§ 965.3 *Definitions*—(a) *Terms.* The following terms shall have the following meanings:

(1) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and to perform the duties of the Secretary of Agriculture of the United States.

(2) "Cincinnati, Ohio, marketing area," hereinafter called the "marketing area," means the city of Cincinnati, Ohio, and the territory included within the boundary lines of Hamilton County, Ohio.

(3) "Person" means any individual, partnership, corporation, association, or any other business unit.

(4) "Producer" means any person who produces milk which is received at a plant from which, under approval of the proper health authorities, milk is disposed of as milk in the marketing area, or milk handled by a cooperative association under the conditions set forth in (5) of this paragraph: *Provided,* That if such producer did not regularly sell milk on his own distribution routes or through other persons during a period of 30 days next preceding the effective date hereof for consumption in the marketing area, but begins the regular delivery of milk to a handler, he shall be known as a "new producer" for a period beginning with the date of his first regular delivery of milk and continuing until the end of 2 full calendar months of regular delivery following the first day of the next succeeding calendar month, after which he shall be known as a producer.

(5) "Handler" means any person, irrespective of whether such person is a producer or a cooperative association, who engages in such handling of milk, all or a portion of which is disposed of as milk in the marketing area, as is in the current of interstate commerce, or which directly burdens, obstructs, or affects interstate commerce in milk and its products. "Such handling of milk" as used in this definition, shall include the milk of any producer or new producer whose milk has been received previously at a plant described in (4) of this paragraph, which milk has been caused to be delivered by a cooperative association, during the delivery periods of April, May, and June to a plant from which no milk is disposed of in the marketing area, if payment therefor has been collected by such cooperative association; and such milk shall be deemed to have been received from producers by such cooperative association. "Handler" shall not include any person from whom emergency milk is received or any person who handles only milk of his own production.

(6) "Delivery period" means any calendar month, except that the first delivery period shall mean the period from the effective date hereof and until the end of the calendar month in which such effective date occurs.

(7) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246 (1937), 7 U.S.C. 1940 ed. 601 et seq.), as amended.

(8) "Market administrator" means the agency which is described in § 965.4 for the administration hereof.

(9) "Emergency milk" means milk or skim milk received by a handler from sources other than producers or new producers under a permit to receive such milk which has been issued to him by the proper health authorities: *Provided,* That the total quantity of milk and skim milk so received shall be in excess of the total quantity of milk diverted on the same day by a cooperative association under the conditions set forth in (5) of this paragraph.

§ 965.4 *Market administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall:

(1) Administer the terms and provisions hereof; and

(2) Report to the Secretary complaints of violations of the provisions hereof.

(c) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(2) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(3) Pay, out of the funds provided by § 965.11, the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(4) Keep such books and records as will clearly reflect the transactions provided for herein, and surrender the same to his successor or to such other person as the Secretary may designate;

(5) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 2 days after the date upon which he is required to perform such acts, has not made reports pursuant to § 965.5 or has not made payments pursuant to §§ 965.9 and 965.11;

(6) Promptly verify the information contained in the reports submitted by handlers; and

(7) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times.

§ 965.5 *Reports*—(a) *Reports of handlers to market administrator.* Each handler, under his own signature or under that of a person certified by such handler to the market administrator as being authorized to sign the reports required by this section, shall report to the market administrator, in the detail and on forms prescribed by him, as follows:

(1) On or before the 10th day after the end of each delivery period, each handler who receives milk from producers or new producers shall report with respect to all milk, skim milk, and cream received by him during the delivery period:

(i) The receipts of milk at each plant from producers, from new producers, from his own production, and from other handlers;

(ii) The receipts of emergency milk, the date or dates upon which such milk was received during the delivery period, the plant from which such milk was shipped, the price per hundredweight paid or to be paid for such milk, and the utilization of such milk;

(iii) The milk, skim milk, and cream, with its butterfat content, received from any other source;

(iv) The utilization of all receipts of milk, skim milk, and cream during the delivery period;

(v) The name and address of each new producer; and

(vi) His producer pay roll, which shall show for each producer and new producer the total receipts of milk with the average butterfat test thereof, the amount of the advance payment to such producer or new producer made pursuant to § 965.9 (a), and the deductions and charges made by the handler;

(2) On or before the 5th day after the end of each delivery period, each handler who receives milk from producers or new producers shall report, with respect to Class I milk disposed of outside the marketing area during the delivery period, the amount and the utilization of such milk, the butterfat test thereof, the date and place of such sale or disposition, and the plant from which such milk was shipped;

(3) On or before the day each handler who receives milk from producers or new producers receives emergency milk, he shall report his intention to receive such emergency milk;

(4) On or before the 10th day after each delivery period, a cooperative association causing delivery of milk under the conditions set forth in § 965.3 (a) (5) shall report the amount of such milk, the date or dates of such delivery during the delivery period, the plant to which such milk was delivered, and the utilization of such milk;

(5) Within 10 days after the market administrator's request each handler who receives milk from producers or new producers shall report, with respect to each of his producers or new producers for whom such information is not in the files of the market administrator and with respect to a period or periods of time designated by the market administrator, the name and address, the total pounds of milk received, the average butterfat test of milk received, and the number of days upon which milk was received; and

(6) Each handler who receives no milk from producers or new producers shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(b) *Verification of handler reports.* Each handler shall make available to the market administrator or to his agent, or to such other person as the Secretary may designate, those records which are necessary for the verification of the information contained in the reports submitted pursuant to this section, and those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer and new producer.

(c) *Reports of market administrator to cooperative associations.* On or before the 13th day after the end of each delivery period, the market administrator shall report to each cooperative association the amount and class utilization of milk caused to be delivered by such association, either directly or from producers or new producers who have authorized such association to receive payments for them under § 965.10 (b), to each handler to whom the cooperative sells milk. For the purpose of this report the milk so received shall be prorated to each class in the proportions that the total receipts of milk from producers and new producers by such handler were used in each class.

§ 965.6 *Classification of milk*—(a) *Basis of classification.* Milk received by each handler, including milk produced by him, shall be classified by the market administrator in the classes set forth in (b) of this section, subject to the provisions of (c), (d), and (e) of this section.

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk disposed of in the form of milk and milk drinks, whether plain or flavored, and all milk not accounted for as Class II milk or Class III milk.

(2) Class II milk shall be all milk used to produce cream (for consumption as cream), creamed buttermilk, and creamed cottage cheese.

(3) Class III milk shall be all milk accounted for (i) as actual plant shrinkage but not to exceed $2\frac{1}{2}$ percent of total receipts of milk from producers and new producers (including the handler's own production) and (ii) as used to produce a milk product other than those specified in Class II milk.

(c) *Interhandler and nonhandler sales.* Milk or skim milk disposed of by a handler to another handler or to a person who is not a handler, but who distributes milk or manufactures milk products, shall be Class I milk; and cream so disposed of shall be Class II milk: *Provided,* That if the selling handler on or before the 10th day after the end of the delivery period furnishes to the market administrator a statement, which is signed by the buyer and the seller, that such milk, skim milk, or cream was used as Class III milk, such milk, skim milk, or cream shall be classified accordingly, subject to verification by the market administrator.

(d) *Computation of milk in each class.* For each delivery period, the market administrator shall compute for each handler the amount of his milk in each class, as defined in (b) of this section, as follows:

(1) Determine the total pounds of milk received (i) from producers and new producers, including milk of the handler's own production, (ii) from other handlers, (iii) as emergency milk, (iv) from any other source (including cream converted to 4.0 percent milk equivalent), and (v) add together the resulting amounts.

(2) Determine the total pounds of butterfat received, as follows: (i) multiply the weight of milk received from producers and new producers, including the handler's own production, by its average butterfat test; (ii) multiply the weight of milk received from other handlers by its average butterfat test; (iii) multiply the weight of emergency milk by its average butterfat test; (iv) multiply the weight of milk and cream received from any other source by its average butterfat test; and (v) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I, as follows: (i) convert to half pints the quantity of milk disposed of in the form of milk and milk drinks, whether plain or flavored, and multiply by 0.5375; (ii) multiply the result by the average butterfat test of such milk; and (iii) if the quantity of butterfat so computed, when added to the pounds of butterfat in Class II milk and Class III milk computed pursuant to (4) (ii) and (5) (iv) of this paragraph, is less than the total pounds of butterfat computed in accordance with (2) of this paragraph, an amount equal to the difference shall be divided by 4.0 percent and the resulting amount shall be added to the quantity of milk determined pursuant to (i) of this subparagraph.

(4) Determine the total pounds of milk in Class II, as follows: (i) multiply the actual weight of each of the several products of Class II milk by its respective average butterfat test; (ii) add together the resulting amounts; and (iii) divide such sum by 4.0 percent.

(5) Determine the total pounds of milk in Class III, as follows: (i) multiply the actual weight of each of the several products of Class III milk by its average butterfat test; (ii) add together the resulting amounts; (iii) subtract the total pounds of butterfat in Class I milk and Class II milk, computed pursuant to (3) (ii) and (4) (ii) of this paragraph, and the total pounds of butterfat computed pursuant to (ii) of this subparagraph from the total pounds of butterfat computed pursuant to (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shrinkage allowance exceed 2½ percent of the total receipts of butterfat by the handler from producers and new producers, including that of the handler's own production); (iv) add together the results obtained in (ii) and (iii) of this subparagraph; and (v) divide the sum obtained in (iv) of this subparagraph by 4.0 percent.

(6) Determine the classification of milk of producers and new producers, as follows: (i) subtract from the total pounds of milk in each class the total pounds of milk received from other handlers and used in such class; (ii) subtract pro rata out of the remaining milk in each class the total pounds of emergency milk; (iii) subtract from the remaining milk in each class the total pounds of milk (and milk equivalent of cream converted to 4.0 percent milk), except emergency milk, received from sources other than producers, new producers, or handlers and used in such class.

(e) *Reconciliation of utilization of milk by classes with receipts of milk from producers.* (1) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section, is less than the quantity of milk received from producers and new producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the quantity of milk received from producers and new producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to (d) of this section, is greater than the quantity of milk received from producers and new producers, the market administrator shall decrease the total pounds of milk in Class III for such handler by an amount equal to the difference between the quantity of milk received from producers and new producers and the total utilization of milk by classes for such handler.

§ 965.7 *Prices*—(a) *Class prices.* Except as set forth in (b), (c), and (d) of this paragraph, each handler shall pay, at the time and in the manner set forth in § 965.9, not less than the following prices per hundredweight, on the basis of milk of 4.0 percent butterfat content, for the respective quantities of milk in each class computed pursuant to § 965.6 (d) and (e):

(1) *Class I milk.* $3.55.

(2) *Class II milk.* $2.65.

(3) *Class III milk.* The price resulting from the following computation by the market administrator: Determine the arithmetical average of the basic, or field, prices per hundredweight ascertained to have been paid, without deductions for hauling or other charges to be paid by the farm shipper, for milk of 4.0 percent butterfat content received during the delivery period at the following plants:

Concern	*Location of plants*
M. & R. Dietetic Laboratories, Inc	Chillicothe, Ohio.
Carnation Milk Company	Hillsboro, Ohio.
Nestle's Milk Products, Inc	Greenville, Ohio.
Osgood Milk Company	Osgood, Ind.
Carnation Milk Company	Maysville, Ky.

Provided, That if the price so determined is less than the price computed by the market administrator in accordance with the following formula, such formula price shall be the price for Class III milk for the delivery period: multiply by 4 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 20 percent thereof, and add or subtract 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption is above or below, respectively, 5½ cents per pound. The price per pound of dry skim milk to be used in this subparagraph shall be the arithmetical average of the carlot prices for both spray and roller process dry skim milk for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture for the Chicago area during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, the arithmetical average of the carlot prices for both spray and roller process dry skim milk for human consumption, delivered at Chicago, shall be used, and the figure "7½" shall be substituted for "5½" in the formula set forth above in this proviso.

(b) *Price of Class I milk disposed of outside the marketing area.* (1) The price to be paid by each handler for Class I milk disposed of outside the marketing area, in lieu of the price otherwise applicable pursuant to this section and except as provided in (2) of this paragraph, shall be, as ascertained by the market administrator, such price as is being paid to farmers for milk of equivalent use in the market where such milk is disposed of, subject to a reasonable adjustment on account of transportation with respect to Class I milk moved from the handler's plant in the marketing area to the plant outside the marketing area where such milk was loaded on wholesale and retail routes: *Provided,* That such Class I price minus the adjustment for transportation shall not be lower than the price for Class I milk set forth pursuant to (a) (1) of this section, less 35 cents.

(2) The price to be paid by such handler for Class I milk disposed of outside the marketing area for which no price can be ascertained on the basis provided for in (1) of this paragraph, including Class I milk disposed of to Government institutions and establishments, shall be the price for Class I milk set forth pursuant to (a) (1) of this section.

(c) *Price of Class I milk disposed of for relief distribution.* The price to be paid by such handler for Class I milk disposed of through a recognized relief agency or under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, shall be the price for Class I milk determined under (a) (1) of this section, less 65 cents.

(d) *Butterfat differential to handlers.* If the weighted average butterfat content of milk received by a handler from producers and new producers is other than 4 percent, there shall be added to or subtracted from, as the case may be, the class prices set forth in this section, for each one-tenth of 1 percent of average butterfat content above or below 4 percent, an amount computed as follows: to the average price per pound of 92-score butter in the Chicago wholesale market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 20 percent thereof, and divide the result by 10.

(e) *Computation of value of milk for each handler.* (1) For each delivery period the market administrator shall compute the value of milk for each handler, as follows:

(i) For each handler who receives milk from producers or new producers, multiply the hundredweight of milk in each class, computed in accordance with §§ 965.6 (d) and 965.6 (e), by the respective class prices for 4 percent milk, subject to the butterfat differential provided by (d) of this section: *Provided,* That if any such handler has received milk or cream, except emergency milk, from sources other than producers, new producers, or handlers, as referred to in § 965.6 (d) (6) (iii), and has disposed of such milk or cream other than as Class III milk, there shall be added to the value of milk thus far determined an additional amount computed as follows: multiply the hundredweight of such milk or milk equivalent of cream by the difference between the Class III price and the price applicable to the class in which it was disposed.

(ii) For the hundredweight of milk involved in any adjustment made pursuant to § 965.6 (e) the handler shall be debited or credited, as the case may be, at the Class III price.

(iii) For each handler who receives no milk from producers or new producers but who individually disposes of milk or cream, except emergency milk, in the marketing area other than as Class III milk, multiply the hundredweight of such milk, or milk equivalent of cream, by the difference between the Class III price and the price applicable to the class in which it was disposed.

(iv) Add together the resulting amounts.

(v) If, in the verification of reports submitted by a handler, the market administrator discovers errors in such reports which result in payments due the producer-settlement fund or the handler for any previous delivery period, there shall be added or subtracted, as the case may be, the amount necessary to correct such errors.

(f) *Notification to each handler of the value of his milk.* On or before the 13th day after the end of each delivery period, the market administrator shall bill each handler for the value of milk computed for him in accordance with (e) of this section.

§ 965.8 *Computation and announcement of uniform price*—(a) *Computation of uniform price.* For each delivery period, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from producers, as follows:

(1) Add together the values of milk as computed in § 965.7 (e) for handlers who made the payments to the producer-settlement fund as required by § 965.9 (b);

(2) Subtract the amounts computed pursuant to § 965.10 (a) (2);

(3) Subtract, if the weighted average butterfat test of all milk received from producers by handlers whose milk is represented in the sum computed under (1) of the paragraph, is greater than 4.0 percent, or add, if the weighted average butterfat test of such milk is less than 4.0 percent, an amount computed as follows: multiply the hundredweight of such milk by the variance of its weighted average butterfat test from 4.0 percent, and multiply the resulting amount by 50 cents if the average price of butter sold at wholesale in the Chicago market during the delivery period, as reported by the United States Department of Agriculture, was more than 40 cents; or by 40 cents if such average price of butter was more than 30 cents but not more than 40 cents; or by 30 cents if such average price of butter was 30 cents or less;

(4) Add the cash balance in the producer-settlement fund;

(5) Divide by the total hundredweight of milk of producers represented in the sum computed pursuant to (1) of this paragraph; and

(6) Subtract from the figure obtained in (5) of this paragraph not less than 4 cents nor more than 5 cents per hundredweight for the purpose of retaining a cash balance to provide against errors in reports and in payments by handlers. The result shall be known as the uniform price per hundredweight for such delivery period for milk of producers which contains 4.0 percent of butterfat.

(b) *Announcement of prices and transportation rates.* On or before the first day of the following delivery period, the market administrator shall notify each handler of the uniform price for milk and of the price for Class III milk, and shall make public announcement of the uniform price computation. From time to time, the market administrator shall also publicly announce the amounts per hundredweight deducted by each handler from the payments made to producers and new producers pursuant to § 965.10, an the amounts actually paid to haulers for the transportation of milk from the farms of producers and new producers to such handler's plant or plants, as ascertained from reports submitted pursuant to § 965.5 (a).

§ 965.9 *Payment for milk*—(a) *Payment to producers and new producers.* On or before the 5th day after the end of each delivery period, each handler shall pay, with respect to all milk received during the delivery period, $1.00 per hundredweight of milk to each producer and $0.50 per hundredweight of milk to each new producer: *Provided,* That in the event the total amount of the deductions and charges authorized by any producer or new producer against payments due such producer or new producer for the delivery period next preceding is greater than the payment computed for such producer or new producer pursuant to § 965.10 (a) with respect to the milk received from such producer or new producer during such preceding delivery period, the handler may deduct from the payment required by this paragraph a sum equal to the difference between such amounts.

(b) *Payment to producer-settlement fund.* On or before the 17th day after the end of each delivery period, each handler shall pay to the market administrator the amount of money which represents the value of milk billed to him for such delivery period, pursuant to § 965.7 (f), less the amount paid out to each producer and new producer in accordance with (a) of this section, and less the amount of the deductions and charges authorized by such producer or new producer which are itemized on the handler's producer pay roll: *Provided,* That in the calculation of the total amount of such deductions and charges to be subtracted, the deductions and charges to be considered with respect to each individual producer or new producer shall not be greater than an amount which, when added to the payment made to such producer or new producer in accordance with (a) of this section (inclusive of the deductions and charges authorized by (a) of this section), will not exceed the total value of the milk received from such producer or new producer. The market administrator shall maintain a separate fund, known as the producer-settlement fund, in which he shall deposit all payments of handlers received pursuant to this paragraph.

§ 965.10 *Payments from producer-settlement fund*—(a) *Calculation of payments for each producer and new producer.* For each delivery period, the market administrator shall calculate the payment due each producer and new producer from whom milk was received during such delivery period by a handler who paid into the producer-settlement fund in accordance with § 965.9, as follows:

(1) Multiply the hundredweight of milk received from each producer by the uniform price computed in accordance with § 965.8 (a): *Provided,* That if the milk of such producer was of a weighted average butterfat content other than 4.0 percent, there shall be added or subtracted for each one-tenth of 1 percent variance above or below 4 percent, 5 cents if the average price of butter described in § 965.8 (a) (3) was more than 40 cents; 4 cents if such average price of butter was more than 30 cents but not more than 40 cents; or 3 cents if such average price of butter was 30 cents or less.

(2) Multiply the hundredweight of milk received from each new producer by the price for Class III milk: *Provided,*

That if such milk was of a weighted average butterfat content other than 4.0 percent, there shall be added or subtracted for each one-tenth of 1 percent of variance in butterfat content above or below 4 percent, an amount equal to $\frac{1}{10}$ of such price for Class III milk.

(3) Subtract in each case, the amount of the payment made pursuant to § 965.9 (a), and the charges and the deductions, if any, which are made pursuant to § 965.9 (b).

(b) *Payments.* (1) On or before the 20th day after the end of each delivery period, the market administrator shall pay, subject to the provisions of § 965.12, to each cooperative association authorized to receive payments due producers or new producers who market their milk through such cooperative association, the aggregate of payments calculated pursuant to (a) of this section, for all producers and new producers certified to the market administrator by such cooperative association as having authorized such cooperative association to receive such payments.

(2) On or before the 20th day after the end of each delivery period, the market administrator shall pay, subject to the provisions of § 965.12, direct to each producer and new producer who has not authorized a cooperative association to receive payments for such producer or new producer the amount of the payment calculated for such producer or new producer pursuant to (a) of this section.

§ 965.11 *Expense of administration*—(a) *Payment by handler.* As his prorata share of the expenses which will be necessarily incurred in the maintenance and functioning of the office of the market administrator and in the performance of the duties of the market administrator, each handler, with respect to all milk received from producers, new producers, and produced by him during the delivery period, shall pay to the market administrator, on or before the 17th day after the end of each delivery period, that amount per hundredweight, not to exceed 2 cents, which is announced by the market administrator on or before the 13th day after the end of the delivery period: *Provided,* That any cooperative association which has handled milk during the delivery period under the conditions set forth in § 965.3 (a) (5) shall pay such prorata share of expense of administration on only that quantity of milk so handled.

§ 965.12 *Marketing services*—(a) *Deductions.* The market administrator shall deduct an amount not exceeding 4 cents per hundredweight (the exact amount to be determined by the market administrator) from the payments made pursuant to § 965.10 (b), with respect to the milk of those producers and new producers for whom the marketing services set forth in (b) of this section are not being performed by a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," for the purpose of performing the services set forth in (b) of this section.

(b) *Marketing services to be rendered.* The moneys received by the market administrator pursuant to (a) of this section shall be expended by the market administrator for market information to, and for the verification of weights, samples, and tests of milk of, producers for whom a cooperative association, as described in (a) of this section, is not performing the same services on a comparable basis, as determined by the market administrator, subject to the review of the Secretary.

§ 965.13 *Effective time, suspension, or termination*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

(b) *Suspension or termination.* Any or all provisions hereof, or amendments hereto, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(1) The market administrator, or such other person as the Secretary may designate, shall, (i) continue in such capacity until removed by the Secretary; (ii) account from time to time for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such other person to such person as the Secretary shall direct; and (iii) execute, if so directed by the Secretary, such assignments or other instruments necessary or appropriate to vest in such person full title of all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 965.14 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

Issued at Washington, D. C., this 14th day of November 1942, to be effective on and after the 23d day of November 1942. Witness my hand and the official seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Acting Secretary.

Approved: November 16, 1942.

(Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, The General Tire & Rubber Company, Docket 4608, November 13, 1942]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 13th day of November, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in the complaint and states that it waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, The General Tire & Rubber Company, a corporation, and its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of its automobile tires in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or indirectly, that an automobile equipped with respondent's "General Dual 8" or "General Dual 10" tires can be brought to a stop quicker when traveling in rain at a speed of sixty miles an hour than an automobile equipped with any other make or brand of tires traveling in dry weather at fifty miles an hour; that said automobile tires will stop a car fifty per-cent quicker than all other makes or brands of tires without skid, swerve, or tail spin; or that said tires are America's quickest stopping tires, regardless of road or weather conditions, that they afford year-round protection against skidding, or that they will stop straight every time; and from making any other representations respecting the quality or performance ability of said automobile tires which are not in fact true.

2. Using a phrase "Dual 8" or "Dual 10" in any manner to describe or refer to respondent's said tires without clearly disclosing, in connection with such use, the actual number of plies used in the construction of the particular automobile tire referred to.

3. Representing, directly or through implication, that any of respondent's automobile tires contain more plies than is actually the fact.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

In the Matter of Eugene Russell Jaffe, Alias E. J. Russell, an Individual Trading as Sterling Sales Company and Craftsman Sales Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 13th day of November, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence in support of and in opposition to the allegations of the complaint taken before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner upon the evidence and the exceptions to such report, briefs in support of and in opposition to the complaint, and oral argument; and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Eugene Russell Jaffe, alias E. J. Russell, individually and trading as Sterling Sales Company and as Craftsman Sales Company, or trading under any other name, and his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of cameras, radios, comforters, bedspreads, lamps, pens, pencils, electric clocks or other electrical appliances, billfolds, tableware, kitchenware, men's or women's wearing apparel, or any other merchandise, do forthwith cease and desist from:

1. Supplying to or placing in the hands of agents, distributors, dealers, members of the public, or others, push cards, pull cards, punch boards, or any other devices which are to be used or may be used in the sale or distribution of respondent's merchandise or any merchandise to the public by means of a game of chance, gift enterprise, or lottery scheme.

2. Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

TITLE 22—FOREIGN RELATIONS

Chapter III—Proclaimed List of Certain Blocked Nationals

REVISION IV, NOVEMBER 12, 1942

ADMINISTRATIVE ORDER

By virtue of the authority vested in the Secretary of State, acting in conjunction with the Secretary of the Treasury, the Attorney General, the Secretary of Commerce, the Board of Economic Warfare, and the Coordinator of Inter-American Affairs, by Proclamation 2497 of the President of July 17, 1941 (6 F.R. 3555), The Proclaimed List of Certain Blocked Nationals, Revision III of August 10, 1942 and Supplements 1, 2, 3, and 4 thereto (7 F.R. 6282, 6847, 7422, 8165, 8845), are superseded by the following Revision IV of the List, which is hereby promulgated.

By direction of the President:

CORDELL HULL,
Secretary of State.
H. MORGENTHAU, Jr.,
Secretary of the Treasury.
FRANCIS BIDDLE,
Attorney General.
JESSE H. JONES,
Secretary of Commerce.
MILO PERKINS,
Executive Director,
Board of Economic Warfare.
NELSON A. ROCKEFELLER,
Coordinator of Inter-American Affairs.

NOVEMBER 12, 1942.

GENERAL NOTES: (1) The Proclaimed List is divided into two parts; Part I relates to listings in the American republics; Part II relates to listings outside the American republics. The List as herein consolidated and revised supersedes Revision III and Supplements 1, 2, 3, and 4 thereto.

(2) No additions or deletions are made in this revision; however, changes of address, minor changes in spelling of names listed, alternative listings for names previously included, etc., are made and are indicated by footnotes.

(3) In Part I titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

If the title includes a full personal name, that is, a given name or initial and surname, the title is listed under the *surname*.

Personal-name prefixes such as *de, la, von,* etc., are considered as part of the surname and are the basis for listing.

The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in any other language:

Compañia; Cía.; Comp.
Compañía Anónima; C. A.; Comp Anón.
Sociedad; Soc.
Sociedad Anónima; S. A.; Soc. Anón.

(4) Addresses appearing after names on the List are not intended to exclude other addresses of the same firms or individuals. A listed name refers to all branches of the business in the country.

(5) Subsequent supplements will contain additions, deletions, and amendments. Following this revision, supplements will be cumulative. Each supplement will contain all additions, deletions, and amendments which have been made since the previous revision. Thus, to determine the status of a given name, it will be necessary to consult only two issues of the List: namely, the previous revision and the current supplement.

(6) For the convenience of users, symbols are placed after each name on the List to indicate, by reference to the table below, the dates of the supplements or revisions in which the name first appeared or was amended. It has not been found practicable, however, to indicate here the dates of listings made between July 17, 1941, the date of the original list, and Revision I, dated February 7, 1942. Accordingly, names appearing previous to Revision I, and retained in that revision, are followed only by the symbol "I". Roman numerals refer to revisions, arabic numerals to supplements.
